# Independent Auditor's Report 

To the Honorable Kate Brown
Governor of Oregon
To the Public Employees Retirement Board of the
Oregon Public Employees Retirement System
Tigard, Oregon

We have audited the accompanying schedule of employer allocations of the Oregon Public Employees Retirement System (the System) Retirement Health Insurance Account (RHIA) Cost-Sharing MultipleEmployer Defined Benefit Other Postemployment Benefits (OPEB) Plan (the Plan) as of and for the fiscal year ended June 30, 2019, and the related notes. We have also audited the total for all entities of the columns titled net OPEB liability / (asset) as of June 30, 2019, and total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense / (credit) (specified column totals) included in the accompanying schedule of OPEB amounts by employer of the Plan as of and for the fiscal year ended June 30, 2019, and the related notes.

## Management's Responsibility for the Schedules

Management is responsible for the preparation and fair presentation of these schedules in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the schedules that are free from material misstatement, whether due to fraud or error.

## Auditor's Responsibility

Our responsibility is to express opinions on the schedule of employer allocations and the specified column totals included in the schedule of OPEB amounts by employer based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the schedule of employer allocations and specified column totals included in the schedule of OPEB amounts by employer.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

## Opinions

In our opinion, the schedules referred to above present fairly, in all material respects, the employer allocations and net OPEB liability / (asset), total deferred outflows of resources, total deferred inflows of resources, and total OPEB expense / (credit) as of and for the fiscal year ended June 30, 2019, for the total of all participating entities for the Oregon Public Employees Retirement System RHIA Cost-Sharing Multiple-Employer Defined Benefit OPEB Plan, in accordance with accounting principles generally accepted in the United States of America.

## Other Matter

We have audited, in accordance with standards generally accepted in the United States of America, the financial statements of the fiduciary activities and the proprietary activities of the Oregon Public Employees Retirement System as of and for the fiscal year ended June 30, 2019, and our report thereon, dated December 16, 2019, expressed unmodified opinions on those financial statements.

## Restriction on Use

Our report is intended solely for the information and use of the System's management, the Audit Committee, the Public Employees Retirement Board, the OPEB Plan's participating employers and their auditors and is not intended to be and should not be used by anyone other than these specified parties.

Retirement Health Insurance Account

Cost-Sharing Multiple-Employer Other Postemployment Benefits Plan
Notes to the Schedules of Employer Allocations and OPEB Amounts by Employer
As of and for the Fiscal Year Ended June 30, 2019

## Note 1 - Description of Plan

## A. Organization

Oregon Public Employees Retirement System (PERS or the System) administers the Retirement Health Insurance Account (RHIA) cost-sharing, multiple-employer defined benefit Other Postemployment Benefits (OPEB) plan (Plan) for units of state government, political subdivisions, community colleges, and school districts, containing multiple actuarial pools. Plan assets may be used to pay the benefits of the employees of any employer that provides OPEB through the Plan. Contributions are mandatory for each employer that is a member of PERS. As of June 30, 2019, there were 807 participating employers.

PERS is administered in accordance with Oregon Revised Statutes (ORS) Chapter 238, Chapter 238A, and Internal Revenue Code Section 401(a). The Oregon Legislature has delegated authority to the Public Employees Retirement Board (Board) to administer and manage the System. All members of the Board are appointed by the Governor and confirmed by the State Senate. The Governor designates the chairperson. One member must be a public employer manager or a local elected official, one member must be a unionrepresented public employee or retiree, and three members must have experience in business management, pension management, or investing.

## B. Plan Membership

RHIA was established by ORS 238.420 and authorizes a payment of up to $\$ 60$ from RHIA toward the monthly costs of health insurance. The plan was closed to new entrants hired on or after August 29, 2003. To be eligible to receive this monthly payment toward the healthcare premium cost the member must: (1) have eight years or more of qualifying service in PERS at the time of retirement or receive a disability allowance as if the member had eight years or more of creditable service in PERS, (2) receive both Medicare Parts A and $B$ coverage, and (3) enroll in a PERS-sponsored health plan.

