JJIS – A Shared Information System

Oregon Youth Authority
Oregon Juvenile Department Directors’ Association
Juvenile Justice Information System Vision, Goals, & Values

JJIS Vision
To promote public safety and youth accountability, and to offer opportunities for rehabilitation to youth, through the development and sustainability of a statewide juvenile justice information system.

JJIS Goals
In support of the vision, JJIS strives to accomplish the following goals:

<table>
<thead>
<tr>
<th>Vision Statement</th>
<th>Goals in Support of Vision Statement</th>
</tr>
</thead>
</table>
| Provides a comprehensive view of information about juvenile offenders across Oregon’s state and county juvenile justice agencies. | JJIS will:  
  • Be a statewide juvenile justice information system that supports a partnership of the OYA, the 36 county juvenile departments, and approved external partners;  
  • Be the primary information system used by the OYA and county juvenile departments to manage and report information about juvenile offenders in their agency; and  
  • Develop statewide reporting to support policy making and to inform system stakeholders and the public about juvenile justice in Oregon. |
| Provides comprehensive support for managing individual juvenile offender cases and tracking juveniles through the justice process. | JJIS will:  
  • Support the assessment of risks and needs of juvenile offenders;  
  • Support individual case plans; and  
  • Track juveniles through the entire justice process so that individual status, program involvement, progress, and outcomes can be determined. |
| Provides the capacity for and aids in the overall planning, development, and evaluation of programs designed to reduce juvenile crime. | JJIS will provide data and information to:  
  • Develop a knowledge base about outcomes relevant to functions and programs of the juvenile justice system; and  
  • Evaluate the benefit of programs aimed at reducing juvenile crime. |
| Recognizes and supports the common business needs of juvenile justice partnership agencies. | JJIS will:  
  • Be developed in a cost-efficient and incremental manner;  
  • Be operated in an efficient manner;  
  • Eliminate duplicate data entry within the JJIS partnership agencies;  
  • Develop common data elements while maintaining integrity of information and adhering to existing state justice information system standards;  
  • Provide a statewide standard for entry of information into the system;  
  • Ensure consistent training of JJIS users;  
  • Maintain confidentiality and protection of information contained in JJIS;  
  • Be designed using the cooperative input of the JJIS partnership; and  
  • Be guided by the decisions and policies of the JJIS Steering Committee. |

JJIS Partnership Values
Representatives of the OYA, OJDDA, and external partners with an interest in juvenile justice serve on the JJIS Steering Committee and form the JJIS partnership. The JJIS partnership:

- Represents the best interests of Oregon’s juvenile justice system as a whole;  
- Is entered into in good faith by all parties with integrity and honesty, and in the spirit of mutual support and collaboration;  
- Promotes the ethical use of JJIS information and uses the data with respect, professionalism, and sensitivity toward the partners whose data is represented in the information;  
- Adopts and maintains the JJIS Vision and Goals, keeping them current with juvenile justice needs; and  
- Uses the Vision and Goals as guiding principles for JJIS decision making.

Updated October 2009
JJIS Steering Committee

The JJIS Steering Committee provides oversight to the JJIS project. It meets monthly to review the project and ensure that it is on task to accomplish the vision and goals of JJIS. The Steering Committee prioritizes the development of software features, makes policy decisions, and allocates resources to the project.

Jean Straight, Assistant Director
Oregon Youth Authority Business Services

Dave Koch, Assistant Director

Phil Cox, Assistant Director
Oregon Youth Authority Community Services

Karen Daniels, Assistant Director
Oregon Youth Authority Facility Operations

Mary Hunt, Community Corrections Coordinator
Department of Corrections

JJIS Data & Evaluation Subcommittee
-- serving as a standing subcommittee of the JJIS Steering Committee to:

- guide the development of routine publications/statistics; specific research initiatives; design, reporting, and analysis of JJIS data in order to provide quality program and system evaluations and forecasting for system resources and prevention and intervention strategies; and

- function as an analytical Users Group that assesses development, implementation, and interpretation of reports for consistency, accuracy, and appropriateness in the areas of program evaluation, forecasting, policy analysis, impact analysis, and trend analysis.

