

OREGON FIRE & LIFE SAFETY COMPETENCY RECOGNITION

Renewal Process

To maintain your competency recognition status, you must maintain:

- ICC certificate (through ICC) - Fire Inspector I or II, every 3 years
- NFPA certificate (through DPSST) - Fire Inspector I, II, or III, every 2 years
- Current Oregon Fire Code amendment class (through OSFM, online, or classroom) - must be completed in the first year of every code cycle change

Inspector 1	Inspector 2	Fire Marshal
ICC Fire Inspector 1 or 2 NFPA Fire Inspector 1 Oregon Fire Code Amendments Class	ICC Fire Inspector 2 NFPA Fire Inspector 2 Oregon Fire Code Amendments Class	ICC Fire Inspector 2 NFPA Fire Inspector 2 Oregon Fire Code Amendments Class

The OSFM tracks your competency recognition courses and certifications; competency recognition recipients do not need to send OSFM certification updates. Our office will contact you a year following the code cycle change if you are not current on any classes or certifications.

To view your certification status

- OSFM: Please submit a request to osfm.firelifesafety@osp.oregon.gov
- ICC: iccsafe.org/search-for-certified-professionals/
- DPSST: oregon.gov/dpsst/FirePrograms

ICC and DPSST certifications must remain active or OSFM competency recognition will lapse.

Oregon Administrative Rule 837-039-0016 establishes standardized certification and training requirements for fire officials who administer and enforce the fire code. Current inspectors must be in compliance. Newly hired or promoted inspectors have one year to complete the required certifications and training.

If you are providing fire inspections without the appropriate state competency recognition status, you could be held personally liable.

To receive a copy of your competency recognition transcript, please call 503-934-8256.
