

Oregon School Safety Tip Line

F R E Q U E N T L Y A S K E D Q U E S T I O N S

What is the School Safety Tip Line?

Students and other members of the public can anonymously report or share confidential information of a threat or a potential threat to student safety. Trained staff are available 24-hours-a-day, 365-days-a-year reached through a phone call, text message, mobile application or website.

What kinds of tips might be reported?

Anything that makes a student feel unsafe or if a student knows someone who feels unsafe. Here are a few examples: safety threats, violence, threats of violence, fights, drugs, alcohol, weapons, bullying or friends that talk about hurting themselves, harassment, intimidation, cyber bullying, or self-harm.

What happens to the tips received?

Tips are promptly analyzed and routed for the most appropriate follow up and urgency. This may be to school officials, law enforcement, community mental health programs or other appropriate local or state agencies. Tip Line staff make sure follow-up is noted and recorded.

Why a Tip Line?

To prevent school safety threats from occurring by providing schools and communities with a relevant tool for reporting potential threats. Encouraging reporting at schools or online leads to a culture of safety. When a potential safety threat is reported, we have the chance to prevent violence. Working as a community to keep schools safe is the highest priority.

When will this be available?

The Statewide School Safety Tip Line is in planning for statewide release on January 31, 2017. On this date schools will be able to sign up to use the service. The project is in testing now and you can get more information or become involved early in the effort by emailing us below.

Program Analyst – Chuck Perino 503-934-0862

The School Safety Tip Line became Law through HB 4075 (2016), as a result of recommendations from the Oregon Task Force on School Safety. This is a statewide resource designed to accept confidential or anonymous reports concerning student safety through a phone call, text message, mobile application or the internet by students and other members of the public. This resource will be available statewide in 2017.
