

Summary of Potential Rule Changes -OAR 690-077 Instream Water Rights

Rule Draft Date: 11/20/2025; Summary Date: 11/20/2025

690-077-0000 Purpose	<p>This rule is amended to specify that the boundaries for an instream water right cannot extend beyond the State of Oregon's borders.</p> <p><i>Rule clarity/consistency. Policy/Mgmt Clarity: Transfers/Leases Only within Borders</i></p>
690-077-0010 Definitions	<p><i>Rule cleanup/consistency:</i> This rule is amended to modify the definition of "beneficial use" and "contested case" to refer to the definitions in Division 300; amend the definition of "multipurpose storage project" to require "two or more" beneficial uses and/or purposes instead of "more than two," consistent with the definition of multipurpose in Merriam Webster and the definition of "multipurpose project" in Chapter 690, Division 90; remove the definition of "ODFW flow restoration priority watershed" because the only rule the phrase appeared in (OAR 690-077-0015(5) is proposed for removal; remove the definitions of "planned" and "planned uses" because those terms do not appear in Division 77 rules nor in the governing statutes; and update the definition of "Protest" to reference the definition of protest in OAR Chapter 690, Division 2. <i>Rule Clarity/Policy:</i> Add definitions for "district" and "district water user;" and "living certificate" amend the definition of "Estimated Average Natural Flow" to reflect that it is determined by month or half month, which is consistent with existing practice, and to clarify sources of information and responsibility to compute; add a definition of "secondary water right;" modify the definition of "water purveyor" to identify all types of owners or operators of public water systems which deliver water to customers; and add a definition for "water-related entities identified by the Special Districts Association of Oregon."</p> <p><i>Rule clarity/consistency/cleanup. Policy: Notification of certain entities.</i></p>
690-077-0015 General Statements	<p>This rule is amended to remove language that is not consistent with statute and to make clear which rules only apply to state agency instream water right applications. In regards to estimated natural average natural flow (ENAF), ORS 537.343(2) provides the Department authority to make the final determination of the level of instream flow necessary to protect the public use(s) identified in a state-agency instream water right application, which is the basis for the limitation in OAR 690-077-0015(4), (9) and (10). However, the Department has not identified a similar statutory basis to use ENAF to limit the amount of water that can be converted by instream transfers, leases or allocations of conserved water under OAR 690-077-0015(5). Clarifies that flow limitations only apply to state agency instream water right applications. This rule (8) also clarifies an existing rule with the Department's interpretation of when a withdrawal applies to state agency instream water right applications.</p> <p><i>Rule consistency with authority: ENAF. Rule clarity/interpretation: withdrawals.</i></p>
690-077-0019 State Agency Instream Water Right Applications: Process for Instream Water Right Certificate Requests	<p>This rule amendment deletes subsection 2 of this rule because the statutory authority for subsection 2 is repealed by Or Laws 2025, ch 575 section 4.</p> <p><i>2025 Legislation: conforming.</i></p>

690-077-0020 State Agency Instream Water Right Applications: Application Requirements	<p>This rule is amended to put into rule an existing process for notifying water-related entities identified by the Special Districts Association of Oregon. This rule is amended to clarify that the Department interprets application submittal “in writing” to be either hard copy or electronic transmittal. This rule is amended to implement electronic documentation requirements under Or Laws 2025, ch 282, as well as the phased application processing approach requiring notification to continue processing. This rule is amended to require that the map contain elements that would make the map more useful for the public to orient themselves with where the stream reach is located in the state and to provide the Department watermasters clarity on the locations of the upstream and downstream points. This rule is amended to require the application to contain the instream flow requested by month or half month consistent with existing practice.</p> <p><i>Policy/Procedural: district notice, flow requests. 2025 legislation: Electronic documentation, phased processing. Instream specific map.</i></p>
690-077-0027 Application Processing: Completeness Review	<p>This rule is amended to (a) explain what a suitable book is and (b) implement Or Laws 2025, ch 282, section 14, returning applications that cannot be approved because it is within a withdrawn area.</p> <p><i>Rule clarity. 2025 legislation.</i></p>
690-077-0029 Application Processing: Initial Review	<p>Rule Summary: This rule is amended to a) reference the section of the Division 77 rules implementing Or Laws 2025, ch 282, section 14 (returning applications that cannot be approved), b) implement electronic documentation requirements under Or Laws 2025, ch 282, section 2, c) implement Or Laws 2025, ch 282, section 14 requiring affirmative confirmation within 90 days of initial review for OWRD to continue processing an application, and d) explicitly state that a single communication can suffice for more than one application in a batch of state instream water right applications if the communication specifies which applications the applicant would like the Department to continue processing.</p> <p><i>2025 legislation. Procedural.</i></p>
690-077-0031 Application Processing: Public Notice and Comments	<p>Rule Summary: This rule is amended to (a) implement electronic documentation requirements under Or. Laws, Chapter 282 (2025) section 2, as well as issuance of an initial review.; (b) remove the request for affected local, state and federal agencies to post a copy of the Department’s weekly public notice, given that all members of the public can access the Department’s weekly public notice online; and (c) remove provisions allowing the Department to, in the absence of the necessary land use information, presume that the proposed use is compatible with the comprehensive land use plans and land use regulations of affected local governments, because it does not comply with the Department’s obligations under ORS 197.180 and it is inefficient to not receive the required land use information at the time of water right application submittal.</p> <p><i>2025 legislation: electronic documents, phased processing. Land Use compatibility. Local government posting.</i></p>
690-077-0033 Application Processing: Public Interest Presumption	<p>This rule is amended to update a statutory reference based on Or Laws 2025, ch 575 section 6’s amendment of ORS 537.170.</p> <p><i>Rule update.</i></p>

690-077-0037 Application Processing: Public Interest Review	This rule is amended to (a) remove provisions referring to application withdrawal after the initial review to simplify the rule, as this process is already established in OAR 690-077-0029; (b) remove a dated reference to a subsection of a rule; (c) remove the provisions related to protests that have been moved to OAR 690-077-0043; and (d) update citations to ORS 537.170(8) consistent with statutory renumbering. <i>Rule cleanup. 2025 legislation consistency.</i>
690-077-0039 Application Processing: Proposed Final Order	This rule is amended to (a) implement Or Laws 2025, ch 575, sections 3a and 5a with respect to the replacement of requests for standing with requests for party status; (b) remove redundant language requiring notice of the proposed final order to include an explanation of the requirement to raise all issues in a protest, as notice of that requirement is required by ORS 183.415(3)(a); (c) reflect that, under ORS 183.415(2), the Department must send the proposed final order to the applicant by certified or registered mail; and (d) implement Or Laws 2025, ch 282 by allowing the Department to send copies of the proposed final order electronically to persons other than the applicant. <i>2025 legislation: party status, protests, electronic.</i>
690-077-0043 Application Processing: Protests and Conduct of Contested Case; Final Orders on Default when No Protest Filed	This rule amendment implements Or Laws 2025, ch 575 sections 3 and 5a by (a) noting that protests of, requests for party status , and contested case proceedings concerning proposed final orders are governed by Or Laws 2025, ch 575 and OAR Chapter 690, Division 002; (b) removing rules concerning requirements for protests and requests for standing that have been replaced with rules in OAR Chapter 690, Division 002 that are consistent with Or Laws 2025, ch 575; and (c) describing the process that takes place after the protest deadline if a protest is submitted. <i>2025 legislation: contested case/protests.</i>
690-077-0046 Application Processing: Determination to Hold a Contested Case Hearing	This rule is repealed because (a) the provisions concerning the actions the Department must take within 60 days of the end of the protest period have been revised in accordance with Or Laws 2025, ch 575 section 5a and moved to OAR 690-077-0043; (b) Or Laws 2025, ch 575 section 6 repeals the statutory basis for subsections (4), (5), and (6)(a); (c) subsection (6)(b) is covered by ORS 537.170(4), as amended by Or Laws 2025, ch 575 section 5a; (d) OAR 690-002 addresses the right to file exceptions to administrative law judges' proposed orders; and (e) revised provisions regarding providing notice of referral for a contested case hearing are included in OAR 690-002. <i>2025 legislation: contested case/protests.</i>
690-077-0047 Application Processing: Final Orders	This rule is amended to (a) implement Or Laws 2025, ch 575 section 6 by aligning the rule with statutory updates to ORS 537.170; and (b) implement Or Laws 2025, ch 575, section 3 by making changes that reflect that the Director must issue a final order only when a protest is timely filed because under the new law, if no protest is timely filed, the proposed final order becomes a final order by operation of law. <i>2025 legislation: contested case/protests.</i>
690-077-0048 Application Processing: Final Public Interest Determination	This rule is amended to update a statutory reference. <i>Rule update.</i>
690-077-0051 Application Processing:	This rule is amended to: (a) implement Or Laws 2025, ch 575 section 6(5) by conforming the rule to updates to ORS 537.170 concerning final orders issued without a

Contested Case Hearing on Final Order that Modifies Proposed Final Order	hearing that modify proposed final orders; and (b) to remove language from the rule that is based on portions of ORS 537.170 that are deleted by Or Laws 2025, ch 575 section 6. <i>2025 legislation: contested cases/protests.</i>
690-077-0052 Application Processing: Time Requirements	This rule is amended to provide parameters on what qualifies as a reasonable and necessary extension on the application processing timeline requested by the applicant through an administrative hold. This rule is amended to implement Or Laws 2025, ch 575 section 7 by conforming the rule with updates to ORS 537.175 related to issuance of final order. <i>Policy/Efficiency: Administrative holds. 2025 legislation: contested cases/final orders.</i>
690-077-0054 Conversion of Minimum Perennial Streamflows to Instream Water Rights	This rule is amended to remove the rule referencing a publication that would have occurred decades ago and is no longer part of future Department actions. This rule amendment implements Or Laws 2025, ch 575, by adding procedures concerning actions the Department must take when a protest is timely filed, protests of, requests for party status , and contested case proceedings concerning proposed final orders are governed OAR Chapter 690, Division 002, and that proposed final orders become final if no protest is filed or upon default. Removes rules that have been superseded by these requirements. <i>Rule consistency with statute. 2025 Legislation: contested cases/protests.</i>
690-077-0065 Instream Transfers and Leases: General Provisions	This rule is amended to (a) clarify language for consistency with the rest of the OAR Chapter 690, Division 77 rules, (b) better align with the definitions of “enlargement” and “injury” found in OAR 690-380 that also apply to OAR 690-077, (c) remove language that is inconsistent with the authority under ORS 537.348, as the Department’s authority under ORS 537.343(2) to make the final determination, including to limit the level of instream flow necessary to protect the public use(s) does not apply to these types applications, (d) make reference to a new section of rule related to instream lease renewal applications found in OAR 690-077-0105 and e) remove reference that a special form could be prepared, because the Department already has special district forms. <i>Rule clarity. Rule cleanup. Consistency with statute: flow limit.</i>
690-077-0070 Application for Instream Transfer	This rule is amended to (a) include a description of the water rights that can be transferred instream, (b) provide general clarifications, (c) include new language describing the necessary requirements for transferring above-ground storage rights instream through the instream transfer process, (d) to remove language related to the limitation of water protected instream as there is not a statutory basis to do so under ORS 537.348, and (e) add language relating to provisions for early termination of a time-limited instream transfer. <i>Rule cleanup and clarity. Types of rights for transfer: Surface and Storage rights. Consistency with statute: flow limit.</i>
690-077-0071 Map Requirements for Instream Transfer and Instream Lease Applications	This new rule is adopted to describe required elements, as well as some elements that are not required, for the map that must be submitted with an application for instream lease or instream transfer. This new rule is also adopted to provide more clarity as it relates to mapping for types of uses that must clearly identify number of acres for leased/transferred lands and remaining non-modified lands, and to allow for a statement on the map to describe the proposed instream reach or point. <i>Mapping requirements standardization for instream.</i>

<p>690-077-0075 Processing an Instream Transfer Application</p>	<p>This rule is amended to (a) implement Or Laws 2025, ch 282, as it relates to processing steps associated with the application and to conform to the OAR Chapter 690 Division 380 rules, (b) clarify the methodology for adjusting the quantity of water that may be protected instream when a proposed instream reach passes through areas of known natural loss in order to prevent enlargement, (c) describe the necessary requirements for transferring an above-ground storage right instream through the instream transfer process, (d) provide additional detail about conditions to be included in the initial review, depending on whether for a permanent instream transfer or a time-limited instream transfer, (e) provide for the preparation and issuance of draft instream water rights certificates, if for a permanent instream transfer, to implement Or Laws 2025, ch 575 as it relates to issuance of the proposed final order, and (f) provide more detail related to distribution of approval orders and instream water right certificates, as applicable upon approval of instream transfers.</p> <p><i>2025 legislation: initial reviews, final orders. Rule consistency and cleanup. Procedure/Policy Clarity: Return flows. Storage instream.</i></p>
<p>690-077-0076 Application for an Instream Lease</p>	<p>This rule is amended to (a) modify the description of the water rights that can be leased instream, (b) add new language describing the necessary requirements for transferring storage rights instream through the instream lease process, (c) describe mapping requirements, (d) describe when a lease renewal application can be submitted, (e) clarify language for consistency with OAR Chapter 690, Division 380, (f) remove the requirement that the application contain conditions to avoid enlargement or injury, as that is the Department's role in reviewing an application, and (g) remove language related to the limitation of water protected instream (via instream water rights established through instream leases), as there is not a statutory basis to do so under ORS 537.348. This rule is also amended to (a) provide more detail as it relates to the lessor and the lessee, (b) allow that if the lessor is a district, written authorization from each district user involved in the lease is on file at the district and available upon request, (c) add reference to statutory fee requirements, and (d) remove language in (4)(j) related to name and address of water purveyors conveying water to the water right to be leased instream, and consolidated into another subsection of this rule (4)(a). This rule is also amended to provide for copies of contracts or agreements for use of a reservoir owned by federal government as it relates to consent.</p> <p><i>Types of rights instream: storage and surface. Storage instream. Rule clarity/consistency. Flow limits. Process efficiency: districts.</i></p>
<p>690-077-0077 Processing an Instream Lease Application</p>	<p>This rule is amended to remove language requiring the Department, following receipt of a lease application, to post the applicable weekly public notice in the applicable watermaster office because this information is available on the Department's website and via the email distribution list for the weekly public notice, and can also be shared by the watermaster if a member of the public requests it. Cleans up language related to injury and enlargement and clarifies some language to be consistent with the rest of the rules. Clarifies requirements related to leasing a storage right. Reorders rule for clarity related to claims of injury. This rule is also amended to remove language related to instream lease renewals, as there is a new section on renewals. This rule is amended to update references to other rules in OAR 690-077 that have been updated with numbering changes.</p> <p><i>Rule consistency. Electronic documents/public notice. Rule updates. Policy/Procedure: Storage rights.</i></p>

