

Mob Plan 2015 – changes

- Added language asking people to take personnel’s work/rest ratio into account before mobilizing them, including a caveat that personnel may be asked to work 24 hours during times of emergency.
- Added clarifying language that Type 1 & 2 Engines must carry SCBAs.
- Removed language about ‘conflagration reimbursement time,’ and added that mutual aid will be paid per the mob plan beginning when the team assumes command of the incident.
- Added language to signify that mutual aid absorbed into the conflagration will be paid based on Mob Plan typing.
- Added language about travel reimbursement times. Travel to and from an incident shall be reimbursable within one hour of the sum of the following equation:

$$d / 45 = t$$

Distance traveled (d) divided by 45 mph = travel time (t)

- New rates:

Apparatus	2014	Average	2015
Engine – Type 4	40	42	45
Engine – Type 5	30	39	40
Engine – Type 7	20	25	25
Tender – Type 2	50	52	55
Tender – Type 3	30	41	40
Command	15	38	35
