

OREGON ADMINISTRATIVE RULES

CHAPTER 847, DIVISION 071 and 005 – OREGON MEDICAL BOARD

The Oregon Legislature passed House Bill 2143 (2025) and Governor Kotek signed the bill into law. This legislation allows individuals with specific training and registration to provide five-needle protocol (5NP) treatments beginning March 1, 2026, without additional licensure.

The law directs the Oregon Medical Board to establish rules for training qualifications and safety standards. The OMB's role is to implement the law that has already been enacted. The proposed rulemaking establishes the qualifications for registration of 5NP technicians and creates sanitation and best practice standards for 5NP treatments.

In August and September 2025, the OMB convened a Workgroup of acupuncturists, physicians, and community members to provide recommendations on the draft rules. The Board's Acupuncture Advisory Committee reviewed this draft during a special meeting held September 12, 2025. The Oregon Medical Board review on October 2, 2025.

During the Workgroup and Acupuncture Advisory Committee meetings, there were discussions and comments provided related to requiring supervision of 5NP technicians, ranging from direct supervision to indirect supervision, and ranging from supervision by a physician or acupuncturist to supervision by other licensed health care providers. Workgroup and Committee members who supported a supervision requirement expressed patient safety concerns related to 5NP Technicians working in isolation. Workgroup and Committee members who opposed adding a supervision requirement highlighted the intent of HB 2143 to allow low-barrier access to 5NP treatments and the lack of evidence supporting public safety concerns. OMB Staff noted that under ORS 183.400 an agency can only write rules pursuant to constitutional authority or statutory authority granted through enabling legislation. Agencies cannot exceed the authority granted by the legislature. The absence of statutory language does not create implied authority for agencies to write rules in that area. HB 2143 does not impose supervision requirements or authorize the OMB to write rules requiring supervision.

[The following language is new. For readability, it is not bolded/underlined.]

Division 71: Five-Needle Protocol

847-071-0000

Purpose Statement

Five-needle protocol (5NP) represents a unique fusion of ancient Eastern healing practices with modern healing and social justice movements. In Oregon, 5NP is a standardized, supportive treatment for individuals experiencing substance use disorders, mental health conditions, and trauma. The five points are the shen men, sympathetic, liver, kidney and lung points on the human outer ear. The Oregon Medical Board is responsible for establishing training and registration requirements and regulating the practice of 5NP technicians in order to expand access to safe,

standardized, low-barrier treatment in a manner that protects individuals in Oregon accessing 5NP treatments.
