SANGKUN PARK, MD
LICENSE NO. MD18585

STIPULATED ORDER

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the state of Oregon. Sangkun Park, MD (Licensee) holds an active license to practice medicine in the state of Oregon.

On July 29, 2016, the Board issued a Complaint and Notice of Proposed Disciplinary Action in which the Board proposed taking disciplinary action by imposing up to the maximum range of potential sanctions identified in ORS 677.205(2), to include the revocation of license, a $10,000 fine, and assessment of costs, pursuant to ORS 677.205 against Licensee for violations of the Medical Practice Act, to wit: ORS 677.190(1)(a) unprofessional or dishonorable conduct, as defined in ORS 677.188(4)(a).

Licensee’s acts and conduct that violated the Medical Practice Act follow: Patient A and his wife (deceased in March of 2015) were socially acquainted with Licensee and his wife. Patient A suffered from depression after the death of his wife (of 50 years) and was admitted on September 25, 2015, to the Emergency Department of the local hospital after he attempted suicide. He was discharged five days later. Licensee saw Patient A for the first time as a patient on October 9, 2015. Licensee conducted a physical examination and noted a BMI of 17.6 (underweight). Licensee also ordered laboratory studies and an X-ray. On October 23, 2015, Licensee and Patient A signed an agreement whereby Patient A agreed to sell his residence to Licensee. The agreement states in part that: “We hereby agree on the selling of mentioned
property to [Licensee] on December 15, 2015. Prior to payment of total assessed value, bank
designated appraiser will make total appraisal, and [Licensee] will pay $500 monthly payment
until final closing will be confirmed. [Patient A] will live in the property until further
accommodation is available. In the meantime [Licensee’s agent] will assist [Patient A] in
making the above mentioned property suitable for living.” On November 2, 2015, Patient A
presented to Licensee accompanied by his daughter, who expressed concerns about Patient A’s
forgetfulness and possible early dementia, lack of energy, mood swings and anxiety attacks.
Licensee recommended placement in assisted living or a foster home and prescribed Venlafaxine
(Effexor) 37.5 mg (an anti-depressant). Licensee states that he never wrote a payment check to
Patient A and asserts that he had no genuine interest in purchasing the property—that he only
signed the agreement to give Patient A peace of mind. Licensee failed to recognize that he had a
conflict of interest, and violated his position of trust by entering into a financial transaction with
an elderly, emotionally distraught patient suffering from depression and possibly early stage
dementia. Licensee’s conduct violated ORS 677.190(1)(a) as defined by ORS 677.188(4)(a) as
close conduct that is contrary to recognized standards of medical ethics, to include “Commitment to
maintaining appropriate relations with patients (“Medical Professionalism in the New
Millennium: A Physician Charter,” published by the American Board of Internal Medicine) and
Ethical Opinion 8.03 (Conflict of Interest: Guidelines) and 10.015 (The Patient-Physician
Relationship), published by the American Medical Association.

4.

Licensee and the Board desire to settle this matter by entry of this Stipulated Order.
Licensee understands that he has the right to a contested case hearing under the Administrative
Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the
right to a contested case hearing and any appeal therefrom by the signing of and entry of this
Order in the Board’s records. Licensee admits that he engaged in the conduct described in
paragraph 3 (above) and that this conduct violated ORS 677.190(1)(a), as defined in ORS
677.188(4)(a). Licensee understands that this Order is a public record and is a disciplinary
action that is reportable to the National Data Bank and the Federation of State Medical Boards.
Licensee and the Board agree to resolve this matter by the entry of this Stipulated Order subject to the following terms and conditions:

5.1 Licensee is reprimanded.

5.2 Licensee must pay a civil penalty of $10,000. The first payment of $2,000 is due within 60 days from the date the Board Chair signs this Order, and payments of $500 each are due every 30 days thereafter until the civil penalty is paid in full.

5.3 Within 120 days from the date the Board Chair signs this Order, Licensee must complete courses on professionalism, boundaries and medical ethics that have been pre-approved by the Board's Medical Director.

5.4 Licensee must not enter into business contracts or transactions with patients, or with the immediate family members of patients. This includes former patients for whom the physician patient relationship has been terminated within the last twelve months.

5.5 Licensee stipulates and agrees that this Order becomes effective the date it is signed by the Board Chair.

5.6 Licensee must obey all federal and Oregon state laws and regulations pertaining to the practice of medicine.

1.

