JJIS – A Shared Information System

Oregon Youth Authority
Oregon Juvenile Department Directors' Association

Juvenile Justice Information System Vision & Goals

VISION

To promote public safety and youth accountability, and to offer opportunities for rehabilitation to youth, through the development of a statewide juvenile justice information system that:

- Provides a comprehensive view of information about juvenile offenders across Oregon’s state and county juvenile justice agencies;
- Provides comprehensive support for managing individual juvenile offender cases and tracking juveniles through the juvenile justice process;
- Provides the capacity for and aids in the overall planning, development, and evaluation of programs designed to reduce juvenile crime; and
- Recognizes and supports the common needs of juvenile justice partnership agencies.

GOALS To accomplish the vision, JJIS will strive to accomplish the following goals.

Vision Statement	Goals in Support of Vision Statement
Provides a comprehensive view of information about juvenile offenders across Oregon’s state and county juvenile justice agencies.	JJIS will: <ul style="list-style-type: none"> • Be a statewide juvenile justice information system that supports a partnership of the OYA, 36 county juvenile departments, and approved external partners; • Be the primary information system used by the OYA and county juvenile departments to manage and report information about juvenile offenders in their agency; and • Support statewide reporting.
Provides comprehensive support for managing individual juvenile offender cases and tracking juveniles through the justice process.	JJIS will: <ul style="list-style-type: none"> • Support the assessment of risks and needs of juvenile offenders; • Support individual case plans; and • Track juveniles through the entire justice process so that individual status, program involvement, progress, and outcomes can be determined.
Provides the capacity for and aids in the overall planning, development, and evaluation of programs designed to reduce juvenile crime.	JJIS will provide data and information to: <ul style="list-style-type: none"> • Develop a knowledge base about outcomes relevant to functions and programs of the juvenile justice system; • Evaluate the benefit of programs aimed at reducing juvenile crime.
Recognizes and supports the common needs of juvenile justice partnership agencies.	JJIS will: <ul style="list-style-type: none"> • Be developed in a cost-efficient and incremental manner; • Be operated in an efficient manner; • Eliminate duplicate data entry within the JJIS partnership agencies; • Develop common data elements while maintaining integrity of information and adhering to existing state justice information system standards; • Provide a statewide standard for entry of information into the system; • Ensure consistent training of JJIS users; • Maintain confidentiality and protection of information contained in JJIS; • Be designed using the cooperative input of the JJIS partnership; and • Be guided by the decisions and policies of the JJIS Steering Committee.

JJIS Steering Committee

The JJIS Steering Committee provides oversight to the JJIS project. It meets monthly to review the project and ensure that it is on task to accomplish the vision and goals of JJIS. The Steering Committee prioritizes the development of software features, makes policy decisions, and allocates resources to the project.

JJIS Data & Evaluation Subcommittee

-- serving as a standing subcommittee of the JJIS Steering Committee to:

- guide the development of routine publications/statistics; specific research initiatives; design, reporting, and analysis of JJIS data in order to provide quality program and system evaluations and forecasting for system resources and prevention and intervention strategies; and
- function as an analytical Users Group that assesses development, implementation, and interpretation of reports for consistency, accuracy, and appropriateness in the areas of program evaluation, forecasting, policy analysis, impact analysis, and trend analysis.

Joe Christy
Data & Evaluation Subcommittee Chair
and Washington County
Juvenile Department Director

Introduction

When the Oregon Legislature created the Oregon Youth Authority in 1995, it required that the juvenile justice community adopt a recidivism definition and statewide reporting system as a way to assess progress of juvenile crime reduction and prevention efforts. This report is published in response to that mandate.

Definition of recidivism for this report:

“As a measure of public safety, recidivism is defined as a new criminal referral.

A criminal referral is a law enforcement report to a juvenile department alleging one or more felony or misdemeanor acts (offenses).”

Contents of this report

This report contains statewide and county-specific measures of recidivism for 2007 based on the measurement of criminal activity as a gauge of community safety. The report selects youth that had a criminal referral in 2007 and tracks them for the following 12 months. In order to track all youth who had a referral in 2007 for a full 12-month period, the report requires 2007 referral data to be complete.

Notes about the information

Counts: Data is grouped by the county where the referral originated. The report counts the total number of youth that had a criminal referral originating in that county in the reporting year. The report sorts the results into two primary groups:

- **No Subsequent Referrals** – youth that had no subsequent referrals during the following 12 months; and
- **Subsequent Referrals** – youth that had one or more subsequent referrals during the following 12 months. This group is further divided into two groups:
 - youth with 1-2 Subsequent Referrals;
 - youth with 3 or more Subsequent Referrals.

Comparison to Year End Referral Reports: Referral counts for these reports are based on felony and misdemeanor criminal referrals in 2007 and subsequent felony and misdemeanor criminal referrals during the following 12 months. The year end Youth and Referral reports for the same year also include non-criminal violation referrals. After controlling for criminal referrals only,

the referral counts may be slightly different from the 2007 Referral reports because new data entry may have occurred since publication of the 2007 Referral reports.

Percentages: Percentages may not add up to 100% because of rounding.

Race and Ethnicity: The JJIS Steering Committee defined Age and Race/Ethnicity reporting categories based on best practices and available data. Race and Ethnicity may be as recorded by the juvenile department based on police reports and youths' self-reporting. These reports categorize youth by the race that is recorded in JJIS unless the recorded ethnicity is Hispanic. When the recorded Ethnicity is Hispanic, the youth is categorized as Hispanic, regardless of recorded Race.

Findings and Analysis

- Total statewide offenders in 2007 are 17,258.
- The statewide recidivism rate is 29.9%
- The statewide chronic recidivism rate is 5.4%.

Cautions about the Data: Readers are cautioned against making gross comparisons between counties. Many factors can influence recidivism rates including the size of the county (small numbers can vary significantly), local laws and practices, and local law enforcement resources.

Further caution is advised with respect to comparing findings of this report to data from years prior to 2001. Early data was a compilation of independent data systems where youth could not be uniquely identified as they moved between counties. Not all counties were able to participate. Additionally, prior to 2001, recidivism was computed based on the total number of criminal "offenses" potentially inflating the chronic recidivism rates. This 2007 report includes data from all 36 counties and computes recidivism based on criminal referrals rather than total offenses, providing a more accurate indication of the chronic recidivism rate.
