--	--------	---------------

Has the Service Center been notified?	Yes No	DATE NOTIFIED
---------------------------------------	--------	---------------

Have the clients (required drivers) been notified?	Yes No
--	--------

A service center shall provide all IID related services to remain certified. Pursuant to Oregon Administrative Rule (OAR) 257-100-0025, a service center must provide device installation and removal services within five days from a customer's request and all other services within three days; banking holidays excepted.

A service center **may** be removed from the IID Region Map and have certification revoked depending on the temporary closure. OSP-IID will decide removal and de-certification on a case-by-case basis.

A service center **will** be removed from the IID Region Map and have certification revoked for all permanent closures. If a service center is permanently closed, a new Service Center Certification Application and applicable fee(s) will be required before certification is authorized.

I certify that the above information I have provided is true and accurate.