As of June 30, 2019, the inactive RHIA plan participants currently receiving benefits totaled 44,208, and there were 45,598 active and 11,347 inactive members who meet the requirements to receive RHIA benefits when they retire.

## Note 2 - Summary of Significant Accounting Policies

## Governmental Accounting Standards Board (GASB) Statement No. 75

Employers participating in the Plan are required to report OPEB information in their financial statements for fiscal periods beginning on or after June 15, 2017, in accordance with Governmental Accounting Standards Board (GASB) Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions (GASB 75).

The requirements of this statement incorporate provisions intended to reflect the effects of transactions and events related to OPEB in the measurement of employer liabilities for OPEB and recognition of OPEB expense and deferred outflows of resources and deferred inflows of resources related to OPEB.

Retirement Health Insurance Account<br>Cost-Sharing Multiple-Employer Other Postemployment Benefits Plan<br>Notes to the Schedules of Employer Allocations and OPEB Amounts by Employer<br>As of and for the Fiscal Year Ended June 30, 2019

The Schedule of Employer Allocations and the Schedule of OPEB Amounts by Employer (Schedules), along with PERS audited financial statements and the Schedule of OPEB Amounts under GASB 75 report prepared by PERS' third-party actuaries provide employers with the required information for financial reporting related to PERS OPEB provided through the Plan as of and for the fiscal year ended June 30, 2019 (the measurement period).

The accompanying Schedules were prepared in accordance with U.S. generally accepted accounting principles as applicable to governmental organizations. In doing so, PERS adheres to the reporting requirements established by the GASB.

Employers are presented in order by PERS assigned employer number in the Schedules. Certain employers have a secondary relationship with primary employers and are included in the primary employers' OPEB amounts and actuarial valuations. The primary employers are responsible for determining the secondary employers' proportionate share of OPEB amounts.

## Basis of Accounting

Contributions for employers are recognized on the accrual basis of accounting. Employer contributions to PERS are calculated based on creditable compensation for active members reported by employers. Employer contributions are accrued when due pursuant to legal requirements. These are amounts normally included in the employer statements cut off as of the fifth of the following month. The Schedule of OPEB Amounts by Employer does not reflect deferred outflows of resources related to contributions made by employers after the measurement date.

The Schedule of Employer Allocations reflects employer allocation percentages calculated by PERS for the fiscal year ended June 30, 2019 (the measurement date). Consistent with GASB 75, paragraph 59.a, employer proportions are determined as a measure of the proportionate relationship of the employer to all employers consistent with the manner in which contributions to the OPEB plan are determined.

## Proportionate Share Allocation Methodology

The basis for the employer's proportion is determined by comparing the employer's actual, legally required contributions made during the fiscal year to the Plan with the total actual contributions made in the fiscal year of all employers.

If the employer did not make contributions during the fiscal year, their proportionate share will be set to zero and the employer will be allocated no proportionate share of OPEB amounts.

## Use of Estimates in the Preparation of the Schedules

The preparation of the Schedules in conformity with accounting principles generally accepted in the U.S. requires management to make estimates and assumptions that affect certain amounts and disclosures. Actual results could differ from those estimates.

As of and for the Fiscal Year Ended June 30, 2019
Note 3 - Net OPEB Liability/(Asset) and Actuarial Assumptions and Methods
The components of the employers' net OPEB (asset) are as follows (in millions):

| Net OPEB-RHIA (Asset) (in Millions) |  |  |
| :---: | :---: | :---: |
| As of June 30, 2019 |  |  |
| Total OPEB - RHIA Liability | \$ | 435.6 |
| Plan Fiduciary Net Position |  | 628.9 |
| Employers' Net OPEB-RHIA (A sset) | \$ | (193.3) |
| Plan net position as a per centage of Total OPEB - RHIA Liability |  | 144.4 |

## Actuarial methods and assumptions

Actuarial valuations of an ongoing plan involve estimates of the value of projected benefits and assumptions about the probability of events far into the future. Actuarially determined amounts are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. Experience studies are performed as of December 31 of even numbered years. The methods and assumptions shown below are based on the 2016 Experience Study, which reviewed experience for the fouryear period ended on December 31, 2016.

