The Developmental Approach

SKILLS FOR CREATING A CULTURE OF DEVELOPMENT

Insights into Action

Our Data Culture Framework

Hard on Data, Intentional with People

We challenge the information, not the individual.

Healthy tension strengthens our thinking.

If You Don't Know Your Data, You Don't Know Your Business

Understanding our metrics is a shared responsibility.

Knowing your data builds credibility and informs better decisions.

Transparency Builds Trust

Sharing successes and struggles strengthens our collective effectiveness.

Can't Manage a Secret

No one has to carry the issues alone.

Open communication enables accountability and shared solutions.

Complexity is the Enemy of Execution

Simplicity and clarity accelerate progress.

Keep it understandable, actionable, and measurable.

Collective Accountability

We rise together. Data ownership matters, but improvement is a team sport.

We turn data into direction — not just to report, but to refine, learn, and improve

Access to Hygiene Products

Youth in the custody of the Oregon Youth Authority are entitled to immediate and unrestricted access to culturally-specific hygiene products.

1. What is your facility's process for ensuring youth have immediate access to culturally-specific hygiene products
Forms are available on Units and are provided to all new intakes.
2. How are staff trained or informed about this process so they can provide these items without delay?
No formal training, but staff are notified during bi-weekly staff meetings.
3. How do you monitor or verify that this process is consistently followed, and what steps do you take when it is not?
Order forms are updated as needed with available products. Admin checks the units daily for youth orders and makes sure there are adequate forms on the units. If there are no forms available Admin is notified, and more forms are given to the Units.
4. What barriers exist, or what do you need to ensure youth have immediate and on-going unrestricted access to culturally-specific hygiene products
Barriers with supplies and shipping from the Warehouse. OYA needs to make sure the warehouse is fully stocked. Limited storage and temperature control issues at EOYCF.
