

From Plan to Action

What are the key ingredients to successfully transition from plan development to implementation?

What? Virtual conversations on the second Tuesday at lunch-time to learn from other places about how they have successfully transitioned from plan to action.

Why? Water collaboratives are completing integrated water resources plans and are turning their attention towards how to successfully implement these plans and what support is needed from the state and other partners.

Who? Anyone interested in supporting collaborative water planning and implementation in Oregon.

Learning from implementation of the Yakima Integrated Water Resources Plan	Lisa Pelly, Trout Unlimited; Urban Eberhart, Kittitas Reclamation District; Danielle Squeochs, Yakama Nation Water Resource Program	April 13, 2021	12-1pm	View recording
