SUMMARY OF AUDIT FINDINGS	
<p>The OAS automatically populates the number and list of Standards exceeded, the number of Standards met, and the number and list of Standards not met.</p> <p>Auditor Note: In general, no standards should be found to be "Not Applicable" or "NA." A compliance determination must be made for each standard. In rare instances where an auditor determines that a standard is not applicable, the auditor should select "Meets Standard" and include a comprehensive discussion as to why the standard is not applicable to the facility being audited.</p>	
<b>Number of standards exceeded:</b>	
0	
<b>Number of standards met:</b>	
39	
<b>Number of standards not met:</b>	
0	
<b>Not audited at the facility level:</b> Audited at the agency-level, and not relevant to the facility-level audit because the facility has no independent responsibility for the operation of these standards.	4

# POST-AUDIT REPORTING INFORMATION

## GENERAL AUDIT INFORMATION

### On-site Audit Dates

1. Start date of the onsite portion of the audit:	2021-06-08
2. End date of the onsite portion of the audit:	2021-06-08

### Outreach

10. Did you attempt to communicate with community-based organization(s) or victim advocates who provide services to this facility and/or who may have insight into relevant conditions in the facility?	<input checked="" type="radio"/> Yes <input type="radio"/> No
a. Identify the community-based organization(s) or victim advocates with whom you communicated:	Tides of Change and Adventist Health

## AUDITED FACILITY INFORMATION

14. Designated facility capacity:	50
15. Average daily population for the past 12 months:	44
16. Number of inmate/resident/detainee housing units:	2
17. Does the facility ever hold youthful inmates or youthful/juvenile detainees?	<input type="radio"/> Yes <input type="radio"/> No <input checked="" type="radio"/> Not Applicable for the facility type audited (i.e., Community Confinement Facility or Juvenile Facility)

## Audited Facility Population Characteristics on Day One of the Onsite Portion of the Audit

### Inmates/Residents/Detainees Population Characteristics on Day One of the Onsite Portion of the Audit

36. Enter the total number of inmates/residents/detainees in the facility as of the first day of onsite portion of the audit:	37
38. Enter the total number of inmates/residents/detainees with a physical disability in the facility as of the first day of the onsite portion of the audit:	0
39. Enter the total number of inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) in the facility as of the first day of the onsite portion of the audit:	5
40. Enter the total number of inmates/residents/detainees who are Blind or have low vision (visually impaired) in the facility as of the first day of the onsite portion of the audit:	0

41. Enter the total number of inmates/residents/detainees who are Deaf or hard-of-hearing in the facility as of the first day of the onsite portion of the audit:	0
42. Enter the total number of inmates/residents/detainees who are Limited English Proficient (LEP) in the facility as of the first day of the onsite portion of the audit:	0
43. Enter the total number of inmates/residents/detainees who identify as lesbian, gay, or bisexual in the facility as of the first day of the onsite portion of the audit:	4
44. Enter the total number of inmates/residents/detainees who identify as transgender or intersex in the facility as of the first day of the onsite portion of the audit:	1
45. Enter the total number of inmates/residents/detainees who reported sexual abuse in the facility as of the first day of the onsite portion of the audit:	4
46. Enter the total number of inmates/residents/detainees who disclosed prior sexual victimization during risk screening in the facility as of the first day of the onsite portion of the audit:	3
47. Enter the total number of inmates/residents/detainees who were ever placed in segregated housing/isolation for risk of sexual victimization in the facility as of the first day of the onsite portion of the audit:	0
48. Provide any additional comments regarding the population characteristics of inmates/residents/detainees in the facility as of the first day of the onsite portion of the audit (e.g., groups not tracked, issues with identifying certain populations):	Since the facility did not provide proof of practice as required during the Pre-Audit Process, including lists of residents with possible risk factors, the Audit Team's ability to conduct the On-Site Audit in a way envisioned by the Standards and the PREA Auditor Handbook was limited.
<b>Staff, Volunteers, and Contractors Population Characteristics on Day One of the Onsite Portion of the Audit</b>	
49. Enter the total number of STAFF, including both full- and part-time staff, employed by the facility as of the first day of the onsite portion of the audit:	37
50. Enter the total number of VOLUNTEERS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:	0
51. Enter the total number of CONTRACTORS assigned to the facility as of the first day of the onsite portion of the audit who have contact with inmates/residents/detainees:	4
52. Provide any additional comments regarding the population characteristics of staff, volunteers, and contractors who were in the facility as of the first day of the onsite portion of the audit:	See question 74.
<b>INTERVIEWS</b>	
<b>Inmate/Resident/Detainee Interviews</b>	
<b>Random Inmate/Resident/Detainee Interviews</b>	

53. Enter the total number of RANDOM INMATES/RESIDENTS/DETAINEES who were interviewed:	6
54. Select which characteristics you considered when you selected RANDOM INMATE/RESIDENT/DETAINEE interviewees: (select all that apply)	<input checked="" type="checkbox"/> Age <input checked="" type="checkbox"/> Race <input checked="" type="checkbox"/> Ethnicity (e.g., Hispanic, Non-Hispanic) <input type="checkbox"/> Length of time in the facility <input checked="" type="checkbox"/> Housing assignment <input type="checkbox"/> Gender <input type="checkbox"/> Other <input type="checkbox"/> None
55. How did you ensure your sample of RANDOM INMATE/RESIDENT/DETAINEE interviewees was geographically diverse?	See question 70.
56. Were you able to conduct the minimum number of random inmate/resident/detainee interviews?	<input checked="" type="radio"/> Yes <input type="radio"/> No
57. Provide any additional comments regarding selecting or interviewing random inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):	See question 70.
<b>Targeted Inmate/Resident/Detainee Interviews</b>	
58. Enter the total number of TARGETED INMATES/RESIDENTS/DETAINEES who were interviewed:	5
<p>As stated in the PREA Auditor Handbook, the breakdown of targeted interviews is intended to guide auditors in interviewing the appropriate cross-section of inmates/residents/detainees who are the most vulnerable to sexual abuse and sexual harassment. When completing questions regarding targeted inmate/resident/detainee interviews below, remember that an interview with one inmate/resident/detainee may satisfy multiple targeted interview requirements. These questions are asking about the number of interviews conducted using the targeted inmate/resident/detainee protocols. For example, if an auditor interviews an inmate who has a physical disability, is being held in segregated housing due to risk of sexual victimization, and disclosed prior sexual victimization, that interview would be included in the totals for each of those questions. Therefore, in most cases, the sum of all the following responses to the targeted inmate/resident/detainee interview categories will exceed the total number of targeted inmates/residents/detainees who were interviewed. If a particular targeted population is not applicable in the audited facility, enter "0".</p>	
60. Enter the total number of interviews conducted with inmates/residents/detainees with a physical disability using the "Disabled and Limited English Proficient Inmates" protocol:	0
a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:	<input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees. <input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.

<p><b>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</b></p>	<p>See question 70.</p>
<p><b>61. Enter the total number of interviews conducted with inmates/residents/detainees with a cognitive or functional disability (including intellectual disability, psychiatric disability, or speech disability) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>3</p>
<p><b>62. Enter the total number of interviews conducted with inmates/residents/detainees who are Blind or have low vision (i.e., visually impaired) using the "Disabled and Limited English Proficient Inmates" protocol:</b></p>	<p>0</p>
<p><b>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</b></p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>

<p>69. Enter the total number of interviews conducted with inmates/residents/detainees who are or were ever placed in segregated housing/isolation for risk of sexual victimization using the "Inmates Placed in Segregated Housing (for Risk of Sexual Victimization/Who Allege to have Suffered Sexual Abuse)" protocol:</p>	<p>0</p>
<p>a. Select why you were unable to conduct at least the minimum required number of targeted inmates/residents/detainees in this category:</p>	<p><input checked="" type="checkbox"/> Facility said there were "none here" during the onsite portion of the audit and/or the facility was unable to provide a list of these inmates/residents/detainees.</p> <p><input type="checkbox"/> The inmates/residents/detainees in this targeted category declined to be interviewed.</p>
<p>b. Discuss your corroboration strategies to determine if this population exists in the audited facility (e.g., based on information obtained from the PAQ; documentation reviewed onsite; and discussions with staff and other inmates/residents/detainees).</p>	<p>See question 70.</p>

<p>70. Provide any additional comments regarding selecting or interviewing targeted inmates/residents/detainees (e.g., any populations you oversampled, barriers to completing interviews):</p>	<p>A kick-off call with all the facilities and the PREA Coordinator took place on May 3rd, 2021. Logistics and requirements for the On-Site Audits were discussed, including the need for staff lists (with assigned specialized staff identified), as well as youth rosters. An explanation was provided of the "targeted" interview requirement and the need for a list of residents to cover the specific categories. A follow-up email was sent to make sure the lists and the categories were clear, as discussed on the call.</p> <p>The On-Site Audit was held on June 8th, 2021, starting with a briefing that confirmed the current population, reviewed the agenda and logistics, discussed mandatory reporting, and clarified the need to allow any staff or resident who requests an interview to get one. The Audit Team checked to see if there were questions or concerns. A list of youth with identified vulnerabilities was not provided.</p> <p>Attempts were made to select interviews in accordance with the guidance of the PREA Auditor Handbook, with random selections of residents to ensure diversity and those with risk factors; but other than interviewing the three youngest residents, and residents perceived to be LGBTI, no other interviews could be "targeted" as per the Handbook. By random selection, however, the Auditor did interview residents who said they had reported sexual abuse and/or sexual harassment, and youth with self-described learning disabilities and emotional difficulties. 11 of the 37 residents were privately interviewed.</p>