690-077-0079 Split Season Use Instream Leasing	This rule is amended to (a) implement Or Laws 2023, ch 55 to remove the sunset date for split season use instream leases, (b) add language to provide better clarity related to measurement and reporting requirements for split season use instream leasing, and (c) move existing language in this rule to other sections for clarity. This rule is also updated to reference “Department” instead of “watermaster” in order to align with statute. 2023 legislation. Conditioning.
690-077-0080 Miscellaneous Provisions: Cancellation or Waiving of an Instream Water Right	This rule is repealed because it is not clear how the Department would ever reach a determination that an instream water right has been forfeited. In addition, ORS 540.641 provides that only the "owner or occupant" may protest a proposed cancellation. In the case of instream water rights, they are "owned" by the Department itself, albeit in trust for the people of Oregon. The Department cannot protest its own notice of proposed cancellation. In addition, while the existing rules contemplate a certification of abandonment from the original applicant agency, state agencies requesting an instream water right do not hold the right once the right is issued. The right is held in trust by the Department, and therefore an original applicant agency has no authority to declare that the right has been abandoned. <i>Rule consistency with Dept. authority.</i>
690-077-0100 Miscellaneous Provisions: Precedence of Future Uses	This rule is inconsistent with statute and is amended to more closely follow the process described in ORS 537.352 and provide additional clarity. ORS 537.352 provides that the Department, not Commission, will make a determination while conducting a review of the project in accordance with ORS 537.170. Changes align the rule with statute and the water rights application processing steps. <i>Note that the Commission may still take up the matter if exceptions are filed to the Director’s order.</i> <i>Rule consistency with statute. 2025 legislation.</i>
690-077-0105 Application for Instream Lease Renewal	This new rule is adopted to describe the application requirements for the process to renew previously approved instream leases. <i>Efficiency/timely processing. Policy: Renewals.</i>
690-077-0110 Processing an Application for Instream Lease Renewal	This new rule is adopted to describe the processing steps for renewal of a previously approved instream lease. <i>Note that subsection 4 is from statute ORS 537.348(6).</i> <i>Efficiency/timely processing. Policy: Renewals.</i>

Division 77

INSTREAM WATER RIGHTS

690-077-0000

Purpose

- (1) The purpose of this Division is to establish the policy, procedures, criteria, standards and definitions which shall be applied by the Department and Commission in the evaluation of applications for establishing instream water rights.
- (2) This Division also provides for the conversion of existing minimum streamflows to instream water rights; for the instream transfer or lease of existing water rights for use as instream water rights; and for the enforcement of instream water rights which are held in trust by the Water Resources Department to protect the public uses.
- (3) In 1987, the Legislature created a new type of water right called an instream water right. Instream water rights are established by certificate from the Water Resources Commission or by an order approving a time-limited instream transfer or lease, pursuant to ORS 537.332 to 537.360, to maintain and support public uses within natural streams and lakes. These public uses include, but are not limited to, recreation, scenic attraction, aquatic and fish life, wildlife habitat and ecological values, pollution abatement and navigation. Instream water rights may also be established as a result of the allocation of conserved water under 537.455 to 537.500 and 540.510 (OAR chapter 690, division 18).
- (4) In 2001, the Legislature authorized the split season use leasing of an existing water rights for instream purposes. Under ORS 537.348(3), all or a portion of an existing water right may be used for the existing use and for instream use during the same year, provided that the uses are not concurrent and that the holders of the water rights measure and report to the Water Resources Department the use of the existing water right and the instream water right.
- (5) Instream water rights differ from other water rights because control or diversion of the water is not required. Instream water rights are held in trust by the Water Resources Department but are regulated and enforced like all other water rights.
- (6) Instream water rights do not take away or impair any legally established right to the use of water having an earlier priority date than the instream right.

(7) Instream water rights, instream leases, instream transfers, and instream water rights resulting from an allocation of conserved water can only be established to protect water instream within the State's borders.

Statutory/Other Authority: ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338, 537.348, - & 537.356 - 537.358, 537.470 & 537.485

Statutes/Other Implemented: ORS 537.332 - 537.360

History:

WRD 4-2006, f. & cert. ef. 10-2-06
 WRD 8-2001, f. & cert. ef. 12-14-01
 WRD 1-1996, f. & cert. ef. 1-31-96
 WRD 5-1995(Temp), f. & cert. ef. 8-4-95
 WRD 1-1995, f. & cert. ef. 2-14-95
 WRD 9-1992, f. & cert. ef. 7-1-92
 WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to specify that the boundaries for an instream water right cannot extend beyond the State of Oregon's borders.

690-077-0010**Definitions**

As used in this Division:

- (1) "Affected Local Government" means any local government, as defined in OAR 690-005-0015, within whose jurisdiction the diversion, conveyance, instream or out-of-stream use, or reservation of water is proposed or established.
- (2) "Agency" means ODFW, DEQ and Parks.
- (3) "Beneficial Use" ~~means the reasonably efficient use of water without waste for a purpose consistent with the laws, rules and the best interests of the people of the state~~ has the same meaning as the term in OAR 690-300-0010.
- (4) "Comment" means a written statement concerning a particular application. The comment may identify elements of the application which, in the opinion of the commenter, would conflict with an existing water right or would impair or be detrimental to the public interest.
- (5) "Commission" means the Water Resources Commission.
- (6) "Contested Case" ~~has the same meaning as the term in OAR 690-300-0010, means a hearing as defined in ORS 183.310(2) and conducted according to the procedures described in ORS Chapter 537, 183.413 to 183.470 and OAR chapter 690, division 2.~~
- (7) "DEQ" means the Department of Environmental Quality.
- (8) "Department" means the Water Resources Department.
- (9) "Director" means the director of the Water Resources Department.
- (10) "District" means an irrigation district formed under ORS 545, a drainage district formed under ORS 547, a water improvement district formed under ORS 552, a water control district formed under ORS 553, or a corporation formed under ORS 554.
- (11) "District Water User" means, for the purposes of instream leases involving a district, the owner of land who is subject to the charges or assessments of a district and from whose land the appurtenant water right would be leased upstream.

(120) "Estimated Average Natural Flow" means average natural flow estimates, by month or half month, computed by the Department using sources including and derived from watermaster distribution records, Department measurement records, and/or application of appropriate available scientific and hydrologic technology.

(134) "Held in Trust by the Water Resources Department" means that the water right must be enforced and protected for the public uses listed in the water right. Actions by the Department affecting instream water rights are limited by public trust obligations.

(142) "Instream" as defined in ORS 537.332, means within the natural stream channel or lake bed or place where water naturally flows or occurs.

(153) "Instream flow" means the minimum quantity of water necessary to support the public use requested by an agency.

(164) "Instream lease" means the conversion of all or a portion of an existing water use subject to transfer to an instream water right for a specified time-period as authorized by ORS 537.348(2).

(175) "Instream transfer" means the conversion of all or a portion of an existing water use subject to transfer to an instream water right as authorized by ORS 537.348(1).

(186) "Instream Water Right" as defined in ORS 537.332, means a water right held in trust by the Water Resources Department for the benefit of the people of the state of Oregon to maintain water instream for public use. An instream water right does not require a diversion or any other means of physical control over the water.

(19) "Living Certificate" means a water right certificate for an irrigation district against which reductions and adjustments resulting from numerous water right transactions are tracked over time and later incorporated into a superseding water right certificate when the Department determines it is necessary for record keeping purposes.

(20197) "Minimum Streamflow" also "minimum perennial streamflow," means an administrative rule provision adopted in a basin program by the Water Resources Commission or its predecessors to implement ORS 536.235 and, 536.310(7) and 536.325 and support aquatic life, maintain recreation or minimize pollution.

(21048) "Multipurpose Storage Project" means any storage project which is designed and operated to provide significant public benefits and provides for ~~more than two~~ or more beneficial uses and/or purposes.

(22119) "ODFW" means the Oregon Department of Fish and Wildlife.

~~(20) "ODFW flow restoration priority watershed" means a geographic area identified by ODFW where there is a need for flow restoration during a specified season(s) to support fish recovery under the Oregon Plan for Salmon and Watersheds. The ODFW flow restoration priority watersheds are identified in Figures 1 to 18.~~

(2324) "Parks" means the Oregon Parks and Recreation Department.

~~(22) "Planned" means a determination has been made for a specific course of action either by legislative, administrative or budgetary action of a public body, or by engineering, design work, or other investment toward approved construction by the public or private sector.~~

~~(23) "Planned Uses" means the use or uses of water or land which has/have been planned as defined in this rule. Such uses include but are not limited to the policies, provisions, and maps contained in acknowledged city or county comprehensive plans and land use regulations.~~

(24) "Pollution Abatement" means the use of water to dilute, transport or prevent pollution.

(25) "Protest" means a written statement, filed in accordance with Or. Laws, Chapter 575 (2025), , OAR chapter 690, division 2, and the applicable provisions of this division or division 380, expressing disagreement with an action or proposed action by the Department that, under applicable law, may entitle the person filing the protest to become a party to a contested case hearing has the same meaning of the term in OAR 690-002-0010.

(26) "Public Benefit," as defined in ORS 537.332, means a benefit that accrues to the public at large rather than to a person, a small group of persons or to a private enterprise.

(27) "Public Use," as defined in ORS 537.332, includes but is not limited to:

(a) Recreation;

(b) Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and any other ecological values;

(c) Pollution abatement; or

(d) Navigation.

(28) "Recreation" as a public use of water means any form of play relaxation, or amusement, mostly done during leisure, that occurs in or in conjunction with streams, lakes and reservoirs, including but not limited to boating, fishing, swimming, wading, and viewing scenic attractions.

(29) "Scenic Attraction" means a picturesque natural feature or setting of a lake or stream, including but not limited to waterfalls, rapids, pools, springs, wetlands and islands that create viewer interest, fascination, admiration or attention.

(2930) "Secondary Water Right" means a water right to put stored water stored under a storage right to an out-of-reservoir beneficial use.

(31) "Split Season Use" means the exercise of an existing water right in the same season defined by the water right in the same calendar year for both the existing purpose of the water right and for an instream purpose, provided that water is not used for the existing purpose during the period in which the water is to be protected instream.

(32) "Time-Limited Instream Transfer," means an instream transfer authorized under ORS 537.348(1) that is not permanent and under which the existing water right will revert back to its original use:

(a) Without further action by the Department at the end of the period of time specified in the final order approving the instream transfer; or

(b) On a determination by the Department that other conditions, specified in the final order approving the instream transfer, for termination have been met.

(3~~32~~) "Unappropriated Water Available" means water that exceeds the quantities required to meet existing water rights of record, minimum streamflows and instream water rights and for known and yet to be quantified Native American treaty rights.

(3~~43~~) "Water Purveyor" means any entity including, but not limited to, a public utility, a mutual water company, a county service district, a water cooperative, or a municipality or quasi-municipality that delivers water to customers~~formed for the purpose of delivering water supply to water right holders.~~

(3~~54~~) "Water quality limited" has the meaning provided in the OAR 340-041-0002.

(3~~65~~) "Water-related entities identified by the Special Districts Association of Oregon" means a list of relevant water-related special districts under ORS 198.010 or 198.180-identified by the Special Districts Association of Oregon within the administrative basin that ODFW is proposing to file an instream water right application.

 WRD 12-1990, f. & cert. ef. 8-8-90
 WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to (a) modify the definition of "beneficial use" and "contested case" to refer to the definitions in Division 300; (b) modify the definition of "multipurpose storage project" to require "two or more" beneficial uses and/or purposes instead of "more than two," consistent with the definition of multipurpose in Merriam Webster and the definition of "multipurpose project" in Chapter 690, Division 90; (c) remove the definition of "ODFW flow restoration priority watershed" because the only rule the phrase appeared in (OAR 690-077-0015(5)) is proposed for removal; (d) remove the definitions of "planned" and "planned uses" because those terms do not appear in Division 77 rules nor in the governing statutes; and (e) update the definition of "Protest" to reference the definition of protest in OAR Chapter 690, Division 2. The rule also is amended to (a) add definitions for "district" and "district water user"; and "living certificate"; modify the definition of "Estimated Average Natural Flow" to reflect

that it is determined by month or half month, which is consistent with existing practice, and to clarify sources of information and responsibility to compute; (c) add a definition of “secondary water right”; (d) modify the definition of “water purveyor” to identify all types of owners or operators of public water systems which deliver water to customers; and (e) add a definition for “water-related entities identified by the Special Districts Association of Oregon.”

690-077-0015

General Statements

(1) Instream water rights shall not take away or impair any permitted, certificated or decreed right to any waters or to the use of any rights vested prior to the date of the instream water right.

