Council Business Items

Agenda Item: Unfinished Business (Information)

After some discussion, the Council suggested the structure of the minutes to follow the agenda with action items, needed tasks and timelines and should be simple with crucial information. It was suggested that they be completed within two weeks of the meeting.

Council stated that program updates with need tasks and timelines should be discussed at each meeting.

The awards program should be enhanced with designations and program updates at each meeting. Lauralee can submit suggestion for the awards program. Council feels it should be a special presentation; maybe at the Commission meeting.

Council also mentioned that they need to go out and do the trail evaluations and then re-certify every 5 years. The first on the list should be to reach out to the Peterson trail.
Council will devise a listing of designated trails and when they are up for review.
