

# TOWED WATERSPORTS EDUCATION PROGRAM

---

## Maximum Loading Weight Charts - 2026

### HOW TO USE THE MAXIMUM LOADING WEIGHT CHARTS

To qualify for Towed Watersports (**TWS**) motorboat **decals**, you must have a valid boater education card in Oregon or another state, successfully pass the Towed Watersports Exam and submit an application to the Marine Board that includes:

- Boat make, model, length, and year, **and**
- Factory-specified dry weight and maximum factory-specified ballast weight as reported by the manufacturer.

**The agency has compiled popular towboat specifications in this document to help applicants verify in advance if their boat will qualify for TWS decals.**

The rules for this program specify that the **Maximum Loading Weight**, which is the **combined factory-specified dry weight and maximum factory-specified ballast weight**, must not exceed 5,500 pounds to receive decals.

**Boats 5,500 pounds or greater are not eligible for the program and cannot engage in towed watersports on the Newberg Pool Congested Zone. These boats may still cruise or engage in other activities along this section of river.** Per statute, boat decals may only be issued to boat owners, or co-owners, whose name(s) are on the title. If you would like to apply for decals but are not on the title, the boat owners must either work with our office to add your name to the title or apply for TWS decals themselves.

**Towed Watersports Education (TWE) cards and decals are valid for a two-calendar year period.** You will receive a renewal email notice approximately two months before your current decals expire. **There will be no additional testing requirements after you earn your initial TWE card, though you must renew to retain eligibility.**

Once your application has been approved, the **TWE card** and **decals** will be sent to your address on file, along with decal application instructions. It is best to remove expired decals before applying the new ones.

**ATX factory-specified boat loading weights listed by manufacture year**
