RESEARCH TIPS AND SOURCES

JUNE 2015

There is no single source to gather information about places. Quality research efforts require time, travel, communication and patience. Many sources are available on the internet, but you should still need to visit libraries, museums and government offices in person.

Research Tips

- Give yourself time.
- Plan for research and copying fees.
- Take a pencil, many places do not allow pens.
- Take a digital camera, they may be allowed for hard to copy items like maps.
- Be friendly and appreciative.
- Confirm the reliability of the all sources, particularly the internet.
- Be aware that all sources have flaws, it is best to confirm with an alternate source if possible.
- Keep track of sources and reference them when you use the information. Photocopies of source information can be helpful.
- Make a research plan that includes the goals of the research and information desired. This will help you focus your time. It will also help research staff get you the right sources.
- Ask for help. All archives, museums and government agencies use slightly different systems.
- No source is perfect! Always try to find other sources for confirmation of information. Tax assessor's dates of construction may be wrong, obituaries and even grave markers can be inaccurate. Be especially cautions of on-line sources. Know who is providing the information and how they got it before you use it.

Types of Sources

- Deeds – property boundaries, ownership, etc.
- Abstract of Title - ownership
- Maps – property boundaries, ownership, neighboring properties, etc.
