

# Covid-19 Vaccine Availability for Phase 1a

Updated January 15, 2021

OHA is working with local entities authorized to administer the vaccine, such as hospitals, local public health authorities, retail pharmacies and other partners to finalize the distribution plans across the state. Each entity serving as a distribution point is responsible for the specific logistics, timing and requirements for individuals eligible to receive the vaccine.

The best ongoing source of information from OHA regarding the vaccine distribution is [covidvaccine.oregon.gov](https://covidvaccine.oregon.gov)

Local public Health Websites are provided below to help individuals in Phase 1a locate vaccines. This is not a complete or comprehensive list of vaccine providers in Oregon but is a starting point for information in your area.
