What is JJIS?

In 1995, Senate Bill 1 called for extensive collection of data related to the outcomes of systems designed to provide public safety, hold youth accountable, and provide them with reformation opportunities.

In response to these demands, a partnership between the Oregon Youth Authority and the Oregon County Juvenile Departments was formed.

The partnership decided a fresh start was needed to meet the demands of the juvenile justice community . . .

. . . and the development of the Juvenile Justice Information System (JJIS) began.

. . . an electronic information system developed and maintained by the state through the Oregon Youth Authority (OYA), in partnership with county juvenile departments . . .

Oregon Revised Statute 420A.223

What is JPAS?

The Juvenile Provider Access System (JPAS) is a “lens” of the statewide-integrated Juvenile Justice Information System (JJIS) and shows Providers information they need about youth referred to them for services.

JPAS facilitates information sharing between OYA’s Juvenile Parole / Probation Officers (JPPO) and contracted OYA residential care providers throughout the youth referral, screening, and placement process.

JPAS is accessed by a two-step log in process – first through a web-based application called OYA Remote Services, then to JJIS.

JPAS gives Providers a real-time view of information in a youth’s JJIS notebook to help automate the referral, wait list, and acceptance process; and to easily share information about a youth’s progress with their JPPO.

However . . .

. . . JPAS does not replace direct communication between JPPOs and Providers!

JPAS User Responsibilities

JPAS users must sign and submit a JJIS User Security Agreement and review JJIS Security overview and policies.

- [Access, Appropriate Use, and Confidentiality](#)
- [JJIS Policy: User Security](#)
- [JJIS Policy: Privacy and Protection of Confidential Information](#)

After processing an authorized JPAS user's security agreement, the JPAS Security Coordinator * emails the user with links to the review materials. When the user has completed their review of the introductory materials, the JPAS Security Coordinator emails log-in instructions and credentials to the user.

* The JPAS Security Coordinator is a member of OYA's Community Resources Unit (CRU)

JJIS is a powerful tool and JPAS users have access to data, much of which is confidential and protected from public release by Oregon law.

JPAS users must be aware of their responsibilities and the necessity of protecting the integrity and confidentiality of the data in JJIS.

JPAS users' access is monitored and may be terminated for violations of the use of JJIS as outlined in the JJIS User Security Agreement.

Do not leave JPAS screens unattended.

Lock your computer or log off JPAS.

How does JPAS work?

JPAS and JJIS “talk” to each other.

When a JPPO enters a service referral into JJIS, an e-mail notification is automatically sent to the Provider’s designated intake worker.

JJIS generates an automatic e-mail notification to the JPPO when the Provider’s intake worker updates the referral status.

JPAS users have a view of information in JJIS specific to youth that have been referred to them.

Again, JPAS does not replace direct communication between JPPOs and Providers!

JPPO and Provider Roles

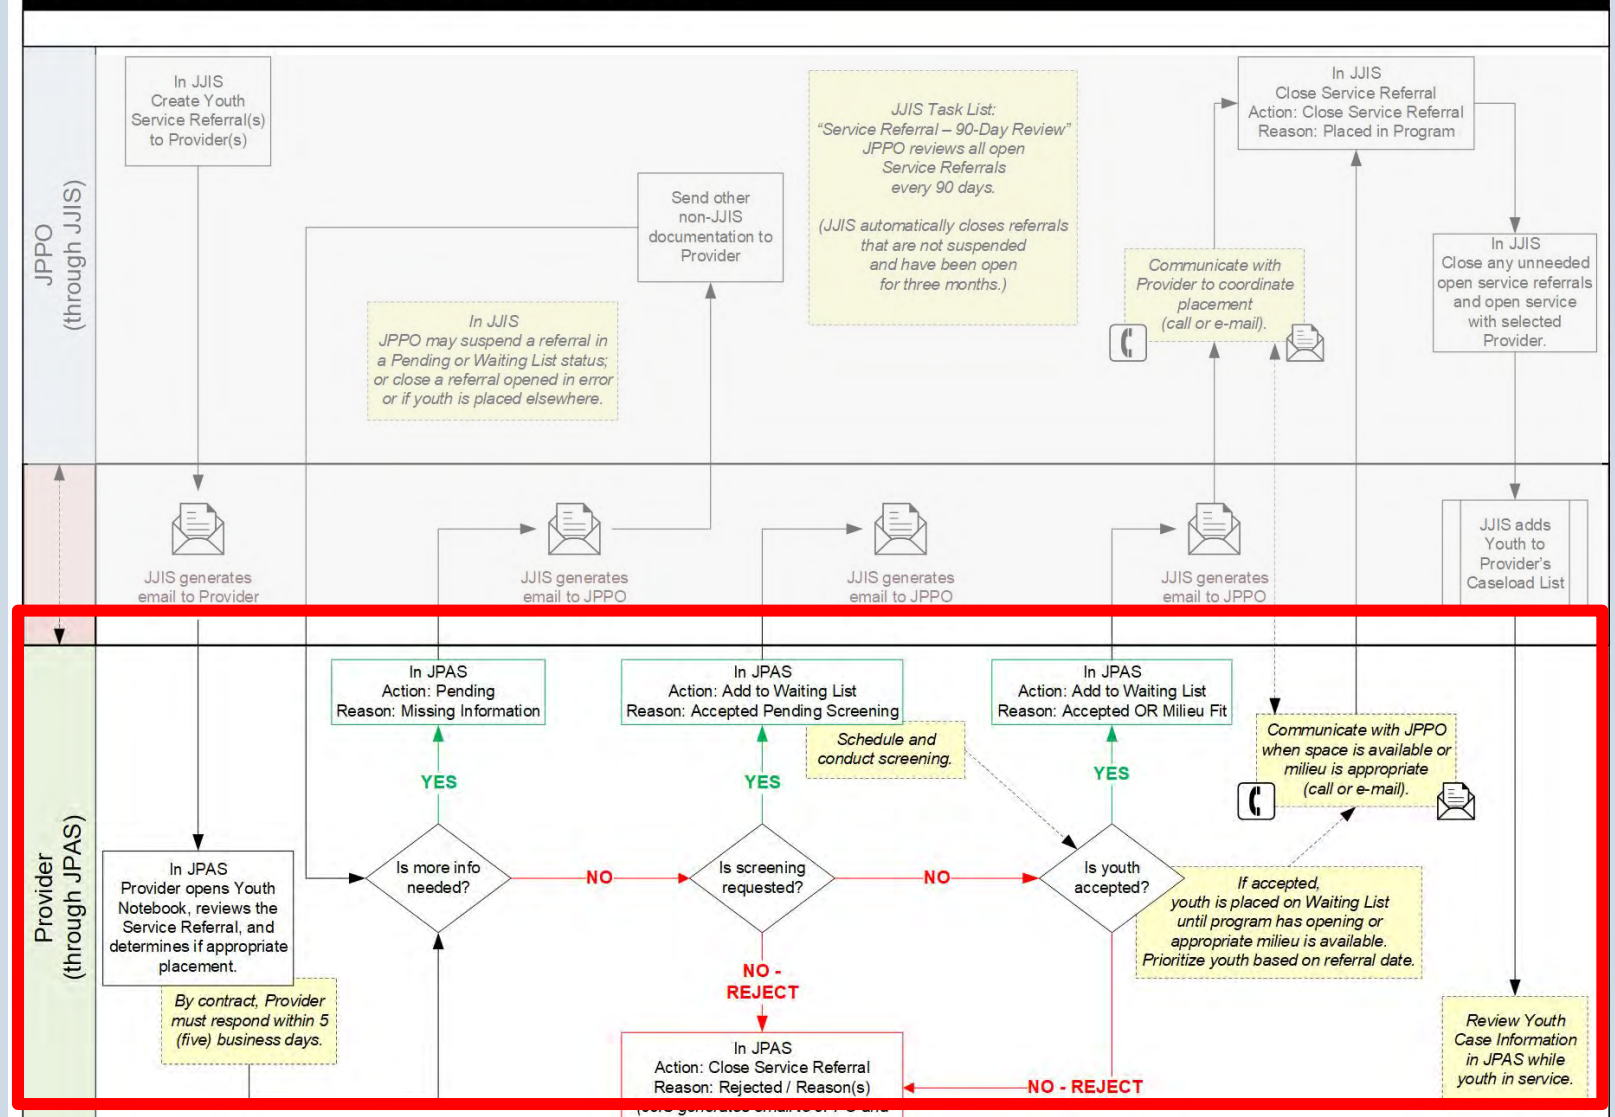

JPPOs

- Create youth service referral
- Respond to referral status changes
- Coordinate placement of youth
- Enter youth case information in JJIS

Provider Intake Workers

- Review youth service referral
- Indicate if placement request is appropriate
- Schedule/conduct youth screening if needed
- Place youth on waiting list for opening or appropriate milieu (prioritized based on referral date)
- Review youth case information while youth in service

Provider Service Referrals - JJIS to JPAS

Admission Decision Process

JPPO enters required information into JJIS; JJIS generates automated e-mail to BRS provider indicating a referral is in JPAS awaiting review.

BRS Provider reviews information.

Change Pending reason to "Reviewing".

Does referral have information necessary to make decision?

Decision timeline of five days does not start until all necessary information has been provided.

YES

Does youth meet program admission criteria?

