N/A

DESCRIPTION OF DUTIES

1. Specialty Summary. Directly supports aircraft generation, sortie production, and enables aircrew and special warfare operator performance through aircrew flight equipment and life- sustaining assets. Manages, performs, and schedules inspections, maintenance, fitting, and adjustments of assigned aircrew flight equipment (AFE), aircrew chemical biological radiological nuclear equipment (ACBRN), and associated components. Prepares, maintains, and monitors AFE operations IAW with applicable publications and directives. Prepares for response to use of chemical, biological, radiological, and nuclear weapons contamination and supervises and conducts contamination control area processing. Disassembles, assembles, inspects, fabricates, cleans, repairs, and packs aerospace weapon system and AFSPECWAR components such as floatation equipment, emergency evacuation systems, and parachutes.

2. Duties and Responsibilities:

2.1. Inspects, maintains, packs and adjusts aircrew flight equipment such as flight helmets, oxygen masks, parachutes, flotation devices, survival kits, helmet mounted devices, aircrew night vision and other ocular systems, anti-G garments, protective equipment, chemical biological protective oxygen masks and coveralls, and other types of AFE and ACBRN systems. Repairs flotation equipment, and various parachutes. Evaluates problems and determines feasibility of repair or replacement related to inspecting rubber equipment and parachutes. Evaluates work orders for fabrication and repair of AFE.

2.2. Installs and removes aircraft-installed AFE. Uses various types of test equipment such as altimeters, oxygen testers, leakage testers, radio testers, and other types of testers to conduct reliability testing on AFE and ACBRN equipment. Tracks monitors, and updates equipment inspection records, item manufacturer details, and serviceability status of AFE equipment issued to aircrews or prepositioned on aircraft. Forecasts supply and manages stock levels for component replacement requirements.

2.3. Operates, maintains, and inspects machinery, test equipment, and tools. Performs operator maintenance and service inspections on shop equipment. Stores, handles, uses, and disposes of hazardous waste and materials based on environmental standards.

2.4. Requisitions, stores, forecasts, handles, and transports ammunition, aircrew survival pyrotechnic devices, and other explosives such as actuated cartridges.

2.5. Conducts aircrew continuation training; instructs aircrews on equipment use, operation, and capabilities. Conducts ACBRN training; instructs aircrew on ACBRN donning, doffing, and Aircrew Contamination Control Area (ACAA) contamination mitigation procedures.

2.6. Plans, directs, organizes, and evaluates operational aspects such as equipment accountability, personnel reliability, mobility readiness, and other activities necessary to meet operational readiness. Maintains associated databases to ensure equipment accountability. Establishes performance standards, improves work methods, and advises on inspection, repair, and repack of aircrew flight equipment. Ensures serviceability based on required specifications and technical publications.

2.7. Prepares checklists and complies with operating instructions. Develops lesson plans for aircrew training, safety, and other required programs. Assigns, trains, and prepares AFE personnel for deployment. Procures, maintains, stores, and prepares equipment for deployment. Determines facilities, funding, and mobility of AFE assets to support operational taskings. Develops and submits budget requirements. Requisitions equipment and supplies. Maintains custodial files for accounts such as supply and equipment, munitions, and test, measurement and diagnostic equipment. Obtains assistance from other agencies to support AFE programs.

2.8. Manages unit and staff agency AFE programs. Provides unit and staff agency assistance to subordinate units to ensure AFE planning and training have been accomplished, and directives are being followed. Analyzes training and deficiencies preventing accomplishment of wartime tasks. Conducts quality assurance inspections to ensure compliance with policies and directives. Identifies and documents equipment and personnel training discrepancies and recommends corrective action. Evaluates and critiques instructors' effectiveness, and ensures presentations are accurate and current. Advises and assists agencies whose functions affect AFE activities. Evaluates data involving equipment development and sustainment and resolves problems. Conducts aircraft mishap safety investigations and analysis where aircrew- issued and aircraft- installed life- sustaining equipment is involved. Conducts assessments and provides operational risk analysis in matters affecting AFE.

2.9. Establishes, coordinates, and distributes exposure and contamination mitigation procedures. Monitors associated requirements and procedures. Ensures assigned personnel take safety precautions. Prepares wartime and contingency response plans. Coordinates actions to ensure prompt response to enable and sustain operations in a chemical, biological, radiological, nuclear environment with minimal degradation of combat capability. Coordinates actions to continue or restore vital functions and operations. Prepares guidance annexes, appendices, supplements, and other supporting documents to support operations plans. Advises leadership on mission impact and recovery activities following an attack; coordinates aircrew contamination control area requirements. Supervises contamination control operations teams.

x. Other duties as assigned.