**Staff, Volunteer, and Contractor Interviews**

**Random Staff Interviews**

<p>71. Enter the total number of RANDOM STAFF who were interviewed:</p>	<p>12</p>
<p>72. Select which characteristics you considered when you selected RANDOM STAFF interviewees: (select all that apply)</p>	<p><input type="checkbox"/> Length of tenure in the facility</p> <p><input checked="" type="checkbox"/> Shift assignment</p> <p><input checked="" type="checkbox"/> Work assignment</p> <p><input checked="" type="checkbox"/> Rank (or equivalent)</p> <p><input checked="" type="checkbox"/> Other (e.g., gender, race, ethnicity, languages spoken)</p> <p><input type="checkbox"/> None</p>
<p>If "Other," describe:</p>	<p>gender</p>
<p>73. Were you able to conduct the minimum number of RANDOM STAFF interviews?</p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>

<p><b>74. Provide any additional comments regarding selecting or interviewing random staff (e.g., any populations you oversampled, barriers to completing interviews, barriers to ensuring representation):</b></p>	<p>Random Staff interviews were made to include gender, shift, and posting diversity. Interviews were in a conversational manner, to gain the confidence of those interviewed and to put them at ease, so the Audit Team could better comprehend their understanding of PREA and its practice in the facility. The following interviews of staff were conducted (including interviews conducted by phone prior to the On-Site Audit): Agency Head Designee, Agency Facilities Manager, Agency PREA Coordinator, Superintendent, Agency Human Resources, Investigator, PREA Compliance Manager, Higher-Level Staff for Unannounced Rounds, Medical Staff, Mental Health Staff, Staff who perform Screening and Intake, Staff who monitor for retaliation, members of the Incident Review Team, and Staff who monitor the Seclusion area.</p> <p>An additional twelve staff were selected randomly, representing various stations, housing units, shifts, and genders. A total of 20 unique interviews were conducted, with eight being specialized.</p>
---	--

**Specialized Staff, Volunteers, and Contractor Interviews**

Staff in some facilities may be responsible for more than one of the specialized staff duties. Therefore, more than one interview protocol may apply to an interview with a single staff member and that information would satisfy multiple specialized staff interview requirements.

<p><b>75. Enter the total number of staff in a SPECIALIZED STAFF role who were interviewed (excluding volunteers and contractors):</b></p>	<p>8</p>
<p><b>76. Were you able to interview the Agency Head?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>77. Were you able to interview the Warden/Facility Director/Superintendent or their designee?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>78. Were you able to interview the PREA Coordinator?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p>
<p><b>79. Were you able to interview the PREA Compliance Manager?</b></p>	<p><input checked="" type="radio"/> Yes</p> <p><input type="radio"/> No</p> <p><input type="radio"/> NA (NA if the agency is a single facility agency or is otherwise not required to have a PREA Compliance Manager per the Standards)</p>

<p><b>80. Select which SPECIALIZED STAFF roles were interviewed as part of this audit from the list below: (select all that apply)</b></p>	<ul style="list-style-type: none"> <li><input checked="" type="checkbox"/> Agency contract administrator</li> <li><input checked="" type="checkbox"/> Intermediate or higher-level facility staff responsible for conducting and documenting unannounced rounds to identify and deter staff sexual abuse and sexual harassment</li> <li><input type="checkbox"/> Line staff who supervise youthful inmates (if applicable)</li> <li><input type="checkbox"/> Education and program staff who work with youthful inmates (if applicable)</li> <li><input checked="" type="checkbox"/> Medical staff</li> <li><input checked="" type="checkbox"/> Mental health staff</li> <li><input type="checkbox"/> Non-medical staff involved in cross-gender strip or visual searches</li> <li><input checked="" type="checkbox"/> Administrative (human resources) staff</li> <li><input type="checkbox"/> Sexual Assault Forensic Examiner (SAFE) or Sexual Assault Nurse Examiner (SANE) staff</li> <li><input checked="" type="checkbox"/> Investigative staff responsible for conducting administrative investigations</li> <li><input type="checkbox"/> Investigative staff responsible for conducting criminal investigations</li> <li><input checked="" type="checkbox"/> Staff who perform screening for risk of victimization and abusiveness</li> <li><input checked="" type="checkbox"/> Staff who supervise inmates in segregated housing/residents in isolation</li> <li><input checked="" type="checkbox"/> Staff on the sexual abuse incident review team</li> <li><input checked="" type="checkbox"/> Designated staff member charged with monitoring retaliation</li> <li><input checked="" type="checkbox"/> First responders, both security and non-security staff</li> <li><input checked="" type="checkbox"/> Intake staff</li> <li><input type="checkbox"/> Other</li> </ul>
<p><b>81. Did you interview VOLUNTEERS who may have contact with inmates/residents/detainees in this facility?</b></p>	<p><input type="radio"/> Yes</p> <p><input checked="" type="radio"/> No</p>
<p><b>82. Did you interview CONTRACTORS who may have contact with inmates/residents/detainees in this facility?</b></p>	<p><input type="radio"/> Yes</p> <p><input checked="" type="radio"/> No</p>

<p>83. Provide any additional comments regarding selecting or interviewing specialized staff.</p>	<p>In addition to the information provided for question 74, it should be noted that the Audit Team audited a sister facility the day before. That facility, Camp Tillamook Youth Transitional Facility, is next door to TYCF and share a campus and school. Many interviews conducted for both audits, such as contractor interviews conducted at CTYTF, provided insight into both facilities. Many residents have been placed at both facilities, and many staff have worked at both facilities.</p>

## SITE REVIEW AND DOCUMENTATION SAMPLING

### Site Review

PREA Standard 115.401 (h) states, "The auditor shall have access to, and shall observe, all areas of the audited facilities." In order to meet the requirements in this Standard, the site review portion of the onsite audit must include a thorough examination of the entire facility. The site review is not a casual tour of the facility. It is an active, inquiring process that includes talking with staff and inmates to determine whether, and the extent to which, the audited facility's practices demonstrate compliance with the Standards. Note: discussions related to testing critical functions are expected to be included in the relevant Standard-specific overall determination narratives.

<p>84. Did you have access to all areas of the facility?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

### Was the site review an active, inquiring process that included the following:

<p>85. Reviewing/examining all areas of the facility in accordance with the site review component of the audit instrument?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
<p>86. Testing and/or observing all critical functions in the facility in accordance with the site review component of the audit instrument (e.g., intake process, risk screening process, PREA education)?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
<p>87. Informal conversations with inmates/residents/detainees during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
<p>88. Informal conversations with staff during the site review (encouraged, not required)?</p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>

<p><b>89. Provide any additional comments regarding the site review (e.g., access to areas in the facility, observations, tests of critical functions, or informal conversations).</b></p>	<p>The Site Review included obtaining and studying the facility diagram of the physical plant, observing staff and residents, and their supervision and movement, along with casual conversation to ascertain whether observations made were of "normal" supervision and movement. Random checks were made to assure doors intended to be secured were locked. Random checks of PREA Hotline phones for functionality were made. All housing units and bathroom facilities were inspected for compliance with cross-gender supervision guidelines. This included a camera review, for those areas with cameras. All areas of the physical plants were observed, with attention to those areas which statistically are at high risk for sexual abuse. PREA Postings, including third-party reporting postings, in the Visitation area, were checked. Confirmation of the availability to the staff of First Responder Duties was also a part of the tour. Blind spots were identified, and procedures for checking them were verified.</p>
--	---

**Documentation Sampling**

Where there is a collection of records to review-such as staff, contractor, and volunteer training records; background check records; supervisory rounds logs; risk screening and intake processing records; inmate education records; medical files; and investigative files-auditors must self-select for review a representative sample of each type of record.

<p><b>90. In addition to the proof documentation selected by the agency or facility and provided to you, did you also conduct an auditor-selected sampling of documentation?</b></p>	<p><input checked="" type="radio"/> Yes <input type="radio"/> No</p>
--	--

<p><b>91. Provide any additional comments regarding selecting additional documentation (e.g., any documentation you oversampled, barriers to selecting additional documentation, etc.).</b></p>	<p>Although the agency failed to provide proof of practice documentation during the Pre-Audit Process, they were forthcoming with information and documentation during the CAP.</p>

**SEXUAL ABUSE AND SEXUAL HARASSMENT ALLEGATIONS AND INVESTIGATIONS IN THIS FACILITY**

**Sexual Abuse and Sexual Harassment Allegations and Investigations Overview**

Remember the number of allegations should be based on a review of all sources of allegations (e.g., hotline, third-party, grievances) and should not be based solely on the number of investigations conducted. Note: For question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, or detainee sexual abuse allegations and investigations, as applicable to the facility type being audited.

**92. Total number of SEXUAL ABUSE allegations and investigations overview during the 12 months preceding the audit, by incident type:**

	# of sexual abuse allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual abuse</b>	4	0	4	0
<b>Staff-on-inmate sexual abuse</b>	0	0	0	0
<b>Total</b>	4	0	4	0

93. Total number of SEXUAL HARASSMENT allegations and investigations overview during the 12 months preceding the audit, by incident type:

	# of sexual harassment allegations	# of criminal investigations	# of administrative investigations	# of allegations that had both criminal and administrative investigations
<b>Inmate-on-inmate sexual harassment</b>	4	0	4	0
<b>Staff-on-inmate sexual harassment</b>	0	0	0	0
<b>Total</b>	4	0	4	0

## Sexual Abuse and Sexual Harassment Investigation Outcomes

### Sexual Abuse Investigation Outcomes

Note: these counts should reflect where the investigation is currently (i.e., if a criminal investigation was referred for prosecution and resulted in a conviction, that investigation outcome should only appear in the count for "convicted.") Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual abuse investigation files, as applicable to the facility type being audited.

