**SUMMARY OF AUDIT FINDINGS**

The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.

Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.

<b>Number of standards exceeded:</b>	
0	
<b>Number of standards met:</b>	
38	
<b>Number of standards not met:</b>	
0	
<b>Not audited at the facility level:</b>	5
Audited at the agency-level, and not relevant to the facility-level audit because the facility has no independent responsibility for the operation of these standards.	

# POST-AUDIT REPORTING INFORMATION

## GENERAL AUDIT INFORMATION

### On-site Audit Dates

1. Start date of the onsite portion of the audit:	2021-06-12
2. End date of the onsite portion of the audit:	2021-06-14

### Outreach

10. Did you attempt to communicate with community-based organization(s) or victim advocates who provide services to this facility and/or who may have insight into relevant conditions in the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
a. Identify the community-based organization(s) or victim advocates with whom you communicated:	Three Rivers Hospital and Women's Crisis Support Team.

### Audited Facility Population Characteristics on Day One of the Onsite Portion of the Audit

#### Inmates/Residents/Detainees Population Characteristics on Day One of the Onsite Portion of the Audit

36. Enter the total number of inmates/residents/detainees in the facility as of the first day of onsite portion of the audit:	62
38. Enter the total number of inmates/residents/detainees with a physical disability in the facility as of the first day of the onsite portion of the audit:	1
39. Enter the total number of inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) in the facility as of the first day of the onsite portion of the audit:	1
40. Enter the total number of inmates/residents/detainees who are Blind or have low vision (visually impaired) in the facility as of the first day of the onsite portion of the audit:	1

41. Enter the total number of inmates/residents/detainees who are Deaf or hard-of-hearing in the facility as of the first day of the onsite portion of the audit:	0
42. Enter the total number of inmates/residents/detainees who are Limited English Proficient (LEP) in the facility as of the first day of the onsite portion of the audit:	1
43. Enter the total number of inmates/residents/detainees who identify as lesbian, gay, or bisexual in the facility as of the first day of the onsite portion of the audit:	1
44. Enter the total number of inmates/residents/detainees who identify as transgender or intersex in the facility as of the first day of the onsite portion of the audit:	0
45. Enter the total number of inmates/residents/detainees who reported sexual abuse in the facility as of the first day of the onsite portion of the audit:	1
46. Enter the total number of inmates/residents/detainees who disclosed prior sexual victimization during risk screening in the facility as of the first day of the onsite portion of the audit:	5
47. Enter the total number of inmates/residents/detainees who were ever placed in segregated housing/isolation for risk of sexual victimization in the facility as of the first day of the onsite portion of the audit:	0

<p><b>48. Provide any additional comments regarding the population characteristics of inmates/residents/detainees in the facility as of the first day of the onsite portion of the audit (e.g., groups not tracked, issues with identifying certain populations):</b></p>	<p>PREA America was contracted to audit the Oregon Youth Authority facilities on January 27th, 2020. The first round of Audits was to begin in April 2020. The second-year Audits were scheduled for late 2020. Rogue Valley was included in the group of Audits for the second year of the 3-year audit cycle. Introductory communication with the PREA Coordinator to discuss the Audit process, Audit preparation, the Pre-Audit Questionnaire (PAQ), and supporting documents and elements of the On-Site Visit took place shortly after scheduling the On-Site Audit dates. During the Pre-Audit Phase, a desk audit of the facility was attempted, but the Pre-Audit Questionnaire was not provided until the 27th day after the On-Site Audit. For the desk audit, the Audit Team reviewed agency-wide policies, procedures, and supporting documentation that had been received, and several emails were exchanged in an attempt to clarify issues. This phase of the Audit was used to collaborate with the facility staff on questions and concerns with documenting compliance. The communication with the facility staff was used to not only to comprehend the policies and procedures unique to the facility, but also to understand how PREA was put into practice. The Audit Team selected employee names and resident names from rosters, so that files verifying PREA compliance could be provided, but these files were not provided. The ongoing pandemic forced the second postponement and the combination of two audit cycles worth of Audits for June of 2021. A kick-off call with all the facilities and the PREA Coordinator took place on May 3rd, 2021. Logistics and requirements for the On-Site Audits were discussed, including the need for staff lists and assigned specialized staff, as well as youth lists and explanation of the "targeted" interviews, and the need for a list to cover the specific categories. A follow-up email was sent to make sure the lists and the categories were clear and not lost on the call. The On-Site Audit started on June 12th, 2021, with a briefing that confirmed the current population, reviewed the agenda and logistics, discussed mandatory reporting, and clarified the need to allow any staff or resident who requests an interview to get one. A list of youth with identified vulnerabilities was provided to the Audit Team as requested. The Audit Team returned to the facility on June 14th to conclude the On-Site portion of the Audit and to conduct the Exit Briefing.</p>

**Staff, Volunteers, and Contractors Population Characteristics on Day One of the Onsite Portion of the Audit**

<p><b>49. Enter the total number of STAFF, including both full- and part-time staff, employed by the facility as of the first day of the onsite portion of the audit:</b></p>	<p>86</p>
<p><b>50. Enter the total number of VOLUNTEERS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:</b></p>	<p>0</p>
<p><b>51. Enter the total number of CONTRACTORS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:</b></p>	<p>2</p>
<p><b>52. Provide any additional comments regarding the population characteristics of staff, volunteers, and contractors who were in the facility as of the first day of the onsite portion of the audit:</b></p>	<p>Both contractors were interviewed. No volunteers are entering the facility due to the COVID-19 pandemic.</p>

**INTERVIEWS**

## Inmate/Resident/Detainee Interviews

### Random Inmate/Resident/Detainee Interviews

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:

9

54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)

- Age
- Race
- Ethnicity (e.g., Hispanic, Non-Hispanic)
- Length of time in the facility
- Housing assignment
- Gender
- Other
- None

55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?

Interviews were selected and conducted in accordance with the guidance of the PREA Auditor Handbook, with random selections of residents to ensure diversity of geographic location (from each housing unit), race, and those with risk factors. 16 of the 62 residents were interviewed. Seven interviews can be considered targeted interviews, according to the parameters put forth in the PREA Auditor Handbook. The other nine were more random, but they still included a balance from each housing unit, race, and age group. Risk factors among those interviewed included residents who are survivors of sexual abuse, residents with disabilities, residents perceived to be LGBTI, and a resident with limited English proficiency. Also, most of the residents interviewed are former sexual and violent offenders.

56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?

- Yes
- No

57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):

4 of the random interviews included racial and ethnic minorities. 2 represented the youngest residents, 14-year-olds. Also, I was able to interview a resident with small stature.

Interviews were selected and conducted in accordance with the guidance of the PREA Auditor Handbook, with random selections of residents to ensure diversity of geographic location (from each housing unit), race, and those with risk factors. 16 of the 62 residents were interviewed. Seven interviews can be considered targeted interviews, according to the parameters put forth in the PREA Auditor Handbook.

The other nine were more random, but they still included a balance from each housing unit, race, and age group. Risk factors among those interviewed included residents who are survivors of sexual abuse, residents with disabilities, residents perceived to be LGBTI, and a resident with limited English proficiency. Also, most of the residents interviewed are former sexual and violent offenders.

### Targeted Inmate/Resident/Detainee Interviews

<b>58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:</b>	7
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
<b>60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:</b>	1
<b>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</b>	1
<b>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</b>	1
<b>63. Enter the total number of interviews conducted with inmates/residents/detainees who are Deaf or hard-of-hearing using the "Disabled and Limited English Proficient Inmates" protocol:</b>	0
<b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b>	<input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.  <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.
<b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b>	I do not believe anyone at the facility fits in this category.
<b>64. Enter the total number of interviews conducted with inmates/residents/detainees who are Limited English Proficient (LEP) using the "Disabled and Limited English Proficient Inmates" protocol:</b>	1
<b>65. Enter the total number of interviews conducted with inmates/residents/detainees who identify as lesbian, gay, or bisexual using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</b>	1

<p>66. Enter the total number of interviews conducted with inmates/residents/detainees who identify as transgender or intersex using the "Transgender and Intersex Inmates; Gay, Lesbian, and Bisexual Inmates" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>Several interviews with staff and residents indicated that there are no transgender residents at this time, but they are aware that transgender residents have been in the facility in the past.</p>
<p>67. Enter the total number of interviews conducted with inmates/residents/detainees who reported sexual abuse in this facility using the "Inmates who Reported a Sexual Abuse" protocol:</p>	<p>1</p>
<p>68. Enter the total number of interviews conducted with inmates/residents/detainees who disclosed prior sexual victimization during risk screening using the "Inmates who Disclosed Sexual Victimization during Risk Screening" protocol:</p>	<p>5</p>
<p>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>While residents have not been placed in segregated housing/isolation for risk of sexual victimization, I did interview residents who have been in segregation for other reasons.</p>
<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>See questions 55 and 57 above.</p>
<p><b>Staff, Volunteer, and Contractor Interviews</b></p>	
<p><b>Random Staff Interviews</b></p>	