Change the Pending status to "Add to Waiting List" and select an appropriate reason:

- Accepted
- Accepted Pending Screening
- Milieu Fit*

** Provider has accepted youth, but current milieu is not appropriate – placement is on hold until milieu fit is available.*

YES

NO

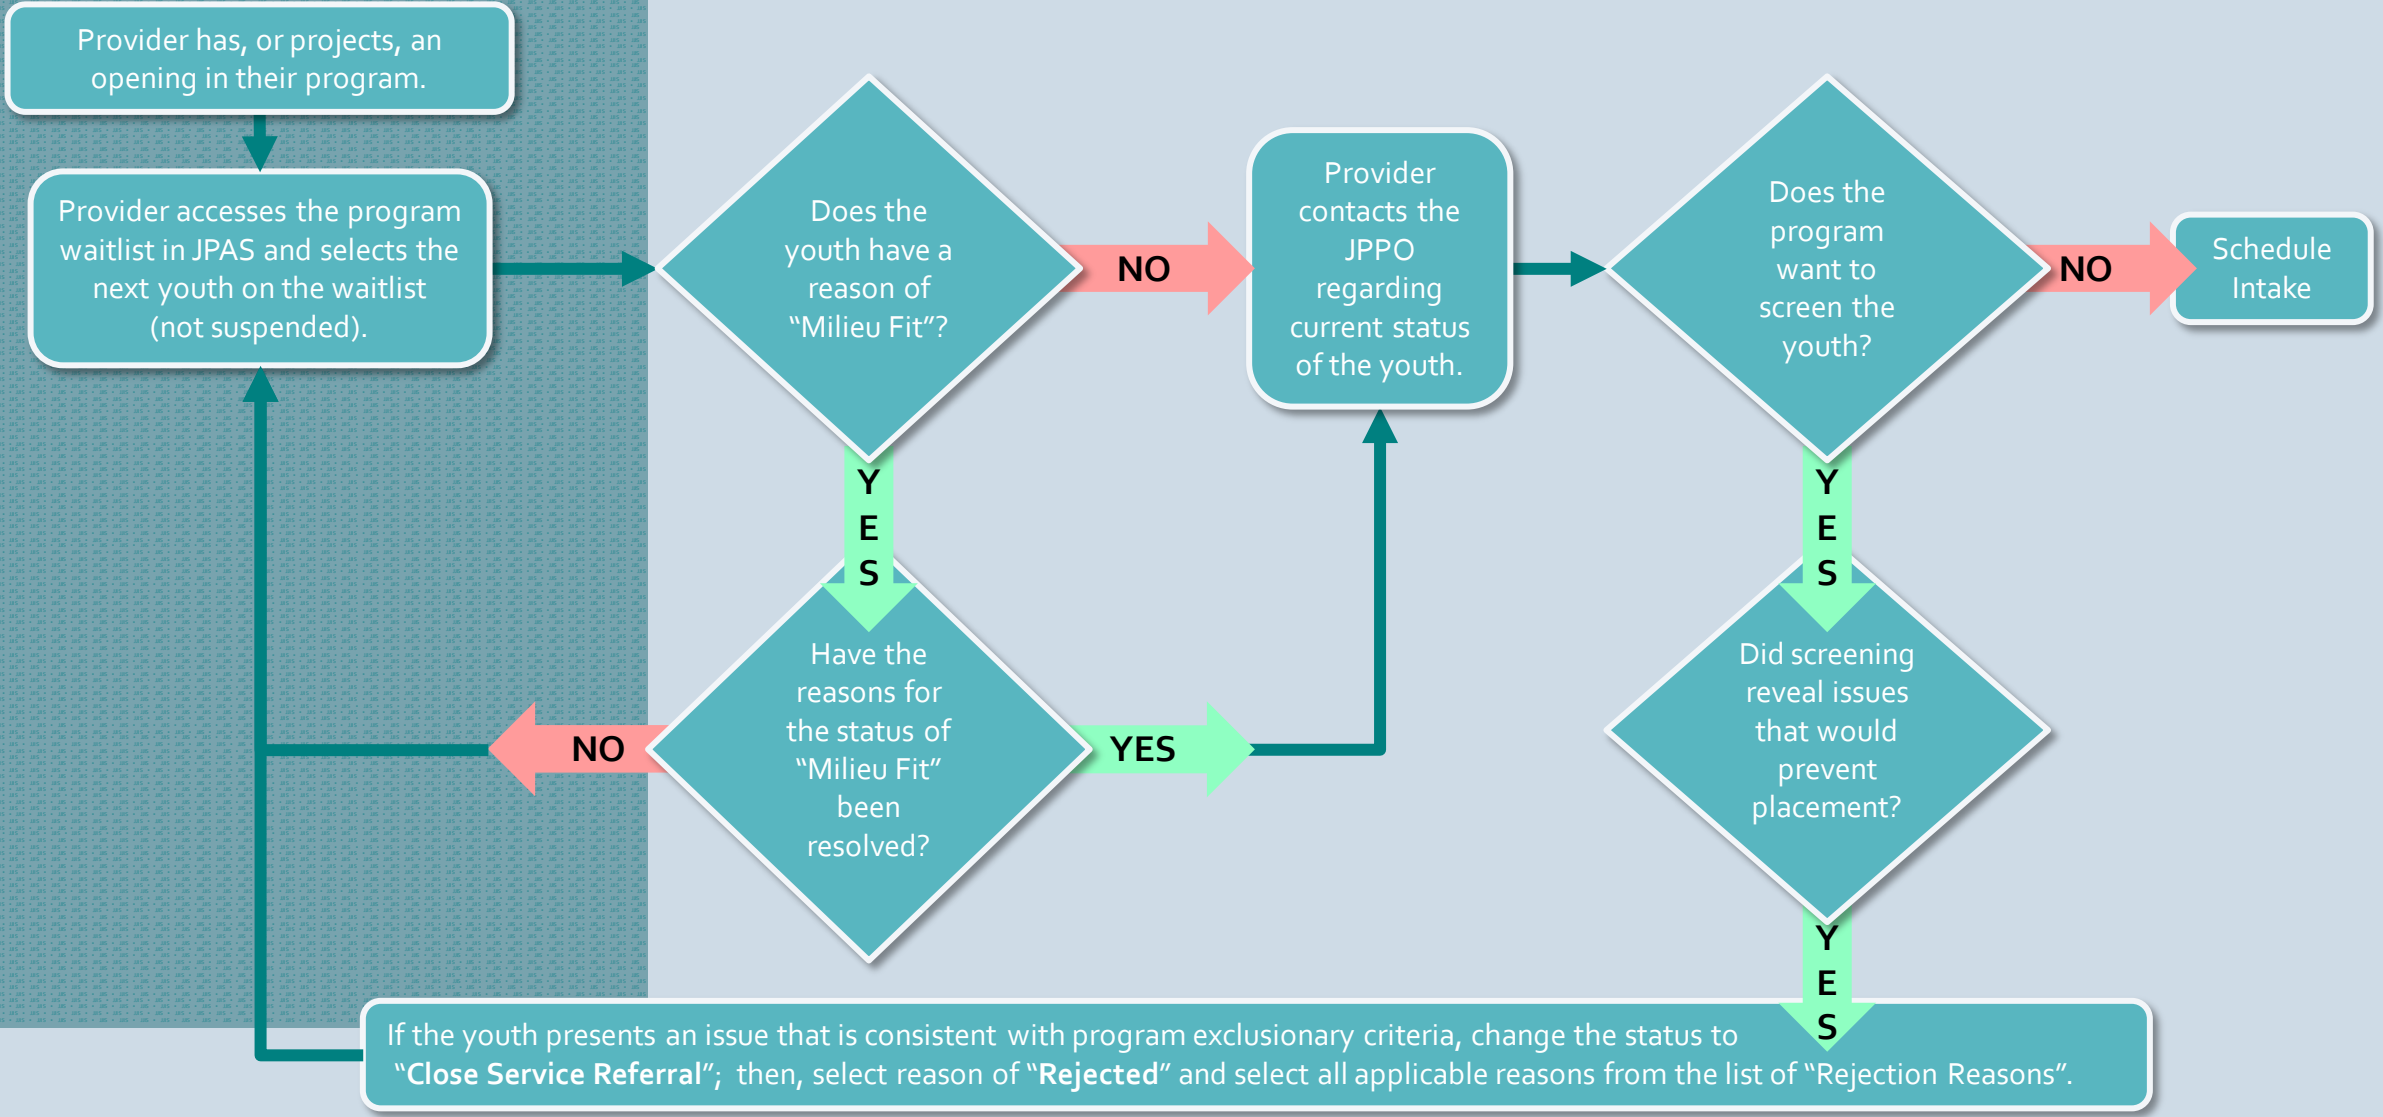

Change Pending reason from "Reviewing" to "Missing Information" and indicate missing information in JPAS note.

JPPO provides additional information.

NO

Select "Close Service Referral" status and select reason of "Rejected" and all applicable reasons from the list of "Rejection Reasons".

Placement Decision Process

JPAS Interface

When you first log on to JPAS, the only item that appears on the screen is the JPAS toolbar — the title bar displays your name and workplace.

Like JJIS, JPAS is set up similar to a tabbed notebook. Click the Search icon in the toolbar to open the JPAS notebook.

JPAS has two primary screens (or tabs).