(2) The implementation of the instream water rights law is a means of achieving an equitable allocation of water between instream public uses and other water uses. When instream water rights are set at levels that exceed current unappropriated water available the water right not only protects remaining supplies from future appropriation but establishes a management objective for achieving the amounts of instream flows necessary to support the identified public uses.

(3) The amount of appropriation for out-of-stream purposes shall not be a factor in determining the amount of an instream water right.

(4) For state agency instream water right applications only, if natural streamflow or natural lake levels are the source for meeting instream water rights, the amount allowed during any identified time period for the water right shall not exceed the estimated average natural flow or level occurring from the drainage system, except where periodic flows that exceed the natural flow or level are significant for the applied public use. An example of such an exception would be high flow events that allow for fish passage or migration over obstacles.

~~(5) Unless the Director determines otherwise, for instream water rights established through instream transfers, leases, or allocations of conserved water, it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant for the applied public use, if the criteria in Subsection (5)(a) and (b), or in Subsection (5)(a) and (c) are met:~~

~~(a) The flow does not exceed the maximum amount of any instream water right application applied for under OAR 690-077-0020 for the same reach or portion thereof, and for the same public use.~~

~~(b) For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed.~~

~~(c) The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality.~~

(6) If the source of water for an instream water right is other than natural flow such as storage releases or inter-basin transfer, the source shall be developed or a permit for development approved prior to or coincident in priority with the instream water right. The development of environmentally sound multipurpose storage projects that will provide instream water use along with other beneficial uses shall be supported.

(76) Instream water rights in rivers and streams shall, insofar as practical, be defined by reaches of the river rather than points on the river.

(87) When instream water rights are established through instream transfers, leases, or allocations of conserved water of existing water rights, the order, and, where appropriate, the certificate shall define the appropriate point, reach or reaches to which the new instream water right shall apply. Normally, a new instream water right shall be maintained downstream to the mouth of the affected stream; however, it may be maintained farther downstream if the amount of the instream water right is a measurable portion of the flow in the receiving stream or for a point or shorter distance if needed to account for return flow or to prevent injury.

(98) Instream water rights applications shall conform with state statutes and basin programs. All natural lakes and streams in the state shall be considered classified to allow all instream public uses, ~~unless specifically withdrawn from appropriation for such use. Any withdrawal rule or order does not withdraw a natural lake or stream for instream public uses unless a) the rule or order specifically states that it is prohibiting instream public uses or b) the withdrawal is for the exclusive use of a municipality.~~

(109) State agency instream water right applications ~~Instream water rights~~ shall be approved only if the amount, timing and location serve a public use or uses.

(110) The combination of state agency requested instream water rights, for the same reach or lake, shall not exceed the amount needed to provide increased public benefits and shall be consistent with Sections (4) and, (5), ~~and (6)~~ of this rule.

(121) An instream water right created through the conversion of a minimum perennial streamflow shall not take precedence over any rights having an earlier priority date, including storage rights except where an individual permit or water right specifies that it shall be subordinate to future uses or appropriations.

(1312) An instream water right created through the conversion of a minimum perennial streamflow, which consists in whole or part of waters released from storage, is enforceable only as to the waters released to satisfy the instream water right.

(1413) Instream water rights created through the conversion of minimum perennial streamflows shall carry with them any and all conditions, exceptions or exemptions attached to the minimum perennial streamflow, unless modified through hearing.

Statutory/Other Authority: ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338 & 537.356 - 537.358

Statutes/Other Implemented: ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338, 537.356 & 537.358

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 1-1995, f. & cert. ef. 2-14-95

WRD 9-1992, f. & cert. ef. 7-1-92

WRD 4-1989, f. & cert. ef. 7-11-89

WRD 1-1989(Temp), f. & cert. ef. 1-24-89

WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to remove language that is not consistent with statute and to make clear which rules only apply to state agency instream water right applications. In regard to estimated natural average natural flow (ENAF), ORS 537.343(2) provides the Department authority to make the final determination of the level of instream flow necessary to protect the public use(s) identified in a state-agency instream water right application, which is the basis for the limitation in OAR 690-077-0015(4), (9) and (10). However, the Department has not identified a similar statutory basis to use ENAF to limit the amount of water that can be converted by instream transfers, leases or allocations of conserved water under OAR 690-077-0015(5). The rule amendment clarifies that flow limitations only apply to state agency instream water right applications and also clarifies an existing rule with the Department's interpretation of when a withdrawal applies to state agency instream water right applications.

690-077-0019

State Agency Instream Water Right Applications: Process for Instream Water Right Certificate Requests

(1) Except as provided in ORS 537.343, the Department shall process a request received under 537.336 for a certificate for an instream water right in accordance with the provisions for obtaining a permit to appropriate water under 537.140 to 537.250, and the policies under 537.332 to 537.360.

~~(2) Nothing in ORS 183.310 to 183.550 shall be construed to allow additional persons to participate in the process. To the extent that any provision in 183.310 to 183.550 conflicts with a provision in 537.120 to 537.360, the provisions in 537.120 to 537.360 shall control.~~

~~(23)~~ Pursuant to Section 46, Chapter 416, Oregon Laws 1995, for each application described under OAR 690-077-0000 that was pending or filed with the Commission or the Department on June 30, 1995, the Department shall determine an appropriate step in the process established in Chapter 416, Oregon Laws 1995 and this division at which to continue the application process for the application. The definitions and provisions of this division shall be applied as appropriate, to reflect the step determined by the Department.

Statutory/Other Authority: ORS 536.025, 536.027, 537.140 - 537.250 & 537.332 - 537.360

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 575

History:

WRD 4-2006, f. & cert .ef. 10-2-06

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule amendment deletes subsection 2 of this rule because the statutory authority for subsection 2 is repealed by Or Laws 2025, ch 575, section 4.

690-077-0020

State Agency Instream Water Right Applications: Application Requirements

(1) Only ODFW, DEQ and Parks are authorized to submit applications to the Department to establish instream water rights. Applications may be submitted at any time.

(2) To promote coordination, ODFW, DEQ and Parks shall notify each other of the proposed applications prior to submittal to the Department. The applying agency should notify the other agencies of its intent to develop an instream water right application on a specified stream or lake. Notice should be given as early as possible and the other agencies should respond as soon as possible if they would like to incorporate the public uses each is responsible for into the application.

(3) Prior to filing an instream water right application or batch of instream water right applications with the Department, ODFW shall provide the Special Districts Association of Oregon a list of administrative basins and counties in which the proposed instream water right(s) is located and request a list of water-related entities identified by the Special Districts Association of Oregon, their points of contact, and an email address for each point of contact. Upon receipt of the request, the Special Districts Association of Oregon shall have 14 days to provide the requested information to ODFW. ODFW shall then coordinate with the Special Districts Association of Oregon to identify entities on the list that may be affected and notify only those potentially affected water-related entities of the intent to file the instream water right application(s) prior to filing the application(s) with the Department.

~~(34)~~ After October 28, 1989, all applications for instream water rights shall be based on methods of determining instream flow needs that have been approved by administrative rule of the agencies submitting the applications.

~~(45)~~ Applications to establish instream water rights shall be submitted in writing by hard copy or electronic transmittal and shall include the following:

- (a) The name(s) and address(es) of the agency(ies) applying;
- (b) The public uses to be served by the requested instream water right and the flows necessary to support the public uses;
- (c) Stream or lake name;
- (d) If a stream, the reach delineated by river mile and stream to which it is tributary;
- ~~(e) The appropriate section of a Department basin map with the applicable lake or stream reach identified;~~ A map that includes, at a minimum, the following information:
 - (A) The applicable lake or stream reach by river mile,
 - (B) The upstream and downstream points identified by latitude and longitude, as established by a global positioning system or within a geographic information system;
 - (C) The township(s), range(s), and section(s) and quarter quarters that cover the requested reach, along with the quarter quarters for the upstream and downstream points of the requested reach;
 - (D) A north arrow; and

(E) An identified scale.

(f) The instream flow requested by month or half month ~~and year~~ in cubic feet per second or acre-feet or lake elevation;

(g) A description of the technical data and methods used to determine the requested amounts;

(h) Evidence of notification of other qualified applicant agencies;

(i) If a multi-agency request, the amounts and times requested for each category of public use;

(j) Identification of affected local governments (pursuant to OAR 690-077-0010) and copies of ~~letters notifying~~ notification to each affected local government of the intent to file the instream water right application;

(k) For an application filed by ODFW, either independently or in coordination with DEQ or Parks, the list of water-related entities identified by the Special Districts Association of Oregon (pursuant to OAR 690-077-0010) that were notified by ODFW under (3) of this section;

~~(k)~~ Written ~~d~~ Documentation of how the agency applying for an instream water right has complied with the requirements contained in its own administrative rules for instream water rights, including application of the required methods to determine the requested flows.

~~(lm)~~ Any other information required in the application form that is necessary to evaluate the application in accordance with applicable statutory requirements.

~~(56)~~ The applicant is encouraged to propose:

(a) A means and location for measuring the instream water right;

(b) The strategy and responsibility for monitoring flows for the instream right; and

(c) Any provisions needed for managing the water right to protect the public uses.

~~(67)~~ Any request for an instream water right to be supplied from stored water shall refer to the reservoir for a supply of water and shall show by documentary evidence that an agreement has been entered into with the owners of the reservoir for a sufficient interest in the reservoir to impound enough water for the purposes set forth in the request.

~~(78)~~ Within 60 days after the applicant notifies the Department to ~~proceeds~~ with the application under as provided in OAR 690-077-0031, the Department shall complete the application review and issue a proposed final order approving or denying the application or approving the application with modifications or conditions. ~~Within the 60-day period, t~~ The Department may request the applicant to provide additional information needed to complete the review. If the Department requests additional information, the request shall be specific and shall be sent to the applicant by electronic means, unless the applicant has requested mailing or other sending in written form, by registered mail. The Department shall specify a date by which the information must be returned, which shall be not less than 10 days after the Department mails the request to the applicant. If the Department does not receive the information or a request for a time extension under 690-077-0052(2) by the date specified in the request, the Department may reject

the application. The time period specified by the Department in a request for additional information shall allow the Department to comply with the 60-day time limit established by this Section.

Statutory/Other Authority: ORS 197, 536.025, 536.027, 537.153, 536.220, 536.300, 536.310, 537.336, 537.338 & 537.356 - 537.358

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 282

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

WRD 9-1992, f. & cert. ef. 7-1-92

WRD 12-1990, f. & cert. ef. 8-8-90

WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to (a) put into rule an existing process for notifying water-related entities identified by the Special Districts Association of Oregon; (b) clarify that the Department interprets application submittal “in writing” to be either hard copy or electronic transmittal; (c) implement electronic documentation requirements under Or Laws 2025, ch 282, as well as the phased application processing approach requiring notification to continue processing; (d) require that the map contain elements that would make the map more useful for the public to orient themselves with where the stream reach is located in the state and to provide the Department watermasters clarity on the locations of the upstream and downstream points; and (e) require the application to contain the instream flow requested by month or half month consistent with existing practice.

690-077-0027

Application Processing: Completeness Review

(1) Within 15 days after receiving an application, the Department shall determine whether the application contains the information required under OAR 690-077-0020(4) and is complete and not defective. If the Department determines that the application is incomplete or defective, the Department shall return the application.

(2) Upon determining that an application contains the information listed under OAR 690-077-0020(4) and is complete and not defective, the Department shall endorse on the application the date upon which the application was received for filing at the Department, which shall be the priority date for any water right issued in response to the application. All applications that comply with the provisions of law shall be recorded in a suitable book kept for that purpose. For the purposes of this section, a suitable book shall include the Department’s electronic water rights information system.

(3) If an application is complete and not defective, the Department shall determine whether the proposed use is prohibited because the source of water is specifically withdrawn from appropriation for such use under ORS 538 or by rule or order of the Water Resources

Commission under ORS 536.410, if the Department has information sufficient to make the determination at the time of application intake. by ORS Chapter 538. If the proposed use is prohibited, ~~by ORS Chapter 538,~~ the Department shall ~~reject the application and~~ return the application with an explanation of the ~~statutory prohibition~~reason for the return.

Statutory/Other Authority: ORS 537.150 & 538

Statutes/Other Implemented: ORS 537.332 - 537.360, ORS 536.410

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to (a) explain what a suitable book is and (b) implement Or Laws 2025, ch 282, section 14, returning applications that cannot be approved because it is within a withdrawn area.

690-077-0029

Application Processing: Initial Review

(1) If the proposed use is not prohibited as described in 690-077-0027(3)~~by statute,~~ the Department shall undertake an initial review of the application and make a preliminary determination of:

- (a) Whether the proposed use is restricted or limited by statute or rule;
- (b) The extent to which water is available from the proposed source during the times and in the amounts requested; and
- (c) Any other issue the Department identifies as a result of the initial review that may preclude approval of or restrict the proposed use.

(2) Upon completion of the initial review and no later than 30 days after determining an application to be complete and not defective as described in OAR 690-077-0027, the Department shall send the applicant by electronic means, unless the applicant has requested mailing or other sending in written form regular mail, or with the consent of the recipient, by electronic means to the applicant an initial review report setting forth the Department's preliminary determinations. ~~and allow~~ The applicant shall have 14-90 days from the date the Department sends the initial review report within which to notify the Department in writing to stop processing the application or to proceed with the application. Given that state-agency instream water right applications may be submitted in batches, a single communication can suffice for more than one application in the batch if the communication specifies which applications the applicant would like the Department to continue processing. If the applicant notifies the Department to stop processing the application or; does not notify the Department whether to proceed with processing the application, the Department shall close the application file and take no further action on the application. ~~return the application. If the Department receives no timely response from the applicant, the Department shall proceed with the review of the application.~~

Statutory/Other Authority: ORS 536.025, 536.027, 537.150 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 282.