71. Enter the total number of RANDOM STAFF who were interviewed:	12
72. Select which characteristics you considered when you selected RANDOM STAFF interviewees: (select all that apply)	<input type="checkbox"/> Length of tenure in the facility <input checked="" type="checkbox"/> Shift assignment <input checked="" type="checkbox"/> Work assignment <input checked="" type="checkbox"/> Rank (or equivalent) <input checked="" type="checkbox"/> Other (e.g., gender, race, ethnicity, languages spoken) <input type="checkbox"/> None
If "Other," describe:	gender
73. Were you able to conduct the minimum number of RANDOM STAFF interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
74. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	<p>Random Staff interviews were made to include gender, shift, and posting diversity. Interviews were in a conversational manner, to gain the confidence of those interviewed and to put them at ease, so the Audit Team could better comprehend their understanding of PREA and its practice in the facility.</p> <p>The following interviews of staff were conducted (including some agency-level interviews conducted before the On-Site Audit): Agency Head Designee, Agency Facilities Manager, Agency PREA Coordinator, Superintendent, Agency Human Resources, Investigator, PREA Compliance Manager, Higher-Level Staff for Unannounced Rounds, Medical Staff, Mental Health Staff, Staff who perform Screening and Intake, Staff who monitor for Retaliation, members of the Incident Review Team, Staff who monitor in Isolation, and two contractors. An additional twelve staff were selected randomly, representing various stations, housing units, shifts, and genders. A total of 25 unique interviews were performed.</p>
<b>Specialized Staff, Volunteers, and Contractor Interviews</b>	
Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.	
75. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):	13
76. Were you able to interview the Agency Head?	<input checked="" type="radio"/> Yes <input type="radio"/> No
77. Were you able to interview the Warden/Facility Director/Superintendent or their designee?	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p>78. Were you able to interview the PREA Coordinator?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>79. Were you able to interview the PREA Compliance Manager?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p> <p><input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)</p>
<p>80. 82. Did you interview CONTRACTORS who may have contact with inmates/residents/detainees in this facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
a. Enter the total number of CONTRACTORS who were interviewed:	2
b. Select which specialized CONTRACTOR role(s) were interviewed as part of this audit from the list below: (select all that apply)	<input type="checkbox"/> Security/detention <input checked="" type="checkbox"/> Education/programming <input type="checkbox"/> Medical/dental <input type="checkbox"/> Food service <input type="checkbox"/> Maintenance/construction <input type="checkbox"/> Other
83. Provide any additional comments regarding selecting or interviewing specialized staff.	See question 82 above.

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

84. Did you have access to all areas of the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
<b>Was the site review an active, inquiring process that included the following:</b>	
85. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?	<input checked="" type="radio"/> Yes <input type="radio"/> No
86. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?	<input checked="" type="radio"/> Yes <input type="radio"/> No
87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?	<input checked="" type="radio"/> Yes <input type="radio"/> No

<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</p>	<p>The Site Review included obtaining and studying the facility diagram of the physical plant, observing staff and residents and their supervision and movement, along with casual conversation to ascertain whether observations made were of "normal" supervision and movement. Random checks were made to assure doors intended to be secured were locked. Random checks of PREA Hotline phones for functionality were made. All 4 housing units, 12 segregation cells, and bathroom facilities were inspected for compliance with cross-gender supervision guidelines and other PREA regulations. This included a camera review for those areas with cameras. All areas of the physical plants were observed, with attention to those areas which statistically are at high risk for sexual abuse. PREA Postings, including third-party reporting postings, in the Visitation area, were checked. Confirmation of the availability to the staff of written or posted First Responder Duties was also a part of the tour. Blind spots were identified, and procedures for checking them were verified.</p>

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
---	---

<p>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</p>	<p>Proof of practice documentation was not adequately provided during the Pre-Audit Process. Although this was quickly rectified after the Interim Report was issued, there were few opportunities to oversample documentation, due to the volume of documentation being provided at that time regarding 6 OYA facilities. The COVID-19 pandemic had caused Audits to be postponed to the point that two years' worth of Audits needed to be completed.</p>

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
<b>Total</b>	0	0	0	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
<b>Total</b>	0	0	0	0

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
Inmate-on-inmate sexual abuse	0	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual abuse	0	0	0	0
Staff-on-inmate sexual abuse	0	0	0	0
<b>Total</b>	0	0	0	0

**Sexual Harassment Investigation Outcomes**

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual harassment	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0
<b>Total</b>	0	0	0	0

## Standards

### Auditor Overall Determination Definitions

- Exceeds Standard  
(Substantially exceeds requirement of standard)
- Meets Standard  
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard  
(requires corrective actions)

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.311	<p><b>Zero tolerance of sexual abuse and sexual harassment; PREA coordinator</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>The agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment, and it has a written policy outlining how it will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment, and it includes sanctions for those found to have participated in prohibited behaviors. Although written policy had been provided during the Pre-Audit Phase of the Audit, there was a lack of proof of practice to indicate that the policy and/or the PREA Standards were being followed as required by PREA.</p> <p>Corrective Actions: The Director of the Oregon Youth Authority (OYA) immediately initiated top-level changes that reinstated PREA compliance, and which have remained constant throughout the Corrective Action period. This included the immediate assignment of staff sufficient to coordinate PREA and direct accountability to the agency's second in command, as well as the development and implementation of a Corrective Action Plan (CAP) adequate to bring the agency and RYVCF into compliance. On 11-28-21, the Director had a second video conference with the Audit Team, including the Deputy Director that is over PREA compliance, to verify that the agency was on track toward full compliance, and that the new PREA accountability process that goes through the Deputy Director will be permanent. Early in the CAP, memos went out directing enough time and authority for PCMs to assure PREA compliance in their facilities. Also, training was developed and provided for PCM and Sexual Abuse Response and Resource Coordinator (SARRC) duties. The final piece was to see that changes had become effective and sustainable. This included "active supervision and accountability that is documented" and ongoing "problem recognition regarding systemic breakdowns." Of particular importance was sustaining the change that assured that "The PREA Coordinator must not be supervised by anyone, such as the Chief Investigator, whose work product must be reviewed by the PREA Coordinator for compliance."</p> <p>Analysis: Evidence reviewed regarding this Standard includes the agency organizational chart, interviews with agency and facility officials, on-site reviews in 6 facilities, and PREA policies. The documents reviewed that provided proof of compliance and verification of practice included: RYVCF PCM Duties - Authority and Time, with PCM's recent commitment; Notification of PREA Coordinator process; Zero tolerance for sexual abuse and harassment, including issues relating to LGBTQ+ youth; Employee training – Rogue Valley refresher training 10-2021; Policy I-A-10.0 Preventing Youth Sexual Abuse and Harassment; Policy RYVCF-II-A-10.0 Sexual Abuse Response Plan; and OYA Management Structure with PCMs. Important to OYA's sustainable return to full PREA compliance are reliable and effective processes for accountability. This includes HR investigations and employee evaluations of employees officially tasked with PREA responsibilities. Although these processes function on their own timelines, the Auditor was fortunate to be able to verify from top OYA officials, prior to the end of the Corrective Action Period, that these processes are active in the agency and are addressing issues raised during the Audit. These verifications provide at least a triangulation of evidence of compliance with this Standard.</p>

115.312	<b>Contracting with other entities for the confinement of residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 453 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1469 465">This Standard requires that if a public agency contracts for the confinement of its residents, it shall require the contractor to adopt and comply with the PREA Standards, and it shall monitor the contractor to ensure that the contractor is complying with the PREA Standards. The Interim Report stated, "The agency has not provided enough information to overcome the contradictory information and confusing information that has been received. For example, residents believe OYA has contractual facilities. The PC states that OYA utilizes facilities for youth that are on probation and parole. Additional information would help determine whether these facilities are required to be PREA compliant."</p> <p data-bbox="242 499 1477 790">Corrective Action: The CAP required research to determine which programs are designated for 50% or more for OYA youth, whether contracts mention PREA compliance (If yes, provide them to the Auditor), and to coordinate next steps, as appropriate. Upon completing their internal research, the agency states that "The Oregon Youth Authority (OYA) does not contract with other entities for the confinement of youth committed to OYA. Youth who reside outside of a secure facility (youth correctional facility or transition facility) may be placed in substitute care, which includes foster homes and Behavior Rehabilitation Services (BRS) residential programs." OYA does not contract for the confinement of its residents, but even under these circumstances, it may be that a facility would fall under the Prison Rape Elimination Act (PREA) as systemic, contractual, definitional, or population changes occur. PREA Coordinators must be aware of all the places where OYA youth are housed, as well as the latest guidance from the U. S. Department of Justice regarding the applicability of this Standard.</p> <p data-bbox="242 822 1477 1048">Analysis: The biggest lesson learned from this process relates to Standard 115.311, because of the importance of having an engaged PREA Coordinator who will receive and understand facts, and then will assure PREA compliance. In addition to interviews with OYA PREA administrators, the Auditor reviewed a contract for behavior rehabilitation services and reviewed emails with information from contract, procurement, and community resource officials detailing their research. The contract was for behavioral health care that youth on probation or parole may qualify for based on a treatment need, not a criminal offense. These considerations indicate compliance with this Standard at this time, but they need to be reconsidered during each PREA Audit.</p>