- **Active Caseload** – the default opening screen displays names of youth currently placed in the provider’s programs
- **Service Referrals** – this screen displays service referrals that are in a state of review ; the youth have not been placed in a program

The image shows three screenshots of the JPAS interface. The top screenshot is the main application window with a blue title bar containing 'Juvenile Justice Information System (JPAS) User: [redacted] Workplace: [redacted]'. Below the title bar is a menu bar (File, Edit, Tools, Youth, Provider, Window, Help) and a toolbar with various icons. A yellow star points to the 'Search Notebook' icon in the toolbar, with a callout box. A red box highlights the 'User' and 'Workplace' fields in the title bar. A purple callout box with a yellow star says 'Always start in JPAS by opening the Search Notebook'. The middle screenshot shows the 'Search Page: Active Caseload' window with two tabs: 'Active Caseload' (highlighted with a red box) and 'Service Referrals'. It features filter fields for 'Provider' and 'Program', a 'Search' button, and a table with columns: Youth Name, JJIS #, Age, Sex, Program, Start, Primary Worker, and Prime. The bottom screenshot shows the 'Search Page: Service Referrals' window with 'Service Referrals' tab selected. It includes filter fields, a 'Status' section with 'Show Active' and 'Show All' radio buttons, a table with columns: Youth Name, Age, Sex, Program, Target, Score, Start, Proj Start, Status, and Reason, and a form for entering referral details like Name, JJIS #, Age, Sex, Program, Entered Date, Projected Start, and Service Referral Worker information.

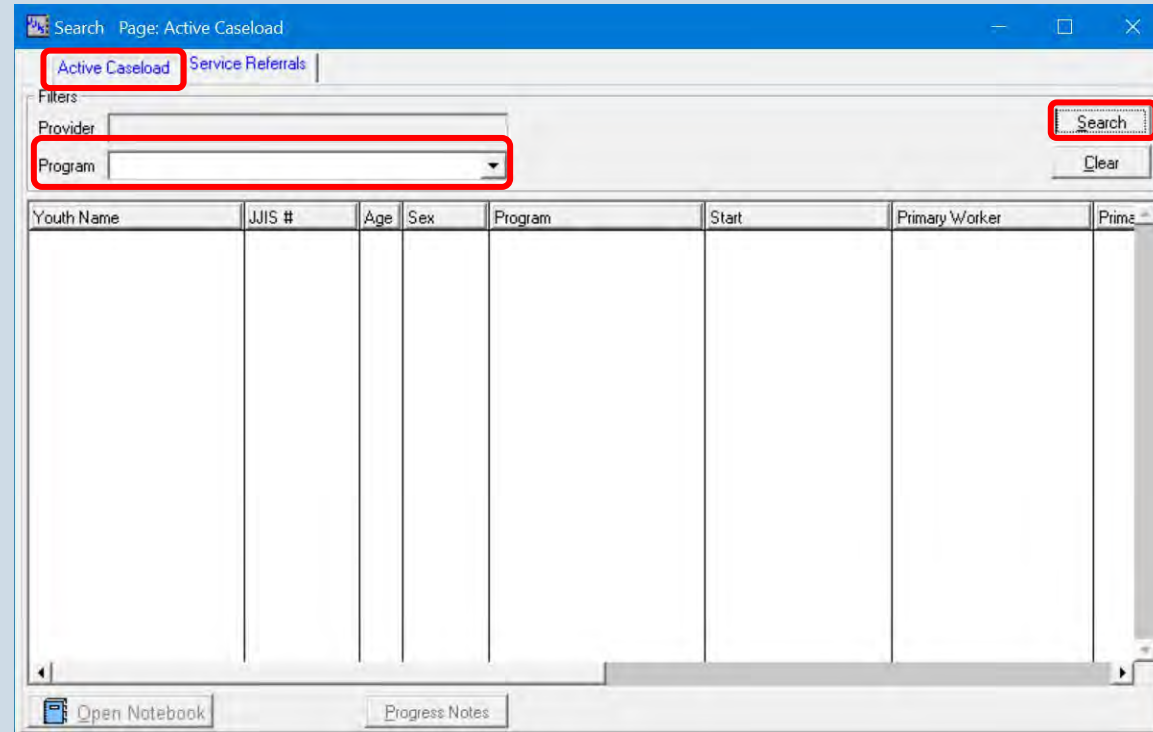

Active Caseload Screen

The caseload screen provides a view-only overview of youth placed with the Provider; data cannot be entered into this screen. The table contains the following columns of information:

- Youth Name and JJIS #
- Age
- Sex
- Program
- Start Date
- Primary Worker (JPPO), Phone, Email
- OYA Commitment Expiration Date
- BRS Authorization Date
- Date of Offender Registration (if applicable)

If a Provider manages multiple programs, the Program drop-down defaults to All, but individual programs may be selected from the drop-down list.

Search fills the Active Caseload list with youth currently placed in program(s).

- Click a column title to sort the contents in alphabetical, numerical, or chronological order.
- View more content by scrolling both vertically and horizontally.
- Re-size columns by holding and dragging their edges.
- Re-order columns by holding and dragging the column title to a new position in the table.
- Select a youth in the table list to provide context for the JPAS menus and toolbar button commands; and to enable the Open Notebook and Progress Notes buttons at the bottom of the screen.

View Active Caseload

Click the **Search** icon on the JPAS toolbar to open the Active Caseload list for all programs operated by the **Provider**.

Click **Search** to display the default list of all youth currently in the program

If there are multiple programs and you only want to see youth in a specific program, select the Program from the drop-down list and click **Search** to filter the list.

NOTE

If the Active Caseload screen is left open throughout the day (or overnight), it is very important to refresh it periodically to ensure that recent entries are displayed. Simply close and re-open to refresh the display.

Youth Name	JJIS #	Age	Sex	Program	Start	Primary Worker	Prime
Andrew, Bill	00003677	22		Breakthrough Community	09/05/2009	Anderson, Tim	(500
Applegate, Jeff	00003571	19	Male	Breakthrough Maintenanc	02/08/2011 8:00 am	Worker OYA - QA, PPO	(500
Quick, Joseph Daniel	00003560	18	Male	Breakthrough Maintenanc	04/05/2007 8:00 am	Worker OYA - QA, PPO	(500

Service Referral Notification

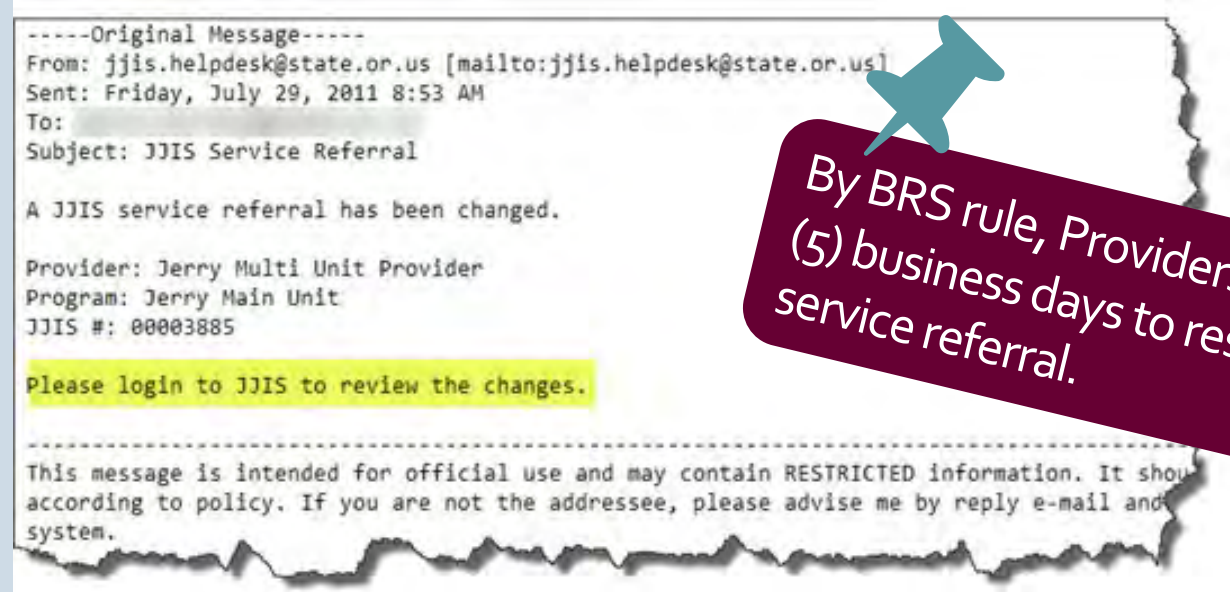

When a JPPO enters a service referral into JJIS, an automatic email is generated and sent to the Provider's designated intake worker. *

The e-mail includes only the youth's JJIS # and the Provider/Program the youth has been referred to.

The e-mail directs the worker to log in to JPAS to review the details of the referral.

Any time changes are made to the referral — by either the JPPO (through JJIS) or the Provider (through JPAS) — an email is generated to provide notification that a change has occurred and to log in to review the status of the referral.

Remember, the automatic emails do not replace direct communication between JPPOs and Providers

By BRS rule, Providers have five (5) business days to respond to a service referral.

*Email addresses for designated intake workers are maintained in JJIS by the JPAS Security Coordinator.

Make sure that your Intake Worker's email is set up to receive referral updates (e.g., email from "jjis.helpdesk@state.or.us" isn't going into junk mail or spam).

If your designated intake worker is not receiving notifications, please contact your assigned CRU Tech in OYA's Community Resources Unit.