History:

WRD 1-2012, f 1-31-12, cert. ef. 2-1-12

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to (a) reference the section of the Division 77 rules implementing Or Laws 2025, ch 282, section 14 (returning applications that cannot be approved); (b) implement electronic documentation requirements under Or Laws 2025, ch 282, section 2; (c) implement Or Laws 2025, ch 282, section 14 requiring affirmative confirmation within 90 days of initial review for OWRD to continue processing an application; and (d) explicitly state that a single communication can suffice for more than one application in a batch of state instream water right applications if the communication specifies which applications the applicant would like the Department to continue processing.

690-077-0031

Application Processing: Public Notice and Comments

(1) If the applicant notifies the Department to proceed with the application as provided in OAR 690-077-0029(2), the Department shall proceed with processing the application. The Department shall give notice of the initial review in the weekly public notice of the Department and accept written public comments for 30 days. Within seven days after proceeding with the application under OAR 690-077-0029(2), the Department shall give public notice of the application in the weekly notice published by the Department. The weekly notice shall be sent to the following:

(a) Affected local, state and federal agencies, including the planning departments of affected local governments ~~with a request that a copy of said notice be posted in a conspicuous location in the county courthouse;~~

(b) Affected Indian Tribes; and

(c) All persons on the Department's weekly mailing list.

(2) The notice shall include a request for comments on the application, the date by which comments must be received by the Department, and information about how an interested person may obtain future notices about the application and a copy of the proposed final order. The notice also shall include the following information about the application:

(a) The name(s) and address(es) of the applicant agency(ies);

(b) County(ies) of water use;

(c) Application file number;

(d) Description of the characteristics and the purpose of the proposed instream water right;

(e) Amount of proposed instream water right by month or half month in cubic feet per second (cfs), acre feet (af), or lake elevation;

(f) Common name of surface water source(s); and

(g) The stream reach by mile or geographic location.

(3) The notice shall be sent by electronic means, unless the applicant has requested mailing or other sending of the document in written form, regular United States mail, or with the consent of the recipient, by electronic means.

(4) Within 30 days after the public notice under Section (1) of this rule, any person interested in the application shall submit written comments to the Department. Any person who asks to receive a copy of the Department's proposed final order shall submit to the Department the fee required under ORS 536.050. The 30-day comment period shall commence on the day the Department sends the notice. All comments must be received by the Department on or before 5 p.m. on the last day ~~the end~~ of the 30-day comment period.

~~(5) If no comments or land use information is received by the Department within the 30-day comment period, the Commission and Director may presume the proposed instream water right is compatible with the comprehensive land use plans and land use regulations of affected local governments.~~

Statutory/Other Authority: ORS 536.025, 536.027, 536.220, 537.140 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, Or. Laws, Chapter 282 (2025)

History:

WRD 1-2012, f 1-31-12, cert. ef. 2-1-12

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96, Renumbered from 690-077-0024

WRD 5-1995(Temp), f. & cert. ef. 8-4-95

WRD 9-1992, f. & cert. ef. 7-1-92

Rule Summary: This rule is amended to (a) implement electronic documentation requirements under Or. Laws, Chapter 282 (2025) section 2, as well as issuance of an initial review.; (b) remove the request for affected local, state and federal agencies to post a copy of the Department's weekly public notice, given that all members of the public can access the Department's weekly public notice online; and (c) remove provisions allowing the Department to, in the absence of the necessary land use information, presume that the proposed use is compatible with the comprehensive land use plans and land use regulations of affected local governments, because it does not comply with the Department's obligations under ORS 197.180 and it is inefficient to not receive the required land use information at the time of water right application submittal.

690-077-0033

Application Processing: Public Interest Presumption

(1) The Department shall presume that a proposed water use will not impair or be detrimental to the public interest if:

(a) The proposed use is allowed in the applicable basin program established pursuant to ORS 536.300 and 536.340 or given a preference under 536.310(12);

(b) Water is available;

(c) The proposed use will not injure other water rights; and

(d) The proposed use complies with the rules of the Commission.

(2) The public interest presumption described in Section (1) of this rule is a rebuttable presumption and may be overcome by a preponderance of the evidence that either:

(a) One or more of the criteria for establishing the public interest presumption are not satisfied; or

(b) The proposed use will impair or be detrimental to the public interest as demonstrated in comments, protests or a finding of the Department that shows:

(A) The specific public interest under ORS 537.170(78) that would be impaired or detrimentally affected; and

(B) Specifically how the identified public interest would be impaired or detrimentally affected.

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to update a statutory reference based on Or Laws 2025, ch 575, section 6's amendment of ORS 537.170.

690-077-0037

Application Processing: Public Interest Review

(1) ~~Unless the applicant requests withdrawal of an application following the initial review described in OAR 690-077-0029, b~~ Before issuing a proposed final order, the Department shall determine whether the public interest presumption is established for the proposed water use, as described in 690-077-0033.

(2) If the Department determines that the public interest presumption is not established, the Department shall determine whether the proposed use will impair or be detrimental to the public interest considering the factors listed in ORS 537.170(78) and may either:

(a) Propose denial of the application upon a finding that the use will impair or be detrimental to the public interest; or

(b) Make specific findings to demonstrate that even though the presumption is not established, the proposed use will not impair or be detrimental to the public interest and propose approval of the application with appropriate modifications or conditions.

(3) If the Department determines that the public interest presumption is established or that the proposed instream use can be modified or conditioned to meet the public interest presumption criteria:

(a) The Department shall further evaluate the proposed use, any comments received, information available in its files or received from other interested agencies and any other available information to determine whether the public interest presumption is overcome. The Department may find that the presumption is overcome if a preponderance of evidence shows that the proposed use will impair or be detrimental to the public interest as demonstrated in comments or a finding of the Department that shows:

(A) The specific public interest under ORS 537.170(78) that would be impaired or detrimentally affected; and

(B) Specifically how the identified public interest would be impaired or detrimentally affected.

(b) In making any determination or finding in (3)(a) of this rule, the Department shall, at a minimum, consider the factors listed below, including any potential effects that the proposed use may have on these factors, where applicable:

(A) Threatened, endangered or sensitive species;

(B) Water quality, with special attention to sources either listed as water quality limited or for which total maximum daily loads have been set under Section 303(d) of the federal Clean Water Act and sources which the Environmental Quality Commission has classified as outstanding resource waters as defined in OAR 340-041-0002(42);

(C) Fish or wildlife;

(D) Recreation;

(E) Economic development; and

(F) Local comprehensive plans, including supporting provisions such as public facilities plans.

(c) In making any determination or finding in (3)(a) of this rule, the Department may consult and communicate with state and federal agencies and local governments as appropriate.

(4) If the Department determines that the presumption is established and not overcome under the provisions of Section (3) of this rule, the Department shall issue a proposed final order recommending issuance of the certificate subject to any appropriate modifications or conditions. If the Department then receives a protest filed pursuant to OAR 690-077-0043, which asserts the presumption is not established or should be overcome, the Department shall evaluate the protest and supporting evidence in accordance with this Section and Sections (5)–(67) of this rule. The

Department shall find that the public interest presumption is overcome if a preponderance of evidence shows that:

(a) One or more of the four public interest presumption criteria listed in OAR 690-077-0033(1)(a)–(d) are not met;

(b) The proposed use may impair or be detrimental to the public interest according to standards described in ORS 537.170(78), including:

(A) The specific public interest under ORS 537.170(78) that would be impaired or detrimentally affected; and

(B) Specifically how the identified public interest would be impaired or detrimentally affected.

(5) If the Department finds that under Section (4) of this rule the presumption is overcome, the Department shall issue a final order in accordance with OAR 690-077-0047 denying the application unless the Department makes specific findings to demonstrate that considering all of the public interest factors listed in ORS 537.170(78) the issuance of an instream water right certificate will not impair or be detrimental to the public interest.

(6) If the Department finds that under Section (4) of this rule the presumption is not overcome, the Department shall issue a final order in accordance with OAR 690-077-0047 approving the application with any appropriate modifications or conditions.

~~(7) If the Director finds that a significant dispute about the proposed water use related to the public interest exists and a protest has been filed under OAR 690-077-0043, the Director shall schedule a contested case hearing.~~

Statutory/Other Authority: ORS 536.025, 536.027, 537.153 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to (a) remove provisions referring to application withdrawal after the initial review to simplify the rule, as this process is already established in OAR 690-077-0029; (b) remove a dated reference to a subsection of a rule; (c) remove the provisions related to protests that have been moved to OAR 690-077-0043; and (d) update citations to ORS 537.170(8) consistent with statutory renumbering.

690-077-0039

Application Processing: Proposed Final Order

(1) In developing the proposed final order, the Department shall consider all comments received under OAR 690-077-0031 and all findings of the Department, but the proposed final order need not separately address each comment received.

(2) The proposed final order shall cite findings of fact and conclusions of law and shall include but need not be limited to:

- (a) Confirmation or modification of the preliminary determinations made in the initial review;
- (b) A brief statement that explains the criteria considered relevant to the decision, including the applicable basin program and the compatibility of the proposed use with applicable land use plans;
- (c) An assessment of water availability and the amount of water necessary for the proposed use;
- (d) An assessment of whether the proposed use would result in injury to existing water rights;
- (e) An assessment of whether the proposed use would impair or be detrimental to the public interest as provided in ORS 537.170;
- (f) A draft certificate, including any proposed modifications, conditions, or a recommendation to deny the application;
- (g) Whether the rebuttable presumption that the proposed use will not impair or be detrimental to the public interest has been established; and
- (h) The dates by which protests to the proposed final order and requests for party status must be received by the Department.

(3) The Department shall send copies of the proposed final order to the applicant by registered or certified mail, by regular mail, or with the consent of the recipient, by electronic means. The Department shall send copies of the proposed final order by electronic means, unless the recipient requests mailing, regular mail to persons other than the applicant who have requested copies and paid the fee required under ORS 536.050.

(4) Within seven days after issuing the proposed final order, the Department shall publish notice of the proposed final order by publication in the weekly notice published by the Department. ~~In addition to the information required to be published for an application under OAR 690-077-0031, the notice of the proposed final order also shall include a brief explanation of the requirement to raise all issues under OAR 690-077-0043(4).~~

Statutory/Other Authority: ORS 536.025, 536.027, 537.153 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 575, Or Laws 2025, ch 282, ORS 183.415

History:

WRD 1-2012, f 1-31-12, cert. ef. 2-1-12

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to (a) implement Or Laws 2025, ch 575, sections 3a and 5a with respect to the replacement of requests for standing with requests for party status; (b) remove redundant language requiring notice of the proposed final order to include an explanation

of the requirement to raise all issues in a protest, as notice of that requirement is required by ORS 183.415(3)(a); (c) reflect that, under ORS 183.415(2), the Department must send the proposed final order to the applicant by certified or registered mail; and (d) implement Or Laws 2025, ch 282, by allowing the Department to send copies of the proposed final order electronically to persons other than the applicant.

690-077-0043

Application Processing: Protests and Conduct of Contested Case; Final Orders on Default when No Protest Filed and Standing

(1) Protests of, requests for party status, and contested case proceedings concerning proposed final orders are governed by Or Laws 2025, ch 575 and OAR Chapter 690, Division 002. Proposed final orders shall become final orders if no protest is filed or by default as provided in OAR 690-002-0235.

(2) Within 60 days after the close of the period for receiving protests, if a protest was timely submitted, the Department shall:

(a) Issue a final order as provided under ORS 537.170 (1) or (2), if the applicant has not filed a protest and the director finds that there are no significant issues related to the proposed use of water;

(b) Schedule a contested case hearing if a protest has been submitted; or

(c) Provide any person who timely submitted a protest or request for party status with an estimate of the timing of referring the contested case to the Office of Administrative Hearings for a hearing and notice that parties may provide settlement proposals.

~~(1) Any person may submit a protest against a proposed final order. A protest shall be in writing and shall include:~~

~~(a) The name, address and telephone number of the protestant;~~

~~(b) A description of the protestant's interest in the proposed final order and, if the protestant claims to represent the public interest, a precise statement of the public interest represented;~~

~~(c) A detailed description of how the action proposed in the proposed final order would impair or be detrimental to the protestant's interest;~~

~~(d) A detailed description of how the proposed final order is in error or deficient and how to correct the alleged error or deficiency;~~

~~(e) Any citation of legal authority supporting the protest, if known; and~~

~~(f) For persons other than the applicant, the protest fee required under ORS 536.050.~~

~~(2) Any person who supports a proposed final order may request standing for purposes of participating in any contested case proceeding on the proposed final order or for judicial review of a final order, whether issued following a contested case hearing or where no contested case hearing is held.~~

~~(3) The request for standing must be in writing, signed by the requester, and include the following:~~

~~(a) The requester's name, mailing address and telephone number;~~

~~(b) If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;~~

~~(c) A statement that the requester supports the proposed final order as issued;~~

~~(d) A detailed statement of how the requester would be harmed if the proposed final order is modified; and~~

~~(e) The fee established under ORS 536.050.~~

~~(4) Each person submitting a protest or a request for standing shall raise all reasonably ascertainable issues and submit all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably ascertainable issue in a protest or in a hearing, or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue, precludes judicial review based on that issue.~~

~~(5) Any person who has filed a timely request for standing may later file a petition for participation as a party or limited party in any contested case hearing subsequently held on the matter for which standing was requested, in the manner described in OAR 690-002-0105.~~

~~(6) Requests for standing and protests on the proposed final order shall be submitted within 45 days after publication of the notice of the proposed final order in the weekly notice published by the Department. Any person who asks to receive a copy of the Department's final order shall submit to the Department the fee required under ORS 536.050, unless the person has previously paid the fee.~~

~~(7) Within 10 days after the close of the filing period established under Section (6) of this rule, the Department shall send a copy of all protests and requests for standing received to the applicant, the protestant(s), if any, and to each person who requested standing.~~

Statutory/Other Authority: ORS 536.025, 536.027, 537.153 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 575.