JJIS Policy & Standards

Don Crossley, Manager
JJIS Development & Reports
Introduction

This document contains statewide and county specific reports describing offenses committed by juveniles and the characteristics of the juveniles committing those offenses in the State of Oregon for each reporting year.

There are two reports for each jurisdiction, “Youth” counts and “Referral” counts. Additionally, there are statewide reports for youth and referrals. The reports count:

- The unique number of “youth” processed by the juvenile justice system in the reporting year. This means no matter how many offenses a youth commits, the youth is only counted once on the youth report. The youth is categorized by the most serious offense the youth committed during the reporting period and reported in the county that received the most serious offense.

- The unique number of “referrals” received by county juvenile departments during the reporting year. A single youth can have more than one referral in a year (i.e., the youth may have several reports by the police). The most serious charge associated with a referral is used to categorize the referral.

The report divides the counts into criminal offenses (felony and misdemeanor), non-criminal offenses (violations), and dependency/status offenses. Each category is further divided into areas of interest. Sub-totals and grand-totals are provided for each category.

Each statistic is broken down by sex, age at time of referral, and race/ethnicity of the offender.

Notes about the information

Counts: The “Youth” count is an unduplicated count of youth who had referrals during the year throughout the state. A youth could have committed an offense in more than one county. However, the youth is counted only once on the statewide report for his or her most serious offense and reported in the county that handled that offense.

Categories: These reports categorize offenses according to Oregon Revised Statute (ORS), Criminal Code of Oregon, as defined by the Oregon Legislature. Please note the ORS categories sometimes differ from the Oregon Uniform Crime Reporting (OUCR) categories. Consequently, the categories and counts may differ from OUCR statistics.

Oregon Uniform Crime Reporting categorizes offenses that are neither person nor property as “Behavioral”. ORS does not categorize offenses as “Behavioral”. However, “Behavioral” offenses can be inferred on these reports. Any offense outside the person or property category is comparable to the OUCR “Behavioral” category.

Local ordinances are not included on the reports.

Inchoate crimes (attempts, solicitations, and conspiracies) are reported in the crime category for the crime with which the inchoate is associated (e.g., Attempted Murder is reported in the Homicide-related offense category). Inchoate crimes that result in a violation classification are reported as non-criminal.
Appendix A of this document contains the specific mappings between the Oregon Revised Statute (ORS) offense numbers and the reporting categories used here.

- **Dependency Status Offenses:** Most status offenses are included in the Non-Criminal reporting category. However, there are a few offenses generally considered status offenses that are categorized in statute as Dependency. These include Runaway, Beyond Parental Control, and Behavior to Endanger Self or Others. Not all counties enter Dependency Status Offenses.

- **Referrals Included:** The date the juvenile was referred to the juvenile department (“Referral Date”) was used to select data for inclusion in this report.

- **County:** The county responsible for handling the youth’s referral was used to select the county to which a youth’s offense was attributed.

- **Race and Ethnicity:** The JJIS Steering Committee defined Race/Ethnicity reporting categories based on best practices and available data. Race may be recorded by the juvenile department based on police reports and youths’ self-reporting. These reports categorize youth by the race that is recorded in JJIS unless the recorded ethnicity is Hispanic. When the recorded ethnicity is Hispanic, the youth is categorized as Hispanic, regardless of race.

  Note, there are several efforts underway in the state to standardize reporting of race and ethnicity. The categories of Race/Ethnicity used in this report may change in the future when state standards are defined.

**Comparison to Juvenile Recidivism:** “Total Referrals” in this series of reports counts criminal and non-criminal referrals received during the calendar year. “Oregon’s Statewide Report on Juvenile Recidivism” considers criminal referrals and subsequent criminal referrals for a youth. Consequently, the numbers of referrals in the two reports are not comparable.

Appendix B is a chart of the severity scores for each crime category’s class and type.

* Aggravated Murder, Murder, Murder by Abuse, Murder in the Course of a Crime, Murder Intentional, Criminal Homicide, and Treason have the Type of Murder (instead of Felony), in order to obtain the highest severity score.

** Inchoates:
- Attempts and Solicitations = 1 Class lower
- Conspiracies = Same Class and Type
