

Aquatic Invasive Species Prevention Permit (AISPP) Permit Application Form

In Oregon, manually powered boats 10' in length and longer and all out-of-state motorboats must carry an AISPP Permit when operating a boat. Funds generated by the fee go towards statewide aquatic invasive species prevention efforts designed to protect Oregon's waterways, fisheries and the environment.

These permits are issued to non-motorized boaters as a Tyvek tag and are available as a two year permit that includes the calendar year you purchase it in and the following calendar year. Out-of-State motorboat permits are issued as laminated cards and are valid for the calendar year they are purchased in.

If stored in a boat, the permit must be easily accessible so it can be provided to a law enforcement officer upon request. These permits are only transferable to other boats within the same boat category that they were purchased for.

Please fill out the following information and mail to the address at the bottom.