115.313	<p><b>Supervision and monitoring</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>RVYCF develops, documents, and makes its best efforts to comply with a staffing plan that provides adequate staffing levels and video monitoring to protect residents against abuse. In calculating adequate staffing levels, and in determining the need for video monitoring, RVYCF takes into consideration: Generally accepted juvenile detention and residential practices; Any judicial findings of inadequacy; Any findings of inadequacy from Federal investigative agencies; Any findings of inadequacy from internal or external oversight bodies; The composition of the resident population; The number and placement of supervisory staff; Institution programs occurring on a particular shift; Any applicable State or local laws, regulations, or Standards; The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and Any other relevant factors. At least once annually, RVYCF, in collaboration with the PREA Coordinator, is required to review the staffing plan to see whether adjustments are needed to: the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with it. The Interim Report stated, "Interviews, and the documentation review, indicate that deviations from the Staffing Plan are not documented. Blind spots are not documented in the Staffing Plan or other locations. No Staffing Plan reviews have been provided. Sometimes there is nobody but the teacher in the classroom. Although the facility demonstrates an effort to make wise decisions regarding sleeping arrangements and provides supervision, there is not a consistent agency policy regarding the possibility of 14-year-old children showering with adults as old as 24 who are former sexual offenders. Although there is a bit of a privacy barrier between those who are showering, this seemingly unaddressed risk factor provides some residents and staff cause to worry. The PCM believes that they have a procedure at this facility so that children can shower solo, but residents who were interviewed did not mention this option."</p> <p>Corrective Action: The CAP required that the Staffing Plan be updated, reviewed, and approved by the Superintendent. Additionally, the key word "staffing plan deviation" was added to the JJIS Unit Log. A requirement for documentation was added to the protocol. Screen shots of documented staffing plan deviations were provided as proof of practice. Issues regarding risk factors overlap with other Standards, such as 115.341 and 115.342.</p> <p>Analysis: In addition to the interviews (with the Superintendent, with the PREA Coordinator, and with high-level staff) conducted during the On-Site Audit, and the observations made during the Site Review, further documentation was provided to verify full compliance. This documentation was provided in documents such as II-A-3.0 Interactive Supervision of Youth; training regarding agency-wide policy and procedural changes regarding resident showers; Walkthroughs of each housing unit; I-A-3.0 Interactive Supervision (Pg. 4, B); Staffing Plan; and Staffing Plan Update and Review (with associated documents).</p>

115.315	<p><b>Limits to cross-gender viewing and searches</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>No cross-gender searches are permitted by OYA or Rogue Valley, absent exigent circumstances, which must be documented. Residents shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, other than in exigent circumstances, or when such viewing is incidental to routine cell checks. Staff of the opposite gender announce their presence when entering a resident housing unit. Staff are forbidden from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, such may be determined amid conversations with the resident, through review of medical records, or, if necessary, by obtaining that information as part of a broader medical examination conducted in private by a medical practitioner. RYVCF has trained staff in conducting cross-gender pat-down searches in exigent circumstances, and in conducting searches of transgender and intersex residents, in a professional and respectful manner and in the least intrusive manner possible, consistent with security needs. The Interim Report stated, "Interviews indicate that cross-gender announcements are not made regularly and reliably. Also, verification of staff training is pending."</p> <p>Corrective Action: The CAP required that the facility verify staff training on this Standard; that announcements are observed on the unit; that the facility document observation of announcements (in writing); that the PC or Facility Services administration (central office) randomly interview staff and youth to test compliance; and that the facility provide documentation of all these efforts to the Auditor in OAS.</p> <p>Analysis: Evidence used to determine compliance with this Standard includes interviews with randomly selected staff and residents and a review of policies. Documentation to prove compliance with this Standard was contained in sets of documentation and proofs of practice under these headings: Policy II-A-2.0 Searches of Youth and Youth Property in OYA Facilities; Search Policy Attachments A-C; Policy I-A-10.1 Meeting LGBTQI Youth Needs; Policy II-A-2.0 Searches of Youth (Pg. 7, B, 2, A); Policy IIA- 3.0 Interactive Supervision (Pg. 4, D); Policy II-A-3.0 Interactive Supervision (Pg. 4, C); Policy II-A-2.0 Searches of Youth (Pg. 8, E); and 2470 LP - Contraband and Searches for Facilities (training). Evidence of compliance with the CAP included uploaded emails among numerous administrators, verifying that they confirmed that cross-gender announcements were occurring; documentation of 2 youth and staff being interviewed and verifying that they know that cross-gender announcements are occurring; and documentation of staff training on this Standard. The facility demonstrates compliance with this Standard through the successful completion of the CAP.</p>

115.316	<b>Residents with disabilities and residents who are limited English proficient</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 864">This Standard requires that the agency take appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. OYA policies address the identification of needs, and the provision of appropriate services, during Intake, and throughout the time the resident is in care. OYA has policies to provide residents with disabilities and residents with limited English proficiency with an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits the use of resident interpreters, resident readers, or other types of resident assistants, other than in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of First-Response duties under § 115.364, or the investigation of the resident's allegations. In the 12 months reviewed for this Audit, there have been no instances where resident interpreters, readers, or other types of resident assistants have been used, and it was not the case that an extended delay in obtaining another interpreter could compromise the resident's safety, the performance of First-Response duties under § 115.364, or the investigation of the resident's allegations. During the Pre-Audit Process, the agency stipulated that it was not adequately screening for disabilities as per Standard 341, and no examples or proof of practice were provided agencywide for Standard 316. Additionally, the contract with interpreters had expired. The Interim Report also reported that "Interviews indicated that an LEP resident had not had PREA correctly explained in a language he can understand. Despite having been at the facility for a year, the PCM claimed they had not had the time to get him an interpreter."</p> <p data-bbox="242 898 1465 1122">Corrective Action: During the CAP, a new contract (or extension) with interpreters was secured, and staff received updated training on how to access the services available to them through the contract. The other issues to address had been identified prior to the PAQ and related to the need for a reliable system for identification and tracking of residents with disabilities, as also addressed in concert with other Standards. OYA researched its prior efforts to develop this tool and collaborated with Just Detention International to develop its new tool for vulnerability and aggression assessment. The tool was reviewed, approved, and implemented. Staff were trained, and all residents were screened with the new tool. Additionally, it was verified that the resident who had been without an interpreter finally got one.</p> <p data-bbox="242 1155 1481 1547">Analysis: Evidence used to determine compliance with this Standard includes interviews with the Agency Head designee, residents with disabilities, a resident with limited English proficiency, and randomly selected residents and staff. Policies, procedures, forms, and contracts were also reviewed. Documents reviewed include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 8, D. 5); Policy I-D-2.1 Use of Language Services; Policy II-E-2.4 English Plus – Facility; Interpreter Services Local Operating Procedure (LOP); IRCO (Oral Interpretation) 11757 comprehensive file (a-d); Hearing Impaired Interpreter Requests; Intake Close Custody Youth Safety Orientation YA 4033 – 2019; Youth Safety Guide 2020; Interpreter Contract – Signed; and Language interpreter protocol and purchase order. Also provided was proof that the staff have recently been trained regarding how to access interpreter services. The documentation that the resident with limited English proficiency had access to an interpreter included the signature of the resident certifying understanding of PREA education and of the PREA Handbook (which includes the grievance process). The On-Site Review, interviews conducted (including both residents and staff), and the documents provided to satisfy the CAP, are a triangulation of evidence that the facility is compliant with the provisions of this Standard.</p>

115.317	<p><b>Hiring and promotion decisions</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>OYA policy prohibits hiring or promoting anyone who may have contact with residents, and it prohibits enlisting the services of any contractor who may have contact with residents, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 USC 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described. Policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Policy requires that, before it hires any new employees who may have contact with residents, OYA conducts criminal background record checks; consults the Child Abuse Registry; and, consistent with Federal, State, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse, or any resignation during a pending investigation of an allegation of sexual abuse. The Agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. However, acceptable proof of practice of background and child registry checks was not provided during the Pre-Audit process as required.</p> <p>Corrective Action: The protocol that was developed during the CAP includes documented collaboration between DHS and OHA for retrieving background information for OYA staff, and between the school system and contracting entities for others. A longstanding and reliable system of conducting criminal background checks was identified within OYA, but it needed to be strengthened through the maintenance (and sharing) of documentation that the background checks had been completed, while continuing to protect information from inappropriate disclosure.</p> <p>Analysis: Interviews conducted with HR and OYA administrators were considered in compliance determinations. Although there was some confusion prior to the On-Site Review, during the CAP, no information was received that was not consistent with full PREA compliance. Documents reviewed included Policy I-A-10.0 Preventing Youth Sexual Abuse (Pgs. 5 &amp; 6, B &amp; Pg. 6, B); Hiring and Promotions Protocol; and randomly selected proof of contractor, school, and employee criminal record and child abuse registry checks. The records of 20 volunteers included one who did not pass the background check and was not approved for service. 13 records for teachers (considered contractors) were provided. These sources of information provide a triangulation of evidence that OYA is compliant with the Standard.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 197 1508 264"><b>Auditor Discussion</b></p> <p data-bbox="229 264 1508 353">RVYCF has made a substantial modification to its existing infrastructure and video monitoring system. New Bridges High School was built and opened in 2018. Over 64 cameras were installed in the new school.</p> <p data-bbox="229 353 1508 607">Evidence used to determine compliance with this Standard includes the interview with the Agency Head designee and the Superintendent; the Site Review; and documentation of the agency’s plans regarding the design, renovation, modification, and expansion of their facilities. In the 30 days after the On-Site Audit, hundreds of pages were provided for facilities agency-wide, including the feasibility study, meeting agendas and minutes, design phasing and schedules, architecture designs, schematics, progress reports (narratives and blueprint-style descriptions), camera layouts and descriptions, and 5D reports, all with emphasis on safety, security, supervision, and/or risk information. The agency has demonstrated compliance with this Standard.</p>

