### OPERATIONS BULLETIN #24-04

**Date:** 9/12/2024

**Apparatus:** Tactical Tender – 2024 Freightliner M2112

**Subject:** Deck Gun/Deluge Access

The Tactical Tender has a designated rear ladder and access path to safely access the upper deck gun area.

Rosenbauer identified the NFPA route as the steps/stairs in the back of the tactical tender.

Use three points of contact and handrails while climbing the rear steps/stairs leading to the designated access located in the middle of the hose bed area (see photos below).

The designated access is to be kept clear to allow for safe access to the deck gun. The hose bed cover will need to be pulled back to allow for a safe walking surface.
