		<p>OSFM Approved: Signature on file at OSFM _____ Date _____ Nancy J. Orr, State Fire Marshal</p>
<p>SUBJECT: Mitigation Methods</p> <p>OBJECTIVE: Identify Methods for the Control, Confinement and Containment of Hazardous Materials</p>		

I. SCOPE

These guidelines address methods that may be used in the mitigation of hazardous material situations. It is expected that control methods will be used by qualified personnel with full observance of established safety procedures.

NOTE: SOG T-005 rescinded on the recommendation of the Teams Advisory Group (TAG) following their review April 5, 2005.
