# Introduction

2019 Quarter 2
OREGON CRIME REPORT

#### **OREGON CRIME REPORTING REQUIREMENTS**

The Oregon Uniform Crime Reporting program was established by authority of ORS 181A.225, enacted by the 1973 Oregon legislature. This statute requires all law enforcement agencies to report crime statistics. The statute reads:

#### 181A.225 Reporting of crime statistics.

- (1) All law enforcement agencies shall report to the Department of State Police statistics concerning crimes:
  - (a) As directed by the department, for purposes of the Uniform Crime Reporting System of the Federal Bureau of Investigation.
  - (b) As otherwise directed by the Governor concerning general criminal categories of criminal activities but not individual criminal records.
  - (c) Motivated by prejudice based on the perceived race, color, religion, national origin, sexual orientation, marital status, political affiliation or beliefs, membership or activity in or on behalf of a labor organization or against a labor organization, physical or mental disability, age, economic or social status or citizenship of the victim.
  - (d) And other incidents arising out of domestic disturbances under ORS 133.055 (2) and 133.310 (3).
- (2) The department shall prepare:
  - (a) Quarterly and annual reports for the use of agencies reporting under subsection (1) of this section, and others having an interest therein;
  - (b) An annual public report of the statistics on the incidence of crime motivated by prejudice based on the perceived race, color, religion, national origin, sexual orientation, marital status, political affiliation or beliefs, membership or activity in or on behalf of a labor organization or against a labor organization, physical or mental disability, age, economic or social status or citizenship of the victim;
  - (c) Quarterly and annual reports of the statistics on the incidence of crimes and incidents of domestic disturbances; and
  - (d) Special reports as directed by the Governor. [1973 c.130 §2; 1989 c.1028 §1; 1991 c.552 §1; 1993 c.188 §11; 2007 c.70 §46]

#### **DEVELOPMENT and COLLECTION OF DATA**

Reports were developed based on data submitted from agencies across the State of Oregon. Law enforcement agencies submit their statistical information in one of two formats:

- Summary based reporting system: Oregon Uniform Crime Reporting, (SRS)
- Incident based reporting: Oregon National Incident Based Reporting System (ONIBRS)
- Incident based reporting: National Incident Based Reporting System (NIBRS)

Data has been provided by SRS, ONIBRS and NIBRS reporting agencies throughout the year; that data was utilized to compile this quarterly report. Please reference the Agency Reporting chart detailing the reporting format for each agency such as SRS, ONIBRS, and NIBRS, or both SRS and ONIBRS, along with noting each month an individual agency reported data for the 2019 Q2 reporting period.

The 2019 Q2 report contains extracts from SRS, ONIBRS, and NIBRS. Data from SRS, ONIBRS, and NIBRS are not a one to one comparison because of the different nature in their methodologies. Agencies submitting data utilizing the incident based formats, ONIBRS and NIBRS, are providing a more comprehensive depiction than the data captured by the SRS categories.

The data included throughout this report may vary slightly due to the timeframe in which the numbers were collected. Agencies have the ability to submit updated numbers throughout the year based on newly developed offense or arrest information.

At the beginning of 2019, and for each report forward, the OSP UCR team reformatted this publication for ease of readability, efficiency and continuity purposes.

#### **ACKNOWLEDGEMENTS**

The Oregon State Police would like to acknowledge and recognize participating Oregon law enforcement agencies for their dedication to the Uniform Crime reporting program. Without their efforts to provide crime data, this report would not be possible.

Oregon State Police would like to take this opportunity to remind agencies that the Summary (SRS) format is being retired as of the FBI deadline of 01/01/2021. Any agency without plans in place to transition to NIBRS or ONIBRS should contact the Criminal Justice Information Services Division for more information on how to achieve this goal (see cover page for contact information).

However, the offense and arrest data associated with these crimes has been included in crime totals for the offense and arrest groupings listed above Note on Population data:

The Annual Oregon Uniform Crime report does not provide an analysis of crime across the state; crime statistics are provided based on reported crime data. Jurisdictional population data is not reported to the OUCR Program therefore it has not been included throughout this report. Use caution when comparing crime statistics between county or city agencies, in order to establish a comparable basis, population must be taken into consideration. Below is a link to the most current Annual Population Reports published by Portland State University. These reports present population estimates for Oregon and its counties and incorporated cities.

# STATEWIDE INDEX CRIMES

#### STATEWIDE INDEX CRIMES OVERVIEW

**INDEX CRIMES:** The crime Index was developed in the 1920s as a means of measuring crime on a national scale from one year to the next. Because state laws define crimes differently, specific crimes were chosen by the FBI to make up the Crime Index rather than include all reported crimes to compare at a national level. The following 8 crimes were selected because they are generally defined in the same manner from state to state.

