

Oregon's Occupational Therapy Workforce

Based on data collected during 2020

These fact sheets provide a snapshot of the state's occupational therapy workforce using data collected by the Oregon Health Authority in collaboration with the Oregon Occupational Therapy Licensing Board.

The mission of the board is to protect the public by supervising occupational therapy practice.

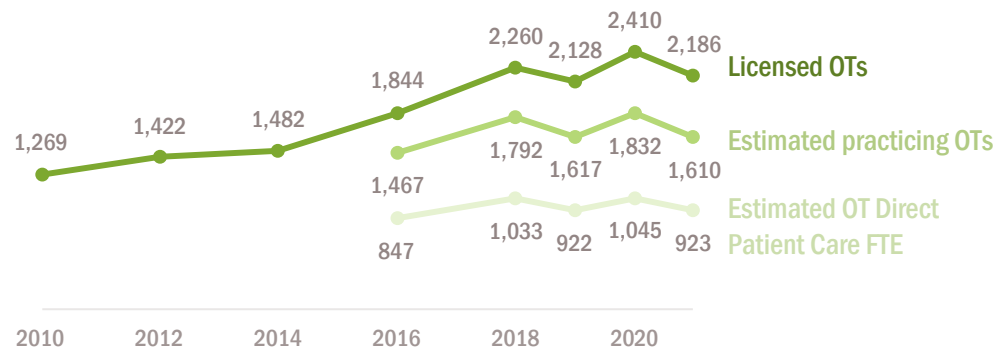

The board is responsible for protecting the health, safety and welfare of individuals who receive occupational therapy services in Oregon. The role of the board is to investigate complaints and take appropriate action; make and enforce laws and rules regarding occupational therapy practice; establish continuing education requirements; process applications and issue license and renewals; collect fees and authorize disbursements of funds.

Workforce data were collected for occupational therapists and occupational therapy assistants and are presented as individual occupational profiles.

If you would like more information about the Oregon Occupational Therapy Licensing Board, please visit: <http://www.oregon.gov/OITLB>

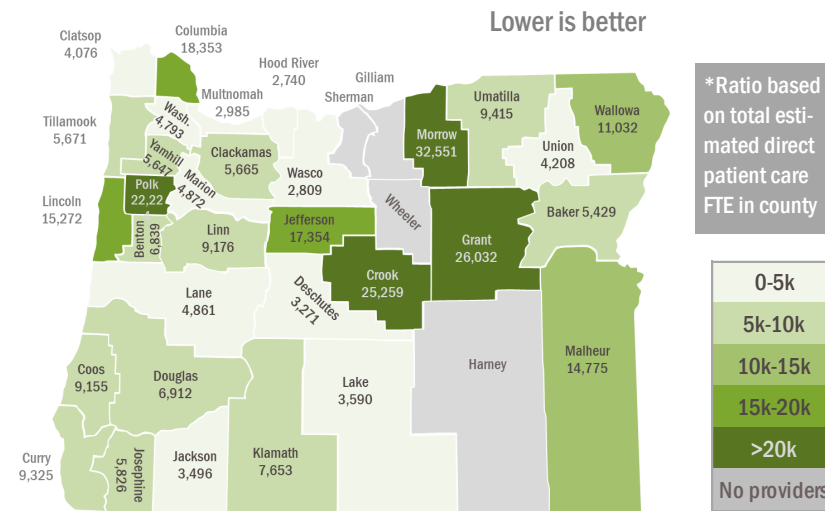

Occupational Therapists (OT)

OREGONS OT SUPPLY OVER TIME

All subsequent data presented are from OTs who held an active license as of January 2021 and were actively practicing in Oregon at the time of Health Care Workforce Survey completion (n=1,432).

ESTIMATED POPULATION-TO-PROVIDER RATIO*

WORKFORCE DEMOGRAPHICS

AGE

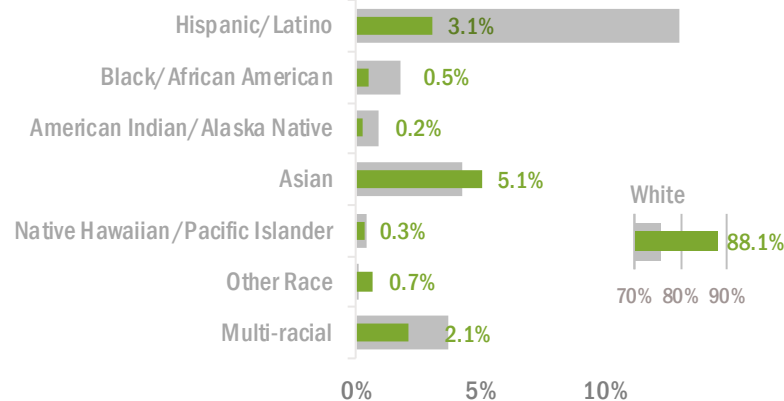

GENDER

RACE & ETHNICITY

WORKFORCE VS POPULATION*

* Licensees who did not report race and ethnicity data are excluded from this chart (9.6% of workforce). Racial categories exclude Hispanic.

Occupational Therapists (OT)

WORKFORCE SUPPLY

HOURS WORKED PER WEEK

44% of OTs work at least 40 hours each week.

HOW OTS SPEND THEIR TIME

On average, OTs spend 69% of their time in **direct patient care**.

NUMBER OF YEARS LICENSED IN OREGON

PRACTICE PLANS IN THE NEXT TWO YEARS

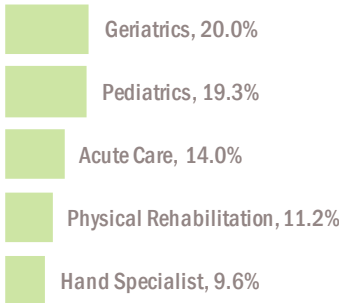

* Leave the Oregon workforce includes those planning to retire, move to practice out of state, or leave the occupation.

Occupational Therapy Assistants (OTA)

OREGONS OTA SUPPLY OVER TIME

Increases may be due in part to a new Associates of OTA program in the state in 2010.

All subsequent data presented are from OTAs who held an active license as of January 2021 and were actively practicing in Oregon at the time of Health Care Workforce Survey completion (n=322).

ESTIMATED POPULATION-TO-PROVIDER RATIO*

Note: Circles indicate whether county has no providers (red) or is above (yellow) or below (green) the statewide ratio by 50%.

Population-to-provider ratios are based on the estimated patient care FTE in the county. Values greater than the county population are due to less than 1.0 FTE in county.

About these fact sheets:

The Health Care Workforce Reporting Program (HWRP) collects workforce-related information directly from health care professionals via a questionnaire embedded in the license renewal process. Data reported in this fact sheet were collected during the 2020 renewal cycle.
