Oregon Museum Grant Program
Online Grant Application Instructions
GENERAL INFORMATION

The following instructions are intended to help applicants navigate the Oregon Museum grant program online application process. The instructions may not address every possible scenario that could occur, however, you will get the information necessary to navigate the reporting and reimbursement process.

For information on answering actual application questions, please refer to the Oregon Museum Grant Guidelines.

The Grant Program Coordinator is available to assist those who have additional questions. Contact Kuri Gill at Kuri.Gill@oregon.gov or 503-986-0685.

Note: Screen shots and photos within these instructions are samples of what the reimbursement request and progress report. These shots are from a variety of grant programs and simulated projects. All OPRD grant programs use the same reporting system. You should not be concerned if you don’t see an example using the type of grant you have been awarded.

FINANCIAL INFORMATION

The Financial Information section is where you will provide all funding and budget information for the project. Please see the grant manual for more information regarding allowable costs.

1. Before you begin this section you should already have a project budget established. It is recommended that you work from a budget you have created from collecting information including cost estimates, quotes, and other research. You may want to have a spreadsheet or other document with your project financial information available to work from when you begin this section.
2. The summary financial information will auto-fill based on the Project Budget Worksheet and Source of Funding Worksheet entry.

3. To enter financial information select ‘edit’ in the upper right corner.

4. Select ‘Add Worksheet Item’ to enter items into the Project Budget Worksheet and the Source of Funding Worksheet. To edit a line item, select the 🖋️ and to delete is entirely, select the ✖️.

5. **Enter all project costs first.** Please use the following categories in the expense description: Contractor/Consultant; Materials & Equipment, Staff time; Volunteer time; Printing, Publication, Design, etc.; Travel; Other.

   Contractor cost can include the travel, materials and staff costs to complete the task, there is no need to break those out in this budget unless you are getting those some
other way. If you are hiring a contractor to build a memorial, but the materials are donated by someone else, then they would be separate.

Combine all contractor costs into one total to ease data entry. If you do that, please submit a detailed budget as an attachment.

6. Enter the Description of the expense and the amount. And select ‘Add Item’. Select ‘Nevermind’ if you do not want to add that expense item. The item and cost will appear in the ‘Project Budget Worksheet’. Do not check the ‘match’ box when entering expense items, unless you are entering staff or volunteer time.

7. Staff time and Volunteer time are the only categories that can be both a match and source of funding. Enter the ‘Description’ and ‘Amount’, then check the ‘match’ box. Additional fields will appear to enter the ‘Match Amount’ and ‘Source of Funding’. Select ‘Add Item’, then the expense item will appear in the Project Budget Worksheet and the match will appear in the Source of Funding Worksheet. Note: Volunteer time expense amount must equal the match amount.
8. To enter the sources of funding like organizational cash, grant funds, donations, etc. Select ‘Add Worksheet Item’ and check the ‘Does this item include match?’ box. Enter the source description in the Description field and leave Amount. Select ‘Add Item’ if it is correct.

9. The item will then appear in the Source of Funding section.

10. If you are entering funds from a grant other than the one for which you are plying in this application, follow the instructions above and check the ‘Check here if the source is from another Grant’ box. Four new fields will open, enter any applicable information in the Grant Name, Grant Type, Granting Agency Fields. If the grant does not have more than one type, you may leave the field blank. Select the ‘Grant Status’, Pending means that you have applied for or intend to apply for the grant, Approved means your project has been selected for funding. You may provide details about the grant status in the Budget Narrative section of the Supplemental questions.
11. Select ‘Add Item’ and the grant information will appear in the Source of Funding Worksheet.

12. The Project Budget Worksheet section will calculate the Total Cost, Total Match and Grant Funds Requested automatically. This will populate the fields at the top of the Financial Information section.
SUPPLEMENTAL INFORMATION

The Supplemental Information section is where a majority of questions in the application are located. Some questions are limited to yes/no, multiple choice, or a short answer.

There are several narrative questions in this section. Questions that require a longer narrative response have an expanding box provided. The box will expand as you type until you have completed your response. Brief and concise answers are encouraged.

When preparing narrative answers, you may first prepare, edit and save those answers in another document. You can then cut and paste your answer directly into the application.

1. Select ‘Edit’ in the upper right corner to begin entering or editing information.
2. You may save the application as often as you would like by selecting the ‘Save Application’ button. You will need to select ‘Edit’ again to continue working after saving.

APPLICATION STATUS

1. You may log on to http://oprdgrants.org/ at any point to check the status of the application. The application status will be one of three depending on where it is in the process.

2. The application will be in **Editable** status while it is still being completed by the applicant and prior to being submitted.

3. Once submitted, the application status will change to **Submitted**. Please check to make sure the application is in ‘Submitted’ status by the grant application deadline. If the application is not submitted by the deadline, it will be disqualified and will not be considered for funding.

4. Once submitted, OPRD staff will conduct a technical review of the application. If the application is complete and does not require further attention, the status will be changed to **Reviewed**. When the application is in ‘Reviewed’ status you will not need to do anything unless contacted by OPRD staff.

5. If the application requires updates or changes after staff technical review, you will be contacted via e-mail explaining what changes need to be made. The application status will be changed back from ‘Submitted’ to ‘Editable’ until the updates are reviewed by staff. Staff will work with the applicant until the application is acceptable. After all corrections are approved the status will then be changed to ‘Reviewed’ and you will not need to do anything further unless contacted by OPRD staff.
APPLICATION TIPS & TROUBLESHOOTING

1. Complete as much information as possible in the **Project tab** before moving on to other parts of the application.

2. **Log out** of the site if you need to leave your computer for more than half an hour. The system may become unresponsive if you stop working on the application for long periods of time without logging out.

3. **Be sure to click Save often** while working on the application. You should save your work after completing a couple of questions at a time. You should always save immediately after answering a long narrative question.

4. If you are having problems with the application, check to make sure you are using a **browser** that meets the system requirements outlined on the first page of these instructions. Sometimes, simply changing browsers will fix a problem.

5. If you are using an acceptable browser and are having problems, try clearing your web browser’s cache. If you do not know how to do this, search your browser’s help menu for **“clear cache”** or call OPRD Grant Program staff for assistance. After clearing your browser's cache, exit your browser completely before attempting to access the site again. You should periodically clear the cache to allow your browser to function more efficiently.

6. **Have needed budgets and documents ready** when you log in to begin your application. The application isn’t intended to be a place to work out your budget. This should already be figured out prior to entering it in the application.

7. When preparing narrative answers, it is recommended that you **prepare, edit and save those answer in another document**. You then can **cut and paste** your answer into the application. Always save immediately after answering a question that you have put a great deal of time into completing. It is a good idea to double check that your narrative has actually been saved by leaving that tab and coming back to see if the answer is there.

8. If you see a pop up message indicating there was a **saving problem**, it is likely that your answer did not save correctly. The best thing to do at that point would be to log out, log back in and try again. If you don’t log out first, this could cause more saving problems with the rest of the questions on that tab.

9. It is recommended that you **complete the application well before the application deadline date**. However, applications will be accepted up until midnight of the deadline date. No applications can be submitted after the deadline.

10. Avoid naming attachments with symbols or directional terms (report, submit, etc.).