94. Criminal SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
<b>Inmate-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Staff-on-inmate sexual abuse</b>	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

95. Administrative SEXUAL ABUSE investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
<b>Inmate-on-inmate sexual abuse</b>	0	0	0	4
<b>Staff-on-inmate sexual abuse</b>	0	0	0	0
<b>Total</b>	0	0	0	4

### Sexual Harassment Investigation Outcomes

Note: these counts should reflect where the investigation is currently. Do not double count. Additionally, for question brevity, we use the term "inmate" in the following questions. Auditors should provide information on inmate, resident, and detainee sexual harassment investigation files, as applicable to the facility type being audited.

96. Criminal SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Referred for Prosecution	Indicted/Court Case Filed	Convicted/Adjudicated	Acquitted
Inmate-on-inmate sexual harassment	0	0	0	0	0
Staff-on-inmate sexual harassment	0	0	0	0	0
<b>Total</b>	0	0	0	0	0

97. Administrative SEXUAL HARASSMENT investigation outcomes during the 12 months preceding the audit:

	Ongoing	Unfounded	Unsubstantiated	Substantiated
Inmate-on-inmate sexual harassment	0	0	0	5

Provide any additional comments regarding selecting and reviewing sexual abuse and sexual harassment investigation files.</p>	<p>The most serious issue for this Audit was the agency's lack of participation in the Pre-Audit process, as required by US DOJ. The PREA Auditor Handbook states the following on page 33: "A facility's failure to provide an auditor with access to the necessary documentation or all areas of the facility could lead to a finding of non-compliance with Standard 115.401 and any underlying substantive Standards for which the facility has failed to meet its burden of demonstrating compliance."</p> <p>The answers to questions 98 through 113 include agency-wide investigations turned in later in the CAP.</p>

## Standards

### Auditor Overall Determination Definitions

- Exceeds Standard  
(Substantially exceeds requirement of standard)
- Meets Standard  
(substantial compliance; complies in all material ways with the stand for the relevant review period)
- Does Not Meet Standard  
(requires corrective actions)

### Auditor Discussion Instructions

Auditor discussion, including the evidence relied upon in making the compliance or non-compliance determination, the auditor's analysis and reasoning, and the auditor's conclusions. This discussion must also include corrective action recommendations where the facility does not meet standard. These recommendations must be included in the Final Report, accompanied by information on specific corrective actions taken by the facility.

115.311	<b>Zero tolerance of sexual abuse and sexual harassment; PREA coordinator</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 451 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1469 499">The agency has a written policy mandating zero tolerance toward all forms of sexual abuse and sexual harassment and a policy outlining how it will implement the agency's approach to preventing, detecting, and responding to sexual abuse and sexual harassment. The policy includes definitions of prohibited behaviors regarding sexual abuse and sexual harassment, and it includes sanctions for those found to have participated in prohibited behaviors. The Interim Report said that "many PREA compliance issues discovered in materials provided, in on-site reviews, and in interviews that have been conducted, have not been resolved." The Interim Report concluded, "Although the policy appears to be in place, there is a lack of proof of practice to indicate the policy and/or the PREA Standards are being followed as required by PREA."</p> <p data-bbox="240 528 1490 958">Corrective Actions: The Director of the Oregon Youth Authority (OYA) initiated top-level changes that changed the trajectory of PREA compliance and have remained constant throughout the Corrective Action period. This included the immediate assignment of staff sufficient to coordinate PREA and direct accountability to the agency's second in command, as well as the development and implementation of a Corrective Action Plan (CAP) adequate to bring the agency and TYCF into compliance. On 11-28-21, the Director had a second video conference with the Audit Team, including the Deputy Director that is over PREA compliance, to verify that the agency is on track toward full compliance, and that the new PREA accountability process that goes through the Deputy Director will be permanent. Early in the CAP, memos went out directing enough time and authority for PCMs to assure PREA compliance in their facilities. Also, training was developed and provided for PCM and SAARC duties. The final piece was to see that changes had become effective and sustainable. This included "active supervision and accountability that is documented" and ongoing "problem recognition regarding systemic breakdowns." Of particular importance was sustaining the change that assured that "The PREA Coordinator must not be supervised by anyone, such as the Chief Investigator, whose work product must be reviewed by the PREA Coordinator for compliance."</p> <p data-bbox="240 987 1490 1350">Analysis: Evidence reviewed regarding this Standard includes the agency organizational chart, interviews with agency and facility officials, on-site reviews in 6 facilities, and PREA policies. The documents reviewed that provided proof of compliance and verification of practice included: Camp Tillamook PCM Duties - Authority and Time, with PCM's recent commitment; Notification of PREA Coordinator process; Zero tolerance for sexual abuse and harassment, including issues relating to LGBTQ+ youth; Employee training - Camp Tillamook refresher training 10-2021; Policy I-A-10.0 Preventing Youth Sexual Abuse and Harassment; Policy CTYTF-II-A-10.0 Sexual Abuse Response Plan; and OYA Management Structure with PCMs. Important to OYA's sustainable return to full PREA compliance are reliable and effective processes for accountability. This includes HR investigations and employee evaluations of employees officially tasked with PREA responsibilities. Although these processes function on their own timelines, the Auditor was fortunate to be able to verify from top OYA officials, prior to the end of the Corrective Action Period, that these processes are active in the agency and are addressing issues raised during the Audit. These verifications provide at least a triangulation of evidence of compliance with this Standard.</p>

115.312	<b>Contracting with other entities for the confinement of residents</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1469 465">This Standard requires that if a public agency contracts for the confinement of its residents, it shall require the contractor to adopt and comply with the PREA Standards and monitor the contractor to ensure that the contractor is complying with the PREA Standards. The Interim Report stated, "The agency has not provided enough information to overcome the contradictory information and confusing information that has been received. For example, residents believe OYA has contractual facilities. The PC states that OYA utilizes facilities for youth that are on probation and parole. Additional information would help determine whether these facilities are required to be PREA compliant."</p> <p data-bbox="240 499 1481 792">Corrective Action: The CAP required research to determine which programs are designated for 50% or more for OYA youth, whether contracts mention PREA compliance (If yes, provide them to the Auditor), and to coordinate next steps, as appropriate. Upon completing their internal research, the agency states that "The Oregon Youth Authority (OYA) does not contract with other entities for the confinement of youth committed to OYA. Youth who reside outside of a secure facility (youth correctional facility or transition facility) may be placed in substitute care, which includes foster homes and Behavior Rehabilitation Services (BRS) residential programs." OYA does not contract for the confinement of its residents, but even under these circumstances it may be that a facility would fall under the Prison Rape Elimination Act (PREA) as systemic, contractual, definitional, or population changes occur. PREA Coordinators must be aware of all the places where OYA youth are housed, as well as the latest guidance from the U. S. Department of Justice regarding the applicability of this Standard.</p> <p data-bbox="240 826 1481 1048">Analysis: The biggest lesson learned from this process relates to Standard 115.311, because of the importance of having an engaged PREA Coordinator that will get and understand facts, and then to assure PREA compliance. In addition to interviews with OYA PREA administrators, the Auditor reviewed a contract for behavior rehabilitation services and reviewed emails with information from contract, procurement, and community resource officials detailing their research. The contract was for behavioral health care that youth on probation or parole may qualify for based on a treatment need, not a criminal offense. These considerations indicate compliance with this Standard at this time but need to be reconsidered during each PREA Audit.</p>

115.313	<b>Supervision and monitoring</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1477 701">TYCF develops, documents, and makes its best efforts to comply with a staffing plan that provides adequate staffing levels and video monitoring to protect residents against abuse. In calculating adequate staffing levels, and in determining the need for video monitoring, TYCF takes into consideration: Generally accepted juvenile detention and residential practices; Any judicial findings of inadequacy; Any findings of inadequacy from Federal investigative agencies; Any findings of inadequacy from internal or external oversight bodies; The composition of the resident population; The number and placement of supervisory staff; Institution programs occurring on a particular shift; Any applicable State or local laws, regulations, or standards; The prevalence of substantiated and unsubstantiated incidents of sexual abuse; and Any other relevant factors. At least once annually, TYCF, in collaboration with the PREA Coordinator, reviews the staffing plan to see whether adjustments are needed to: the staffing plan; prevailing staffing patterns; the deployment of monitoring technology; or the allocation of agency or facility resources to commit to the staffing plan, to ensure compliance with it. The Interim Report stated, "The PC states in the PAQ that 'Since a new plan was created in 2020 there has not been an annual review yet.' Since the plan was created in February of 2020, a review is overdue. Additionally, the PC stipulates that protocols are not in place to document any deviations to the staffing plan."</p> <p data-bbox="242 730 1433 824">Corrective Action: The CAP required that the Staffing Plan be updated, reviewed, and approved by the Superintendent. Additionally, the key word "staffing plan deviation" was added to the JJIS Unit Log. Requirement for documentation was added to the protocol. Screen shots of documented staffing plan deviations were provided as proof of practice.</p> <p data-bbox="242 853 1485 1016">Analysis: In addition to the interviews conducted during the On-Site Audit, and the Site Review, additional documentation was provided to verify full compliance. Documentation was provided in documents such as II-A-3.0 Interactive Supervision of Youth; training regarding agency-wide policy and procedural changes regarding resident showers; TYCF PREA Walkthroughs; I-A-3.0 Interactive Supervision (Pg. 4, B); TYCF Staffing Plan; and TYCF Staffing Plan Update and Review (with associated documents). Staffing plan deviations involved medical transportation and deescalating youth.</p>