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule amendment implements Or Laws 2025, ch 575, sections 3 and 5a by

(a) noting that protests of, **requests for party status**, and contested case proceedings concerning proposed final orders are governed by Or Laws 2025, ch 575, and OAR Chapter 690, Division 002; (b) removing rules concerning requirements for protests and requests for standing that have been replaced with rules in OAR Chapter 690, Division 002, that are consistent with Or Laws

2025, ch 575; and (c) describing the process that takes place after the protest deadline if a protest is submitted.

690-077-0046

~~Application Processing: Determination to Hold a Contested Case Hearing~~

~~(1) Within 60 days after the close of the period for receiving protests, the Director shall determine whether to:~~

~~(a) Issue a final order as provided under ORS 537.170(6); or~~

~~(b) Schedule a contested case hearing.~~

~~(2) The Director:~~

~~(a) May schedule a contested case hearing if:~~

~~(A) A protest has been submitted; and~~

~~(B) Upon review of the issues, the Director finds that there are significant disputes related to the proposed use of water.~~

~~(b) Shall schedule a contested case hearing, if within 30 days after the close of the period for submitting protests, the applicant submits the information required for a protest under OAR 690-077-0043 and requests a contested case hearing.~~

~~(3) As soon as possible after making a determination under Section (1) of this rule to refer an application to a contested case hearing, the Director shall advise the applicant, the protestant and any person requesting standing that the matter is being referred to contested case hearing, and describe the procedures each must follow to participate in the contested case hearing. Such notification to the participants shall not be considered the scheduling of the contested case hearing for purposes of the running of the 45 day time period under Section (4) of this rule.~~

~~(4) Within 45 days after the Director schedules a contested case hearing under ORS 537.153(8), the Department shall hold the contested case hearing, which shall be conducted in accordance with the provisions of 183.413 to 183.470 and OAR chapter 690, division 02. The issues to be considered in the contested case hearing shall be limited to issues identified by the hearings officer.~~

~~(5) Notwithstanding the provisions of ORS 183.413 to 183.470 pertaining to contested case proceedings, the parties to any contested case hearing initiated under this rule shall be limited to:~~

~~(a) The applicant;~~

~~(b) Any person who timely filed a protest; and~~

~~(c) Any person who timely filed a request for standing under OAR 690-077-0043 and who requests to participate as a party or limited party in the contested case hearing prior to the start of the proceeding.~~

~~(6) The contested case proceeding shall be conducted in accordance with the applicable provisions of ORS 183.413 to 183.470 except:~~

~~(a) As provided in Sections (4) and (5) of this rule; and~~

~~(b) An interlocutory appeal under ORS 183.480(3) shall not be allowed.~~

~~(6) After the conclusion of a contested case hearing, any party may file exceptions to the hearing officer's proposed order in the manner described in OAR 690-002-0175.~~

Statutory/Other Authority: ~~ORS 536.025, 536.027, 537.153, 537.170 & 537.338~~

Statutes/Other Implemented: ~~ORS 537.332 – 537.360~~

History:

~~WRD 4 2006, f. & cert. ef. 10-2-06~~

~~WRD 8 2001, f. & cert. ef. 12-14-01~~

~~WRD 1 1996, f. & cert. ef. 1-31-96~~

Rule Summary: This rule is repealed because (a) the provisions concerning the actions the Department must take within 60 days of the end of the protest period have been revised in accordance with Or Laws 2025, ch 575, section 5a and moved to OAR 690-077-0043; (b) Or Laws 2025, ch 575, section 6 repeals the statutory basis for subsections (4), (5), and (6)(a); (c) subsection (6)(b) is covered by ORS 537.170(4), as amended by Or Laws 2025, ch 575, section 5a; (d) OAR 690-002 addresses the right to file exceptions to administrative law judges' proposed orders; and (e) revised provisions regarding providing notice of referral for a contested case hearing are included in OAR 690-002.

690-077-0047

Application Processing: Final Orders

(1) In developing the final order, the Department shall consider all comments and protests received and all findings of the Department, but the final order need not separately address each comment and protest received.

(2) If a protest of a proposed final order issued under ORS 537.153 is timely filed and, after the contested case hearing or, if a hearing is not held, after the close of the period allowed to file a protest, the Director determines that the proposed use does not comply with the standards set forth in ORS 543.017 or rules adopted by the Water Resources Commission under 543.017 or would otherwise impair or be detrimental to the public interest, the Director shall issue a final order denying ~~rejecting~~ the application or modifying or conditioning the proposed final order to conform to the public interest.

(3) If a protest of a proposed final order issued under ORS 537.153 is timely filed and, after the contested case hearing or, if a hearing is not held, after the close of the period allowed to file a protest, the Director determines that the proposed use would not impair or be detrimental to the public interest, the Director shall issue a final order approving the application or otherwise modifying or conditioning the proposed final order.

(43) A final order issued under Section (2) or (3) of this rule for an instream water right certificate may include any condition the Director considers necessary, but which is consistent with the intent of ORS 537.332 to 537.360. The final order may:

- (a) Approve the instream water right application for the quantity of water requested;
- (b) Approve the instream water right application for a lesser quantity of water; or
- (c) Deny the instream water right application.

(54) If the Director reduces the quantity of water requested, denies the instream water right application, or conditions the instream water right, the Director shall include a statement of findings that sets forth the basis for the reduction, denial or conditions.

(65) Upon issuing a final order, or upon a proposed final order becoming a final order by default as provided in OAR 690-002-0235, the Director shall notify the applicant and each person who submitted written comments or protests or otherwise requested notice of the final order and send a copy of the final order to any person who requested a copy and paid the fee required under ORS 536.050. Within seven days after issuing the final order, the Department shall also publish notice of the final order by publication in the weekly notice published by the Department.

Statutory/Other Authority: ORS 536.025, 536.027, 537.170, 537.343 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, ORS 537.153, Or Laws 2025, ch 575

History:

WRD 4-2006, f. & cert .ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to implement (a) Or Laws 2025, ch 575, section 6 by aligning the rule with statutory updates to ORS 537.170; and (b) Or Laws 2025, ch 575, section 3 by making changes that reflect that the Director must issue a final order only when a protest is timely filed because under the new law, if no protest is timely filed, the proposed final order becomes a final order by operation of law.

690-077-0048

Application Processing: Final Public Interest Determination

If the presumption of public interest under OAR 690-077-0033 is overcome in the manner described in 690-077-0037, then before issuing a final order, the Director or the Commission, if applicable, shall make the final determination of whether the proposed use, or the proposed use as modified or conditioned in the proposed final order, would impair or be detrimental to the public interest by considering the factors set forth in ORS 537.170(78).

Statutory/Other Authority: ORS 536.025, 536.027, 537.170 & 537.338

WRD 20-1988, f. & cert. ef. 11-4-88

690-077-0051

Application Processing: Contested Case Hearing on Final Order that Modifies Proposed Final Order

If a timely protest of a proposed final order was filed by a person other than the applicant and, as described in ORS 537.153(7)(a), the director issues a final order without holding a contested case hearing, and the final order modifies the proposed final order, the applicant, a person granted party status or a protestant may submit a protest as provided in OAR 690-002-0220 within 14 days after the Director issues the final order. The issues on which a contested case hearing may be requested and conducted under this paragraph shall be limited to issues based on the modifications to the proposed final order. The department must refer the protest to the Office of Administrative Hearings for hearing if the protestant is an applicant, unless the applicant withdraws the protest or the protest is resolved through a settlement prior to referral.

~~If a contested case hearing is not held prior to the issuance of the final order:~~

~~(1) Where the final order modifies or conditions the proposed final order, the applicant may request and the Director shall schedule a contested case hearing as provided under OAR 690-077-0046 by submitting the information required for a protest under 690-077-0043 within 14 days after the Director issues the final order. The issues on which a contested case hearing may be requested and conducted under this paragraph shall be limited to issues based on the modifications or conditions to the proposed final order.~~

~~(2) Only the applicant or a protestant may appeal the provisions of the final order in the manner established in ORS 183.310 to 183.550 for appeal of order other than contested cases.~~

Statutory/Other Authority: ORS 536.025, 536.027, 537.170 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, ORS 537.153, Or Laws 2025, ch 575

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to: (a) implement Or Laws 2025, ch 575, section 6(5) by conforming the rule to updates to ORS 537.170 concerning final orders issued without a hearing that modify proposed final orders; and (b) to removes language from the rule that is based on portions of ORS 537.170 that are deleted by Or Laws 2025, ch 575, section 6.

690-077-0052

Application Processing: Time Requirements

(1) Except as provided in Section (2) of this rule, the Department shall issue a final order or schedule a contested case hearing on an application for a water right referred to in ORS 537.336 within 180 days after the Department proceeds with the application under OAR 690-077-0029(2).

(2) If the applicant requests an administrative hold on processing of the application, At the request of the applicant, the Department may extend the 180-day period set forth in Section (1) of this rule for a reasonable period of time. The cumulative length of extensions requested through administrative holds shall not exceed 180 days except upon a finding by the Director that a longer extension is reasonable and necessary for the applicant to engage in collaborative conversations with interested parties that provided public comment under OAR 690-077-0031(4), and the extension does not exceed two years.

~~(3) If a contested case hearing is held, the Director shall issue a final order:~~

~~(a) Within 270 days after scheduling the hearing for a contested case proceeding that involves three or more parties not including the Department; and~~

~~(b) Within 180 days after scheduling the hearing for all other contested case proceedings.~~

(34) If the applicant does not request an extension under Section (2) of this rule and the Department fails to issue a proposed final order or schedule a contested case hearing on an application for a water right within 180 days after the Department proceeds with the application under OAR 690-077-0029(2), the applicant may apply in the Circuit Court for Marion County for a writ of mandamus to compel the Director to issue a final order or schedule a contested case hearing on an application for a water right.

~~(45)~~ The mandatory timelines set forth in division 77 for the Department to process applications shall not apply to applications filed before October 31, 1996.

Statutory/Other Authority: ORS 536.025, 536.027, 537.175 & 537.338

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 575

History:

WRD 4-2006, f. & cert .ef. 10-2-06
 WRD 8-2001, f. & cert. ef. 12-14-01
 WRD 1-1996, f. & cert. ef. 1-31-96

Rule Summary: This rule is amended to provide parameters on what qualifies as a reasonable and necessary extension on the application processing timeline requested by the applicant through an administrative hold. This rule also is amended to implement Or Laws 2025, ch 575, section 7 by conforming the rule with updates to ORS 537.175 related to issuance of final order.

690-077-0053

Application Processing: Issuance of Instream Water Right Certificate

After the Director issues a final order approving an instream water right, the Department shall issue a certificate for an instream water right according to the provisions of ORS 537.341. The instream water right shall date from the filing of the application with the Commission. The certificate shall be in the name of the Department as trustee for the people of the State of Oregon and shall be issued by the Commission according to the procedures established under ORS 537.338. The Commission shall forward a copy of each certificate issued under this rule to the state agency requesting the instream water right. A certificate for an instream water right supplied by stored water shall refer to the reservoir described in the request filed under ORS 537.336.

Statutory/Other Authority: ORS 536.025, 536.027, 537.338 & 537.341

Statutes/Other Implemented: ORS 537.332 - 537.360

690-077-0054

Conversion of Minimum Perennial Streamflows to Instream Water Rights

~~(1) Within 21 days of the adoption of these rules, the Commission shall request publication in the Secretary of State's bulletin and shall mail to the appropriate Department mailing lists notice of proposed conversion, and a list of all existing minimum perennial streamflows established on any waters of this state prior to June 25, 1988 separated as follows:~~

- ~~(a) Those flows the Commission intends to convert without change to instream water rights;~~
- ~~(b) Those flows the Commission intends to condition with OAR 690-077-0015(12) and schedule a hearing before converting to instream water rights.~~

OWRD IS STILL REVIEWING SECTION 1 -PLACEHOLDER FOR TIE TO PRIOR WORK

(1) When the Department proposes to convert a minimum perennial streamflow to an in-stream water right under ORS 537.346, the Department shall issue a Proposed Final Order reflecting the proposed conversion.

~~(21) Any person or agency, including the Department, may request a contested case hearing on any of the conversions proposed within 60-45 days of publication in the Secretary of State's bulletin or the mailing of notice issuance of a Proposed Final Order.~~

~~(2) Protests of, requests for party status, and contested case proceedings concerning proposed final orders are governed by Or Laws 2025, ch 575 and OAR Chapter 690, Division 002. Proposed final orders shall become final orders if no protest is filed or by default as provided in OAR 690-002-0235.~~

~~(3) Within 60 days after the close of the period for receiving protests, if a protest was timely submitted, the Department shall:~~

~~(a) Issue a final order as provided under ORS 537.170 (1) or (2), if the director finds that there are no significant issues related to the proposed conversion;~~

~~(b) Schedule a contested case hearing if a protest has been submitted; or~~

~~(c) Provide any person who timely submitted a protest or request for party status with an estimate of the timing of referring the contested case to the Office of Administrative Hearings for a hearing and notice that parties may provide settlement proposals.~~

~~(34) A protest Requests for hearings shall be filed individually for specific minimum perennial streamflows and shall be substantiated by evidence that:~~

~~(a) The conversion will take away or impair permitted, certificated or decreed water rights to the same source of water and a statement of what conditions, if any, could be attached to the conversion to avoid the problems identified, or what clarifications are necessary;~~

~~(b) The existing minimum perennial streamflow is not for a public use or exceeds the amounts necessary for the public use; and/or~~

~~(c) The conversion from a minimum streamflow to an instream water right would not be in the public interest.~~

~~(4) The Director shall issue an instream water right certificate for all minimum streamflows where no complete request for hearing was received. These instream water rights shall contain the priority date of the minimum streamflow from which they were created.~~

~~(5) The Director shall review all requests for hearings. The person making the request shall bear the burden of establishing the need for a hearing. After completing this review, the Director shall recommend to the Commission:~~

~~(a) To approve the conversion; or~~

~~(b) To conduct a hearing under ORS 537.170.~~

~~(6) The Commission shall act on the Director's recommendation in accordance with OAR 690-077-0046.~~

Statutory/Other Authority: ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338 & 537.356 - 537.358

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2025, ch 575, sec. 2-3, 5a.

