

AGENDA | MONDAY, APRIL 17

Arch Rock State Park

Our theme for RMSPEC 2023 is resilience.

To us, resilience means facing our challenges every day with hope and determination and coming out stronger. It means adapting to changes while consistently serving our visitors and planning for the future. This week, we will explore Oregon’s natural, historic and cultural resource management in a mix of workshops and field visits that highlight the resilience needed to manage land in an increasingly complex environment.

Hallmark Resort Newport