115.315	<b>Limits to cross-gender viewing and searches</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="231 190 1508 257"><b>Auditor Discussion</b></p> <p data-bbox="231 257 1508 616">No cross-gender searches are permitted by OYA or TYCF, absent exigent circumstances, which must be documented. Residents shower, perform bodily functions, and change clothing without nonmedical staff of the opposite gender viewing their breasts, buttocks, or genitalia, other than in exigent circumstances, or when such viewing is incidental to routine cell checks. Staff of the opposite gender announce their presence when entering a resident housing unit. Staff are forbidden from searching or physically examining a transgender or intersex resident for the sole purpose of determining the resident's genital status. If the resident's genital status is unknown, such may be determined amid conversations with the resident, through review of medical records, or, if necessary, by obtaining that information as part of a broader medical examination conducted in private by a medical practitioner. TYCF has trained staff in conducting cross-gender pat-down searches in exigent circumstances, and in conducting searches of transgender and intersex residents, in a professional and respectful manner and in the least intrusive manner possible, consistent with security needs.</p> <p data-bbox="231 616 1508 940">Analysis: Documentation to prove compliance with this Standard was contained in sets of documentation and proofs of practice under these headings: Policy II-A-2.0 Searches of Youth and Youth Property in OYA Facilities; Search Policy Attachments A-C; Policy I-A-10.1 Meeting LGBTQI Youth Needs; Policy II-A-2.0 Searches of Youth (Pg. 7, B. 2, A); Policy II-A-3.0 Interactive Supervision (Pg. 4, D); Policy II-A-3.0 Interactive Supervision (Pg. 4, C); Policy II-A-2.0 Searches of Youth (Pg. 8, E); and 2470 LP - Contraband and Searches for Facilities (training). PAQ documentation provided, including policies and information about training, is consistent with interviews conducted with residents and staff. 100% of those interviewed answered interview questions in a way that indicates that facility practices are compliant with this Standard. The practice of opposite gender staff announcing their presence when entering a resident housing unit was observed by the Audit Team during the Site Review. This culminates in a triangulation of evidence demonstrating compliance with this Standard.</p>

115.316	<p><b>Residents with disabilities and residents who are limited English proficient</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>This Standard requires that the agency take appropriate steps to ensure that residents with disabilities (including, for example, residents who are deaf or hard of hearing, those who are blind or have low vision, or those who have intellectual, psychiatric, or speech disabilities), have an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. OYA policies address the identification of needs, and the provision of appropriate services, during intake and throughout the time the resident is in care. OYA and TYCF have policies to provide residents with disabilities and residents with limited English proficiency with an equal opportunity to participate in or benefit from all aspects of the agency's efforts to prevent, detect, and respond to sexual abuse and sexual harassment. Policy prohibits the use of resident interpreters, resident readers, or other types of resident assistants, other than in limited circumstances where an extended delay in obtaining an effective interpreter could compromise the resident's safety, the performance of First-Response duties under § 115.364, or the investigation of the resident's allegations. In the 12 months reviewed for this Audit, there have been no instances where resident interpreters, readers, or other types of resident assistants have been used, and it was not the case that an extended delay in obtaining another interpreter could compromise the resident's safety, the performance of First-Response duties under § 115.364, or the investigation of the resident's allegations. The PREA Audit Interim Report stated, "Since the agency stipulates that it is not adequately screening for disabilities as per Standard 341, and no examples or proof of practice has been provided agency-wide for Standard 316, there is not a triangulation of evidence to show proof of compliance." Additionally, the contract with interpreters expired.</p> <p>Corrective Action: During the CAP, a new contract (or extension) with interpreters was secured, and staff received updated training on how to access the services available to them through the contract. The other issues to address had been identified prior to the PAQ and related to the need for a reliable system identification and tracking of residents with disabilities, as also addressed in concert with other Standards. OYA researched its prior efforts to develop this tool and collaborated with Just Detention International to develop its new tool for vulnerability and aggression assessment. The tool was reviewed, approved, and implemented. Staff were trained, and all residents were screened with the new tool.</p> <p>Analysis: Documents reviewed include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 8, D. 5); Policy I-D-2.1 Use of Language Services; Policy II-E-2.4 English Plus – Facility; Interpreter Services Local Operating Procedure (LOP); IRCO (Oral Interpretation) 11757 comprehensive file (a-d); Hearing Impaired Interpreter Requests; Intake Close Custody Youth Safety Orientation YA 4033 – 2019; Youth Safety Guide 2020; Interpreter Contract – Signed; and Language interpreter protocol and purchase order. Also provided was proof that the staff have recently been trained regarding how to access interpreter services. The On-Site Review, interviews conducted (including both residents and staff), and the documents provided to satisfy the CAP, are a triangulation of evidence that the facility is compliant with the provisions of this Standard.</p>

115.317	<p><b>Hiring and promotion decisions</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>OYA and TYCF policy prohibits hiring or promoting anyone who may have contact with residents, and it prohibits enlisting the services of any contractor who may have contact with residents, who: Has engaged in sexual abuse in a prison, jail, lockup, community confinement facility, juvenile facility, or other institution (as defined in 42 USC 1997); Has been convicted of engaging or attempting to engage in sexual activity in the community facilitated by force, overt or implied threats of force, or coercion, or if the victim did not consent or was unable to consent or refuse; or Has been civilly or administratively adjudicated to have engaged in the activity described. Policy requires the consideration of any incidents of sexual harassment in determining whether to hire or promote anyone, or to enlist the services of any contractor, who may have contact with residents. Policy requires that, before it hires any new employees who may have contact with residents, OYA conducts criminal background record checks; consults the Child Abuse Registry; and, consistent with Federal, State, and local law, makes its best efforts to contact all prior institutional employers for information on substantiated allegations of sexual abuse, or any resignation during a pending investigation of an allegation of sexual abuse. The Agency policy states that material omissions regarding such misconduct, or the provision of materially false information, shall be grounds for termination. The agency provides information on substantiated allegations of sexual abuse or sexual harassment involving a former employee upon receiving a request from an institutional employer for whom such employee has applied to work. However, acceptable proof of practice of background and child registry checks were not provided during the Pre-Audit process as required. The Interim Report stated, "Although agency emails and interviews indicate that appropriate background checks are completed, no background checks have been provided as proof of practice. Random selections have been made from employee rosters, but the documentation has not been provided."</p> <p>Corrective Action: The protocol that was developed during the CAP includes documented collaboration between DHS and OHA for retrieving background information for OYA staff, and between the school system and contracting entities for others. A longstanding and reliable system of conducting criminal background checks was identified within OYA, but it needed to be strengthened through the maintenance (and sharing) of documentation that the background checks had been completed, while continuing to protect information from inappropriate disclosure.</p> <p>Analysis: Interviews conducted with HR and OYA administrators were considered in compliance determinations. Although there was some confusion prior to the On-Site Review, during the CAP no information was received that was not consistent with full PREA compliance. Documents reviewed included Policy I-A-10.0 Preventing Youth Sexual Abuse (Pgs. 5 &amp; 6, B &amp; Pg. 6, B); Hiring and Promotions Protocol; and randomly selected proof of contractor, school, and employee criminal record and child abuse registry checks. These sources of information provide a triangulation of evidence that OYA is compliant with the Standard.</p>

<b>115.318</b>	<b>Upgrades to facilities and technologies</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="244 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="244 271 1445 331">TYCF has not acquired a new facility, nor made a substantial expansion nor modification since the previous PREA Audit, except for updates of the video monitoring system.</p> <p data-bbox="244 360 1490 488">Corrective Action: Documentation associated with this Standard was not provided in time to be considered in the PREA Audit Interim Report; but once it was received, it was adequate to verify compliance, especially since it was consistent with information provided during interviews and the Site Review. This Standard was considered resolved when the CAP was written and did not require corrective actions.</p> <p data-bbox="244 517 1485 712">Analysis: Evidence used to determine compliance with this Standard includes the interview with the Agency Head designee and the Superintendent, and documentation of the agency's plans regarding the design, renovation, modification, and expansion of their facilities. Documentation included the feasibility study, meeting agendas and minutes, design phasing and schedules, architecture designs, schematics, progress reports (narratives and blueprint-style descriptions), camera layouts and descriptions, and 5D reports, all with emphasis on safety, security, supervision and/or risk information. This satisfies the compliance requirements of this Standard.</p>

