## JJIS Partnership Values

Representatives of the OYA and OJDDA serve on the JJIS Steering Committee and form the JJIS partnership. The JJIS partnership:

- ♦ Represents the best interests of Oregon's juvenile justice system as a whole;
- ♦ Is entered into in good faith by all parties with integrity and honesty, and in the spirit of mutual support and collaboration;
- ♦ Promotes the ethical use of JJIS information and uses the data with respect, professionalism, and sensitivity toward the partners whose data is represented in the information;
- ♦ Adopts and maintains the JJIS Vision and Goals, keeping them current with juvenile justice needs;
- ♦ Uses the Vision and Goals as guiding principles for JJIS decision making.

# JJIS Steering Committee

The JJIS Steering Committee is the governance body providing guidance to oversight of JJIS activities. The committee represents Oregon's 36 counties, the Oregon Youth Authority, and other statewide partners.

Oversight responsibilities include monitoring appropriate use of JJIS and its data, prioritizing development of software features, making policy decisions, and authorizing access to statewide data for research and program evaluation.

The committee meets monthly to ensure that JJIS is on task to accomplish the vision and goals of the JJIS partnership.

# Introduction

Oregon's juvenile justice community is committed to providing effective and efficient services to promote public safety, ensure justice for victims, and prevent youth from repeating criminal behavior.

Community service represents a contribution of work to the community as compensation for damages, or an opportunity to provide a useful contribution to the community after impacting it by committing a crime. Participation in making a useful contribution to the community through community service is one of several strategies designed not only to support communities impacted by juvenile crime, but to change youth behavior. Reporting annual community service completion data provides a basis to evaluate the effectiveness and efficiency of this juvenile justice practice over time.

## Contents of this report

This report contains statewide and county-specific data regarding the number and status of community service conditions closed during the reporting year. Conditions are closed throughout a youth's supervision with a juvenile justice agency. This data represents condition closures rather than case closures. The total unduplicated number of youths with community service conditions along with amounts of community service completed at the time the conditions are closed are also reported. The report contains several measures:

### **Amount of Community Service Ordered and Completed**

Information on closed conditions, including the total community service ordered, the total amount completed or accepted as complete, and the total percentage of the ordered amount that was complete or accepted as complete.

Some youth may be ordered community service in one year and complete it in another. The amount ordered is based on the amount ordered at the time the condition was imposed. The amount completed is the cumulative amount completed at the time the condition was closed.

Community service may be ordered as Hours or Days. For this report, all community service conditions are reported as Hours. Community service conditions reported as days are converted to hours as follows: one day = eight hours.

### **Number of Youth**

The total number of unique youth who had court ordered and juvenile department directed community service conditions closed during the year.

### **Number of Conditions Closed**

The total number of court ordered and juvenile department directed community service conditions that were closed during the year, and the total number and percentage that were completed or accepted as complete at the time the condition was closed.

## Notes about the information

**Overall Criteria:** Conditions closed during the year are counted. These conditions may have been ordered in a prior reporting year. Reporting on closed conditions provides a more complete picture than reporting on conditions that may still be in progress.

**Statewide Totals:** Statewide totals include data for 31 of 36 counties, OYA, and no agency assigned; five counties – Gilliam, Klamath, Lake, Sherman, and Wheeler – did not record community service in JJIS.

**Rounding:** Totals are rounded to the nearest whole number and therefore may not add up to 100%.

**Number of Youth:** The number of unique youth who had community service conditions closed during the year. Youth may be counted in more than one county but will only be counted once in the statewide total.

**Total Number of Conditions:** The total number of community service conditions closed during the year. Youth may have more than one closed condition during the year.

**Agency at Condition Closure:** Based on Office of Primary Worker at time condition was closed.

## Cautions regarding community service data

All quantities are reported as hours. Community service conditions recorded as days are converted to hours using a formula (1 day = 8 hours). In some counties, community service days comprise six hours. In those counties, where community service days comprise six hours and the condition is tracked as days instead of hours, community service ordered and completed quantities may be slightly over-reported.

It should also be noted that the percentage of conditions completed may look quite different from the percentage of hours completed, because not every condition is assigned the same number of hours.

For example, if ten community service conditions totaling 100 hours were assigned, and nine out of ten were completed,

- the completed conditions rate is 90% ( $9/10 = 90\%$ ).

However, the completed hours rate depends on how many hours were assigned to each condition. For example,

If the nine completed conditions were assigned five hours each (45 hours total) and the one uncompleted condition was 55 hours,

- the completed hours rate is 45% ( $45/100 = 45\%$ ).

If the nine completed conditions were assigned ten hours each (90 hours total) and the one uncompleted condition was also 10 hours,

- the completed hours rate is 90% ( $90/100 = 90\%$ ).