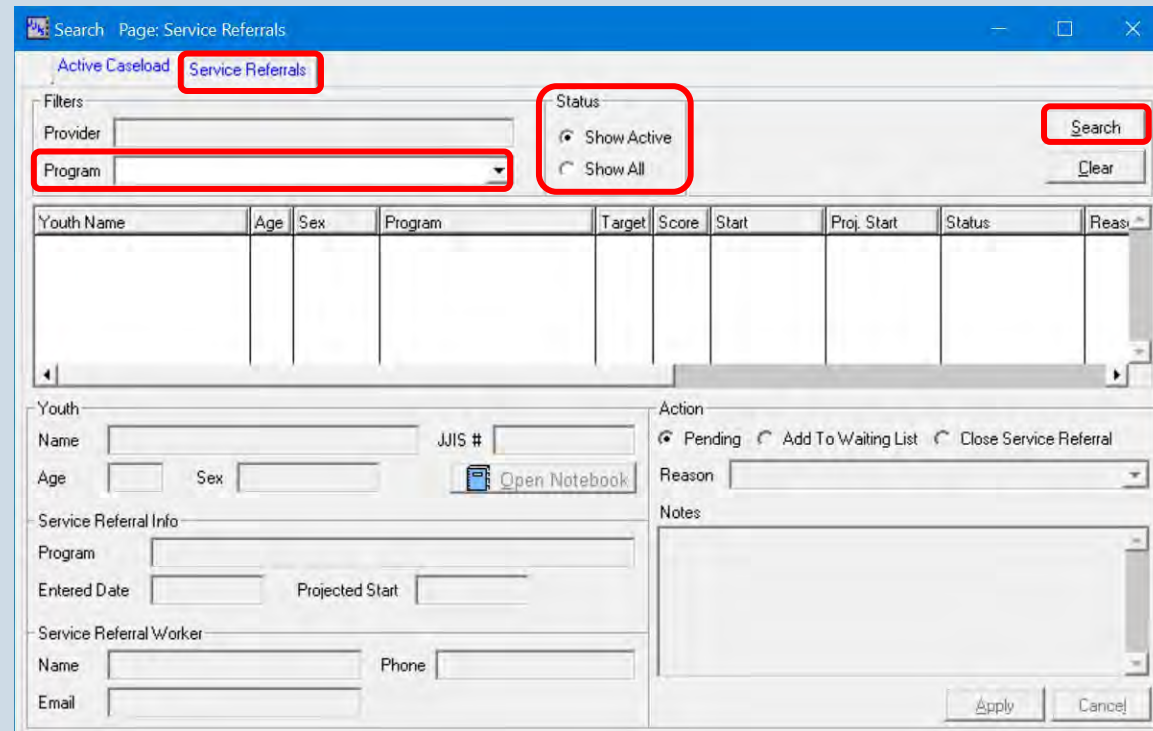

Service Referrals Screen

This screen displays the status of service referrals to the program.

Search activates the screen to fill with a list of youth who have been referred to the program. The list defaults to Show Active referrals (pending and waiting list); the Show All filter includes inactive referrals — youth who are placed in the program and closed referrals.

The table contains the following columns of information:

- Youth Name
- Age
- Sex
- Program
- (Target and Score not applicable)
- Start Date
- Projected Start Date
- Status and Reason
- Primary Worker, Phone, and Email

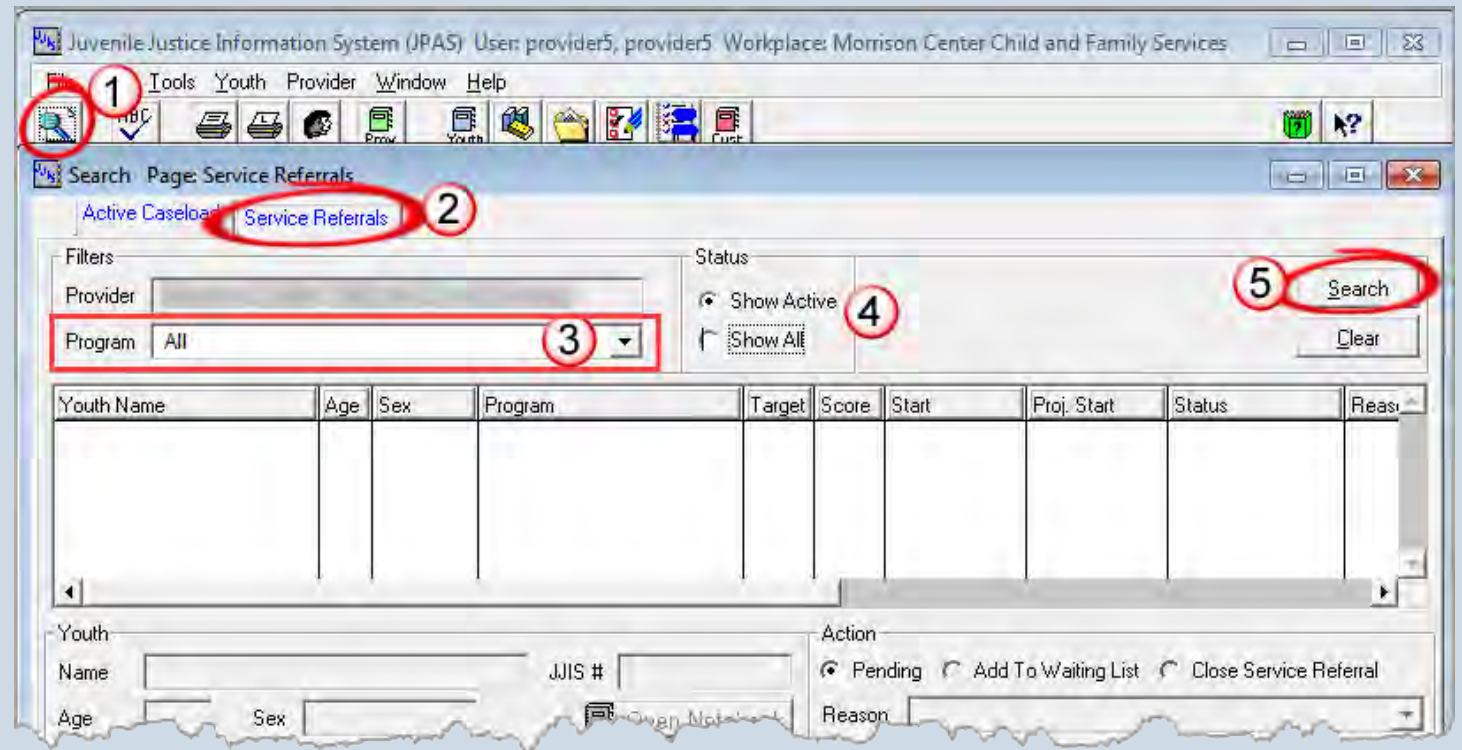

- Click a column title to sort the contents in alphabetical, numerical, or chronological order.
- View more content by scrolling both vertically and horizontally.
- Re-size columns by holding and dragging their edges.
- Re-order columns by holding and dragging the column title to a new position in the table.
- Select a youth in the table list to provide context for the JPAS menu and toolbar button commands. The fields in the lower area of the screen fill with additional details about the referral including:
 - action options (e.g., Add to Waiting List)
 - notes that have been entered
 - enabled Open [Youth] Notebook button

Review Pending Referral

Open and log on to JPAS using the instructions provided by the JPAS Security Coordinator.

1. Click the **Search** icon on the JPAS toolbar. The search screen opens, defaulting to the Active Caseload list.
2. Select the **Service Referrals** tab on the top of the screen.
3. The Provider field defaults to the workplace of the logged-in worker; the Program field defaults to "All", but a specific program can be selected from the drop-down list.
4. The Status radio button filter defaults to "Show Active" – active referrals are those that are in a Pending or Waiting List status. The Show All option would include referrals that have been closed or placed.
5. Click **Search**. Referrals in a Pending or Waiting List status display in the table.

Providers are given access to view information of youth for whom they've received a referral. The information available for viewing is similar to the traditional hard copy service referral packet.

The Provider can review relevant information, request more information if necessary, and based on their ability to place and provide service to the youth, they can take an appropriate action and reason, and enter a note to the JPPO or referring case manager.

The date of the referral should be used to prioritize intake of youth to the program.

Review Pending Referral

6. Select the youth record in the list — the referral details display in the area below, in addition to any notes the JPPO may have entered.
7. The Action defaults to “Pending” — select “Reviewing” from the **Reason** drop-down list. *See Service Referral Status and Action Definitions.*
8. Enter a **Note** (include date and name of author).
9. Click **Apply** to save the status.
(JPAS sends an automatic e-mail notification to the JPPO.)

Click the **Open Notebook** button; *the youth’s notebook opens defaulting to the Youth Info page.*

See more information about JPAS Navigation to review the information available — similar to the traditional hard copy service referral packet. JPAS account holders are given access to view PDFs of documents. More information can be requested if necessary.

The screenshot shows the 'Service Referrals' page in a web application. At the top, there are tabs for 'Active Caseload' and 'Service Referrals'. Below the tabs are filter fields for 'Provider' and 'Program', and a 'Status' section with radio buttons for 'Show Active' and 'Show All', along with 'Search' and 'Clear' buttons. A table lists referral records with columns for Youth Name, Age, Sex, Program, Target, Score, Start, Proj. Start, Status, and Reason. One record is highlighted in blue, with a red circle containing the number '6' over the 'Start' column. Below the table, there are input fields for 'Youth' information (Name, Age, Sex, JUIS #, Open Notebook button), 'Service Referral Info' (Program, Entered Date, Projected Start), and 'Service Referral Worker' (Name, Phone, Email). On the right side, there is an 'Action' section with radio buttons for 'Pending', 'Add To Waiting List', and 'Close Service Referral', and a 'Reason' dropdown menu with a red circle containing the number '7'. Below that is a 'Notes' text area with a red circle containing the number '8'. At the bottom right, there are 'Apply' and 'Cancel' buttons, with a red circle containing the number '9' over the 'Apply' button.