115.321	<b>Evidence protocol and forensic medical examinations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="242 273 1485 1003">For agencies such as OYA, which conducts its own administrative investigations of allegations of sexual abuse, this Standard requires the agency to “follow a uniform evidence protocol that maximizes the potential for obtaining usable physical evidence for administrative proceedings and criminal prosecutions.” The Standard includes specific rules regarding how this is to be done, and how to care for alleged survivors of abuse. For example, it requires the agency to “offer all residents who experience sexual abuse access to forensic medical examinations whether on-site or at an outside facility, without financial cost, where evidentiarily or medically appropriate. Such examinations shall be performed by Sexual Assault Forensic Examiners (SAFEs) or Sexual Assault Nurse Examiners (SANEs) where possible. If SAFEs or SANEs cannot be made available, the examination can be performed by other qualified medical practitioners. The agency shall document its efforts to provide SAFEs or SANEs.” In addition, it requires the agency to “attempt to make available to the victim a victim advocate from a rape crisis center.” The Standard recognizes that these services are not always available in every locality, and it provides provisions that take into account various circumstances. For example, it states that “If a rape crisis center is not available to provide victim advocate services, the agency shall make available to provide these services a qualified staff member from a community-based organization or a qualified agency staff member. Agencies shall document efforts to secure services from rape crisis centers.” The requirement for victim advocates goes far beyond including them in forensic exams. The Standard states, “As requested by the victim, the victim advocate, qualified agency staff member, or qualified community-based organization staff member shall accompany and support the victim through the forensic medical examination process and investigatory interviews and shall provide emotional support, crisis intervention, information, and referrals.” In addition to what is required in this Standard, Standard 115.353 requires that all residents have a level of access to advocates. Standard 115.353 states that facilities shall provide residents “access to outside victim advocates for emotional support services related to sexual abuse, by providing, posting, or otherwise making accessible mailing addresses and telephone numbers, including toll free hotline numbers where available, of local, State, or national victim advocacy or rape crisis organizations . . . .”</p> <p data-bbox="242 1034 1485 1196">The PREA Audit Interim Report stated that “Since no complete investigative files have been provided (even agency-wide), it has not been shown whether they follow this Standard in practice. They do have an MOU with the State Police that includes PREA. Also, there is an MOU with Tides of Change (formerly the Women’s Resource Center). The regional facility that was identified as having a Sexual Abuse Nurse Examiner (SANE) states that it does not have one. Tillamook YCF needs to at least demonstrate that it is aware of whether, and where, a SANE would be available if needed.”</p> <p data-bbox="242 1227 1485 1352">Corrective Action: The facility safety response plan was reviewed and enhanced during the CAP, and protocols were established to assure that, at least annually, specific information regarding providers will be checked for accuracy. The Health Services Sexual Assault Response Procedure was incorporated. All related forms and policies were reviewed to get rid of any inconsistencies or confusing wording.</p> <p data-bbox="242 1384 1485 1742">Analysis: Documentation provided and reviewed include the following: PAQ; Policy I-D-4.0 Professional Standards Office Investigations; Oregon State Police (OSP) PREA Agreement; Facility SARRT Sexual Abuse Incident Checklist; Facility First Responders to Sexual Abuse Checklist; Policy II-A-1.2 Preserving Chain of Evidence; Policy I-A-10.0 Preventing Youth Sexual Abuse; QHMP minimum qualifications; Sample documentation for Mental Health Follow-up; Residence access to outside support - Advocate MOU; Adventist Health (Tillamook) Facility Policy: Child Abuse Recognition and Report; Advocate and SANE Annual Check for TYCF (to assure the information is current and accurate); Advocacy Flyers - New Name; Notification to PREA Coordinator process; Access to outside support services Updated Name Change; Third-party reporting sample; Resident access to legal representation (documented examples of calls made); Forensic medical exam verification; and Victim advocate information verification. An example was provided to show proof of practice. Digital photos were provided to show the current information that is posted for staff and residents. At the end of the CAP, information from primary sources was consistent with other sources, as well as with compliance with the Standard.</p>

115.322	<b>Policies to ensure referrals of allegations for investigations</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 208 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 965">This Standard is clear and direct in its requirement that “The agency shall ensure that an administrative or criminal investigation is completed for all allegations of sexual abuse and sexual harassment.” The Standard further requires that agencies have a policy that ensures compliance, and that the policy be published. Agencies must provide their records in order to demonstrate compliance. A major issue found during the On-Site Review was a perception among residents that investigations are not adequate. The Interim Report stated, “The PAQ indicates two administrative investigations have occurred. The documentation provided does not verify compliance with this Standard. 9 of the 11 residents interviewed for this audit indicate that allegations of sexual abuse / sexual harassment are not investigated and/or they are not resolved even if investigated. 5 residents state that there is ongoing bullying at the facility, although they do not believe the activity amounts to sexual abuse or sexual harassment. Some of these residents acknowledge a sexual component of the activity and that it is at least inappropriate. A few residents believe residents currently in the facility have sexual relationships. For example, one youth states he is tired of other residents asking him general questions about what kind of sexual acts he would like to do. Several residents expressed a concern that OYA is not doing enough to protect a 15-year-old sexually active youth from older predators in the facility. 7 residents indicated that the facility is short-staffed. These youth provide various examples of what this lack of adequate staffing causes. Some of these residents indicate that many things are not being reported or investigated. Some of the rule violations being missed, they say, is the increased sexual behavior that can occur when staff are distracted by a fight or other duties. Administrators indicate that the physical layout of the facility adds to the complexity of dealing with staff shortages or providing coverage during a fight or other disruption. The PC spent time in the investigative tracking system trying to locate all the allegations to see what all have been reported at the facility, but did not indicate any sense of confidence regarding whether she located everything. The Audit Team spoke to the Chief Investigator as well and was promised the complete list of allegations within 30 days after the on-site audit, as well as complete investigative documentation, but this was not provided.”</p> <p data-bbox="242 999 1485 1391">Corrective Action: The Audit Team initiated video conferences, discussions, and email exchanges with agency officials regarding concerns expressed by residents in several OYA facilities. OYA administrators initiated an agency-wide response to the concerns about bullying and risk of sexual harassment. In addition to the training of staff about these issues, the agency has announced agency-wide policy and procedural changes regarding showers. Although resident showers have been supervised, residents over the age of 18 (including those with a history of sexually predatory behavior) sometimes showered near residents that were children. Although the PREA Standards do not explicitly prohibit this practice in juvenile facilities, new OYA policies have ended this practice. Apart from those issues, the initial focus of the CAP was for the Audit Team to get access to all the allegations and investigations of sexual abuse and sexual harassment for a review. Once the investigations were reviewed, concerns were addressed in other Standards associated with investigations, such as Standard 371. Additional training to assure that staff know to report all allegations was covered in Standard 331. Additional responses by the agency/facility to act on information learned during investigations were covered in the follow-ups to Incident Reviews required in Standard 386.</p> <p data-bbox="242 1424 1485 1648">Analysis: Documentation reviewed includes allegations and investigations verifying compliance with this Standard in practice, especially after questions were asked and answered by secure email. Additionally, policies were reviewed including I-D-4.0 Professional Standards (Pgs. 6, A &amp; 8, I). Policy is published at <a href="https://www.oregon.gov/oia/psa/Pages/prea.aspx">https://www.oregon.gov/oia/psa/Pages/prea.aspx</a>. Concerns about whether allegations were being missed due to the culture of the facility possibly allowing a degree of harassment were addressed in some of the investigations provided, and also in new training that has been developed and provided to staff (See Standard 331). These documented efforts have culminated in a triangulation of evidence that the facility complies with this Standard.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="242 210 451 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1485 696">OYA is required to train all employees who may have contact with residents on the following required matters: zero-tolerance policy for sexual abuse and sexual harassment; how to fulfill responsibilities under agency sexual abuse and sexual harassment prevention, detection, reporting, and response policies and procedures; residents' rights to be free from sexual abuse and sexual harassment; residents' and employees' rights to be free from retaliation for reporting sexual abuse and sexual harassment; the dynamics of sexual abuse and sexual harassment in juvenile facilities; the common reactions of juvenile victims of sexual abuse and sexual harassment; how to detect and respond to signs of threatened and actual sexual abuse; how to distinguish between consensual sexual contact and sexual abuse between residents; how to avoid inappropriate relationships with residents; how to communicate effectively and professionally with residents, including LGBTI or gender-nonconforming residents; and how to comply with relevant laws related to mandatory reporting of sexual abuse to outside authorities and relevant laws regarding the applicable age of consent. During the Pre-Audit process, some policies and curricula were provided, but not proof of practice. The Interim Report stated, "5 residents answered questions in a way to indicate that staff are not intervening adequately when bullying occurs. Some believe this bullying can be a gateway to sexual harassment."</p> <p data-bbox="242 730 1485 1055">Corrective Action: The CAP required that an acknowledgement of understanding be added to the agency's training software (Workday). Additionally, administrative oversight ensured that all new training is uploaded into Workday, and that employees complete all their required training in Workday. This occurred in a manner so that when training was completed by employees that were behind on their training, the verification (including screenshots and electronic verification from Workday) provided to the Audit Team included verification of these CAP action items. In the meantime, OYA has launched a new training program to address concerns from the residents about bullying that bordered on harassment. Some of the in-depth aspects of this training are to be completed by June 2022 in collaboration with community agencies that are LGBTIQ+ resources. Core components of this training have already been provided to staff in a refresher training course, with multiple components covering multiple Standards. It covers how to respond to harassing behavior, the respectful treatment of LGBTIQ+ residents, and searches of transgender youth.</p> <p data-bbox="242 1088 1485 1514">Analysis: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 6, C); <a href="https://youtu.be/LTetpd2vdo4">https://youtu.be/LTetpd2vdo4</a>; Policy I-D-3.9 Staff Training and Development; Policy I-D-3.8 Agency Training Program; Training 3330 Syllabus - PREA Scenarios 2020; Training 3330 LP - PREA Scenarios 2020; Training 3330 HO PREA Scenarios - Worksheet and answers 2020; PREA Scenarios laminated cards; Training 1325 Syllabus - PREA Introduction; Training 1325 LP - PREA Introduction updated 2020; randomly selected staff records; Master list of all staff trained; During CAP: documentation was provided that staff who were behind on their training became current; Policy I-A-10.1 Meeting LGBTQI Youth Needs, with updates effective 10-2-21; Employee training - LGBTQ+ Awareness training plans; Employee Training - PREA Acknowledgement and Understanding; Employee training 2021; Zero tolerance for sexual abuse-harassment- LGBTQ+ youth discussion; training regarding agency-wide policy and procedural changes regarding resident showers; and Employee training - TYCF refresher training 10-2021, showing that the remaining training requirements in the CAP were included. Curricula for this October training were provided as well (including 3 videos), with employee signatures acknowledging understanding of the material, along with the outline of the remaining training components to be provided in June 2022. These documents, considered in context with what was learned during interviews, and the requirements of the CAP, indicate compliance with this Standard.</p>

