Meeting ID: 944 7098 3003

Passcode: 082351

Meeting purpose:

Introduce the SWIMS hydrologic investigation series highlighting topics where TAG feedback will be sought and share findings of work that has been performed to date to inform stream gage selection for model development.

Meeting goals:

1. Outline specific topic-area decisions related to model framework development where TAG feedback will be sought.
2. Present findings from completed hydrologic investigations that inform selection of stream gages providing data for natural flow model development.
3. Discuss important considerations and suggestions for stream gage selection.

Agenda:

1. Welcome (9:00 – 9:05)
2. Meeting purpose and ground rules review (9:05 – 9:10)
3. Hydrologic investigation series (9:10 – 9:30)
4. Investigations to support stream gage selection (9:30 – 10:00)
 - a. Hydrologic disturbance index
 - b. Gap tolerance analysis
 - c. Stationarity analysis
5. Discussion (10:00 – 11:00)