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1996, f. & cert. ef. 1-31-96, Renumbered from 690-077-0050

WRD 9-1992, f. & cert. ef. 7-1-92

WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to (a) remove the rule referencing a publication that would have occurred decades ago and is no longer part of future Department actions; (b) implement Or Laws 2025, ch 575, by adding procedures concerning actions the Department must take when a protest is timely filed, protests of requests for party status, and contested case proceedings concerning proposed final orders are governed OAR Chapter 690, Division 002, and that proposed final orders become final if no protest is filed or upon default; and (c) remove rules that have been superseded by these requirements.

690-077-0055

Disposition of Minimum Perennial Stream-flows

Following the conversion of a minimum streamflow, the Commission shall retain the original minimum streamflow until it determines through basin program amendment that no public benefit is derived by maintaining both an instream water right and a minimum streamflow.

690-077-0065

Instream Transfers and Leases: General Provisions

(1) The Department shall promote and facilitate potential instream transfers and leases under ORS 537.348 ~~that would to~~ provide benefits for public uses.

(2) The Department encourages ~~irrigation~~-districts and other water purveyors to ~~develop-prepare~~ single lease applications that pool individual existing water rights ~~and ownerships that are to be for~~ leased during the same term.

(3) Department personnel shall review ~~all~~ instream transfer or lease applications pursuant to OAR 690-077-0070 through OAR 690-077-0079, OAR 690-077-0105, and OAR 690-077-0110 to assure that they comply with these rules and, if possible~~needed~~, to develop conditions to prevent enlargement of the existing water ~~original~~-right or injury to other existing water rights ~~owners~~.

(4) Completed lease applications submitted pursuant to OAR 690-077-0076 and OAR 690-077-0105, including signatures of lessor(s) and lessee (if applicable), and all necessary attachments or exhibits, must be received by the Department's Salem office prior to July 1, or for year-around uses, must be received prior to October 1. Completed lease applications received after this date shall be returned or, at the request of the applicant, be processed to be effective for the next calendar year. At the discretion of the Director, an application may be received and processed after this date during the current year.

(5) The Department may compile descriptive information to assist all parties in addressing technical issues related to instream transfers and leases, including but not limited to describing injury and enlargement issues, ~~determining whether a proposed instream water right would support a public use~~, setting the location of a proposed instream water right and making agreements for measuring and monitoring the instream water right. The descriptive information shall not restrict new leases, but shall offer options that have been used in earlier leases to ensure compliance with OAR chapter 690, division 77.

(6) The Department may prepare lease application forms that include the requirements listed in OAR 690-077-0076(3), OAR 690-077-0105, and any additional information the Department deems necessary to comply with the policies of OAR chapter 690, division 77 and to reflect the nature of the existing water rights ~~subject to being leased~~ proposed for instream lease. ~~For example, a special form could be prepared for an irrigation district to sponsor a single lease application that involved multiple water right owners.~~

Statutory/Other Authority: ORS 536.027, ~~&~~ 537.332 - 537.360

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01, Renumbered from 690-077-0078

WRD 1-1995, f. & cert. ef. 2-14-95

Rule Summary: This rule is amended to (a) clarify language for consistency with the rest of the OAR Chapter 690, Division 77 rules; (b) better align with the definitions of “enlargement” and “injury” found in OAR 690-380 that also apply to OAR 690-077; (c) remove language that is inconsistent with the authority under ORS 537.348, as the Department’s authority under ORS 537.343(2) to make the final determination, including to limit the level of instream flow necessary to protect the public use(s) does not apply to these types applications; (d) make reference to a new section of rule related to instream lease renewal applications found in OAR 690-077-0105; and (e) remove reference that a special form could be prepared, because the Department already has special district forms.

690-077-0070

Application for Instream Transfer

(1) As provided in ORS 537.348(1), any person may apply for an instream transfer, including a time-limited instream transfer.

(2) A holder of a water use subject to transfer that is for surface water, above-ground storage of surface water, or the use of stored surface water- may change all or a portion of the right.

(3) For an instream transfer of an above-ground storage right, the applicant shall consult with the watermaster prior to submittal of the application to determine necessary measurement and reporting requirements to prevent enlargement.

(4) In addition to the transfer application requirements described in OAR 690-380-3000, an application for instream transfer application shall include the following information:

(a) Public use(s) for which the instream right is desired; The transfer application requirements described in OAR 690-380-3000, except that the application map for instream transfer shall be consistent with the requirements outlined under OAR 690-077-0071;

(b) Description of the time periods of the instream use and quantity of water to be transferred to instream use;

(c) The location of the proposed instream use. If a reach or lake level is requested, identify the upstream and downstream extent of the reach or the appropriate lake level;

(d) Recommendations, if any, for conditions on the instream water right that would avoid taking away or impairing existing permitted, certificated or decreed rights. Such conditions may include, but are not limited to the instream flow levels in cfs per month or total acre feet, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels; and

~~(e) If an instream water right exists on the same reach(es) or lake, or on portions thereof, a statement of whether the proposed conversion is intended to add to the amounts of the existing instream water rights or to replace a later priority instream right, or portion thereof, with an earlier priority right;~~

~~(e)~~ (f) For a time-limited instream transfer, the duration or number of years for which the time-limited instream transfer is being requested and the requested provisions, if any, for early termination.

(5) For instream transfer of an above-ground storage right, in addition to the application requirements under section (4) of this rule, the application shall:

(a) Be consistent with the results of the watermaster consultation outlined in section (3) of this rule and shall include, but is not limited to, the following requirements specified by the watermaster:

(A) A description of the location(s) and type(s) of measuring device(s);

(B) A description of the frequency of the measurements; and

(C) Identification of the parties responsible for performing the respective measurements;

(b) Identify the total volume or rate authorized under the above-ground storage right;

(c) Identify the total volume or rate of the above-ground storage right that is allocated to secondary water right(s) for use of the stored water and the associated permit or certificate number(s) of the secondary water right(s);

(d) Identify the total volume or rate of the above-ground storage right proposed for instream transfer; and

(e) Include affidavits of voluntary cancellation for secondary water right(s), as applicable, if the combined total volume or rate of subsections (5)(c) and (5)(d) of this rule exceeds the volume or rate identified under subsection (5)(b) of this rule, to ensure the authorized volume or rate of water under the above-ground storage right is not exceeded.

~~(36)~~ The Department may require additional information needed to complete the evaluation of the proposed conversion under this rule.

Statutory/Other Authority: ORS 536 & 537

Statutes/Other Implemented: ORS 536, ~~ORS~~ & 537, ~~ORS 540 -& ORS 540.520~~~~540-530~~

History:

WRD 4-2006, f. & cert. ef. 10-2-06

Reverted to WRD 1-1995, f. & cert. ef. 2-14-95

WRD 5-1995(Temp), f. & cert. ef. 8-4-95

WRD 1-1995, f. & cert. ef. 2-14-95

WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to (a) include a description of the water rights that can be transferred instream, (b) provide general clarifications, (c) include new language describing the necessary requirements for transferring above-ground storage rights instream through the instream transfer process, (d) to remove language related to the limitation of water protected instream as there is not a statutory basis to do so under ORS 537.348, and (e) add language relating to provisions for early termination of a time-limited instream transfer.

690-077-0071

Map Requirements for Instream Transfer and Instream Lease Applications

(1) A map must be submitted that includes, at a minimum, the following information:

(a) North directional symbol, map scale and legend;

(b) Township, range, section and quarter-quarter (QQ), including tax lots, donation land claims and government lots, if appropriate;

(c) If an irrigation right or **nursery use, other similar use**, the number of acres to be leased or transferred in each quarter-quarter must be clearly labeled and hachured to differentiate between the acres being leased or transferred and any remaining acreage must be identified;

(d) If the place of use on the water right is broken down by more than one priority date, or source stream, and/or diversion the map must identify each with separate hachuring and clearly label what is being changed;

- (e) For instream transfer application maps, you must identify the point(s) of diversion authorized on the water right. If the water right does not identify the point(s) of diversion, include information in the application to identify where the point of diversion is located;
- (f) Provide a statement describing the proposed instream reach or point. Identify the proposed instream reach or point, including the directional flow of the stream, lake, or reservoir as appropriate;
- (g) If more than three water rights are involved, separate maps are needed for each water right; and
- (h) Any other information the Department requests and considers necessary to evaluate the application.
- (2) The map described in section (1) of this rule need not be prepared by a certified water right examiner.
- (3) An existing water right map that meets the requirements of this section may be used, if approved by the Department prior to submittal of the application.
- (4) If the existing water right proposed for instream lease or transfer is for municipal or quasi-municipal water use, a map is not required.

Statutory/Other Authority: ORS 536 & 537

Statutes/Other Implemented: ORS 536, ORS 537, ORS 540 & ORS 540.520

Rule Summary: This new rule is adopted to describe required elements, as well as some elements that are not required, for the map that must be submitted with an application for instream lease or instream transfer. This new rule is also adopted to provide more clarity as it relates to mapping for types of uses that must clearly identify number of acres for leased/transferred lands and remaining non-modified lands, and to allow for a statement on the map to describe the proposed instream reach or point.

690-077-0075

Processing an Instream Transfer Application

- (1) A proposed instream transfer application, including a time-limited instream transfer application, of a water use subject to transfer to an instream water right shall be processed pursuant to the water rights transfer rules in OAR chapter 690, division 380-4000 through OAR 690-380-5000 and the following provisions:
- (2) The Department shall provide notice of the proposed instream transfer pursuant to OAR 690-380-40050, and to affected Indian tribes.
- (3) In addition to the assessment described in OAR 690-380-400040, the Department's preliminary determination initial review shall include an assessment of whether:
- (a) The amount and timing of the proposed instream flow is allowable within the limits and use, including return flows, of the original-existing water right; and

(b) The proposed reach(es) is (are) appropriate considering:

(A) Instream water rights shall begin at the recorded point of diversion;

(B) Locations of return flow. Where return flows occur at a definite point, located a substantial distance below the point of diversion, an instream water right may be defined by more than one reach, for example one reach from the point of diversion to the location of the return flow and another from this point to the mouth of the stream;

(C) The location of confluences with other streams downstream of the point of diversion, which shall be considered in accordance with OAR 690-077-0015(87); and

(D) Any known areas of natural loss of streamflow to the river bed. Where an instream water right passes through an area of known natural loss, several stream reaches may be required to incorporate the reduced flows available, in accordance with paragraph (23)(c)(B) of this rule; and

(c) The proposed flow(s) is (are) consistent with OAR 690-077-0015(6) and (7) and, (8) and (11), shall provide a public benefit for an instream use, and be appropriate considering:

(A) Return flows which shall be subtracted from the instream water right at the ~~old~~ point of diversion, unless the return flows occur at a definite point located a substantial distance below the ~~old~~ point of diversion, in which case up to the entire amount of the diversion may be allowed between the point of diversion and the point(s) of return flow; ~~and~~

(B) Where an instream water right passes through an area of known natural losses these losses the quantity of water that may be protected under the instream water right shall be prorated between adjusted by subtracting these losses proportionate to the instream water right and the balance of the available flow; and

(C) For instream transfers of above-ground storage rights, the total volume or rate of the above-ground storage right that is allocated to secondary water right(s), combined with the total volume or rate of the above-ground storage right proposed for instream transfer, shall not exceed the total volume or rate authorized under the above-ground storage right.

(43) An instream transfer shall be approved if the Department determines that the transfer is consistent with OAR 690-380-5000, and Section (2) of this rule. The initial review described in section (2) of this rule shall also specify that if the instream application can be approved, then the approval shall include, but is not limited to, conditions specifying that the Department shall:

(a) For permanent instream transfers:

(A) Cancel the existing water right(s), or portion -affected by the instream transfer application; for District Living Certificates, the certificate will be modified and tracked, not cancelled;

(B) Issue a permanent instream water right certificate(s); and

(C) Issue new remaining right certificate(s), if applicable, for the portion(s) of the existing water right(s) not involved in the instream transfer application; and

(b) For time-limited instream transfers:

(A) Specify the date of expiration or other conditions for termination of the instream water right; and

(B) Suspend the use of the existing water right during the effective period of the instream water right.

(54) The Department shall issue a final order consistent with the preliminary determination described in OAR 690-380-4010 and Section (2) of this rule if no protests are received under 690-380-4030. In addition to the proposed final order requirements outlined in OAR 690-380-4010, for permanent instream transfer applications, the Department shall issue draft permanent instream water right certificate(s).

(65) As part of the notice of the proposed final order required under OAR 690-380-4020, the Department shall, except for time-limited instream transfer applications, also send copies of the draft permanent instream water right certificate(s) to the applicant(s) by registered or certified mail in accordance with ORS 183.415.

(76) Upon approval of an instream transfer application, the Department shall: issue a permanent instream water right certificate. However, upon approval of a time limited instream transfer, the Department shall issue a final order with a specific date of expiration or other conditions for termination for the instream water right and suspend the use of the original right during the effective period of the instream water right. A

(a) For a permanent instream transfer, mail a copy of the instream water right certificate or final order and the final approval order shall be mailed to the applicant and as appropriate, to affected Indian Tribes, ODFW, DEQ, and Parks; or

(b) For a time-limited instream transfer, mail a copy of the final approval order to the applicant and as appropriate, to affected Indian Tribes, ODFW, DEQ, and Parks. The Director shall also issue a new certificate for any remaining right for the existing use as appropriate.