The Oregon Medical Board (Board) is the state agency responsible for licensing, 
regulating and disciplining certain health care providers, including physicians, in the state of 
Oregon. Allen Lytton Stark, MD (Licensee) holds an active license to practice medicine in the 
state of Oregon.

2.

On August 15, 2017, the Board issued a Complaint and Notice of Proposed Disciplinary 
Action (Complaint) in which the Board proposed taking disciplinary action by imposing up to 
the maximum range of potential sanctions identified in ORS 677.205(2), to include the 
revocation of license, a $10,000 civil penalty per violation, and assessment of costs, pursuant to 
ORS 677.205 against Licensee for violations of the Medical Practice Act, to wit: ORS 
677.190(1)(a) unprofessional or dishonorable conduct, as defined in ORS 677.188(4)(a), (b) and 
(c); and ORS 677.190(13) gross or repeated acts of negligence.

3.

The Board opened an investigation and as a result of the investigation the Board alleged 
that certain acts by Licensee violated the Medical Practice Act. The Board conducted a review 
of six patient charts, which revealed a pattern of substandard charting and prescribing of 
benzodiazepines and stimulants, to include patients who were prescribed high dosages of opioids 
by another provider. Licensee maintained his patients on long term high dosages of 
benzodiazepines and stimulants without medical justification and without providing his patients 
an adequate informed consent form that covered the many potential adverse effects and risks
associated with these medications. Licensee also failed to recognize or assess his patients when
there was evidence of serious complications, such as increased anxiety, panic disorder, short
term insomnia, falls, confusion, motor vehicle accidents and somnolence. In many of the cases,
Licensee determined that tapering was in order, but did not document a tapering plan and failed
to follow through to implement his stated intent. The Board reviewed the investigation and
issued a Complaint alleging Licensee’s conduct in these cases violated ORS 677.190(1)(a), as
defined in ORS 677.188(4)(a), (b) and (c); and ORS 677.190(13). Licensee requested a hearing
within the timeframe allotted within the Complaint.

4.

Licensee and the Board desire to settle this matter by entry of this Stipulated Order.

Licensee understands that he has the right to a contested case hearing under the Administrative
Procedures Act (chapter 183), Oregon Revised Statutes. Licensee fully and finally waives the
right to a contested case hearing and any appeal therefrom by the signing of and entry of this
Order in the Board’s records. Licensee denies that he engaged in the conduct described in
paragraph 3 above, but the Board finds that Licensee’s conduct as described in the Complaint
violated ORS 677.190(1)(a), as defined in ORS 677.188(4)(a), (b) and (c); and ORS
677.190(13). Licensee understands that this Order is a public record and is a disciplinary action
that is reportable to the National Data Bank and the Federation of State Medical Boards.

5.

Licensee and the Board agree to resolve this matter by the entry of this Stipulated Order
subject to the following terms and conditions:

5.1 Licensee is reprimanded.

5.2 Licensee must pay a civil penalty of $5,000 within 12 months from the effective
date of this Order. Licensee may make payments as long as no payment excepting the final
payment is less than $100.00.

5.3 Licensee must not prescribe benzodiazepines to any patient for more than 21 days
in any calendar year. For existing patients who are currently undergoing treatment with
benzodiazepines, Licensee must taper the patients off of benzodiazepines or transfer the care of
the patients to another provider within 180 days from the effective date of this Order.

5.4 Licensee must limit his prescribing of controlled substance stimulants to the
diagnosis and treatment of ADD and ADHD\(^1\) with the exception of using methylphenidate as an
augmenting medicine in the treatment of depression. If methylphenidate is prescribed as an
augmenting medication, a written second opinion must be obtained from a Board certified
psychiatrist that supports the treatment, and that opinion must be included in the patient chart.
Licensee must not prescribe in excess of 40 mg/day of dextroamphetamine, 70 mg/day of
lisdexamfetamine, 60 mg/day of amphetamine/dextroamphetamine, or 60 mg/day of
methylphenidate (72 mg/day if Concerta is prescribed). These controlled substances cannot be
combined.

5.5 Licensee’s medical practice is subject to random, no notice chart audits and office
visits by Board designees.

5.6 Licensee stipulates and agrees that this Order becomes effective the date it is
signed by the Board Chair.

5.7 Licensee’s Corrective Action Agreement, dated April 3, 2014, terminates

5.8 Licensee may make, after two years of demonstrated compliance with the terms