115.321	<b>Evidence protocol and forensic medical examinations</b>
	<p data-bbox="242 145 738 174"><b>Auditor Overall Determination:</b> Meets Standard</p> <p data-bbox="242 210 451 239"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 1003">For agencies such as OYA, which conducts its own administrative investigations of allegations of sexual abuse, this Standard requires the agency to “follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.” The Standard includes specific rules regarding how this is to be done, and how to care for alleged survivors of abuse. For example, it requires the agency to “offer all residents who experience sexual abuse access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.” In addition, it requires the agency to “attempt to make available to the victim a victim advocate from a rape crisis center.” The Standard recognizes that these services are not always available in every locality, and it provides provisions that take into account various circumstances. For example, it states that “If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers.” The requirement for victim advocates goes far beyond including them in forensic exams. The Standard states, “As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.” In addition to what is required in this Standard, Standard 115.353 requires that all residents have a level of access to advocates. Standard 115.353 states that facilities shall provide residents “access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations . . . .”</p> <p data-bbox="242 1032 1485 1126">The Interim Report stated, “Without a review of investigations, the audit team does not know to what extent this Standard has been followed in any incidents that might have required the collection of evidence. Documentation of efforts to provide SANEs or SAFEs has not been provided.”</p> <p data-bbox="242 1155 1477 1317">Corrective Action: The facility safety response plan was reviewed and enhanced during the CAP, and protocols were established to assure that, at least annually, specific information regarding providers will be checked for accuracy. The Health Services Sexual Assault Response Procedure was incorporated. All related forms and policies were reviewed to get rid of any inconsistencies or confusing wording. The facility, as well as the Audit Team, have verified that advocacy is still provided by Women’s Crisis Support Team (WCST), and a SANE nurse is available at Asante Three Rivers Medical Center.</p> <p data-bbox="242 1346 1485 1440">Analysis: Evidence used to determine compliance with this Standard includes interviews with randomly selected staff, a review of policies, and the MOU with the State Police. An example was provided of a resident receiving mental health follow-up in 2019.</p> <p data-bbox="242 1469 1477 1832">Documentation provided and reviewed includes the following: PAQ; Policy I-D-4.0 Professional Standards Office Investigations; Oregon State Police (OSP) PREA Agreement; Facility SARRT Sexual Abuse Incident Checklist; Facility First Responders to Sexual Abuse Checklist; Policy II-A-1.2 Preserving Chain of Evidence; Policy I-A-10.0 Preventing Youth Sexual Abuse; QHMP minimum qualifications; Sample documentation for Mental Health Follow-up; Residence access to outside support - Advocate MOU; Advocate and SANE Annual Check for RYCF (to assure the information is current and accurate); Advocacy Flyers - Women’s Crisis Support Team; Notification to PREA Coordinator process; Access to outside support services; Third-party reporting sample; Resident access to legal representation (documented examples of calls made); Forensic medical exam verification; and Victim advocate information verification. An example was provided to show proof of practice. Digital photos were provided to show the current information that is posted for staff and residents. At the end of the CAP, information from primary sources was consistent with other sources, as well as with compliance with the Standard.</p>

OYA administrators initiated an agency-wide response to the concerns about bullying and the risk of sexual harassment. Apart from those issues, the initial focus of the CAP was for the Audit Team to get access to all the allegations and investigations of sexual abuse and sexual harassment for a review. Once the investigations were reviewed, concerns were addressed in other Standards associated with investigations, such as Standard 371. Additional training to assure that staff know to report all allegations was covered in Standard 331. Additional responses by the agency/facility to act on information learned during investigations were covered in the follow-ups to Incident Reviews required in Standard 386.</p> <p data-bbox="229 703 1509 929"><b>Analysis:</b> Evidence used to determine compliance with this Standard includes interviews with the Agency Head designee and Investigative staff. Documentation reviewed includes allegations and investigations verifying compliance with this Standard in practice agency-wide, especially after questions were asked and answered by secure email. Additionally, policies were reviewed, including I-D-4.0 Professional Standards (Pgs. 6, A &amp; 8, I). Policy is published at <a href="https://www.oregon.gov/oia/psa/Pages/prea.aspx">https://www.oregon.gov/oia/psa/Pages/prea.aspx</a>. These documented efforts have culminated in a triangulation of evidence that the facility complies with this Standard.</p>

115.331	<b>Employee training</b>
	<p data-bbox="242 145 738 174"><b>Auditor Overall Determination:</b> Meets Standard</p> <p data-bbox="242 210 451 239"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 1066">OYA is required to train all employees who may have contact with residents on the following required matters: zero-tolerance policy for sexual abuse and sexual harassment; how to fulfill responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; residents' rights to be free from sexual abuse and sexual harassment; residents' and employees' rights to be free from retaliation for reporting sexual abuse and sexual harassment; the dynamics of sexual abuse and sexual harassment in juvenile facilities; the common reactions of juvenile victims of sexual abuse and sexual harassment; how to detect and respond to signs of threatened and actual sexual abuse; how to distinguish between consensual sexual contact and sexual abuse between residents; how to avoid inappropriate relationships with residents; how to communicate effectively and professionally with residents, including LGBTI or gender-nonconforming residents; and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities and relevant laws regarding the applicable age of consent. During the Pre-Audit process, some policies and curricula were provided, but not adequate proof of practice. The Interim Report stated, "Professional boundaries were an issue of concern in staff interviews. Inconsistent understandings of what is permissible and what is making oneself vulnerable. An example would be staff discussing their family with residents. Regarding documenting allegations that residents make to staff, the staff had different opinions regarding who would document the allegation, when, and how. Two residents have concerns about the ways staff handle bullying behavior they observe or are told about, saying that it is not taken seriously. 4 residents report that residents who are former sexual offenders are sometimes bullied, but residents put a stop to it before staff address it. It is important to see these comments in the context of the Restorative Justice techniques that are taught at the facility. Residents are encouraged to take the initiative to address hurtful comments. Two residents provided examples of racist comments that are common. Two residents provided examples of abusive words and threats made toward LGBTI residents. These residents indicate that even when staff say something, the abusive residents are not given consequences other than redirection. Although these issues may not represent a clear violation of PREA, they may indicate wise topics to address in training since increasing the skills and consistency of staff may increase their ability to prevent sexual abuse and sexual harassment. Increasing staff trustworthiness may also increase the likelihood that residents will report sexual abuse and sexual harassment incidents, or other violations, to them."</p> <p data-bbox="242 1099 1485 1429">Corrective Action: The CAP required that an acknowledgement of understanding be added to the agency's training software (Workday). Additionally, administrative oversight ensured that all new training is uploaded into Workday, and that employees complete all their required training in Workday. This occurred in a manner so that when training was completed by employees that were behind on their training, the verification (including screenshots and electronic verification from Workday) provided to the Audit Team included verification of these CAP action items. In the meantime, OYA has launched a new training program to address concerns from the residents about bullying that bordered on harassment. Some of the in-depth aspects of this training are to be completed by June 2022, in collaboration with community agencies that are LGBTIQ+ resources. Core components of this training have already been provided to staff in a refresher training course, with multiple components covering multiple Standards. Among other topics, this refresher training course covers how to respond to harassing behavior, the respectful treatment of LGBTIQ+ residents, and searches of transgender youth.</p> <p data-bbox="242 1458 1485 1989">Analysis: Evidence used to determine compliance with this Standard includes interviews with randomly selected staff, training policy, and staff training curricula. Training files (with acknowledgements of understanding) were provided regarding 14 randomly selected staff. Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 6, C); <a href="https://youtu.be/LTetpd2vdo4">https://youtu.be/LTetpd2vdo4</a>; Policy I-D-3.9 Staff Training and Development; Policy I-D-3.8 Agency Training Program; Training 3330 Syllabus - PREA Scenarios 2020; Training 3330 LP - PREA Scenarios 2020; Training 3330 HO PREA Scenarios - Worksheet and answers 2020; PREA Scenarios laminated cards; Training 1325 Syllabus - PREA Introduction; Training 1325 LP - PREA Introduction updated 2020; randomly selected staff records; Master list of all staff trained. The following evidence was provided during the CAP: Documentation was provided that staff who were behind on their training became current; Policy I-A-10.1 Meeting LGBTQQI Youth Needs, with updates effective 10-2-21; Employee training - LGBTQ+ Awareness training plans; Employee Training - PREA Acknowledgement and Understanding; Employee training 2021; Zero tolerance for sexual abuse-harassment-LGBTQ+ youth discussion; training regarding agency-wide policy and procedural changes regarding resident showers; and Employee training - Refresher training 10-2021, showing that the remaining training requirements in the CAP were included. Curricula for this October training were provided, as well (including 3 videos), with employee signatures acknowledging understanding of the material, along with the outline of the remaining training components to be provided in June 2022. These documents, considered in context with what was learned during interviews, and the requirements of the CAP, indicate compliance with this Standard.</p>

