These rules do not apply to new project proposals. These rules describe the type of amendments that may be considered; the process that must be followed to approve amendments; and what steps must be taken to avoid injury to other water users, prevent undesirable impacts to natural resources, and to appeal Department decisions.

(2) These rules do not apply to:

(a) A change in point of diversion.

(b) A change in point of appropriation.

(c) New uses unrelated to the hydroelectric generation use.

(d) The construction of a new dam in a location where there is no existing dam or diversion.

(e) Any repair, modification, or reconstruction of an existing dam that would result in a significant change in the surface area or elevation of an existing impoundment.

(f) Any modification to an existing hydroelectric project (including the replacement of existing turbines) which would result in an increase in the maximum hydraulic capacity of the project of 15 percent or more or would result in an increase in the project's nameplate capacity of 2 megawatts or more as defined in regulations of the Federal Energy Regulatory Commission (FERC), 18 CFR 11.1(i).

(3) Meeting the terms and conditions of a hydroelectric license, water right permit or certificate is considered a beneficial use of water.

(4) These rules apply to amendment applications filed on or after July 1, 2026. Applications submitted before this date shall be subject to the rules in effect at the time of submittal.

(A) The proposed augmentation does not require the construction of new facilities or change in the point of diversion or use.

(B) The proposed augmentation meets the resource protection standards in ORS Chapter 543A.025; and

(C) The proposed augmentation has water available from the proposed source during the times and in the amounts requested.

(D) Pursuant to ORS 543A.145(3), any augmentation will receive as a priority date the date of filing the amendment application.

Final Order on Default

(1) If no protest on a proposed final order that is governed by these rules is timely received, by operation of law, the proposed final order shall become a final order on the date that is 33 days after the close of the time period for submitting a protest, with no further action required by the Department.

(2) If all timely filed protests are withdrawn and the withdrawals are not based on a settlement agreement requiring changes to the proposed final order, the Department, if the matter has not been referred to the Office of Administrative Hearings, or the assigned administrative law judge, if the matter has been referred to the Office of Administrative Hearings, shall issue an order dismissing the request for hearing and notifying the parties that the Department's proposed final order is final, as of the date of the order of dismissal.

(3) If a protestant defaults as provided in OAR 137-003-0672(3)(b) or OAR 137-003-0672(3)(c), the assigned administrative law judge shall issue an order dismissing the request for hearing and notifying the parties that the Department's proposed final order is final, as of the date of the order of dismissal.

WRD 2-2001, f. & cert. ef. 3-30-01

Rule Summary: This amended rule implements ORS 183, which allows the agency to define when a proposed final order will become final. The new rule states that the order will become

5/1/26

final as a result of (1) no protest being filed, (2) the withdrawal of protests, (3) or default of protestants. The rule specifies that proposed final orders become final if no protest is filed within 33 days and that the Department may withdraw the final order for reconsideration and issuance of a superseding proposed final order before 33 days elapse. This efficiency measure is consistent with changes made in other processes, which also makes for more efficiency in administration.
