In this 25th year of our prestigious Oregon Water Law Conference, we will continue coverage of legislative, administrative and judicial water law and policy developments, featuring experts from all levels of government, tribes, nonprofits and private practice.

We will provide updates on water issues in key basins as well as the Columbia River Power System and the Hells Canyon Complex. The Oregon Water Resources Department's will cover recent legislative and rulemaking developments and Richard Whitman will deliver a special presentation on the latest from the Governor's Natural Resource Office. The conference will also include presentations on how water issues affect economic development in real estate and the Cannabis industry. This year we'll follow-up with Oregon's neighbors on the region's water supply and drought considerations.

We hope you will join us for a hosted beer and wine reception at the conclusion of the first day sponsored by [Davis Wright Tremaine LLP](#) and [Stoel Rives LLP](#). Thank you to Gold Sponsor the [Oregon Water Resources Department](#).