115.332	<b>Volunteer and contractor training</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 555">Volunteers and contractors who will have contact with residents are required to have been trained on their responsibilities, under OYA policies and procedures, regarding sexual abuse and sexual harassment prevention, detection, and response. The level and type of training provided to volunteers and contractors is to be based on the services they will provide, factoring in the level of contact they will have with residents. All contractors who will have contact with residents should have been notified of the agency and facility's zero-tolerance policy regarding sexual abuse and sexual harassment, as well as informed of how to report such incidents. The agency is to maintain documentation confirming that their contractors and volunteers understand the training they have received. During the Pre-Audit process, policies and blank training forms were provided, leaving proof of practice to be provided during the 30 days after the On-Site Audit, which was done.</p> <p data-bbox="229 555 1509 804">Analysis: In addition to documentation provided for Standard 331, to show full compliance, even though volunteers are not currently operating in the facility, the agency provided their Volunteer Training quiz, Volunteer retraining email (with instructions), Volunteer Retraining Forms, Facility Access Level 2 Training for Volunteers and Interns, Facility Access Level 3 Training for Employees and Contracted Providers, Volunteer training acknowledgements; training link; and the Contractor (teacher) training 2021 transcript from Workday Learning System. Although there were no volunteers and only two contractors entering the facility due to COVID, the facility provided 20 records, covering the past year. This, considered with interviews conducted, provides a triangulation of evidence of compliance.</p>

115.333	<p><b>Resident education</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>Residents are to receive information, at time of Intake, about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or sexual harassment. Additionally, the Standard requires that, "Within 10 days of intake, the agency shall provide comprehensive age-appropriate education to residents either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents." The facility is required to provide education in formats accessible to all residents, including those who have limited English proficiency and/or are deaf, visually impaired, and/or otherwise disabled, as well as to residents who have limited reading skills. The agency is also to ensure that key information is continuously and readily available or visible to residents through posters, resident handbooks, or other written formats. Policies and blank forms were provided during the Pre-Audit Phase of the Audit, but not proof of compliant practice. The PREA Audit Interim Report stated, "The facility provided PREA education records of 11 residents. Interviews indicate that current Resident Handbooks are not available. Other interviews indicate that although the updated Handbook is not fully approved and issued, the revisions are available to those who request to see it. Regardless, this represents an inconsistency in the PREA education of residents since the rules and PREA information therein is pending and has not been translated into all needed languages. . . . Some residents see a PREA video upon arrival at the facility; some do not. The proof of practice that was provided with the PAQ verifies that PREA education is provided in English in a timely fashion. Proof of practice regarding the other provisions of this Standard are needed during the Corrective Action Period (CAP)."</p> <p>Corrective Action: The CAP required that the facility:</p> <ol style="list-style-type: none"> <li>1. Provide the current Resident Handbook to all youth (including the Spanish version when appropriate).</li> <li>2. Provide proof of delivery to youth to the Auditor (via OAS).</li> <li>3. Provide proof of the Intake process (Handbook, safety guide, and PREA video) on all new Intakes to the auditor (via OAS).</li> </ol> <p>Analysis: Evidence used to determine compliance with this Standard includes interviews with Intake staff and randomly selected residents, a resident with limited English proficiency, and residents with disabilities. Also reviewed were agency policies and forms governing PREA education of residents. Documentation included the randomly selected youth education (YA 4033) documentation forms provided as part of the completion of the PAQ. Other documentation included Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 8, D); Hotline Contact Card; Intake Close Custody Youth Safety Orientation YA 4033 – 2019; Hotline Poster displayed in Facility; Link to Youth Sexual Safety video; Abuse Report form; Youth Sexual Safety Education YA 4034; and Youth Safety Guide 2020. Resident training materials were also provided in Spanish. The ability to utilize resources for other languages and for impairments was also verified. During the CAP, new Youth Safety Guides were released with photos (with date stamps) verifying distribution. Youth education acknowledgment forms (including for the Handbook, the safety guide, and the PREA video, including one for a Spanish-speaking resident) for 12 current youth were provided. These sources provide a triangulation of evidence that the facility is compliant with the provisions of this Standard.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 451 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1484 499">The Standard states that “the agency shall ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings.” The training “shall include techniques for interviewing juvenile sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.” Further, “The agency shall maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations.” During the Pre-Audit Process, policies were provided but not proof of practice.</p> <p data-bbox="240 530 1493 824">Corrective Action: Compliance with the CAP was immediately undertaken by the agency. Investigators produced their NIC certificates, typically after retaking the training. Additionally, the CAP required the agency to “Evaluate the training needs of investigators. For example, if they are not experienced sexual abuse investigators, perhaps they should be assigned to assist an investigation before being assigned a case on their own. If they have never conducted any type of investigations, their training should include intermediate training. Sexual abuse training has prerequisites. (It is never a training for beginners.) Investigators should be experienced and trained for other types of investigations before moving on to sexual abuse investigations. If an investigator has been found not to follow the training received, remove them from the list of investigators until this is resolved. Someone supervising or reviewing the work of investigators must be familiar with the components of sexual abuse investigations in confinement, involving juveniles, and how they differ from other types of investigations.”</p> <p data-bbox="240 855 1485 1016">Analysis: Interviews with investigative staff were conducted, and agency training policy for investigative staff was reviewed, as well as the investigator training curriculum. Evidence reviewed included: Prison Rape and Sex Assault Investigations; NIC Investigating Sexual Abuse in Confinement Setting; OYA Investigator &amp; Interview Training with PREA Focus; Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 7. 3 B); agency-wide proof of training documentation for 5 Investigators; and recently completed investigations, all of which, in aggregate, indicate compliance with this Standard.</p>

	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 591">OYA has written policies related to the training of medical and mental health practitioners. The training includes: How to detect and assess signs of sexual abuse and sexual harassment; How to preserve physical evidence of sexual abuse; How to respond effectively and professionally to juvenile victims of sexual abuse and sexual harassment; and How and to whom to report allegations or suspicions of sexual abuse and sexual harassment. Policies were provided during the Pre-Audit Process, but not proof of practice. Documentation was received during the Pre-Audit Process that one mental health care practitioner had completed specialized training. According to the PAQ, three medical and mental health care practitioners work regularly at this facility. The PREA Audit Interim Report stated that “During the CAP, additional documentation should prove that all medical and mental health staff have received specialized training, in addition to the training mandated for all employees who have contact with residents.”</p> <p data-bbox="229 591 1509 654">Corrective Action: The CAP focused on the provision of training transcripts and certificates, but also verified the curriculum to make certain that the curriculum matched the training received.</p> <p data-bbox="229 654 1509 929">Analysis: Evidence used to determine compliance with this Standard includes interviews with medical and behavioral health staff, residents who have had behavioral health services, and the related administrators. Documentation reviewed to determine compliance included Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 7, 3 C); PREA 201 for Medical and Mental Health Practitioners; and proof of completion of specialized training for all 6 practitioners, as well as verification of completion of the PREA training that all staff are required to complete. Some practitioners have documented additional training as well. These documents were consistent with information learned from interviews and the PAQ, verifying compliance with the Standard and completion of the CAP.</p>

115.341	<b>Obtaining information from residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 501">OYA has a policy consistent with this Standard that requires that, upon admission to the facility or transfer from another facility, all residents must receive screening, during their Intake, for risk of sexual abuse victimization and/or sexual abusiveness toward other residents. This information, collected as part of the screening process, is to be ascertained through conversations with the resident during the Intake process, medical and mental health screenings, and classification assessments, and by reviews of court records, case files, facility behavioral records, and other relevant documentation from the resident's files. During the Pre-Audit Process, policies and blank forms were provided, but not proof of practice. The PC stated that the screenings were not adequate to meet the requirements of this Standard.</p> <p data-bbox="229 524 1509 680">Corrective Action: The issues to address had been identified prior to the PAQ and indicated need for a reliable system for identification and tracking of residents with possible risk factors. OYA researched its prior efforts to develop this tool and collaborated with Just Detention International to develop its new tool for vulnerability and aggression assessment. The tool was reviewed, approved, and implemented, along with appropriate updates in official protocols. Staff were trained, and all residents were screened with the new tool.</p> <p data-bbox="229 703 1509 963">Analysis: Interviews were conducted with Risk Screening staff, with randomly selected residents, with the PREA Coordinator, and with the Compliance Manager. Documentation reviewed includes Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 12); Mental Status Interview Guideline; Sexual Violence Assessment Tool, and new tool; YCF Initial Health Screen; SVAT Checklist for facility; YCF Health History and Physical Assessment; YCF Initial Mental Status Assessment; and documentation of randomly selected residents being screened with the new tool. The documentation reviewed showed that the CAP had been followed, and that the concerns had been addressed that had been brought up during Pre-Audit Process and in the interviews with staff and residents.</p>