## Discount Rate

The discount rate used to measure the total OPEB liability at June 30,2019 was 7.20 percent. The projection of cash flows used to determine the discount rate assumed that contributions from contributing employers are made at the contractually required rates, as actuarially determined. Based on those assumptions, the RHIA plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on OPEB plan investments for the RHIA plan was applied to all periods of projected benefit payments to determine the total OPEB liability.

## Long-Term Expected Rate of Return

To develop an analytical basis for the selection of the long-term expected rate of return assumption, in July 2017 the PERS Board reviewed long-term assumptions developed by both Milliman's capital market assumptions team and the Oregon Investment Council's (OIC) investment advisors. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. These assumptions are not based on historical returns, but instead are based on a forward-looking capital market economic model. For more information on the Plan's portfolio, assumed asset allocation, and the long-term expected rate of turn for each major asset class, calculated using both arithmetic and geometric means, see PERS' audited financial statements at: https://www.oregon.gov/pers/Documents/Financials/CAFR/2019-CAFR.pdf

## Depletion Date Projection

GASB 75 generally requires that a blended discount rate be used to measure the total OPEB liability (the actuarial accrued liability calculated using the individual entry age normal cost method). The long-term expected return on plan investments may be used to discount liabilities to the extent that the plan's fiduciary net position (fair value of assets) is projected to cover benefit payments and administrative expenses. A 20-year high quality (AA/Aa or higher) municipal bond rate must be used for periods where the fiduciary net position is not projected to cover benefit payments and administrative expenses. Determining the discount rate under GASB 75 will often require that the actuary perform complex projections of future benefit payments and asset values. GASB 75 (paragraph 82) does allow for alternative evaluations of projected solvency, if such evaluation can reliably be made. GASB does not contemplate a specific method for making an alternative evaluation of sufficiency; it is left to professional judgment.

The following circumstances justify an alternative evaluation of sufficiency for the OPEB Plan:

- PERS has a formal written policy to calculate an Actuarially Determined Contribution (ADC), which is articulated in the actuarial valuation report.
- The ADC is based on a closed, layered amortization period, which means that payment of the full ADC each year will bring the plan to a 100 percent funded position by the end of the amortization period if future experience follows assumption.
- GASB 75 specifies that the projections regarding future solvency assume that plan assets earn the assumed rate of return and there are no future changes in the plan provisions or actuarial methods and assumptions, which means that the projections would not reflect any adverse future experience which might impact the plan's funded position.

Based on these circumstances, it is our third-party actuary's opinion that the detailed depletion date projections outlined in GASB 75 would clearly indicate that the fiduciary net position is always projected to be sufficient to cover benefit payments and administrative expenses.

## Deferred Inflows of Resources and Deferred Outflows of Resources

Deferred inflows of resources and deferred outflows of resources are calculated at the Plan level and are allocated to employers based on their proportionate share. For the measurement period ended June 30, 2019, employers will report the following deferred inflows of resources and/or deferred outflows of resources:

- A difference between expected and actual experience.
- Changes in assumptions.
- Changes in employer proportion since the prior measurement date.
- Net difference between projected and actual investment earnings. One-year's amortization is recognized in the employer's total OPEB expense for the measurement period.

Differences between expected and actual experience, changes in assumptions, and changes in employer proportion are amortized over the average remaining service lives of all plan participants, including retirees, determined as of the beginning of the respective measurement period. Employers are required to recognize OPEB expense based on the balance of the closed period "layers" attributable to each measurement period. The average remaining service lives determined as of the beginning of each measurement period are described below:

Fiscal Year ended June 30, 2019 - 3.1 years
Fiscal Year ended June 30, 2018-3.3 years
Fiscal Year ended June 30, 2017 - 3.7 years
The net difference between projected and actual investment earnings attributable to each measurement period is amortized over a closed five-year period.

Employer contributions made after the measurement date are not reflected in the schedule of OPEB amounts by employer. Appropriate treatment of such amounts is the responsibility of the employer.

If you have questions about this report or need additional financial information, please contact the Financial and Administrative Services Division Administrator at PO Box 23700, Tigard, Oregon 97281-3700.