The 8 crimes that make up the National Crime Index are:

Index Crime Categories	ONIBRS	NIBRS	SRS
Willful Murder*	✓	✓	✓
Forcible Rape*	✓	✓	✓
Aggravated Assault*	✓	✓	✓
Robbery*	✓	✓	✓
Burglary*	✓	✓	✓
Larceny (Theft)*	✓	✓	✓
Motor Vehicle Theft*	✓	✓	✓
Arson*	✓	✓	✓

<sup>\*</sup> Indicates Index Crime

Oregon Statewide Index Crimes are reported to the FBI each year. The FBI publishes national reports using Index Crime data provided by each state. Please be aware that the Index Crime numbers published by the FBI may not match the Index Crime numbers reported in the 2019 Oregon Report due to the date reports are collected. Oregon Law Enforcement Agencies have the ability to submit updated numbers throughout the year based on newly developed offense or arrest information.

The 2019 reports contain extracts from SRS, ONIBRS, and NIBRS. Data from SRS, ONIBRS, and NIBRS are not a one to one comparison because of the different nature in their methodologies. Agencies submitting data utilizing the incident based formats, ONIBRS and NIBRS, are providing a more comprehensive depiction than those that are reporting the SRS format and categories.

The 2019 Q2 report contains extracts from ONIBRS, NIBRS, and SRS. Data from ONIBRS, NIBRS, and SRS are not a one to one comparison because of the different nature in their methodologies. Agencies submitting data utilizing the incident based formats, ONIBRS and NIBRS, are providing a more comprehensive depiction than the data captured by the SRS categories.

Not all agencies reported crime data for all months in the Q2 reporting period of the 2019 calendar year. See pages 7 – 11 in the Annual Report Introduction to review the chart showing agency reporting format and months crime data was reported.

#### Note on definitions of Offenses and Arrests:

The term "Offenses," as used in this report for crime reporting purposes, is defined as "known criminal acts
occurring within the reporting agency's jurisdiction." The reported offense counts are generated from receipt
of a complaint or call for service. All reports of thefts and attempted thefts are included, regardless of the
value of property involved.

Any law enforcement agency discovering, receiving a report, or investigating any offense occurring in its jurisdiction that would constitute a crime shall report these facts to the Oregon State Police Uniform Crime Reporting (UCR) monthly.

- The term "Arrests," as used in this report for crime reporting purposes, may be defined as one or more of the following:
  - 1. The physical arrest of a person, adult or juvenile, held in jail, detention facility, or detained pending bail, hearing trial, etc.
  - 2. The issuance of a citation for a criminal offense. (A citation is issued for the person, adult or juvenile, to appear at a later date for felony, misdemeanor, or criminal violation charges, in lieu of being taken immediately into custody).
  - 3. The issuance of a traffic citation for appropriate traffic arrests listed in the UCR manual.
  - 4. Persons, adult or juvenile, summoned or notified to appear in a court of law to answer criminal charges.
  - 5. Juveniles processed by police for criminal offenses and then released to parents, relatives, or guardians with no further action planned.

Any law enforcement agency arresting, citing or issuing a summons to any person (adult or juvenile) for any crime which occurred in its jurisdiction shall report these facts to UCR monthly.

The data in the following section is in Alphabetical County order with agencies by ORI order, which may not necessarily be alphabetical.

#### **DOMESTIC VIOLENCE AND BIAS REPORTING**

#### **Domestic Violence Overview**

ONIBRS and NIBRS reporting agencies are set up to automatically report their statistics on Bias crimes when they submit the regular crime data. Not all ONIBRS and NIBRS agencies reported crime data for all months in the Q2 reporting period of the 2019 calendar year.

ONIBRS reporting agencies are set up to automatically report their Domestic Violence crimes when they submit regular crime data. NIBRS and SRS reporting agencies are expected submit supplemental Domestic Violence reports through <a href="mailed-in">mailed-in</a> or <a href="mailed-in">uploaded</a> forms. All agencies that have submitted data (via paper or electronic submission) are noted with a diamond symbol. If they did not submit data, the box is blank. Grey boxes represent reporting timeframes not captured by this quarterly report.

Domestic Violence reports are submitted quarterly for NIBRS and SRS agencies and Bias reports are submitted as they occur

For Domestic Violence Reporting, see:

- FIGURE 8.1 Domestic Violence Reporting by Agency
- FIGURE 8.2 Statewide totals by Quarter
- FIGURE 8.3 Domestic Violence Detail by Agency and County

<sup>~</sup> Some statewide bias totals reported in Figure 8.4A of the Q1 2019 (ONIBRS), were inadvertently cut off in the printing process. This has been corrected in this Q2 publication.