Referral Status and Actions

PENDING

Missing Information	Provider has received referral, but needs additional information from the JPPO. <i>List the needed items in the notes section.</i>
Reviewing	Provider has received referral and is reviewing for appropriate placement. <i>All referrals are initially in a Pending Status.</i>

An automatic e-mail notification is sent to the JPPO for review and to take further action regarding any mission information.

By BRS rule, Providers have five (5) business days to respond to a referral and enter a note indicating they attempted or made contact with JPPO. The five-day response time does not start until the provider has received all necessary information.

Referral Status and Actions

WAITING LIST

Accepted	Provider has accepted youth and will place youth on list for upcoming available openings in the program. <i>Youth should be prioritized based on referral date.</i>
Accepted Pending Screening	Provider has accepted youth contingent upon screening.
Milieu Fit	Provider has accepted youth, but current milieu is not appropriate. <i>Placement is on hold until appropriate milieu fit.</i>

An acceptance to a waiting list or a milieu fit creates an automatic e-mail notification to the JPPO to review and take further action to open a service with the Provider.

Referral Status and Actions

CLOSED

Rejected	Provider has determined that referred youth is not appropriate for program and rejects the referral. Provider must indicate at least one of the following rejection reason(s).	
(reasons)	<ul style="list-style-type: none"> • Active Psychosis or Psychiatric instability • Active suicidality • Age outside of admission criteria • Fire setting issues • Homicidal • Intellectual and Developmental Disabilities 	<ul style="list-style-type: none"> • Medical need beyond what can be provided • Not able to attend public school • Runaway exclusion as defined in contract • Seriously aggressive and assaultive behaviors • Sexual offense issues

A rejection creates an automatic e-mail notification to the JPPO to review and take appropriate action to create a new service referral with another Provider.

Request More Information

In the Service Referrals tab,

1. Select the **Youth** name in the list.
2. In the Action area of the screen, (with the Pending radio button selected), select "Missing Information" from the **Reason*** drop-down list.

By BRS rule, the 5-day admission decision timeline does not start until the additional information that was requested is submitted.

3. Enter a **Note** indicating the information that is missing (include date and name of author).
4. Click **Apply** to save the entry.

An automatic e-mail notification is sent to the JPPO for review and to take further action regarding the missing information.

* The "Suspended" reason option is used only by the JPPO.

The screenshot shows the 'Service Referrals' tab in a web application. A red arrow points to the 'Service Referrals' tab. The interface includes a table of referrals, a form for editing a referral, and an action menu. Numbered callouts indicate the following steps:

- 1:** Select a youth name in the table.
- 2:** Select the 'Pending' radio button in the Action section.
- 3:** Select 'Missing Information' from the Reason dropdown menu.
- 4:** Enter a note in the Notes field.
- 5:** Click the 'Apply' button to save the entry.

Accept Referral

In the Service Referrals tab,

1. Select the **Youth** name in the list.
2. Select the **Add to Waiting List** radio button.
3. Select the appropriate **Reason*** from the drop-down list:
 - Accepted
 - Accepted Pending Screening
 - Milieu Fit
4. Enter a **Note** to provide additional information (include date and name of author).
5. Click **Apply** to save the entry.

An automatic e-mail notification is sent to the JPPO for review and to take further action to open a service with the provider.

** The "Suspended" reason option is used only by the JPPO.*

The screenshot shows the 'Service Referrals' tab in the application. A red arrow points to the 'Service Referrals' tab. The interface includes a table of referrals, a form for entering details, and a list of reasons. Red circles with numbers 1 through 5 highlight the following elements:

- 1:** A row in the referral table.
- 2:** The 'Action' section with the 'Add To Waiting List' radio button selected.
- 3:** The 'Reason' dropdown menu with 'Accepted Pending Screening' selected.
- 4:** The 'Notes' text area.
- 5:** The 'Apply' button.

Reject Referral

In the Service Referrals tab,

1. Select the **Youth** name in the list.
2. Select the **Close Service Referral** radio button.
3. Select **Rejected** from the Reason* drop-down list.
4. Select a **Rejection Reason(s)** from the list. A check appears to the left of the selection. At least one Rejection Reason is required.

TIP: Select multiple reasons by using the Ctrl-Click keyboard/mouse combination.

5. Enter a **Note** to provide additional information about the rejection decision (include date and name of author).

6. Click **Apply** to save the entry.

An automatic e-mail notification is sent to the JPPO for review and to take appropriate action to create a new service referral in JJIS.

* The "Opened in Error" and "Placed Elsewhere" reason options are used only by the JPPO.

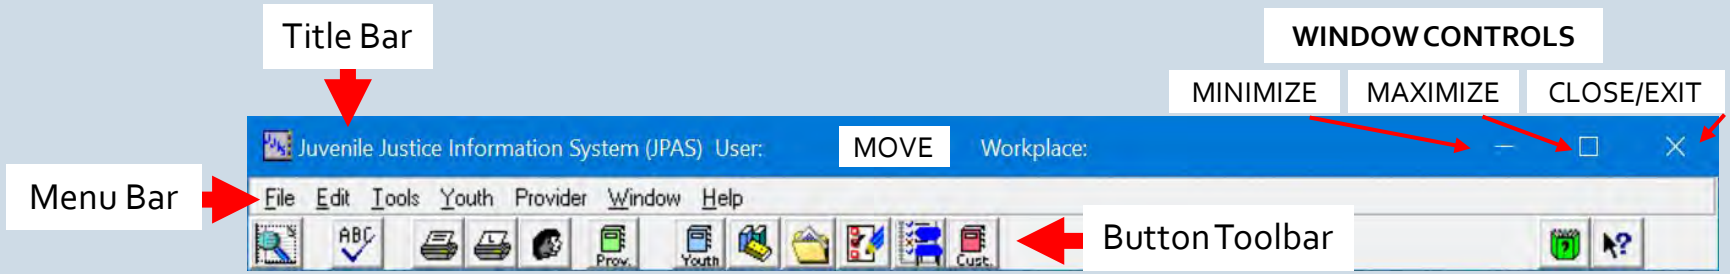

The screenshot shows the 'Service Referrals' tab in the JJIS application. A red arrow points to the 'Service Referrals' tab. The interface includes a table of referrals, a form for editing a referral, and a list of rejection reasons. Numbered callouts indicate the following steps:

- 1:** A row in the referral table is highlighted.
- 2:** The 'Close Service Referral' radio button in the 'Action' section is selected.
- 3:** The 'Reason' dropdown menu is set to 'Rejected'.
- 4:** A rejection reason is selected from the 'Rejection Reasons' list.
- 5:** A note is entered into the 'Notes' field.
- 6:** The 'Apply' button is clicked to save the entry.

JPAS Toolbars and Menus

When you first log on to JPAS, the only item that appears on the screen is the JPAS toolbar.

- **Title Bar** — displays the logged in user's name and their workplace
- **Button Toolbar** — shortcuts to commonly used commands that are also found in the Menu Bar
- **Menu Bar** — lists of drop-down commands; some correspond to the Button Toolbar while others have keyboard shortcut keys associated with them
- **Window Controls** — software features that allow how windows display (common to most software applications, e.g., Microsoft Windows®)

MINIMIZE Window – reduces window to a button on the taskbar.

Click the JJIS button on the taskbar and select the screen to restore it to its previous size and location.

MAXIMIZE Window – enlarges window to fill the computer screen

Click the Minimize button to restore the window to its previous size and location (or double-click the title bar).

CLOSE/EXIT – closes window

Click the X on the title bar to close JPAS (all windows must be closed before JPAS can be closed).

MOVE – re-positions window

Press and hold the cursor on the title bar to drag a window to a new position on the computer desktop — release the mouse when the window is in the desired location.

To ensure you receive software updates, close JPAS:

