Ratio & Supervision ¶

- (1) A pharmacist may not supervise more than one intern at a time at a TPI site who performs the duties of an intern as listed in OAR 855-019-0200(3)(g). A pharmacist may supervise more than one intern if only one intern performs the duties of an intern as listed in OAR 855-019-0200(3)(g) and if other interns supervised by the pharmacist perform the duties listed in OAR 855-025-0040.¶
- (2) A preceptor may not supervise more than two interns simultaneously during a shift at an SRI site where patient specific recommendations for care or medications are provided without prior written authorization of the Board. The preceptor must retain documentation of all interns monitored during this timeframe.¶
- (3) With the written approval of a school of pharmacy, and when in their professional judgment it is appropriate, a preceptor may supervise up to 10 interns at public-health outreach programs such as informational health fairs that provide general information but not direct patient care.¶
- (4) For immunization clinics, an immunizing pharmacist may supervise up to two immunizing interns.¶
- (5) A licensed preceptor may delegate the preceptor responsibilities to another licensed pharmacist or preceptor.¶
- (6) The majority of an intern's overall experience must be with a licensed pharmacist preceptor.
