BEFORE THE
OREGON MEDICAL BOARD
STATE OF OREGON

In the Matter of)
ROLA PETER BAKER, MD) INTERIM STIPULATED ORDER
LICENSE NO. MD16652)
)

1.

The Oregon Medical Board (Board) is the state agency responsible for licensing, regulating and disciplining certain health care providers, including physicians, in the State of Oregon. Rola Peter Baker, MD (Licensee) is a licensed physician in the State of Oregon and holds an active medical license.

2.

The Board received credible information regarding Licensee that resulted in the Board initiating an investigation. The results of the Board's investigation to date have raised concerns to the extent that the Board believes it necessary that Licensee agree to certain terms until the investigation is completed.

3.

In order to address the Board's concerns, Licensee and the Board agree to the entry of this Interim Stipulated Order, which is not an admission of any wrongdoing on the part of the Licensee, and will remain in effect while this matter is under investigation, and provides that Licensee shall comply with the following conditions:

3.1 Licensee must not begin treatment for chronic pain with opioids for any new or existing patient. For the purposes of this Order, chronic pain is defined as pain that persists or progresses over a period of time greater than 30 days.

3.2 Licensee must immediately begin to taper opioid medications for any chronic pain patient with a morphine equivalent dose (MED) over 90 by at least 5-10% per month until

1 patient's MED is 90 or less, unless the patient is currently enrolled in hospice or is currently
2 receiving end of life care. If this exception applies, Licensee must certify on the written
3 prescription that the patient is a hospice patient or receiving end of life care. Licensee may elect
4 to transfer the care of any patient with an MED over 90 to another physician.

5 3.3 Licensee may treat patients for acute pain for no more than 30 days per year, with
6 a maximum MED of 50.

7 3.4 Licensee must not begin treatment with benzodiazepines for patients taking
8 opioids.

9 3.5 For patients taking benzodiazepines and opioids (other than buprenorphine or
10 buprenorphine/naloxone), Licensee must begin to taper benzodiazepines after opioids have been
11 tapered to 90 MED or less. Benzodiazepines must be tapered by at least 10% per month until the
12 patient is weaned off benzodiazepines. Alternatively, Licensee may transfer the care of any
13 patient for whom he is prescribing benzodiazepines and opioids to another physician. Licensee
14 may continue to prescribe concurrent benzodiazepines to patients who are currently enrolled in
15 hospice or who are currently receiving end of life care. Licensee must certify on the written
16 prescription that the patient is a hospice patient or receiving end of life care.

17 3.6 Licensee must not concomitantly prescribe opioids with benzodiazepines
18 following tapering as outlined in terms 3.2 and 3.5.

19 3.7 Licensee must not concomitantly prescribe opioids with muscle relaxants.

20 3.8 Licensee must obtain an EKG on all patients taking methadone at least every 12
21 months.

22 3.9 Licensee must comply with the Oregon Administrative Rules regarding treatment
23 with controlled substances for weight reduction and the maintenance of a log for dispensed or
24 administered controlled substances.

24 3.10 Licensee understands that violating any term of this Order will be grounds for
25 disciplinary action under ORS 677.190(17).

26 3.11 Licensee understands this Order becomes effective the date he signs it.

This order is issued by the Board pursuant to ORS 677.410, which grants the Board the authority to attach conditions to the license of Licensee to practice medicine. These conditions will remain in effect while the Board conducts a complete investigation in order to fully inform itself with respect to the conduct of Licensee.
