

# Attention Motor & Sail Boaters

## Never Launch a Dirty Boat

### AQUATIC INVASIVE SPECIES PREVENTION PERMIT

Beginning January 1, 2010, Oregon motorboat and sailboat operators will see a \$5 surcharge added to their boat registration fee.

Current registration decal acts as proof of payment. Decals are valid for two calendar years.

Operators of out-of-state motorboats and sailboats should clean their boats before entering Oregon and must purchase an annual \$22 (\$20 permit plus \$2 agent fee) AIS prevention permit, available at ODFW license agents or online at:

[www.dfw.state.or.us](http://www.dfw.state.or.us)

*Watermilfoil*

*New Zealand Mud Snail*

*Quagga Mussel*

**CLEAN** all aquatic plants, animals and mud from your boat, motor or trailer and discard in the trash. Rinse, scrub or pressure wash, as appropriate away from storm drains, ditches or waterways. Lawns, gravel pads, or self-serve car washes are best.

**DRAIN** livewell, bilge and internal compartments.

**DRY** your boat between uses if possible. Leave compartments open and sponge out standing water. Find a place that will allow the anchor line to dry.

## Clean, Drain, Dry.

To report seeing an aquatic invader call 1-866-INVADER (468-2337).

All fees are dedicated to invasive species prevention and education.