115.332	<b>Volunteer and contractor training</b>
	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 208 451 235"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1485 533">Volunteers and contractors who will have contact with residents are required to have been trained on their responsibilities, under OYA policies and procedures, regarding sexual abuse and sexual harassment prevention, detection, and response. The level and type of training provided to volunteers and contractors is to be based on the services they will provide, factoring in the level of contact they will have with residents. All contractors who will have contact with residents should have been notified of the agency and facility's zero-tolerance policy regarding sexual abuse and sexual harassment, as well as informed of how to report such incidents. The agency is to maintain documentation confirming that their contractors and volunteers understand the training they have received. The facility reports having no volunteers and 4 contractors. During the Pre-Audit process, policies and blank training forms were provided, leaving proof of practice to be provided during the CAP.</p> <p data-bbox="240 562 1422 622">Corrective Action: Since the tracking of training for volunteers and contractors generally uses the same software as for employees, the details of the CAP for this Standard were the same as for Standard 331 but included teachers.</p> <p data-bbox="240 651 1453 880">Analysis: In addition to documentation provided for Standard 331, to show full compliance the facility provided their Volunteer Training quiz, volunteer retraining email (with instructions), Volunteer Retraining Forms, Facility Access Level 2 Training for Volunteers and Interns, Facility Access Level 3 Training for Employees and Contracted Providers, Volunteer training acknowledgements; training link; and the Contractor (teacher) training 2021 transcript from Workday Learning System. Even though the facility does not currently have volunteers entering the facility, it provided proof of training from 2019 consistent with this Standard. This, considered with interviews conducted, provides a triangulation of evidence of compliance.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="240 208 451 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1485 566">Residents are to receive information, at time of intake, about the zero-tolerance policy and how to report incidents or suspicions of sexual abuse or sexual harassment. Additionally, the Standard requires that, "Within 10 days of intake, the agency shall provide comprehensive age-appropriate education to residents either in person or through video regarding their rights to be free from sexual abuse and sexual harassment and to be free from retaliation for reporting such incidents, and regarding agency policies and procedures for responding to such incidents." The facility is required to provide education in formats accessible to all residents, including those who have limited English proficiency and/or are deaf, visually impaired, and/or otherwise disabled, as well as to residents who have limited reading skills. The agency is also to ensure that key information is continuously and readily available or visible to residents through posters, resident handbooks, or other written formats. The PREA Audit Interim Report stated that "Policies and blank forms were provided but not proof of practice."</p> <p data-bbox="240 595 1461 689">Corrective Action: By the time the CAP had been finalized, the facility had demonstrated compliance with this Standard. In the CAP, the Auditor stated, "The [proof of practice] forms were uploaded. Since they are consistent with associated interviews regarding PREA education of residents, this resolves this Standard."</p> <p data-bbox="240 719 1485 981">Analysis: Evidence considered for compliance determination included interviews of residents and staff, along with the documentation provided. Documentation included the randomly selected youth education (YA 4033) documentation forms provided as part of the completion of the PAQ. Other documentation included Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 8, D); Hotline Contact Card; Intake Close Custody Youth Safety Orientation YA 4033 – 2019; Hotline Poster displayed in Facility; Link to Youth Sexual Safety video; Abuse Report form; Youth Sexual Safety Education YA 4034; and Youth Safety Guide 2020. Resident training materials were also provided in Spanish. The ability to utilize resources for other languages and for impairments was also verified. These sources provide a triangulation of evidence that the facility is compliant with the provisions of this Standard.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 658">The Standard states that “the agency shall ensure that, to the extent the agency itself conducts sexual abuse investigations, its investigators have received training in conducting such investigations in confinement settings.” The training “shall include techniques for interviewing juvenile sexual abuse victims, proper use of Miranda and Garrity warnings, sexual abuse evidence collection in confinement settings, and the criteria and evidence required to substantiate a case for administrative action or prosecution referral.” Further, “The agency shall maintain documentation that agency investigators have completed the required specialized training in conducting sexual abuse investigations.” The PREA Audit Interim Report stated, “Policies were provided but not proof of practice. When reviewing the partial investigative files provided, it does not appear the training is being followed in practice. Oregon ilearn transcripts were received indicating ‘NIC Investigating Sexual Abuse in a Confinement Setting’ had been completed by 5 individuals. It does not indicate whether the training was understood. NIC certificates were not included and some investigators had not received the NIC Advanced Training or any other investigative training.”</p> <p data-bbox="229 658 1509 972">Corrective Action: Compliance with the CAP was immediately undertaken by the agency. Investigators produced their NIC certificates, typically after retaking the training. Additionally, the CAP required the agency to “Evaluate the training needs of investigators. For example, if they are not experienced sexual abuse investigators, perhaps they should be assigned to assist an investigation before being assigned a case on their own. If they have never conducted any type of investigations, their training should include intermediate training. Sexual abuse training has prerequisites. (It is never a training for beginners.) Investigators should be experienced and trained for other types of investigations before moving on to sexual abuse investigations. If an investigator has been found not to follow the training received, remove them from the list of investigators until this is resolved. Someone supervising or reviewing the work of investigators must be familiar with the components of sexual abuse investigations in confinement, involving juveniles, and how they differ from other types of investigations.”</p> <p data-bbox="229 972 1509 1064">Analysis: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 7. 3 B), agency-wide proof of training documentation for 5 Investigators, and recently completed investigations indicate compliance with this Standard.</p>

This information, collected as part of the screening process, is to be ascertained through conversations with the resident during the Intake process, medical and mental health screenings, and classification assessments, and by reviews of court records, case files, facility behavioral records, and other relevant documentation from the resident's files. The PREA Audit Interim Report stated that "Policies and blank forms were provided but not proof of practice. The PC states the screenings are not adequate to meet the requirements of this Standard."</p> <p data-bbox="244 530 1461 689">Corrective Action: The issues to address had been identified prior to the PAQ and indicated need for a reliable system for identification and tracking of residents with possible risk factors. OYA researched its prior efforts to develop this tool and collaborated with Just Detention International to develop its new tool for vulnerability and aggression assessment. The tool was reviewed, approved, and implemented, along with appropriate updates in official protocols. Staff were trained, and all residents were screened with the new tool.</p> <p data-bbox="244 721 1490 913">Analysis: Documentation reviewed includes Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 12); Mental Status Interview Guideline; Sexual Violence Assessment Tool, and new tool; YCF Initial Health Screen; SVAT Checklist for facility; YCF Health History and Physical Assessment; YCF Initial Mental Status Assessment; and documentation of randomly selected residents being screened with the new tool. 	<p data-bbox="229 192 1509 255"><b>Auditor Discussion</b></p> <p data-bbox="229 255 1509 725">OYA is compelled to use information from the risk screening required by 115.341 to inform housing, bed, work, education, and program assignments, with the goal of keeping all residents safe and free from sexual abuse. Residents may be isolated from others only as a last resort, only when less restrictive measures are inadequate to keep them and other residents safe, and then only until an alternative means of keeping all residents safe can be arranged. Lesbian, gay, bisexual, transgender, or intersex residents are not placed in particular housing, bed, or other assignments solely on the basis of such identification or status. Lesbian, gay, bisexual, transgender, or intersex identification or status is not an indicator of likelihood of being sexually abusive. In deciding whether to assign a transgender or intersex resident to a facility for male or female residents, and in making other housing and programming assignments, the agency considers on a case-by-case basis whether a placement would ensure the resident's health and safety, and whether the placement would present management or security problems. Placement and programming assignments for each transgender or intersex resident is to be reassessed at least twice each year, to review any threats to safety experienced by the resident. Transgender and intersex residents are to be given the opportunity to shower separately from other residents. During the Pre-Audit process, policies were provided, but not proof of practice.</p> <p data-bbox="229 725 1509 815">Corrective Action: Corrective actions for this Standard related to Standard 341 above, as well as Standard 316, but also included a need to document that the information collected from residents is used to protect them.</p> <p data-bbox="229 815 1509 994">Analysis: In addition to the information collected during the On-Site review and in interviews, documentation reviewed includes the SVAT Checklist for the facility; Policy I-A-10.00 Preventing Youth Sexual Abuse (Pgs. 12 &amp; 13); Policy I-A-10.1 Meeting LGBTQI Youth Needs (Pgs. 3, 4, 5), with updates, training, and protocols; and Policy II-B-1.2 Use of Time-out, Room-lock Other, Isolation, and Safety Programming. 	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1485 633">This Standard requires the agency to provide multiple internal ways for residents to privately report sexual abuse and sexual harassment, retaliation by other residents or staff for reporting sexual abuse and sexual harassment, and staff neglect or violation of responsibilities that may have contributed to such incidents. Also, the agency is to provide a way for residents to report abuse or harassment to an entity that can receive and immediately forward resident reports of sexual abuse and sexual harassment to agency officials, allowing the resident to remain anonymous upon request. Staff are to accept reports made verbally, in writing, anonymously, and from third parties, and they are to promptly document verbal reports. Facilities are to provide residents with access to tools necessary to make a written report. The agency also is to provide a method for staff to privately report sexual abuse and sexual harassment of residents. The Interim Report stated, "Policies and flyers were provided but not proof of practice. 3 test reports to the Governor's Constituent Services Office failed. The first was because the wrong address was provided, but the agency has not indicated why the other tests failed or what they are doing to assure their system works, or that the Governor's Constituent Services Office knows what to do with reports they receive."</p> <p data-bbox="240 667 1474 925">Corrective Action: The CAP required that the agency test the Governor's Constituent Services Office reporting system and provide the result of the test to the Auditor. 	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1493 533">OYA has an administrative procedure for dealing with resident grievances regarding sexual abuse. The facility policy allows a resident to submit a grievance regarding an allegation of sexual abuse at any time, regardless of when the incident is alleged to have occurred. There is no time limit for a resident to submit a grievance regarding an allegation of sexual abuse, and the resident is not required to use an informal grievance process, nor to otherwise to attempt to resolve with staff an alleged incident of sexual abuse. Policy allows a resident to submit a grievance alleging sexual abuse without submitting it to the staff member who is the subject of the complaint. The facility's procedure requires that a resident grievance alleging sexual abuse not be referred to the staff member who is the subject of the complaint. The Interim Report stated, "Policies and blank forms were provided but not proof of practice."</p> <p data-bbox="240 562 1469 656">Corrective Action: The CAP required the PREA coordinator to test the grievance system and to provide documentation of a successful test. 	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1493 465">According to OYA policy, they provide methods to receive third-party reports of resident sexual abuse or sexual harassment. Any staff member is required to take complaints. Complaints can be anonymous. Information is supposed to be distributed on how to report resident sexual abuse or sexual harassment on behalf of residents. Issues identified in the early 2020 round of Pre-Audit work included issues with the reporting system. The outside reporting system failed three test letters. The address was incorrect, but even after it was corrected, two other tests failed. The Auditor said, "Policies were provided but not proof of practice."</p> <p data-bbox="240 499 1477 589">Corrective Action: The CAP required that a third party test the system by completing an online complaint form and providing documentation of the test result. It also required the agency to provide an example of an actual third-party report being received.</p> <p data-bbox="240 622 1493 846">Analysis: In addition to the information received during interviews, throughout the On-Site Review, and in the documentation provided during the CAP (as described above), the Audit Team also reviewed the online link <a href="https://www.oregon.gov/oia/psa/Pages/abuse.aspx">https://www.oregon.gov/oia/psa/Pages/abuse.aspx</a>; OYA Hotline; PSA on-line complaint form <a href="https://www.oregon.gov/oia/psa/Pages/OnlineComplaintForm.aspx">https://www.oregon.gov/oia/psa/Pages/OnlineComplaintForm.aspx</a>; Youth Safety Guide Spanish; Youth Safety Guide English; Residents' access to outside support - Advocate MOU; Notification to PREA Coordinator process; Third-party reporting sample; and Resident access to legal representation, as providing insight into compliance with this Standard. 115.361	<p><b>Staff and agency reporting duties</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>All staff are required to report, immediately and according to agency policy: any knowledge, suspicion, or information they receive regarding an incident of sexual abuse or sexual harassment that occurred; any retaliation against residents or staff who reported such an incident; and any staff neglect or violation of responsibilities that may have contributed to an incident or to retaliation. OYA requires all staff to comply with any applicable mandatory child abuse reporting laws, as well as reports, as (and when) appropriate, to licensing agencies and Adult Protective Services. Other than when reporting to designated supervisors or officials and to designated state or local service agencies, OYA policy prohibits staff from revealing any information related to a sexual abuse report to anyone, beyond what is necessary to make treatment, investigation, and other security and management decisions. Medical and mental health practitioners are mandated reporters; so, they are required to inform residents, at the initiation of services, of their duty to report, and of the limitations of confidentiality. Upon receiving any allegation of sexual abuse, OYA is to promptly report the allegation to the appropriate agency office, and to the alleged victim's parents or legal guardians, unless the facility has official documentation showing that the parents or legal guardians should not be notified. If the alleged victim is under the guardianship of the child welfare system, the report shall be made to the alleged victim's caseworker, instead of to the parents or legal guardians. If a juvenile court retains jurisdiction over the alleged victim, the facility head or designee shall also report the allegation to the juvenile's attorney or other legal representative of record, within 14 days of receiving the allegation. Policies supporting compliance were provided during the Pre-Audit process, but not proof of practice.</p> <p>Corrective Action: The CAP required the agency to provide screen shots of their review process for Youth Incident Reports (YIRs), to test whether staff are reporting everything they are required to report. Also, the agency was to provide additional information to staff about things they may have forgotten that they need to report, such as risks, retaliation, and threats.</p> <p>Analysis: Materials reviewed for this Standard include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, c); Policy 0-2.3 Mandatory Reporting (Pg. 5, A, 1, b, Pg. 6, 4, B); Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, 2); Policy I-A-10.00 Preventing Youth Sexual Abuse (Pg. 9, E); Residents' access to outside support - Advocate MOU;; Advocate and SANE Annual Check TYCF; Advocacy Flyers - New Name; TYCF PCM Duties - Authority and Time; Notification to PREA Coordinator process; Access to outside support services Updated Name Change; Third-party reporting sample; YIRs; allegations; and resident access to legal representation. 	<p data-bbox="242 208 453 235"><b>Auditor Discussion</b></p> <p data-bbox="242 271 1477 331">The Standard in its entirety is this: "When an agency learns that a resident is subject to a substantial risk of imminent sexual abuse, it shall take immediate action to protect the resident." Policies were initially provided but not proof of practice.</p> <p data-bbox="242 360 1465 589">Corrective Action: The jointly developed CAP required documentation regarding a youth who was moved from Camp Tillamook to Tillamook Youth Correctional Facility due to risk. This included risk of sexual abuse, but it was complicated by other factors, as well. Computer screenshots were provided as proof of practice. These screens showed the activity/decisions of named staff who were logged into the resident's electronic record in April, May, and June of 2021, relating to the resident. These records showed that each of the decisions considered what was in the best interest of the resident, and they documented a separate review by a named supervisor who also logged into the system, with their response.</p> <p data-bbox="242 618 1485 712">Analysis: Documents included the PAQ, Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, I, 5); and Agency protection duty example, youth movement for safety. These documents, along with private interviews conducted with residents and staff, provide a triangulation of evidence of compliance.</p>

