

1. **Parallel/Coordinated Investigation:** JCC will decide if parallel and coordinated but independent investigations are required and whether at the conclusion of such investigations it plans to discuss the investigation findings, any overlap issues, and prepare a recommendations to both Boards for consideration as they work to conclude the investigations. If a case will not be brought back to the JCC for further action, a summary of outcomes will be shared at a future meeting. This process does not prevent one Board from proceeding to a sanction while the other Board does not; findings may differ because of each Board's unique statutes and rules.

2. **Lead Board:** For OSBEELS, a case summary would be reviewed by the Law Enforcement Committee. For a Parallel/Coordinated investigation, the case summary could be provided directly to the OSBEELS Board.
