

Place-Based Planning Letter of Interest - Eric Andersen, South Santiam Watershed Council

Attachments

Sweet Home All Lands Collaborative (SHALC) has been renamed to South Santiam All lands Collaborative (SSALC).

process to explore opportunities for a community forest in the South Santiam watershed.

At this time, SHALC is committed to focusing on specific strategic activities and easily attainable projects. Meetings are held when there is a need to collaboratively discuss strategic planning, e.g., to develop a workplan, or to organize around a specific project. SHALC's co-coordinators deliver a monthly report-out of activities and updates to a broader list of interested parties, and seek to ensure clarity and open communication between participants, other stakeholders, and the broader public.