	<b>Auditor Overall Determination:</b> Meets Standard
	<p data-bbox="244 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="244 271 1493 465">The Standard states that "Upon receiving an allegation that a resident was sexually abused while confined at another facility, the head of the facility that received the allegation shall notify the head of the facility or appropriate office of the agency where the alleged abuse occurred and shall also notify the appropriate investigative agency." The Standard also requires that the notification shall be made within 72 hours, documented, and that "The facility head or agency office that receives such notification shall ensure that the allegation is investigated in accordance with these standards." The policy was initially provided without proof of practice.</p> <p data-bbox="244 499 1493 591">Corrective Action: Since policies were compliant with the PREA Standard, Corrective Actions focused on proof of practice. One example that was provided regarded an allegation made to a facility, and 3 were allegations received from facilities. The actions documented were consistent with this Standard.</p> <p data-bbox="244 624 1493 750">Analysis: In addition to interviews conducted, and information provided for the PAQ, the following documentation was reviewed: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 17, F); an agency example of a notification to another confinement facility; and agency examples receiving reports from a confinement facility. The agency has completed the CAP and demonstrated compliance with this Standard.</p>

115.364	<p><b>Staff first responder duties</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>TYCF has a First Responder policy for allegations of sexual abuse. Its policy requires that, upon learning of an allegation that a resident was sexually abused, the first staff to respond to the report shall: (1) separate the alleged victim and abuser; and (2) preserve and protect any crime scene, until appropriate steps can be taken to collect any evidence. If the abuse occurred within a time period that still allows for the collection of physical evidence, those appropriate steps will be as follows: (1) the First Responder requests that the alleged victim not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating; and (2) the First Responder should ensure that the alleged abuser does not take any actions that could destroy physical evidence, including, as appropriate, washing, brushing teeth, changing clothes, urinating, defecating, smoking, drinking, or eating. There are additional notifications to be made, as in §115.361 above. The Interim Report stated “Policies were provided but not proof of practice. The Audit Team suggested that the phrase, “If youth . . .” needs to be updated in First Responder Duties, since this may be confusing when most residents are adults. A review of investigative materials may provide evidence that First Responder Duties are followed in practice.”</p> <p>Corrective Action: The CAP required the agency and facility to 1) Provide documentation of TYCF case First Responder actions. 2) Provide documentation of another facility’s case where the abuse required that the victim receive a forensic examination. 3) Provide proof of “youth” terminology use in OYA, which includes all people in OYA physical custody (although some are adults). 4) Correct any wording in materials so that it is crystal-clear that First Responder Duties are to be followed, even if the alleged perpetrator is a staff. Make sure all materials are consistent. (To the extent that staff are to be treated differently, explain it.) 5. Distribute new materials, and provide the new materials, as well as proof of distribution, to the Auditor.</p> <p>Analysis: In addition to interviews conducted, documentation was reviewed, including Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 14, C); TYCF-II-A-10.0 Sexual Abuse Response Plan; 1st Responder card; Facility First Responders to Sexual Abuse Checklist; Facility SARRT Sexual Abuse Incident Checklist; TYCF Sexual Abuse Response Plan and Acknowledgement (all staff are trained as First Responders). Additionally, documentation was provided consistent with the CAP, as described above. This includes documentation that employees were re-trained during the CAP regarding the Coordinated Response Plan and First Responder Duties. All this culminates in a triangulation of evidence that the facility is compliant with this Standard.</p>

	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1465 398">The Standard states that “The facility shall develop a written institutional plan to coordinate actions taken in response to an incident of sexual abuse among staff first responders, medical and mental health practitioners, investigators, and facility leadership.” The Interim Report stated, “Policies were provided but not proof of practice. The Coordinated Response Plan (CRP) needs to be updated for First Responder Duties and SANE information.”</p> <p data-bbox="240 432 1490 591">Corrective Action: The Coordinated Response Plan (CRP) needed to be updated for First Responder Duties and SANE information. The facility safety response plan was reviewed and enhanced during the CAP, and protocols were established to assure that, at least annually, specific information regarding providers is checked for accuracy. The Health Services Sexual Assault Response Procedure was incorporated. All related forms and policies were reviewed to get rid of any inconsistencies or confusing wording.</p> <p data-bbox="240 624 1449 752">Analysis: The OYA TYCF Local Operating Protocol Sexual Abuse Response Plan (AKA the Coordinated Response Plan) and TYCF-II-A-10.0 Sexual Abuse Response Plan was otherwise consistent with the Standard. The facility provided the updated CRP and proof of distribution and training, with staff signatures. This information, along with interviews and investigations reviewed, provide a triangulation of evidence of compliance.</p>

