Instructions

Well ID Number Application

Use a separate application for EACH well on the property. If the well already has an existing Well ID Number (L-xxxxx), you do not need to complete this application.

I. OWNER INFORMATION

Print the current owner's name, mailing address (including city, state, and zip), and the address where the Well ID Tag should be sent. If the property has closed in escrow, the Well ID Number may be sent directly to the buyer. The tag should be sent to the party who currently has access to the well, to attach the tag.

II. WELL LOCATION INFORMATION

Provide the Township, Range, Section, Quarter / Quarter, County and Tax Lot number. This information may be obtained from property tax statements, legal description of the property, or from the Assessor's Office. The Assessor's Office may also refer to this as the "Map and Tax Lot Number". A list of County Assessors' is enclosed for your use.

III. GENERAL WELL INFORMATION

Please provide as much information as you can: depth of well, diameter of well casing, year constructed, and use of well. If you know who owned the land when the well was drilled, or when the property was developed, please also include that information in the space provided. Well log number may be stamped or written on the top of the log, and consists of the first 4 letters of the county, followed by a 2-7 digit number.

This information will assist the Department in locating a well report (well log).

Contact the Well Identification Program Specialist at (503) 986-0854 or via email at Ladeena.k.bell@ wrd.state.or.us if you have questions.

Oregon County Assessor Offices

The County Assessor's Office can provide you with the Township, Range, Section, and Tax Lot (combined: map lot #). They can also provide you with a list of previous owners of the property where the well is located.

Well ID Program Frequently Asked Questions

All wells drilled, deepened, converted or altered after 1996 are required to have a well ID number attached to the well head. This Well ID Number is usually attached by the well constructor. If there is no ID number on the well at the time the property on which the well is located is transferred, a landowner (or representative, such as a realtor or family member) **must** apply for, and attach one within 30 (thirty) days of property sale, using the Well ID application form, which is available from the Water Resources Department's website at www.wrd.state.or.us.

Is there a fee to get a Well ID? No. It is free to apply for and receive a Well ID tag.

What is the legal basis for the program? Oregon Revised Statutes 537.789 - 537.793.

What is the purpose of the program? The purpose is to catalog each well with a unique Well ID Number. This number will link the well with a physical description of how the well was constructed (well log) in the Department's database.

What types of wells are bound by this program? All wells, including monitoring and water wells.

Do I need to apply for a new Well ID Number if my well already has one on it? No. A well only requires one Well ID Number for the life of the well.

Should I apply for a Well ID Number now or should I wait until the property changes ownership? You may apply for a Well ID Number at any time.

I share a well and the well is on the neighboring property. Do I apply for a Well ID Number when I sell my property? No. The owner of the property where the well is located is responsible to obtain a Well ID Number when their property changes ownership.

Who is responsible for initiating the process? The landowner who owns the property where the well is located may apply for the Well ID Number or the buyer may also apply for the Well ID Number.

Will this delay the property transfer if I am selling my property? No. It is not necessary to apply for or obtain a Well ID Number before closing the property transfer. The seller, buyer, or their agent may apply for the Well ID Number by completing an application.

What is a Well Report or Well Log? A well report or well log is a physical description of how your well was constructed. The Oregon Water Resources Department maintains a database of all wells constructed in the state since approximately 1960.

Does the Water Resources Department verify the well construction during this process? The Department does not review the well construction prior to the issuance of a Well ID Number. However, as part of the Department's Well Construction Program, new wells are routinely inspected during construction. If you have specific problems or concerns about your well, please contact the Department directly.

If you have questions concerning your well, contact the Water Resources Department: (503) 986-0900, or visit our website: www.wrd.state.or.us. Our office is located at 725 Summer Street NE, Suite A, Salem, Oregon 97301-1266.

Instructions for Using the Well Log Query

TIPS FOR LOCATING WELL LOGS

1 Go to the Oregon Water Resources Department website at: www.wrd.state.or.us and click on “Find a Well Log”.

2 For best results, enter ONLY the Township, Range and Section for the property. Only use additional search criteria to narrow down your search if you receive too many results.

Contact the appropriate County Assessor’s office to obtain the property’s T-R-S and name of the landowner who owned the property when the well was drilled (or property developed).

3 Click the “Search” button. The query will display all well logs within the sections selected.

4 To sort data within the well log query, click on a column heading (words in blue).

5 To view the image of the well log, click on the county / number link under the “Well Log” column.

6 To print the image of the well log, select “file”, “print” and “OK”.

QUESTIONS?

Contact the Well Identification Program Specialist at (503) 986-0854 or via email at Ladeena.k.bell@wrds.state.or.us for more information.

The screenshot shows the Oregon Water Resources Department website's Well Log Query page. It features a navigation menu on the left with links like 'About Us', 'Contact Us', 'News and Events', etc. The main content area is titled 'Well Log Query' and includes search criteria for Township (set to South), Range (set to West), and a 6x6 grid of Sections (numbered 1-36). To the right of the grid are various search filters: Well Log, Startcard, Well Tag, Completed Date, Received Date, County, Bonded License#, Owner Last Name, Company Name, Completed Depth, Taxlot, and Type of Log. At the bottom, there are 'Search' and 'Reset' buttons, and a 'Records per Page: 10' dropdown menu.

SEARCH TIPS:

- If you cannot find a well log, try searching by “County” and the first 3-4 letters of the “Owner Last Name” only. This will bring up all the wells in that county with that last name, regardless of Township, Range, and Section.
- Change “Records Per Page” to at least 100 for easy scrolling thru the results page(s).
- The street address and tax lot may not always be included on well logs, especially for older wells.
- Wells drilled prior to 1955 may not have a well log on file with the Department.