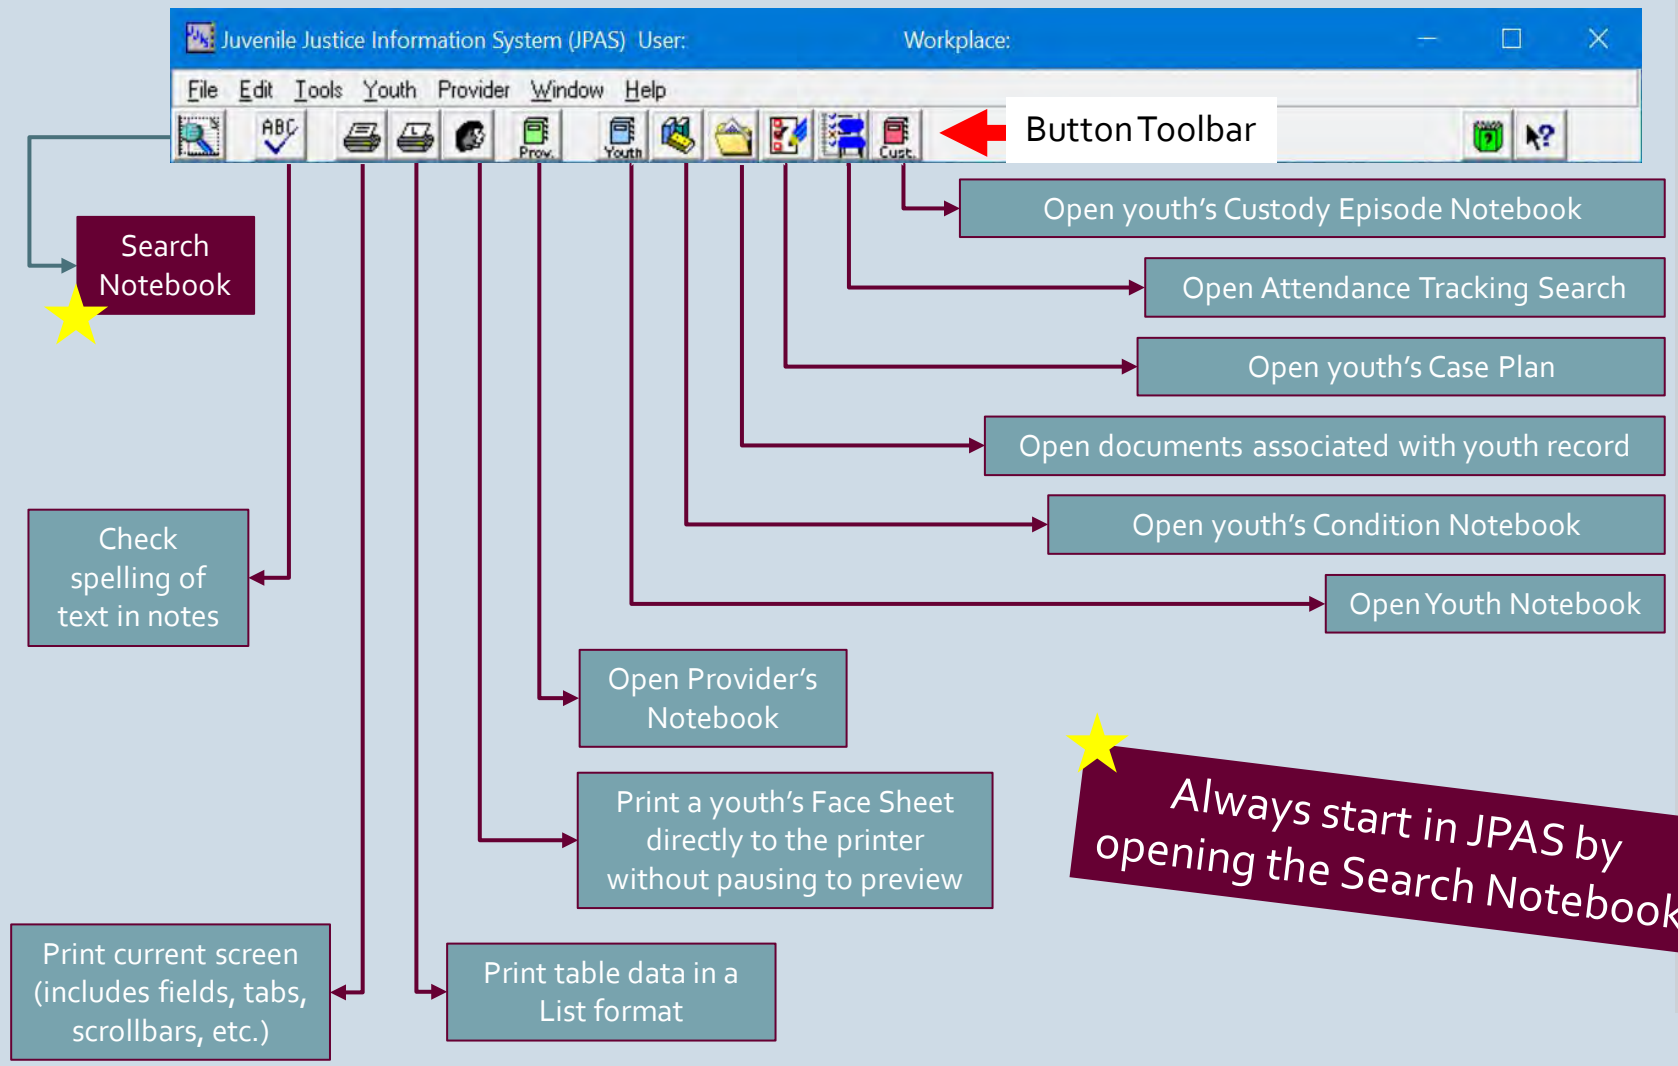

- Select Log Off under the File menu; or
- Click X in the upper right corner of the screen; or select Close All and Exit from the Window menu.

JPAS Toolbars and Menus

Button Toolbar

- shortcuts to commonly used JPAS commands
- correspond to items in the menus
- commands associated with a youth record require the context of a youth (i.e., a youth must be selected in a table list or Youth Notebook must be open)
 - Face Sheet
 - Youth Notebook
 - Case Plan
 - Documents
 - Condition Notebook
 - Attendance Tracking
 - Custody Episode Notebook

An error message prompt that a youth must be selected.

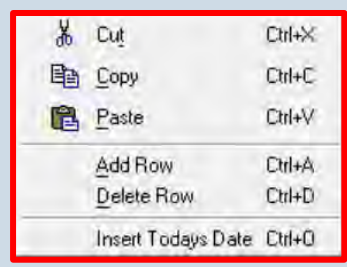

Always start in JPAS by opening the Search Notebook

JPAS Toolbars and Menus

Menu Bar

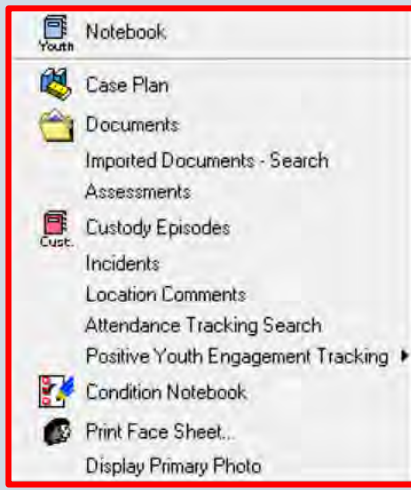

- drop-down lists of JPAS commands
- like the Buttons, commands associated with a youth record require the context of a youth
- some menus correspond with commands available through the button toolbar — the toolbar icon
- some commands have associated keyboard shortcuts common to other software applications (e.g., Microsoft Word®)

BUTTON TOOLBAR ICONS

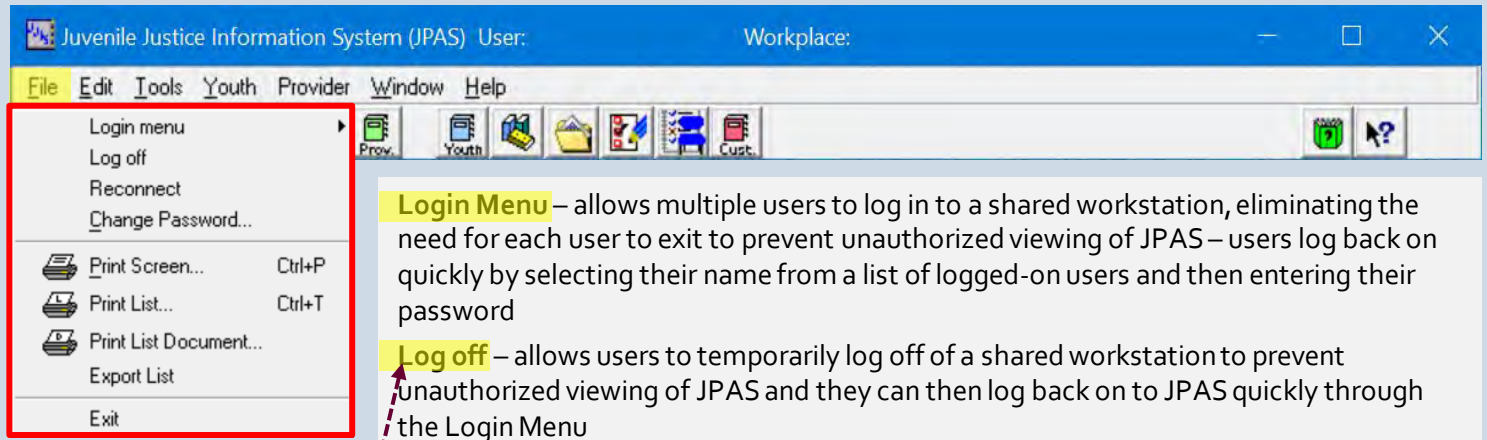

KEYBOARD SHORTCUTS

JPAS Toolbars and Menus

File Menu Functions

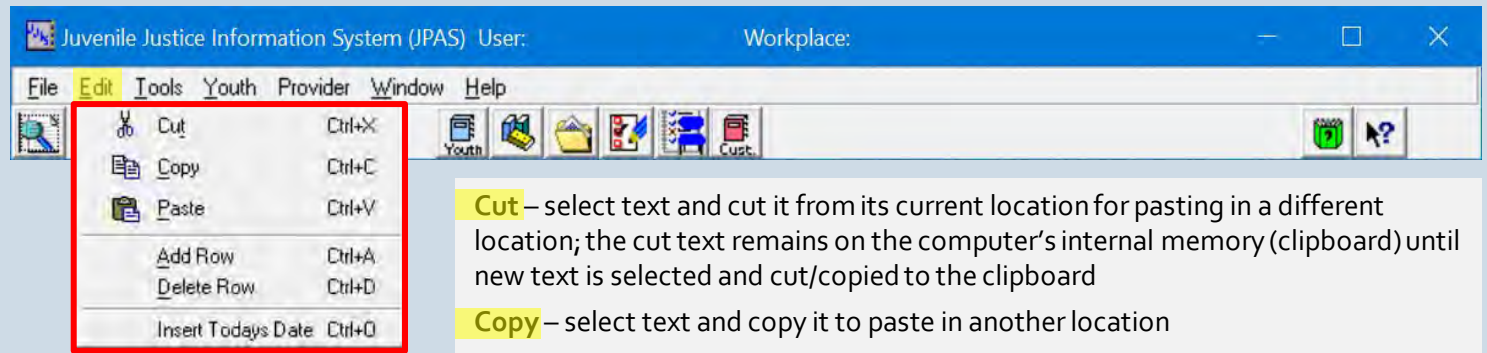

NOTE
 Don't forget to log off JPAS at the end of the workday for security purposes and to ensure you receive software updates.