The agency provided the collective bargaining agreement outside the OAS system and was considered compliant at the time of the Interim Report.</p> <p data-bbox="229 367 1509 604">Analysis: Documentation reviewed includes the 2019 -2021 Collective Bargaining Agreement between the Department of Administrative Services and the Service Employees International Union, Local 503, OPEU. Materials reviewed, and interviews conducted, indicated that the agency and facility were compliant with this Standard at the time of the Interim Report, which explained that "Evidence used to determine compliance with this Standard includes an interview with the Agency Head designee and a review of all collective bargaining agreements. Other information and interviews also support a conclusion that the agency and facility is fully compliant with this Standard."</p>

115.367	<b>Agency protection against retaliation</b>

	<p data-bbox="240 210 453 237"><b>Auditor Discussion</b></p> <p data-bbox="240 271 1485 499">The Standard requires the agency and facility to protect all residents and staff, or any cooperating individual who reports sexual abuse or sexual harassment, or who cooperates with sexual abuse or sexual harassment investigations, from retaliation by other residents or staff. The Standard describes minimum practices to provide protection against retaliation. OYA policies did not include all provisions of this Standard. Also, adequate proof of practice was not provided during the Pre-Audit phase of the Audit. The Interim Report stated, "Policies were provided but not proof of practice as required. OAS, the Audit Team, and the PRC provided instructions on what can be used as proof of practice. The PC acknowledges that the agency does not monitor for retaliation to the extent required by the Standard."</p> <p data-bbox="240 533 1414 622">Corrective Action: The CAP required that the agency develop a retaliation monitoring protocol. Additionally, they were required to implement the retaliation monitoring protocol, and ultimately, to provide proof of practice documentation of retaliation monitoring to the Auditor.</p> <p data-bbox="240 656 1493 846">Analysis: Along with the interviews conducted agency-wide, including with residents and staff who should be monitored for retaliation, the following documents were reviewed: Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, F 2 &amp; Pg. 11, H); Agency protection against retaliation; updated procedure; agency monitoring example; and Retaliation monitoring - staff - process. Although they appeared to be significantly out of compliance at the time of the Interim Report, the agency/facility was able to show a level of compliance with this Standard by the end of August 2021, and then was able to demonstrate institutionalization of compliance by the end of the CAP.</p>

The random selection of residents for interviews included residents who acknowledged being in the seclusion area briefly due to a fight or other behavior issues. According to interviews with residents who have been temporarily secluded, and the staff who supervise them, the provisions of this Standard apply to any residents in the area. There is no indication that residents are ever placed in seclusion for protection, nor because they alleged sexual abuse. The seclusion area was observed and explained during the Site Review. No contradictory information was received. This culminates in a triangulation of evidence of compliance.”</p> <p data-bbox="244 566 1477 622">Analysis: Policies are found in 11-B-1.2 (Pg. 6, E, Pg. 8, F) and I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, F 2 &amp; Pg. 11, H). OYA does not allow Isolation longer than 5 days. A triangulation of evidence indicates compliance with this Standard.</p>

	<p data-bbox="231 197 1508 264"><b>Auditor Discussion</b></p> <p data-bbox="231 264 1508 459">This Standard contains numerous provisions regarding how investigations are to be conducted, but it starts with “When the agency conducts its own investigations into allegations of sexual abuse and sexual harassment, it shall do so promptly, thoroughly, and objectively for all allegations, including third-party and anonymous reports.” Policies were provided during the Pre-Audit process, but not proof of practice. The On-Site interviews revealed a lack of confidence among residents about the quality of investigations.</p> <p data-bbox="231 459 1508 683">Corrective Action: Initially, the CAP for this Standard was the same as for Standard 322, requiring the investigations to be provided along with full PAQ information. Once agency investigations were provided and reviewed, they were found to contain quality investigative work but did not fully comply with provision (g) (2) of the Standard, which requires that administrative investigations, “Shall be documented in written reports that include a description of the physical and testimonial evidence, the reasoning behind credibility assessments, and investigative facts and findings.” The agency created and initiated a new report that would include all the required elements.</p> <p data-bbox="231 683 1508 898">Analysis: In addition to interviews conducted with residents who were alleged victims and witnesses in agency administrative investigations, and visits with staff (including Investigators) about investigative processes, documentation reviewed to verify compliance includes Policy I-D-4.0 Professional Standards Office Investigations (Pg., 4, 7, Pg., 9, 3) and investigations conducted in the facility, as well as agency-wide. 	<p>Any resident who alleges that they suffered sexual abuse is to be informed, verbally or in writing, as to whether the allegation has been determined to be substantiated, unsubstantiated, or unfounded. The Standard provides additional rules that outline the work of informing residents. For example, it requires that all notifications described under this Standard are documented. Policies consistent with this Standard were provided by the agency during the Pre-Audit phase of the Audit, but not proof of practice as required. OAS, the Audit Team, and the PRC provided instructions on what can be used as proof of practice.</p> <p>Corrective Action: The CAP for this Standard was the same as for Standard 322, to include documentation of reporting to residents.</p> <p>Analysis: Upon completing interviews with investigators and administrators; and reviewing Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 10, 3, Pg. 11, b), investigations, documentation of notification of residents, and Administrative Incident Review Reports, a triangulation of evidence of compliance had been achieved.</p>

This Standard provides guidelines for disciplinary sanctions for sexual abuse. It prohibits disciplinary action for a report of sexual abuse made in good faith, based upon a reasonable belief that the alleged conduct occurred, even if an investigation does not establish evidence sufficient to substantiate the allegation. Sexual activity between residents does not constitute sexual abuse unless the activity is coerced. The Interim Report stated, "Policies were provided but not proof of practice as required. OAS, the Audit Team, and the PRC provided instructions on what can be used as proof of practice. The PAQ states that 2 times in the past 12 months there have been administrative findings of resident-on-resident sexual abuse that have occurred at the facility. Documentation of these findings and any associated sanctions might serve as proof of practice."</p> <p data-bbox="231 593 1508 683">Corrective Action: Once the investigations were reviewed, the CAP focused on locating and providing proof of practice, which was provided in the form of Youth Incident Report (YIR) summaries, and screenshots of YIR refocus actions.</p> <p data-bbox="231 683 1508 929">Analysis: The information in the PAQ, interviews with youth who had been alleged victims and alleged perpetrators, and the On-Site Review, helped in the process of determining compliance. 115.386	<p><b>Sexual abuse incident reviews</b></p> <p><b>Auditor Overall Determination:</b> Meets Standard</p> <p><b>Auditor Discussion</b></p> <p>This Standard requires TYCF to conduct a sexual abuse Incident Review at the conclusion of every sexual abuse criminal or administrative investigation, unless the allegation has been determined to be unfounded; and it should do so within 30 days of the conclusion of the investigation. The sexual abuse Incident Review Team should include upper-level management officials and allow for input from line supervisors, Investigators, and medical or mental health practitioners. The Review Team should consider whether the allegation or investigation indicates a need to change policy or practice to better prevent, detect, or respond to sexual abuse; consider whether the incident or allegation was motivated by race; ethnicity; gender identity; lesbian, gay, bisexual, transgender, or intersex identification, status, or perceived status; or, gang affiliation; or was motivated or otherwise caused by other group dynamics at the facility; examine the area in the facility where the incident allegedly occurred, to assess whether physical barriers in the area may enable abuse; assess the adequacy of staffing levels in that area during different shifts; assess whether monitoring technology should be deployed or augmented to supplement supervision by staff; and prepare a report of its findings, including but not necessarily limited to determinations made pursuant to this section, and any recommendations for improvement, and submit such report to the facility head and to the PREA Compliance Manager. Based on the limited documentation received during the Pre-Audit process, The PREA Audit Interim Report stated, "A couple of examples of Incident Reviews were provided. They were based on incident summaries, not investigative materials. They appeared to be completed by 2 administrators without including input from other professionals such as line supervisors, investigators, and medical or mental health practitioners."</p> <p>Corrective Action: Once full investigative documentation was provided, it became more apparent that the conducting of sexual abuse incident reviews is institutionalized in the agency culture, but not to a degree that the documentation verified full compliance with all provisions of the Standard. The CAP required the agency to update the Incident Review policy to include requirements of AIR team members when completing a sexual abuse Incident Review (input from supervisory line staff, medical or mental health practitioners); update AIR Report YA 0024 to include what materials were reviewed, and who participated in the review; provide documentation that the AIR reports were completed within the required time frame; provide documentation of what PSO provides the AIR team; and upload completed Incident Reviews to OAS.</p> <p>Analysis: Interviews with administrators and investigators verified that these reviews occur. Documents reviewed for compliance determination include Policy I-A-10.0 Preventing Youth Sexual Abuse (Pg. 17, G); Administrative Incident Review Report; Agency I-E-4.0 Incident Reviews; Sexual Abuse Incident Reviews - Administrative Incident Review Report – revised; Sexual Abuse Incident Reviews Updated Policy; Sexual Abuse Incident Reviews before and after updated policy and revised form; and Documentation of the training and implementation process for the policy update and revised form. Information from interviews, policies, procedures, and proof of practice verify compliance with this Standard.</p>

It includes a provision which states that "The auditor shall be permitted to request and receive copies of any relevant documents (including electronically stored information)." The PREA Audit Interim Report stated, "The auditor was not provided the proofs of practice required, and the agency has not followed all auditing protocols."</p> <p data-bbox="229 416 1509 528">Corrective Action: One of the highest priorities after the PREA Audit Interim Report was for the Agency and Facility to provide all the materials needed. This was quickly accommodated, and the agency has continued to provide documentation throughout the 180-day CAP.</p> <p data-bbox="229 528 1509 728">Analysis: At the writing of this PREA Audit Final Report, the agency has demonstrated compliance for 6 months, showing proof of a measure of institutionalization of this practice. However, if the agency does not continue to demonstrate full compliance, as well as institutionalization of compliant practices, it will be reflected in the remaining PREA Audit Final Reports for this round of Audits, as well as in the Interim Reports of the facilities whose On-Site Audits are scheduled for April of 2022.</p>
