A MASTER PLANNING PROCESS IS UNDERWAY
The Oregon Parks and Recreation Department (OPRD) is currently updating its master plan for Smith Rock State Park. An updated master plan is needed to guide recreational use and resource management over the next twenty years.

In 2017-2018 OPRD will analyze park needs and resources and create recommendations for future management of Smith Rock State Park. Preliminary design concepts for park improvements are being developed and will be shared with the public at the upcoming public meetings.

If you are unable to attend one of the public meetings you can participate by visiting the plan website at: www.smithrockparkplan.com

You may also submit comments directly to OPRD at:

Julia Cogger, Senior Planner + Designer

October 25th, 2017
5:30-7:30PM
Location: Deschutes County Fair & Expo Center; South Sister Main Hall
3800 SE Airport Way, Redmond, 97756
**WHAT IS A STATE PARK MASTER PLAN?**

State park master plans are defined and adopted in Oregon’s state rules. A park master plan guides the development and use of park facilities and the protection and management of important natural, cultural and scenic resources within the park boundaries. The plan is a written and illustrated reference that describes the planning purpose and process, existing park facilities, suitability of park land for resource protection or recreational development, and development concepts for future uses and preservation. Master plans are intended to be updated every 20 years and projects described in a master plan may take that long to be fully implemented.