Statutory/Other Authority: ORS 197, 536.025, 536.027, 536.220, 536.300, 536.310, 537.338, 537.348, & 537.356 - 537.358

Statutes/Other Implemented: ORS 197, 536.025, 536.027, 536.220, 536.300, 536.310, 537.338, 537.348, 537.356 & 537.358, 540.520 & 540.530, & Or Laws 2025, ch 282

History:

 WRD 12-1990, f. & cert. ef. 8-8-90
 WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: This rule is amended to (a) implement Or Laws 2025, ch 282, as it relates to processing steps associated with the application and to conform to the OAR Chapter 690

Division 380 rules; (b) ~~clarify the methodology for adjusting the quantity of water that may be protected instream when a proposed instream reach passes through areas of known natural loss in order to prevent enlargement;~~ (c) describe the necessary requirements for transferring an above-ground storage right instream through the instream transfer process; (d) provide additional detail about conditions to be included in the initial review, depending on whether for a permanent instream transfer or a time-limited instream transfer; (e) provide for the preparation and issuance of draft instream water rights certificates, if for a permanent instream transfer, to implement OR Laws 2025, ch 282 as it relates to issuance of the proposed final order; and (f) provide more detail related to distribution of approval orders and instream water right certificates, as applicable upon approval of instream transfers.

690-077-0076

Application for an Instream Lease

(1) A holder of a water use subject to transfer that is for surface water, above-ground storage of surface water, or the use of stored surface water ~~any of the following types of water rights~~ may enter into a lease to ~~convert-change~~ all or a portion of ~~the existing~~ water right to an instream water right for a specified time period not to exceed five years.:

~~(a) Surface water rights for beneficial use or storage established by a water right certificate or an adjudication under ORS Chapter 539 as evidenced by court decree; or (b)~~

~~A surface water use permit for which a request for issuance of a water right certificate under ORS 537.250 has been received and approved by the Director under 537.250, or; transfer application for which an order has been issued under 540.530 approving the change and for which proper proof of completion of the change has been filed with the Commission;~~

~~(c) Secondary water rights for the use of stored water established by permit, certificate or court decree; or~~

~~(d) The conserver's portion of conserved water allocated under ORS 537.4455 to 537.500.~~

(2) The parties to the lease application shall include, but are not limited to:

(a) The holder(s) of the subject water right(s) as the lessor(s);

(b) Any irrigation district or similar organization as defined in ORS chapters 545, 547, 552, 553, or 554 which conveys water to the subject water right and the owner of any storage facility which is the source of the water, as co-lessor(s), if applicable; and

(c) The lessee, if different than the Department. The lessee may include, but is not limited to, individuals; organizations who may assist with the lease application; or organizations who may provide compensation to the lessor(s) for the leasing of the existing water right(s) instream.

(3) For an instream lease of an above-ground storage right, the applicant shall consult with the watermaster prior to submittal of the application to determine necessary measurement and reporting requirements to prevent enlargement.

(4) ~~At a minimum, the lease-~~An application to lease an existing water right(s) for instream uses must be filed with the Department, on a form provided by the Department, and shall include:

(a) Names, ~~and~~ signatures, mailing addresses, and email addresses (if available) of the parties; In the case where the lessor(s) is a district or water purveyor, the lease application shall be submitted by the district or water purveyor and signed by the manager or authorized representative of the district or water purveyor;

(b) If the lessor(s) is a district, the application shall include a statement by the district's manager or authorized representative that each district water user involved in the lease application has provided written authorizations for the lease, such authorization is on file with the district, and is available to the Department and the public upon request;

(c) A description of the existing water right(s) ~~proposed for to be leased~~, including the point of diversion location. If only a portion of an existing water right ~~is proposed for will be leased~~, a clear description of the place of use and, including maps consistent with OAR 690-077-0071 if necessary, of the portion are required. If the lessor(s) is a district, the description shall include the name of each district water user by parcel to be leased;

(~~e~~) Rate, total volume, timing and location of the proposed instream ~~right~~lease, ~~including any necessary conditions to avoid enlargement of the original right or potential injury to other, existing water right holders~~;

(~~d~~) A description of how the lease will serve a public use or uses;

(~~e~~) If an instream water right exists on the same reach(es) or lake, or on portions thereof, a statement of whether the proposed lease is intended to add to the amounts of the existing instream water rights or to replace a later priority instream right, or portion thereof, with an earlier priority right.

(~~f~~) Provision ~~e~~insuring the original use of the existing water right will be suspended;

(~~g~~) The term of the lease;

(~~h~~) A statement by the lessor(s) verifying that the existing water right(s) ~~described in Subsection (3)(b) of this rule being leased instream -have has~~ been used under the terms and conditions of the rights during the last five years, or as an instream water right, or an explanation why the existing water right(s) is not subject to forfeiture under ORS 540.610. As an alternative, an irrigation district or other water purveyor may provide evidence for owners, verifying delivery of water for the lands appurtenant to the rights to be leased;

(~~i~~) If the lessor(s), as identified in ~~S~~subsection (2)(a) of this rule, is not the deeded owner of the landowner to which the existing water right is appurtenant, sufficient documentation to demonstrate that the lessor(s) is authorized to pursue the instream lease. These also include what the district shall hold on file for subsection (4)(b). Such documentation shall include:

(A) A notarized statement from the landowner consenting to the lease and a copy of the recorded deed;

(B) A water right conveyance agreement(s) as defined in OAR ~~e~~Chapter 690, ~~d~~Division 380 and a copy of the recorded deed for the landowner at the time the water right was conveyed; or

(C) Other documentation that demonstrates to the Department's satisfaction that the lessor(s) is authorized to pursue the lease in the absence of the consent of the landowner-;

~~(j) The name and address of any water purveyor that conveys water to the water right(s) described in Subsection (3)(b) of this rule.~~

~~(i) A map consistent with OAR 690-077-0071; and~~

~~(j) The appropriate fee as required under ORS 536.050.~~

~~(5) For instream lease of an above-ground storage right, in addition to the application requirements under this rule, the application shall:~~

~~(a) Be consistent with the results of the watermaster consultation outlined in section (3) of this rule and shall include, but is not limited to, the following requirements specified by the watermaster-;~~

~~(A) A description of the location(s) and type(s) of measuring device(s);~~

~~(B) A description of the frequency of the measurements; and~~

~~(C) Identification of the parties responsible for performing the respective measurements;~~

~~(b) Identify the total volume or rate authorized under the above-ground storage right;~~

~~(c) Identify the total volume or rate of the storage right that is allocated to secondary water right(s) for use of the stored water;~~

~~(d) Identify the total volume or rate authorized under the above-ground storage right proposed for instream lease;~~

~~(e) If the combined total volume or rate of subsections (8)(c) and (d) of this rule exceeds the volume or rate identified under subsection (8)(b) of this rule, list the secondary water right(s) under which use of the stored water will be suspended for the term of the lease to ensure the authorized volume or rate of water under the above-ground storage right is not exceeded; and~~

~~(f) If secondary water right(s) are identified for suspension pursuant to the calculation described in subsection (8)(e) of this rule, provide sufficient documentation to demonstrate that the lessor(s) is authorized to suspend the use of stored water under the secondary water right(s) and pursue the instream lease. Such documentation shall include:~~

~~(A) A notarized statement from the landowner or water right holder of record consenting to the lease and a copy of the recorded deed; or copies of contracts or agreements for the use of a reservoir owned by a federal government; or~~

~~(B) A water right conveyance agreement(s) as defined in OAR chapter 690, division 380 and a copy of the recorded deed for the landowner at the time the water right was conveyed; or~~

(C) Other documentation that demonstrates to the Department's satisfaction that the lessor(s) is authorized to pursue the lease in the absence of the consent of the landowner or water right holder of record; and

(g) Include a statement that the quantity of water proposed for instream lease will not be stored under the storage right for the term of the instream lease.

(46) Lease applications shall conform with applicable provisions of OAR 690-077-0015.

(7) If a final order was issued approving an existing instream lease, and the term of that lease has expired or is about to expire, and there are no changes to the instream use or to the water (or portion thereof) involved, an instream lease renewal application meeting the requirements set forth under OAR 690-077-0105 can be submitted.

Statutory/Other Authority: ORS 536.025, ~~& ORS 536.027~~

Statutes/Other Implemented: ORS 537.332 – 537.360, ~~& 537.455 – 537.500;~~

History:

WRD 4-2006, f. & cert .ef. 10-2-06

Rule Summary: This rule is amended to (a) modify the description of the water rights that can be leased instream; (b) add new language describing the necessary requirements for transferring storage rights instream through the instream lease process; (c) describe mapping requirements; (d) describe when a lease renewal application can be submitted; (e) clarify language for consistency with OAR Chapter 690, Division 380; (f) remove the requirement that the application contain conditions to avoid enlargement or injury, as that is the Department's role in reviewing an application; and (g) remove language related to the limitation of water protected instream (via instream water rights established through instream leases), as there is not a statutory basis to do so under ORS 537.348. This rule is also amended to (a) provide more detail as it relates to the lessor **and the lessee**; (b) allow that if the lessor is a district, written authorization from each district user involved in the lease is on file at the district and available upon request; (c) add reference to statutory fee requirements' and (d) remove language in (4)(j) related to name and address of water purveyors conveying water to the water right to be leased instream, and consolidated into another subsection of this rule (4)(a). **This rule is also amended to provide for copies of contracts or agreements for use of a reservoir owned by federal government as it relates to consent.**

690-077-0077

Processing an Instream Lease Application

(1) On receipt of an instream lease application, the Department shall include notice of the application in its weekly public notice ~~mailing list and post it in the applicable watermaster office.~~

(2) ~~An written~~ assessment shall be prepared by the watermaster or other Department field staff of whether the lease application meets the requirements of these rules to suspend ~~the original~~ water use under the existing water right and avoid injury or enlargement;

(3) ~~When the Department initially reviews~~ The Department shall evaluate the an instream lease application for injury and enlargement. The department may consider; particular attention shall be given to potential sources of enlargement or injury. Examples include, but ~~are~~ is not limited to, the following factors to determine the existence of injury or enlargement as a result of the lease:

(a) ~~issues related to r~~Rate and duty, or total volume proposed for instream lease~~being changed;~~

(b) ~~the allotment of stored water available to the owner of a storage right in the year leased; the role of~~ Location of return flows;

(c) ~~e~~Conveyance losses downstream of the original point of diversion;

(d) ~~potential issues related to junior users, especially, downstream of the original point of diversion; potential issues related to the p~~Priority dates s of instream water rights and other existing water rights;

(e) If the existing water right proposed for instream lease is an above-ground storage right:

(A) The total volume authorized under the above-ground storage right; and

(B) The total volume of the above-ground storage right that is allocated to secondary water right(s) for use of the stored water; and

(f) ~~whether a proposal to lease a permit for stored water would result in converting undeveloped rights; and i~~Issues potentially arising from water users that share a conveyance system.

(4) Any allegations of injury to other existing water rights or enlargement of the existing original water right proposed for instream lease that are received within 21 days of ~~the date of mailing publication~~ of the lease application in the Department's weekly public notice shall be ~~reviewed provided by to~~ the parties and reviewed by to the lease before the Department prior to issues issuance of an order approving or denying the lease application. ~~If no comments are received the Department may presume that no injury or enlargement will result from the proposed lease.~~

(45) If the Department determines that the proposed lease may cause injury to other existing water rights or enlargement of the original-existing water right proposed for instream lease, considering issues raised under Ssection (3) of this rule, the order approving the lease application shall be conditioned to prevent the injury or enlargement. If injury or enlargement cannot be prevented, the Department shall deny the lease application. However, if an order approving the lease application has already been issued, and the Department later finds injury or enlargement, the Department shall issue an order modifying or terminating the lease.

(56) If a lease is for more than one year, ~~the parties shall review~~ any allegations of injury or enlargement that are received through December 31 of the preceding calendar year of the lease shall be provided to the parties and reviewed by the Department, to determine whether

modifications of the lease order are warranted for the remainder of the term of the lease. ~~If injury or enlargement claims are valid and cannot be prevented, the Department shall issue an order terminating the lease.~~

(~~67~~) In the event that the Department receives a claim of injury or enlargement after issuing an order approving a lease, the Department shall notify the parties. If the Department determines the claim is valid, it shall not distribute water in a way that would cause the injury or enlargement to continue. If injury or enlargement claims are valid and cannot be prevented, the Department shall issue an order terminating the lease.

(~~78~~) The description of the reach or point of an instream water right provided in response to OAR 690-077-0076(~~4~~)(~~d~~)(~~3~~)(~~e~~) shall conform to the provisions of 690-077-0015(6) and (7) ~~and~~ (~~8~~) and 690-077-0075(23).

(~~89~~) Except as provided in OAR 690-077-0079, a lease involving an existing water right that is limited to a season of use or a duty of water for a season or year shall only allow the use of the ~~original-existing~~ water right or the instream right, not both, during any one season unless the source is from stored water.

(~~910~~) If the existing water right being leased has an associated primary or supplemental water right, the lessor(s) shall assure that neither right is being exercised under the ~~original existing~~ water right during the term of the lease unless the lease is for the use of water legally stored under a supplemental water right. In the case of supplemental stored water, an order approving a lease may be issued that does not restrict the use of the primary source.

