OPERATIONS BULLETIN #24-04

Date: 9/12/2024

Apparatus: Tactical Tender – 2024 Freightliner M2112

Subject: Deck Gun/Deluge Access

The Tactical Tender has a designated rear ladder and walkway to safely access the upper deck gun area. To properly access the upper deck gun area, Rosenbauer identified the NFPA route as the steps/stairs in the back of the tactical tender.

Use three points of contact climbing the rear steps/stairs leading to the designated walkway located in the middle of the hose bed area (see photos below). The walkway is to be kept clear to allow for safe access to the deck gun. The hose bed cover will need to be pulled back to allow for a safe walking surface.