- Login Menu** – allows multiple users to log in to a shared workstation, eliminating the need for each user to exit to prevent unauthorized viewing of JPAS – users log back on quickly by selecting their name from a list of logged-on users and then entering their password
- Log off** – allows users to temporarily log off of a shared workstation to prevent unauthorized viewing of JPAS and they can then log back on to JPAS quickly through the Login Menu
- Reconnect** – allows users to manually reconnect to JPAS if the connection has been idle for a period of time (e.g., no communication between the workstation and the database, such as a mouse-click or a keyboard strike)
- Change Password** – allows users to change their password
- Print Screen** – prints the current screen directly to the user's printer (also Ctrl P); includes fields, notebook tabs, etc.
- Print List** – prints a selected list directly to the user's printer (also Ctrl T) – prints only the data
- Print List Document** – prints a selected list through the JJIS Word Processor, allowing users to set margins, designate landscape or portrait orientation, and format the list by rearranging and resizing columns
- Export List** – allows users to export lists to the computer's internal memory (clipboard). The data (in a tab-delimited format) can then be pasted into Microsoft Excel and other applications.
- Exit** – exits (closes) JPAS. JPAS can also be closed by clicking the X in the upper right corner of the title bar. NOTE: All screens must be closed before JPAS can shut down.

JPAS Toolbars and Menus

Edit Menu Functions

- Cut** – select text and cut it from its current location for pasting in a different location; the cut text remains on the computer's internal memory (clipboard) until new text is selected and cut/copied to the clipboard
- Copy** – select text and copy it to paste in another location
- Paste** – inserts cut or copied text into a new designated location
- Add Row** – adds a row to a dataset for inserting additional information
- Delete Row** – deletes an unnecessary row from a dataset
- Insert Today's Date** – quick shortcut inserts the current date into a selected date field – TIP – use the Ctrl-O keyboard shortcut!

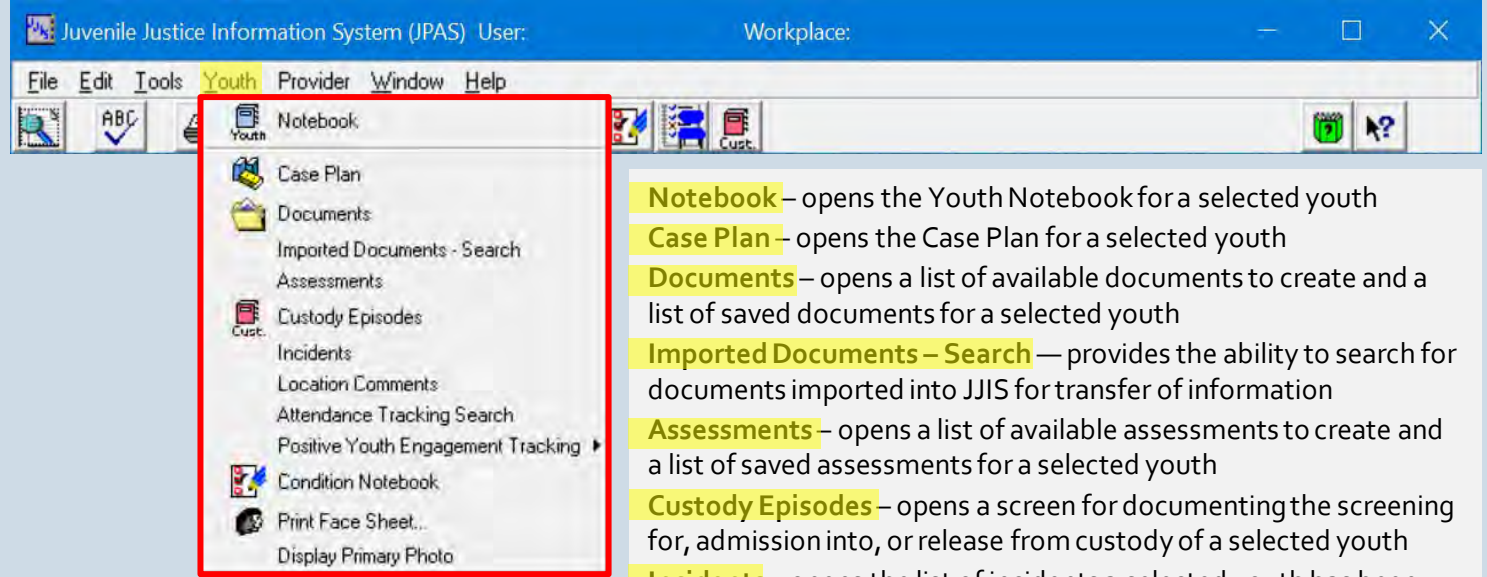

Tools Menu Functions

- Search** – opens the Search Notebook
- Spell Check** – checks the spelling of the text in a selected field
- Date Helper** – opens a calendar for quickly computing past and future dates based on such dates as current date, the youth's date of birth, and disposition ordered date

JPAS Toolbars and Menus

Youth Menu Functions

- Notebook** – opens the Youth Notebook for a selected youth
- Case Plan** – opens the Case Plan for a selected youth
- Documents** – opens a list of available documents to create and a list of saved documents for a selected youth
- Imported Documents – Search** – provides the ability to search for documents imported into JJIS for transfer of information
- Assessments** – opens a list of available assessments to create and a list of saved assessments for a selected youth
- Custody Episodes** – opens a screen for documenting the screening for, admission into, or release from custody of a selected youth
- Incidents** – opens the list of incidents a selected youth has been involved in while in custody
- Location Comments** – provides the ability to record general comments for a selected youth regarding their stay in custody or an OYA substitute care placement
- Attendance Tracking Search** – lists sessions that selected youth have participated in
- Positive Youth Engagement Tracking** – tracks the time OYA facility youth participate in PYE activities and their achievements
- Condition Notebook** – opens the Condition Notebook for a selected youth
- Print Face Sheet** – automatically prints a Face Sheet document of general information about the youth

JPAS Toolbars and Menus

Provider Menu Functions

Provider – opens the Provider’s Notebook which includes details of the Provider and its Programs such as personnel, credentials, services, contracts, and more

Window Menu Functions

- Close All** – closes all open JJIS windows
- Close All and Exit** – allows users to close all open screens and exit JJIS at the same time.
- Refresh All** – updates all open windows with new data entered since the user opened JJIS
- Collapse All** – minimizes all open windows
- Restore All** – maximizes all open windows (windows can be maximized individually by clicking the appropriate button on the taskbar at the bottom of the screen)
- All Windows** – displays a list of all open windows

Navigation: Youth Notebook

In addition to youth who are currently in a program offered by the provider, providers are given access to view information of youth for whom they've received a referral.

1. In either the Active Caseload or Service Referrals screen, select a youth.
2. Open the Youth Notebook using one of the following methods:
 - Click the Open Notebook button on the screen; or
 - Click the Youth Notebook button on the JPAS button toolbar; or
 - Select Notebook from the Youth menu in the menu bar; or
 - Double-click the name in the table list.

Youth Notebook

The screenshot shows the 'Active Caseload' page in the JPAS system. At the top, there are tabs for 'Active Caseload' and 'Service Referrals'. Below the tabs are filter fields for 'Provider' and 'Program', with 'Search' and 'Clear' buttons. A table with columns for Youth Name, JJIS #, Age, Sex, Program, Start, Primary Worker, and Prime is displayed. A red circle with the number '1' highlights the first row of the table. At the bottom of the screen, there is a toolbar with an 'Open Notebook' button (highlighted with a red circle and a red arrow) and a 'Progress Notes' button.

JPAS Toolbar

JPAS Youth Menu

Navigation: Youth Info

The Youth Notebook defaults to the Youth Info tab with general information about the youth.

In addition to the options in the JPAS toolbar buttons and menus, available screens in a youth record display information that will help the provider determine its ability to place and provide appropriate services to the youth.

The information available for viewing is similar to a service referral packet traditionally provided in hard copy.

Basic | Youth Info

The screenshot shows the JJIS Youth Info form with the following components:

- Navigation Tabs:** Basic (highlighted in red), Placement, Referrals & Proceedings, Favorites.
- Form Sections:**
 - Basic Information:** Business (JJIS #), Last Name, First Name, Middle Name, Suffix, Date of Birth, Age, Sex, Adopted, SSN, Deceased, Date, Whereabouts, Relationship, Birth Place, Race, Ethnicity.
 - Address:** Home (selected) or Mailing, Action (Add, Fix, Same as Youth, Expire), Line 1, Line 2, City, State, Zip, County, Country.
 - Phones:** Table with columns: Primary, Type, Number.
 - Lives With:** Section for living arrangements.
 - AKA Names:** Table with columns: Type, Last Name, First N.
 - AKA DOBs:** Table with column: AKA DOB.
 - On File:** Finger Prints, Photograph, DNA Sample.
 - Languages:** Table with columns: Primary, Language, Interpreter.
 - Notes:** Text area for additional information.
- Right-Hand Menu (highlighted in red):** Youth Info, Alerts, Eligibility, Events, ID Numbers, OYA Status, Overview, Persons, Phys. Desc., Pop. Groups, Risk Overview, School Info, Workers.