<b>115.342</b>	<b>Placement of residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1497 701">OYA is compelled to use information from the risk screening required by 115.341 to inform housing, bed, work, education, and program assignments, with the goal of keeping all residents safe and free from sexual abuse. Residents may be isolated from others only as a last resort, only when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. Lesbian, gay, bisexual, transgender, or intersex residents are not placed in particular housing, bed, or other assignments solely on the basis of such identification or status. Lesbian, gay, bisexual, transgender, or intersex identification or status is not an indicator of likelihood of being sexually abusive. In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex resident are to be reassessed at least twice each year, to review any threats to safety experienced by the resident. Transgender and intersex residents are to be given the opportunity to shower separately from other residents. During the Pre-Audit process, policies were provided, but not proof of practice. Interviews revealed some concerns about LGBTI residents being bullied.</p> <p data-bbox="242 730 1469 824">Corrective Action: Corrective actions for this Standard related to Standard 341 above, as well as Standard 316, but also included a need to document that the information collected from residents is used to protect them. 	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1484 533">This Standard requires the agency to provide multiple internal ways for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Also, the agency is to provide a way for residents to report abuse or harassment to an entity that can receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Staff are to accept reports made verbally, in writing, anonymously, and from third parties, and they are to promptly document verbal reports. Facilities are to provide residents with access to tools necessary to make a written report. The agency also is to provide a method for staff to privately report sexual abuse and sexual harassment of residents. The PREA Audit Interim Report stated that,</p> <p data-bbox="242 562 1497 790">“Policies and flyers were provided but not proof of practice. Three test reports to the Governor's Constituent Services Office failed. The first was because the wrong address was provided, but the agency has not indicated why the other two tests failed or what they are doing to assure their system works, or that the Governor's Constituent Services Office knows what to do with reports they receive. A fourth test letter went through, but this is not enough to show systemic and sustained compliance. Interviews with Rogue Valley YCF staff indicate that some of them misunderstand who is responsible for documenting verbal reports of abuse. Confusion regarding mandatory reporting is documented in investigative documentation provided for another agency facility.”</p> <p data-bbox="242 819 1476 1048">Corrective Action: The CAP required that the agency test the Governor's Constituent Services Office reporting system and provide the result of the test to the Auditor. Additionally, they were to provide proof that the Governor's Constituent Services Office has been trained, and that it understands how they are supposed to handle reports they receive, what is considered timely, and regarding reports with requests for residents or reporting parties to remain anonymous. Finally, they were required to provide systemic change, so that the Governor's Constituent Services Office contact information will always be accurate when given to residents, and so that the GCS Office will keep staff trained over time, and so that they have a backup system for in case they cannot check their mail or have other disruptions.</p> <p data-bbox="242 1077 1493 1608">Analysis: Documentation reviewed includes the Hotline Contact Cards given to everyone; Intake Close Custody Youth Safety Orientation YA 4033 – 2019; Hotline Poster for Facility; Link to Youth Sexual Safety video; Report Abuse OYA Hotline Poster; Youth Sexual Safety Education YA 4034; Youth Safety Guide 2020 [Residents are instructed to report abuse in a letter to the Governor's Office for Constituent Services. A triangulation of evidence confirms that the agency is in compliance with this Standard.</p>

115.352	<b>Exhaustion of administrative remedies</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 533">OYA has an administrative procedure for dealing with resident grievances regarding sexual abuse. The facility policy allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. There is no time limit for a resident to submit a grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, nor to otherwise to attempt to resolve with staff an alleged incident of sexual abuse. Policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The facility's procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. Policies and blank forms were provided during the Pre-Audit Process, but not proof of practice.</p> <p data-bbox="242 564 1453 757">Corrective Action: The CAP required the PREA Coordinator to test the grievance system and provide documentation of a successful test. Additionally, as proof of practice, the facility was to provide 2 examples of actual grievances and their associated files. The CAP stated that "If none are available regarding sexual abuse, provide grievances regarding some other issue, to demonstrate that the system works. If none are available during the past year, provide some from the year before. Any new grievances regarding sexual abuse or sexual harassment must be reported to the Auditor throughout the duration of the CAP."</p> <p data-bbox="242 788 1477 913">Analysis: Policy II-F-1.1 Youth Grievance Process; Administrative Remedies process and sample; PAQ; and documentation completed in satisfaction of the CAP as described above. The test grievance was successful, and the real grievances provided also served to verify that the grievance system is working. This, along with interviews conducted and training and educational materials reviewed, demonstrates compliance.</p>

115.361	<b>Staff and agency reporting duties</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 208 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1493 797">All staff are required to report, immediately and according to agency policy: any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred; any retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or to retaliation. OYA requires all staff to comply with any applicable mandatory child abuse reporting laws, as well as reports, as (and when) appropriate, to licensing agencies and Adult Protective Services. Other than when reporting to designated supervisors or officials and to designated state or local service agencies, OYA policy prohibits staff from revealing any information related to a sexual abuse report to anyone, beyond what is necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters; so, they are required to inform residents, at the initiation of services, of their duty to report, and of the limitations of confidentiality. Upon receiving any allegation of sexual abuse, OYA is to promptly report the allegation to the appropriate agency office, and to the alleged victim's parents or legal guardians, unless the facility has official documentation showing that the parents or legal guardians should not be notified. If the alleged victim is under the guardianship of the child welfare system, the report shall be made to the alleged victim's caseworker, instead of to the parents or legal guardians. If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee shall also report the allegation to the juvenile's attorney or other legal representative of record, within 14 days of receiving the allegation. Policies supporting compliance were provided during the Pre-Audit process, but not proof of practice.</p> <p data-bbox="242 831 1465 922">Corrective Action: The CAP required the agency to provide screen shots of their review process for Youth Incident Reports (YIRs), to test whether staff are reporting everything they are required to report. Also, the agency was to provide additional information to staff about things they may have forgotten that they need to report, such as risks, retaliation, and threats.</p> <p data-bbox="242 956 1493 1182">Analysis: Materials reviewed for this Standard include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, c); Policy 0-2.3 Mandatory Reporting (Pg. 5, A, 1, b, Pg. 6, 4, B); Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, 2); Policy I-A-10.00 Preventing Youth Sexual Abuse (Pg. 9, E); Residents' access to outside support - Advocate MOU; Advocate and SANE Annual Check RVYCF; Advocacy Flyers; RVYCF PCM Duties - Authority and Time; Notification to PREA Coordinator process; Access to outside support services; Third-party reporting sample; YIRs; allegations; and resident access to legal representation. Additionally, the training detailed in the narrative for Standard 331 assisted the agency in showing compliance with the CAP.</p>

115.362	<b>Agency protection duties</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 353">The Standard in its entirety is this: "When an agency learns that a resident is subject to a substantial risk of imminent sexual abuse, it shall take immediate action to protect the resident." Policies were initially provided but not proof of practice.</p> <p data-bbox="229 353 1509 430">Corrective Action: The jointly developed CAP required documentation of agency-wide examples, since residents at RVYCF had not been identified as being at substantial risk of imminent sexual abuse.</p> <p data-bbox="229 430 1509 598">Analysis: Interviews with the Agency Head designee, with the Superintendent, and with randomly selected staff and residents were conducted. Documents included the PAQ, Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, I, 5), and an Agency protection duty example, youth movement for safety. These documents, along with private interviews conducted with residents and staff, provide a triangulation of evidence of compliance.</p>

115.363	<b>Reporting to other confinement facilities</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="244 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="244 271 1485 465">The Standard states that "Upon receiving an allegation that a resident was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of the facility or appropriate office of the agency where the alleged abuse occurred and shall also notify the appropriate investigative agency." The Standard also requires the notification be made within 72 hours, be documented, and that "The facility head or agency office that receives such notification shall ensure that the allegation is investigated in accordance with these standards." The policy was initially provided without proof of practice.</p> <p data-bbox="244 499 1477 622">Corrective Action: Since policies were compliant with the PREA Standard, Corrective Actions focused entirely upon proof of practice. No allegations relating to this Standard involved Rogue Valley, so examples were provided regarding other agency facilities. One example was regarding an allegation made to a facility, and 3 were allegations received from facilities. The actions documented were consistent with this Standard.</p> <p data-bbox="244 656 1461 779">Analysis: In addition to interviews conducted, and information provided for the PAQ, the following documentation was reviewed: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 17, F); agency example of notification to other confinement facility; and agency examples of receiving a report from a confinement facility. The agency has completed the CAP, and it has demonstrated compliance with this Standard.</p>

