**RE: Time Extension for ERM Addendum**

Dear Kathy,

The Oregon Parks and Recreation Department (OPRD) has received your email request dated October 14<sup>th</sup> for a time extension to the OPRD deadline of October 16<sup>th</sup>, 2020, for the submission of an addendum to the ERM Independent Hazard Analysis. Your request is for the time extension until October 21<sup>st</sup>, 2020, and the stated reason for the time extension request is to ensure that there is sufficient time for the ERM supplemental response to be peer reviewed by Geosyntec.

OPRD appreciates your efforts to adequately address our concerns as previously identified in my October 1<sup>st</sup> letter, and the peer review by Geosyntec will be essential in that effort. Because your request will not result in a significant delay in providing the requested information, OPRD agrees to grant a time extension with a new deadline of October 21<sup>st</sup>, 2020. I look forward to seeing the addendum next week after the peer review has been completed.

As always, please feel free to contact me if you have any questions or concerns regarding the matter.

Sincerely,

Jay Sennewald

Ocean Shores Coordinator