Navigation: Case Plan

Youth new to OYA will not have a Case Plan in JJIS until one has been completed:

- by the JPPO within 45 days of the youth being placed on probation with OYA; or
- by a facility Living Unit Manager within 105 days of being admitted to an OYA facility

Select the **Case Plan** button on the JPAS toolbar; or select Case Plan from the Youth menu. Click the “+” sign to the left of the Case Plan parts

- Expand the History and Background phase of the Case Plan to review background information on the youth.
- Expand parts of the plan to view, problems, strengths, long-term goals and competencies for specific domains.

Case Plan

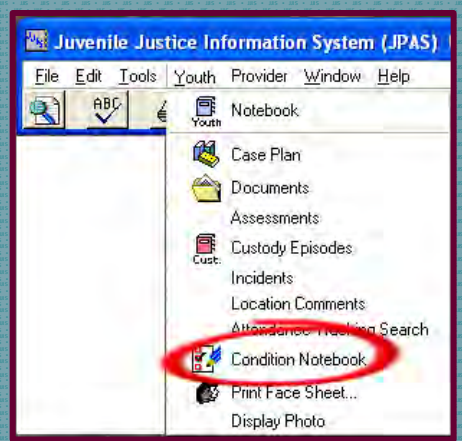

The screenshot shows the JJIS Case Plan interface for a youth named Joseph. The 'Phases' list on the left includes 'Intake Youth History and Background', which is expanded to show 'Family History: Joseph comes from a single-parent home...'. A red box highlights this phase. Below it, the 'Long Term Goal: Manage Impulsive Behaviors' is also highlighted with a red box. A separate window titled 'Manage Impulsive Behavior' is open, showing a goal: 'Youth will manage impulsive behaviors'. Below the goal is a table of competencies.

Description	Rating	Target	Status
Demonstrates verbal & non-verbal refusal skill	0	0	In Progress
Displays ability to avoid external triggers to imp	0	0	In Progress
Exhibits ability to identify own impulsive behav	0	0	In Progress
Identifies internal triggers to impulsivity	0	0	In Progress
Uses techniques to manage impulsive behavi	0	0	In Progress

Navigation: Conditions

Select the **Condition Notebook** icon from the JPAS toolbar; or select Condition Notebook from the Youth menu.

*The Condition Notebook is also accessible through the Case Plan – select the **Conditions** button on the left side of the case plan.*

Conditions

The screenshot shows the 'Condition Maintenance' window in JPAS. At the top, there is a menu bar with 'File', 'Edit', 'Tools', 'Youth', 'Provider', 'Window', and 'Help'. Below the menu bar is a toolbar with various icons, including a red box around the 'Condition Notebook' icon. The main window has a title bar that reads 'JJIS #: Youth: Condition Maintenance'. Below the title bar is a filter section with a dropdown menu set to 'All Trackable Conditions', radio buttons for 'Open', 'Closed', and 'All', and a 'Dec Point' dropdown set to 'All'. There are 'View', 'Search', and 'Clear' buttons. Below the filter section is a table with the following data:

Description	Owing	Amount	Completed	Decision Point	Petition	Status
Restitution	US\$200.00	US\$200.00	0 Dollars			Penc

Below the table are buttons for 'Add', 'View Summary', and 'Remove'. There are several form fields for 'Total Amount', 'Unit', 'Total Completed', 'Ordered Date', 'Due Date', 'Approval', 'Close Status', 'Close Date', and 'Decision Point'. There are also 'View' and 'Go To...' buttons. Below the form fields is a 'Notes' section with a text area and a 'Program Preference' section with radio buttons for 'Program Preference' and 'Display for Office', and a 'Program Search' button. Below the 'Program Preference' section is a table with the following data:

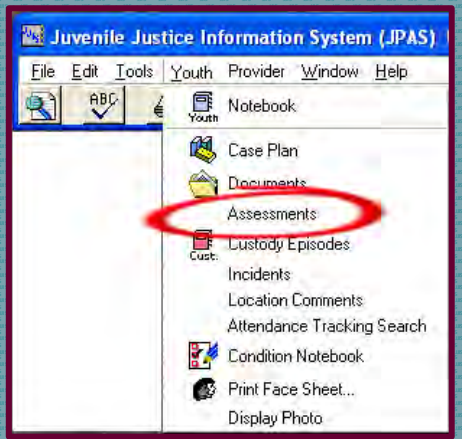

Program Name	Start Date	Closed Date	Completion Status

At the bottom of the window are buttons for 'Basic', 'Details', 'Mass Update', 'OK', 'Apply', and 'Cancel'.

Navigation: Assessments

Select **Assessments** from the Youth menu. The lower area of the screen displays saved assessments that have been conducted with the youth.

*The list of saved assessments is also accessible through the **Case Plan** – select the **Assessments** button on the left side of the Case Plan screen.*

Assessments

The screenshot shows the 'Assessments' window in JJIS. At the top, there are filters for 'Office', 'Category' (set to 'All'), and 'Type' (set to 'Youth'). Below the filters is a table for 'Available Assessments' with columns: Title, Visibility, Created By, Created, Activated, and Category. Below this table are buttons for 'Build' and 'Build and Base On...'. The bottom section of the window is titled 'Saved Assessments' and includes a radio button for 'Show All' (selected) and a radio button for 'Show Only Selected'. This section contains a table with columns: Title, Assessment, Completed, Locked, and Assessor. At the very bottom of the window is a toolbar with buttons: Open Doc, Print Doc, Security Access, Graph, Compare..., Remove, Unlock, Update, and View.

Navigation: Print Face Sheet

Click the Print Face Sheet icon on the JPAS Toolbar; or select **Print Face Sheet** from the Youth menu.

The Face Sheet is sent directly to the user's default printer.

Select **Display Primary Photo** from the Youth menu.
 The photo opens in a photo viewer application.

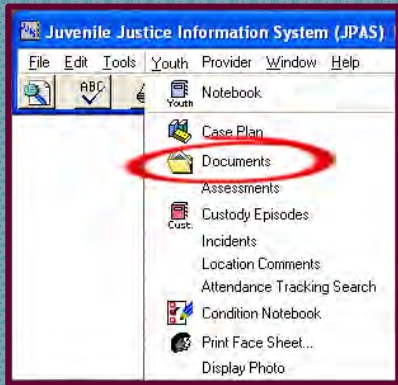

Youth Photo

Navigation: Documents

Select the **Documents** icon from the JPAS button toolbar; or select Documents from the Youth menu.

*The list of saved documents is also accessible through the **Case Plan** – select the Documents button on the left side of the Case Plan screen.*

Documents

The screenshot shows the 'Documents' window in JPAS. The window title is 'JJIS #: Youth: / Documents'. It contains two tables: 'Available Master Documents' and 'Saved Documents'. The 'Available Master Documents' table has columns: Name, Category, Entry Date, Entered By, Source, and Print Only. The 'Saved Documents' table has columns: Name, Title, Created By, Created Dt, Source, and Storage. Below the tables are buttons for 'Build', 'Refresh', 'Print Document', 'Security Access', 'Remove', 'Copy', 'Update', and 'View'.

Name	Category	Entry Date	Entered By	Source	Print Only
...

Name	Title	Created By	Created Dt	Source	Storage
...

Navigation: Imported Documents

The JJIS Imported Documents feature is intended to streamline the transfer of information between JJIS workers and stakeholders, and facilitate appropriate sharing of specific documents by reducing the need to email, fax, or mail documents between JJIS partners (juvenile departments, detention, OYA, and OYA contracted residential providers).

However, JJIS is not a complete electronic case file and does not replace the local hard file or any local electronic document management system.

Three JJIS security roles grant users the ability to view PDFs of imported documents based on the document's security classification:

- High (Role 81)
- Medium (Role 108)
- Low (Role 93)

Your access to imported documents is granted when your account is set up.

HIGH Role 81 View High, Medium, & Low	Medical	Immunization Record

Navigation: Imported Documents

Select **Imported Documents – Search** from the Youth menu.

The screen defaults to display All documents that have been imported into the youth’s record. The default filters can be changed to display only documents that meet selected criteria:

- Category
- Subcategory
- Document Date (range)
- Keywords — keywords must be an exact match - not a “sounds like” or partial word (e.g., searching for “report” will not return documents with “reports” as a keyword).

Click **Search**.

Imported Documents

The screenshot shows the 'Imported Youth Document - Search' window. At the top, there are search filters: 'Category' set to 'All', 'Subcategory' set to 'All', 'Document Date: Between' with two empty date fields, and a 'Keywords' text box. There are 'Search' and 'Reset' buttons. Below the filters, a table displays search results. The table has columns for 'Document Date', 'Document Name', 'Category', 'Subcategory', and 'Keywords'. A note above the table reads '* Protected'. At the bottom of the window, there are 'Open Document' and 'Security Access' buttons.

Document Date	Document Name	Category	Subcategory	Keywords

- If a user does not have appropriate security to view a document (based on document category), an error message appears and the user will not be able to proceed with opening the document.
- If a user does have appropriate security, a Protected Information screen appears. The user can enter an Access Note explaining why the document was accessed (optional, but recommended).