115.364	<b>Staff first responder duties</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1497 701">Rogue Valley Youth Correctional Facility has a First Responder policy for allegations of sexual abuse. Its policy requires that, upon learning of an allegation that a resident was sexually abused, the first staff to respond to the report shall: (1) separate the alleged victim and abuser; and (2) preserve and protect any crime scene, until appropriate steps can be taken to collect any evidence. If the abuse occurred within a time period that still allows for the collection of physical evidence, those appropriate steps will be as follows: (1) The First Responder requests that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and (2) The First Responder should ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. There are additional notifications to be made, as in 115.361 above. The Audit Team was concerned that the First Responder Duties were worded in a way that might allow alleged perpetrators who are staff to be treated differently or not subject to First Responders' instructions. The PREA Audit Interim Report stated, "If staff are to be treated differently, it must be spelled out and must comply with the PREA Standards." During the Pre-Audit Process, policies were provided but not proof of practice.</p> <p data-bbox="240 730 1474 891">Corrective Action: The CAP required the agency and facility to: Provide proof of "youth" terminology use in OYA, which includes all people in OYA physical custody (although some are adults); Correct the wording in all applicable materials, so that it is crystal-clear that First Responder Duties are to be followed, even if the alleged perpetrator is a staff. (To the extent that staff are to be treated differently, explain it.); and Distribute new materials, and provide the new materials, as well as proof of distribution, to the Auditor.</p> <p data-bbox="240 920 1485 1081">Analysis: In addition to interviews conducted, documentation was reviewed including Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, C); RYCF-II-A-10.0 Sexual Abuse Response Plan; 1st Responder card; Facility First Responders to Sexual Abuse Checklist; Facility SARRT Sexual Abuse Incident Checklist; and RYCF Sexual Abuse Response Plan and Acknowledgement (all staff are trained as First Responders). Additionally, documentation was provided consistent with the CAP, as described above. All this culminates in a triangulation of evidence that the facility is compliant with this Standard.</p>

115.365	<b>Coordinated response</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1485 499">The Standard states that “The facility shall develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership.” The Interim Report stated, “Evidence used to determine compliance with this Standard includes an interview with the Superintendent and a review of the Facility’s Coordinated Response Plan. To be compliant, the First Responder Duties must be updated. Proof should be provided, as well, that the updated plan is properly implemented and distributed. Proper implementation should include the removal of previous versions from areas and computers where they may be found and used by mistake in the future.”</p> <p data-bbox="240 533 1465 656">Corrective Action: The facility safety response plan was reviewed and enhanced during the CAP, and protocols were established to assure that, at least annually, specific information regarding providers is checked for accuracy. The Health Services Sexual Assault Response Procedure was incorporated. All related forms and policies were reviewed, to get rid of any inconsistencies or confusing wording.</p> <p data-bbox="240 689 1490 813">Analysis: The OYA Rogue Valley YCF Local Operating Protocol Sexual Abuse Response Plan (AKA the Coordinated Response Plan, or CRP) and the RYCF-II-A-10.0 Sexual Abuse Response Plan were otherwise consistent with the Standard. The facility provided the updated CRP and proof of distribution and training. This information, along with interviews and investigations reviewed, provides a triangulation of evidence of compliance.</p>

115.366	<b>Preservation of ability to protect residents from contact with abusers</b>
	<b>Auditor Overall Determination:</b> Audited at Agency Level
	<b>Auditor Discussion</b>
	<p>The agency has neither entered nor renewed any collective bargaining agreement that restricts the ability to protect residents from abusers.</p> <p>Analysis: Documentation reviewed includes the 2019 -2021 Collective Bargaining Agreement between the Department of Administrative Services and the Service Employees International Union, Local 503, OPEU. All information known to the Audit Team, including internet research and interviews with administrators, is consistent with a finding that the agency and facility are compliant with this Standard.</p>

115.367	<b>Agency protection against retaliation</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1490 533">The Standard requires the agency and facility to protect all residents and staff, or any cooperating individual who reports sexual abuse or sexual harassment, or who cooperates with sexual abuse or sexual harassment investigations, from retaliation by other residents or staff. The Standard describes minimum practices to provide protection against retaliation. OYA policies did not include all provisions of this Standard. Also, adequate proof of practice was not provided during the Pre-Audit phase of the Audit. The Interim Report stated, "Evidence used to determine compliance with this Standard includes interviews and a review of policy. Proof of practice was not provided. Interviews indicate that retaliation monitoring for staff is not documented, and other monitoring is not properly documented. Policy puts the initiation of monitoring as a task of the PC, but the provisions of the Standard are not listed in the policy."</p> <p data-bbox="240 562 1469 656">Corrective Action: The CAP required that the agency develop a retaliation monitoring protocol, and that the Facility Director take the lead in monitoring for retaliation. Additionally, they were required to implement the retaliation monitoring protocol, and to ultimately provide proof of practice documentation of retaliation monitoring to the Auditor.</p> <p data-bbox="240 685 1490 882">Analysis: Along with the interviews conducted agency-wide, including with residents and staff who should be monitored for retaliation, the following documents were reviewed: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, F 2 &amp; Pg. 11, H); Agency protection against retaliation; updated procedure; agency monitoring example; and Retaliation monitoring - staff - process. Although they appeared to be significantly out of compliance at the time of the Interim Report, the agency/facility was able to show a level of compliance with this Standard (through the use of agency-wide examples) by the end of August 2021, and then was able to demonstrate institutionalization of compliance by the end of the CAP.</p>

115.368	<b>Post-allegation protective custody</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1453 499">The Standard requires that “Any use of segregated housing to protect a resident who is alleged to have suffered sexual abuse shall be subject to the requirements of § 115.342.” The Interim Report stated, “residents were interviewed who had been isolated in the past, although none have been isolated for the purpose of protecting them from sexual abuse. With policies and procedures in place, and interviews with both residents and staff with first-hand information regarding facility practices, a triangulation of evidence consistently indicates compliance with this Standard. The agency’s full training curriculum also reinforces compliance. The lack of proof that staff has received this training is being addressed in other Standards during the CAP.”</p> <p data-bbox="240 533 1490 757">Analysis: Polices are found in 11-B-1.2 (Pg. 6, E, Pg. 8, F) and I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, F 2 &amp; Pg. 11, H). OYA does not allow Isolation longer than 5 days. Evidence used to determine compliance with this Standard includes: (1) Interviews with each of the following: the Superintendent; staff who supervise residents in Isolation for any reason; Medical staff; and Mental Health staff; (2) Facility policy that residents who allege to have suffered sexual abuse may only be placed in Isolation as a last resort, only if less restrictive measures are inadequate to keep them and other residents safe, and only until an alternative means of keeping all residents safe can be arranged; (3) and observations made by the Audit Team during the Site Review.</p>

115.371	<b>Criminal and administrative agency investigations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1493 434">This Standard contains numerous provisions regarding how investigations are to be conducted, but it starts with “When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.” Policies were provided during the Pre-Audit process, but not proof of practice as required. The PREA Audit Interim Report stated, in part, “Full investigative files must be provided. Fixes for the weaknesses of the investigative software must be implemented.”</p> <p data-bbox="240 463 1481 624">Corrective Action: Initially, the CAP for this Standard was the same as for Standard 322, requiring the investigations to be provided, along with full PAQ information. Once agency investigations were provided and reviewed, they were found not to fully comply with provision (g) (2) of the Standard, which requires that administrative investigations, “Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.” The agency created and initiated a new report.</p> <p data-bbox="240 654 1474 815">Analysis: In addition to interviews conducted with residents agency-wide who were alleged victims and witnesses in agency administrative investigations, and visits with staff (including Investigators) about investigative processes, documentation reviewed to verify compliance includes Policy I-D-4.0 Professional Standards Office Investigations (Pg., 4, 7, Pg., 9, 3) and investigations conducted agency-wide. Additionally, verifying completion of the CAP, the Auditor has reviewed two investigations completed using the new investigative report.</p>

115.372	<b>Evidentiary standard for administrative investigations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<b>Auditor Discussion</b>
	<p>The entire Standard is as follows: "The agency shall impose no standard higher than a preponderance of the evidence in determining whether allegations of sexual abuse or sexual harassment are substantiated." During the Pre-Audit Process, proof of practice was not provided.</p> <p>Corrective Action: The CAP for this Standard was the same as for Standard 322, so that the Auditor would have investigations to review for compliance determination. The investigations were received and reviewed. Investigations reviewed were from other agency facilities since there were none applicable to this Standard at this facility during the past 12 months.</p> <p>Analysis: Interviews with investigators and other administrators, Policy I-D-4.0 Professional Standards (Pg. 8, D), and a review of investigations conducted agencywide, indicate compliance with this Standard.</p>

115.373	<b>Reporting to residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 416">Any resident who alleges that they suffered sexual abuse is to be informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. The Standard provides additional rules that outline the work of informing residents. For example, it requires that all notifications described under this Standard are documented. Policies were provided by the agency during the Pre-Audit Process, but not proof of practice as required.</p> <p data-bbox="229 416 1509 528">Corrective Action: The CAP for this Standard was the same as for Standard 322, to include documentation of reporting to residents. 115.376	<b>Disciplinary sanctions for staff</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="231 197 1508 257"><b>Auditor Discussion</b></p> <p data-bbox="231 257 1508 548">Facility staff are to be subject to disciplinary sanctions, up to and including termination, for violating agency sexual abuse or sexual harassment policies. Disciplinary sanctions for violations of agency policies relating to sexual abuse or sexual harassment (other than actually engaging in sexual abuse) are to be commensurate with the nature and circumstances of the acts committed, the staff member's disciplinary history, and the sanctions imposed for comparable offenses by other staff with similar histories. All terminations for violations of agency sexual abuse or sexual harassment policies, or resignations by staff who would have been terminated if not for their resignation, are to be reported to law enforcement agencies, unless the activity was clearly not criminal, and to any relevant licensing bodies. Policies were provided during the Pre-Audit Process, but not proof of practice as required.</p> <p data-bbox="231 548 1508 660">Corrective Action: Once the PAQ was provided, and investigative documentation, the only remaining requirement relating to his Standard was proof of practice. There were no examples specific to this facility, so they agreed to provide documentation of a completed Staff-on-Youth Misconduct Violation Letter regarding a staff from another facility.</p> <p data-bbox="231 660 1508 797">Analysis: Evidence for compliance includes interviews with staff and administrators; Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 5, end of III); Policy I-D-4.0 Professional Standards (Pg. 9, J); Sample of disciplinary sanctions for staff; and investigative materials.</p>