~~(10) Nothing in these rules shall be interpreted to prevent the renewal of a lease application or to prevent outside agreements for longer terms that will be activated by an order approving a lease when needed to establish an instream water right in a particular season or at a particular time. A renewal shall be subject to the provisions of this rule.~~

(11) Depending on the reservoir, If the existing water right being leased is an above-ground storage right, the lessor(s) shall not store the quantity of water being leased instream during the term of the lease; or the Department may include conditions to identify the amount and timing of the release of the stored water being protected instream.

(~~124~~) ~~W~~Existing water rights for which an order has been issued approving a lease application under OAR 690-077-0077 are considered to be beneficially used for each year that the lease establishes an instream water right.

(~~132~~) A lessee has the same standing as the lessor for all purposes regarding management and enforcement of the instream water right.

(~~143~~) Copies of orders approving a lease application shall be distributed to all parties, filed with the appropriate watermaster, and tracked on the Department's water rights information system.

(~~154~~) Leases that are executed under the provisions of ORS 536.720 to 536.780 "Emergency Water Shortage Powers" shall not be subject to provisions of these rules. Those leases are covered ~~by~~under OAR ~~e~~Chapter 690, ~~d~~Division 19.

(1~~65~~) Except as provided in Sections (4~~5~~) and (5~~6~~) of this rule, orders approving lease applications shall only be terminated by a superseding order or by specific provision of the originating order approving the lease application.

Statutory/Other Authority: ORS 536.027~~, &~~

Statutes/Other Implemented: ORS 537.332 - 537~~9~~.360

History:

WRD 1-2012, f 1-31-12, cert. ef. 2-1-12

WRD 4-2006, f. & cert .ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 1-1995, f. & cert. ef. 2-14-95

Rule Summary: This rule is amended to (a) remove language requiring the Department, following receipt of a lease application, to post the applicable weekly public notice in the applicable watermaster office because this information is available on the Department's website and via the email distribution list for the weekly public notice, and can also be shared by the watermaster if a member of the public requests it; (b) clean up language related to injury and enlargement and clarifies some language to be consistent with the rest of the rules; (c) clarify requirements related to leasing a storage right; (d) reorders rule for clarity related to claims of injury (e) remove language related to instream lease renewals, as there is a new section on renewals; and (f) update references to other rules in OAR 690-077 that have been updated with numbering changes.

690-077-0079

Split Season Use Instream Leasing

(1) An application~~nt~~ for a split season use instream lease of water shall ~~provide~~include the information required under OAR 690-077-0076 and follow the lease process described under ~~OAR 690-077-0076 and~~ 690-077-0077.

(2) The applicant shall consult with the watermaster-Department prior to submittal of the application to determine necessary measurement and reporting requirements to prevent enlargement. Measurement devices required by the watermaster-Departement as a result of this consultation shall be in place prior to water use for both the existing purpose and the proposed instream purpose.

(3) In addition to the application requirements described in OAR 690-077-0076, split season use leases applications shall:

(a) Be submitted to the Department two weeks prior to water ~~being-used~~ either for the existing purpose or for the proposed instream purpose, whichever comes first;

(b) Be submitted on a form provided by the Department;

(c) Describe when the water will be used for the existing purpose and when the water will be used for the instream purpose~~;~~, in accordance with the following:

(A) The existing water use and the instream use shall not be concurrent. However, a portion of an existing water right appurtenant to one piece of land may undergo split season use, while another portion appurtenant to a different piece of land may undergo ~~only one type of use, or~~ a different time period for split season use; and

(B) The type of use under a split season use may be changed only once during a calendar year, except for full-year uses which may have a single instream use period and two existing use periods;

(d) Be consistent with the results of the watermaster-Department consultation outlined in section (2) of this rule and shall include, but is not limited to, the following requirements specified by the watermasterDepartment:

(A) A description of the location(s) and type(s) of measuring device(s);

(B) A description of the frequency of measurements and reporting; and

(C) Identification of the parties responsible for performing the respective measurements and reporting; and

(e) Identify the total amount of water proposed to be used, listed by rate and duty or volume for the existing purpose and for the instream purpose, including monthly or partial season rate, ~~or~~ duty, or volume limitations, if appropriate.

~~(3) The holders of the water rights shall measure and report the use of the existing water right and instream water right to the satisfaction of the Department, or provide for third party measurement and reporting to the satisfaction of the Department. Pursuant to ORS 537.332(3), the Department holds instream water rights in trust for the benefit of the people of the State of Oregon.~~

(4) Upon issuance of an order approving a split season use instream lease application, consistent with the consultation and the requirements described in sections (2) and (3)(d) of this rule, the applicant (lessor or lessee), or the designated third party to be responsible for performing the measurements, shall measure and report to the local watermasterDepartment, the amount of water used for the existing purpose authorized under the water right(s) and for the instream purpose. The water right lessor or lessee shall contact the watermaster or other Department field staff to determine the necessary measurement and reporting requirements associated with leasing a water right. The complete lease application shall include:

~~(a) Location(s) and type(s) of measuring device(s);~~

~~(b) Frequency of measurement;~~

~~(c) Parties responsible for the respective measurements; and~~

~~(d) Amount of water proposed to be used, listed by rate and duty for the existing purpose and the instream purpose, including monthly or partial season rate or duty limitations, if appropriate.~~

~~(5) The Commission shall review the split season use leasing program no later than the year 2014 to determine if any changes should be made in the program.~~

~~NOTE: ORS 537.348(3) sunsets on January 2, 2008.~~

Statutory/Other Authority: ORS 536.025, 536.027, 536.220, 536.300, 536.310, ~~537.338 & 537.356—537.358~~537.348

Statutes/Other Implemented: ORS 537.332 - 537.360, Or Laws 2023, ch 55

History:

WRD 4-2006, f. & cert .ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

Rule Summary: This rule is amended to (a) implement Or Laws 2023, ch 55, to remove the sunset date for split season use instream leases, (b) add language to provide better clarity related to measurement and reporting requirements for split season use instream leasing, and (c) move existing language in this rule to other sections for clarity. This rule is also updated to reference “Department” instead of “watermaster” in order to align with statute.

690-077-0080

Miscellaneous Provisions: ~~Cancellation or Waiving of an Instream Water Right~~

~~(1) There is a rebuttable presumption that an instream water right, or a portion thereof, that has not been put to a public use for five successive years in which water was available is forfeited.~~

~~(2) Upon making a preliminary finding that the instream water right has been forfeited the Director shall notify DEQ, ODFW, Parks, and those persons and agencies on the Department's weekly mailing list of the Department's findings and of its intent to cancel the instream water right. The Department shall also publish the notice in the Secretary of State's bulletin once, and in a local newspaper one day a week for two weeks.~~

~~(3) Any person may file a protest within 60 days of publication in the Secretary of State's bulletin or the local news paper.~~

~~(4) If no protest is filed in the 60 day period, the Commission shall proceed with the process outlined in ORS 540.641(1).~~

~~(5) If a protest is filed in the 60 day period, the Commission shall proceed with the process outlined in ORS 540.641(2).~~

~~(6) An instream water right established under ORS 537.336 through 537.338 (OAR 690-077-0020) may be canceled pursuant to ORS 540.621 only upon the written certification from the original applicant agency(ies) that the instream water right has been abandoned. Proper notification of the public shall proceed as outlined in Section (2) of this rule.~~

~~(7) An instream water right shall not be subject to forfeiture due to non use when water was not available.~~

Statutory/Other Authority: ~~ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338 & 537.356—537.358~~

Statutes/Other Implemented: ORS 536.025, 536.027, 536.220, 536.300, 536.310, 537.338, 537.356 & 537.358

History:

~~WRD 4-2006, f. & cert. ef. 10-2-06~~

~~WRD 8-2001, f. & cert. ef. 12-14-01~~

~~WRD 9-1992, f. & cert. ef. 7-1-92~~

~~WRD 20-1988, f. & cert. ef. 11-4-88~~

Rule Summary: This rule is repealed because it is not clear how the Department would ever reach a determination that an instream water right has been forfeited. In addition, ORS 540.641 provides that only the "owner or occupant" may protest a proposed cancellation. In the case of instream water rights, they are "owned" by the Department itself, albeit in trust for the people of Oregon. The Department cannot protest its own notice of proposed cancellation. In addition, while the existing rules contemplate a certification of abandonment from the original applicant agency, state agencies requesting an instream water right do not hold the right once the right is issued. The right is held in trust by the Department, and therefore an original applicant agency has no authority to declare that the right has been abandoned.

690-077-0090

Miscellaneous Provisions: Drought Emergency Provisions

An instream water right established under the provisions of ORS 537.332 to 537.360 shall be subject to the provisions of ORS 536.730.

Statutory/Other Authority: ORS 536 & 537

Statutes/Other Implemented: ORS 536 & 537

History:

~~WRD 20-1988, f. & cert. ef. 11-4-88~~

690-077-0100

Miscellaneous Provisions: Precedence of Future Uses

(1) The applicants for a proposed multipurpose storage project may submit a formal written request to petition the ~~Commission-Department~~ to establish precedence over an instream water right created through OAR 690-077-0020.

(2) An applicant for a right to use water for municipal purposes may submit a formal written request to petition the ~~Commission-Department~~ to establish precedence over an instream water right created through OAR 690-077-0020.

(3) A municipal applicant, as defined in ORS 537.282, for a hydroelectric project, may petition submit a formal written request to the ~~Commission-Department~~ to establish precedence over an instream water right created through OAR 690-077-0020.

(4) ~~Within six months of the receipt of the petition, the~~ The Department shall ~~conduct a public hearing accept public comment on the petition request.~~ in accordance with ORS 537.170. The

~~hearing and decision on precedence may occur before the final decision on the permit. The Department shall provide notice of the public comment opportunity in its weekly public notice.~~

(5) After ~~the considering~~ public ~~hearing comment received~~, the ~~Commission-Department~~ shall ~~enter an order to incorporate~~ the Department's decision on precedence into the proposed final order on the application. Based on consideration of the factors in ORS 537.170(7), the ~~Department may decide to~~:

(a) Approve the requested precedence;

(b) Approve the requested precedence ~~with conditionally conditions~~; or

(c) Deny the requested precedence.

(6) The Department shall ~~also publish a statement of incorporate~~ findings that explains the basis for the decision made in Section (5) of this rule ~~into the proposed final order on the application~~.

Statutory/Other Authority: ORS 536 & 537

Statutes/Other Implemented: ORS 536 & 537, 537.352

History:

WRD 4-2006, f. & cert. ef. 10-2-06

WRD 8-2001, f. & cert. ef. 12-14-01

WRD 20-1988, f. & cert. ef. 11-4-88

Rule Summary: The current rule is inconsistent with statute and is amended to more closely follow the process described in ORS 537.352 and provide additional clarity. ORS 537.352 provides that the Department, not Commission, will make a determination while conducting a review of the project in accordance with ORS 537.170. Changes align the rule with statute and the water rights application processing steps. *Note that the Commission may still take up the matter if exceptions are filed to the Director's order.*

690-077-0105

Application for Instream Lease Renewal

(1) A holder of any prior final order approving an instream lease application may submit a renewal application, provided that the prior approved final order and the instream lease renewal application meet the following criteria:

(a) The instream lease renewal application is submitted ~~within no more than 6-5~~ years from the date of expiration specified in the ~~prior last~~ final order approving the instream lease ~~was issued~~;

(b) The term of the prior approved final order has expired or is about to expire;

(c) The instream lease renewal application does not propose any changes in:

(A) The instream use authorized under the prior approved final order; or

(B) The quantity of water (or portion thereof) authorized under the prior final order for instream lease;

(d) The instream lease renewal application is complete and includes:

(A) The prior existing instream lease number (i.e., IL-XXX or SL-XX);

(B) The requested term of the renewed instream lease, being no less than one calendar year and no more than five calendar years;

(C) The termination provision(s), if any, for an instream lease renewal application requesting a multiple-year term; and

(D) The name(s) of the parties to the lease application pursuant to subsection 690-077-0076(2) and OAR 690-077-0076(4)(a) and (b); and

(e) The appropriate fee pursuant to ORS 536.050 is submitted.

(3) No map is required for an instream lease renewal application.

Statutory/Other Authority: ORS 536.027, 537.332 - 537.360

Statutes/Other Implemented: ORS 537.348

Rule Summary: This new rule is adopted to describe the application requirements for the process to renew previously approved instream leases.

690-077-0110

Processing an Application for Instream Lease Renewal

(1) Upon receipt of an instream lease renewal application, the Department shall give notice of the application by publication in the Department's weekly public notice. Any allegation of injury must be delivered in writing to the Department no later than 21 days after publication of the request in the Department's weekly public notice.

(2) Concurrent with the waiting period described in section (1) of this rule, the Department shall:

(a) Review the renewal application to confirm all requirements outlined in OAR 690-077-0105 are satisfied; and

(b) Consult with the local watermaster to determine whether the watermaster review completed for the prior approved instream lease is sufficient. If the watermaster finds that:

(A) The prior watermaster review is sufficient, then the watermaster shall provide written or electronic mail confirmation that the review is still valid and completion of a new watermaster review will not be required; or

(B) The prior watermaster review is not sufficient, then the watermaster shall complete a new watermaster review for the instream lease renewal application.

(3) The Department shall issue an order approving the instream lease renewal application, provided that:

(a) Leasing the water right instream will not result in, or can be conditioned to prevent, injury to other existing water rights and enlargement of the water right proposed for instream lease renewal; and

(b) All the requirements outlined in section (2) of this rule are satisfied.

(4) The Department may, at any time, revoke or modify an order issued to approve an instream lease renewal if the Department later finds that the use of the water right for instream use under the lease has resulted in, or may result in, injury or enlargement.

Statutory/Other Authority: ORS 536.027, 537.332 - 537.360

Statutes/Other Implemented: ORS 537.348

Rule Summary: This new rule is adopted to describe the processing steps for renewal of a previously approved instream lease. *Note that subsection 4 is from statute ORS 537.348(6).*
