# What is the NCLEX?

---

NCLEX, which stands for **National Council Licensure Examination**, generally refers to one of the two standardized tests nurses need to pass to become either a licensed practical nurse (LPN) or a registered nurse (RN). The NCLEX is designed to test knowledge, skills and abilities essential to the safe and effective practice of nursing at the entry level. Both the NCLEX-RN and the NCLEX-PN are variable length, computerized, adaptive tests. The NCLEX is not offered in paper-and-pencil or oral examination formats.

NCLEX results are an important component used by nursing regulatory bodies (NRBs) to make decisions about licensure/registration.

# What is the Board, and what does it mean it be licensed?

---

The Board exists for the **safety of the public** by regulating nursing education, licensure, and practice.

Graduation from a nursing program or passing the NCLEX does not mean you will be automatically awarded a license.

The Board has the ultimate determination if you meet all standards including application, education, examination, background check, and if you will be awarded a license.

Licensed means you may practice as a nurse within the scope of practice at the level of license held.

[Oregon Secretary of State Administrative Rules](#)

The Board does not expedite applications for any reason, such as a pending job offer. We recommend you do not accept a job before you are licensed.

Due to the variable nature of the application process, we cannot provide you with a timeline.

Disclosures or background check matters can extend application processing. Please have patience, we must review every circumstance to ensure we fulfill our mission to protect the public.

# Questions?

---

Check the “View Status” section of your submitted applications in your Nurse Portal first! Many things, like fingerprint results, are processed individually by hand by members of Board staff. It may take time for checklist items to be marked complete.

To contact OSBN staff, use the Message Center in your Nurse Portal. Please allow at least 2 business days for a response.
