# Vision 20/20 Symposium 7

---

## What is Vision 20/20

Non-profit who partners with organizations and experts to drive Community Risk Reduction across all levels of the fire and emergency services. Their mission includes identifying gaps, evaluating programs and applying data-driven strategies and resources, and providing guidance in implementing adaptive measures to reduce fire and other risks; saving lives, and protecting first responders and property.

## What is Symposium 7

“Known as the most interactive and forward-thinking conference engaging leaders in CRR, Vision 20/20’s Symposiums deliver proven best practices, strategies, and resources driving efforts across the country in helping make communities more resilient.”

---