<b>115.377</b>	<b>Corrective action for contractors and volunteers</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 479">This Standard requires that "Any contractor or volunteer who engages in sexual abuse shall be prohibited from contact with residents and shall be reported to law enforcement agencies, unless the activity was clearly not criminal, and to relevant licensing bodies." It also requires that "The facility shall take appropriate remedial measures, and shall consider whether to prohibit further contact with residents, in the case of any other violation of agency sexual abuse or sexual harassment policies by a contractor or volunteer." Policies were provided during the Pre-Audit process, but not proof of practice as required. OAS, the Audit Team, and the PRC provided instructions on what can be used as proof of practice.</p> <p data-bbox="229 479 1509 591">Corrective Action: No contractor or volunteer is known to have committed sexual abuse against a resident, so for proof of practice, the agency provided a documented example of a contractor being prohibited from entering an agency facility due to policy violations other than sexual abuse.</p> <p data-bbox="229 591 1509 728">Analysis: Evidence of compliance includes interviews conducted, documentation reviewed, and completion of the CAP. Documentation includes Agency Policy I-D-4.0 Professional Standards (Pg. 3, f, Pg. 9, J); Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 6, 5, B); and corrective action for contractors and volunteers – agency example.</p>

115.378	<b>Interventions and disciplinary sanctions for residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 501">Residents are to be subject to disciplinary sanctions only pursuant to a formal disciplinary process following an administrative finding that the resident engaged in resident-on-resident sexual abuse. This Standard provides guidelines for disciplinary sanctions for sexual abuse. It prohibits disciplinary action for a report of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. Sexual activity between residents does not constitute sexual abuse unless the activity is coerced. Policies related to this Standard were provided during the Pre-Audit process, but not proof of practice. OAS, the Audit Team, and the PRC provided instructions on what could be used as proof of practice.</p> <p data-bbox="229 524 1509 748">Corrective Action: Once the policies and procedures were verified, the CAP focused on locating and providing proof of practice, which was provided in the form of Youth Incident Report (YIR) summaries, and screenshots of YIR refocus actions. This process also strengthened the evidence of compliance with other PREA Standards that need the agency to document its work with residents in its care, and to be able to track and locate that data when needed. This activity helped demonstrate the type of collaboration that occurs between agency and facility officials, the functionality of their software, and the way a facility which receives a resident from another facility (within OYA) has access to information necessary to care for that resident.</p> <p data-bbox="229 770 1509 1030">Analysis: Although the facility administrators indicate an understanding of this Standard, they have not had applicable substantiated allegations of sexual abuse by youth at the facility in the past 12 months. Examples of practice are from older files, other facilities, or other types of behavior problems. Documents reviewed include Policy II-B-2.1 Behavior Mgt - Youth Refocus Options (2); Policy II-B-2.1 Behavior Management Attachment A; Policy II-B-1.2 Use of Time out (Pg. 9, G); Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 4, III, Pg. 10, 2, &amp; Pg. 16, E). These policies came with agency-wide examples of the policies (and this Standard) being followed in practice. Taken with the interviews conducted throughout this Audit, with both residents and staff, and a review of investigative materials, the facility demonstrates compliance with this Standard.</p>

115.381	<b>Medical and mental health screenings; history of sexual abuse</b>

	<p data-bbox="242 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1453 465">This Standard relates to the screening conducted for Standard 115.341. When residents have experienced prior sexual victimization, or if residents have previously perpetrated sexual abuse, staff are required to ensure that the residents are offered a follow-up meeting with a mental health practitioner within 14 days of the screening. The Standard also provides rules regarding information related to sexual victimization or abusiveness. The PREA Audit Interim Report stated that "Policies were provided but not proof of practice as required. OAS, the Audit Team, and the PRC provided instructions on what can be used as proof of practice."</p> <p data-bbox="242 499 1490 622">Corrective Action: Once policies and procedures were verified, the CAP focused on ways proof of practice could be provided. The agency and facility provided copies of completed YA 4409 (MH screening); YA 4416 (Health Screenings); and MASIs. They highlighted the sexual abuse components of the forms. They provided documentation of follow-up when there is a history of sexual abuse, with screen shots of case notes.</p> <p data-bbox="242 656 1465 846">Analysis: Policy and procedure documentation includes Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 13, 4); SVAT Checklist for the facility; OYA Informed Consent-Awareness of Information Sharing - 12.1.14; Disclosure of Confidentiality Limitations; and Authorization for Release of Information. Proof of practice included lengthy Mental Health Screening documentation, including follow-up care, and screenshots associated with residents applicable to this Standard. Files provided proof of practice documentation of mental health screenings and follow-ups for 12 Rogue Valley residents. Taken with the interviews conducted, this culminates in a triangulation of evidence of compliance.</p>

	<p data-bbox="231 190 1508 257"><b>Auditor Discussion</b></p> <p data-bbox="231 257 1508 616">Resident victims of sexual abuse are to receive timely, unimpeded access to emergency medical treatment and crisis intervention services. The nature and scope of such services are to be determined by medical and mental health practitioners, in accordance with their professional judgment. Medical and mental health staff are to maintain secondary materials documenting the timeliness of emergency medical treatment and crisis intervention services that were provided; the appropriate response by non-health staff in the event health staff are not present at the time the incident is reported; and the provision of appropriate and timely information and services concerning sexually transmitted infection prophylaxis. Treatment services are to be provided to every victim without financial cost, and regardless of whether the victim names the abuser or cooperates with any investigation arising out of the incident. 115.386	<p><b>Sexual abuse incident reviews</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>This Standard requires facilities to conduct a sexual abuse Incident Review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded; and it should do so within 30 days of the conclusion of the investigation. The sexual abuse Incident Review Team should include upper-level management officials, and it should allow for input from line supervisors, investigators, and medical or mental health practitioners. The Review Team should consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; examine the area in the facility where the incident allegedly occurred, to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels in that area during different shifts; assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and prepare a report of its findings, including but not necessarily limited to determinations made pursuant to this section, and any recommendations for improvement, and submit such report to the facility head and to the PREA Compliance Manager. Based on the limited documentation received during the Pre-Audit process, The PREA Audit Interim Report indicated that more investigative documentation needed to be reviewed.</p> <p>Corrective Action: Once full investigative documentation was provided, it became more apparent that the conducting of sexual abuse Incident Reviews is institutionalized in the agency culture, but not to a degree that the documentation verifies full compliance with all provisions of the Standard. The CAP required the agency to update the Incident Review policy to include requirements of AIR team members when completing a sexual abuse Incident Review (input from supervisory line staff, medical or mental health practitioners); update AIR Report YA 0024 to include what materials were reviewed, and who interviewed; provide documentation that the AIR reports were completed within the required time frame; provide documentation of what the Professional Standards Office (PSO) provides the AIR team; and upload completed Incident Reviews to OAS.</p> <p>Analysis: Interviews with administrators and Investigators verified that these Reviews occur. Documents reviewed for compliance determination include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 17, G); Administrative Incident Review Report; Agency I-E-4.0 Incident Reviews; Sexual Abuse Incident Reviews - Administrative Incident Review Report – revised; Sexual Abuse Incident Reviews Updated Policy; Sexual Abuse Incident Reviews before and after updated policy and revised form; and Documentation of the training and implementation process for the policy update and revised form. Information from interviews, policies, procedures, and proof of practice verify compliance with this Standard.</p>

	<p data-bbox="244 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="244 271 1477 465">This Standard requires all facilities be audited at least once during each 3-year audit cycle and provides rules for how this is to happen. It includes a provision which states that "The auditor shall be permitted to request and receive copies of any relevant documents (including electronically stored information)." The PREA Audit Interim Report stated, "Evidence used to determine compliance with this Standard includes details regarding when the facility, and other facilities within the agency, have had audits. Also considered were observations of the lack of requested documentation and acknowledgments by the agency that PAQ information was missing."</p> <p data-bbox="244 499 1477 591">Corrective Action: One of the highest priorities after the PREA Audit Interim Report was for the Agency and Facility to provide all the materials needed. This was quickly accommodated, and the agency has continued to provide documentation throughout the 180-day CAP.</p> <p data-bbox="244 624 1450 680">Analysis: At the writing of this PREA Audit Final Report, the agency has demonstrated compliance for 6 months, showing proof of a measure of institutionalization of this practice.</p>
