REPEAL: Temporary 855-020-0300 from BP 4-2023

NOTICE FILED DATE: 04/19/2023

RULE SUMMARY: Permanently repeals statewide drug therapy protocols for COVID-19 Monoclonal Antibody and COVID-19 Antiviral. COVID-19 Monoclonal Antibody- REGEN-COV: REGEN-COV (casirivimab and imdevimab) is not currently authorized in any U.S. region. COVID-19 Antiviral- Paxlovid: Under Oregon state laws, pharmacists cannot diagnose. The Paxlovid EUA (2/2023) in use at the time of rulemaking required a COVID-19 diagnosis to prescribe Paxlovid, which cannot be required in the Board's protocol making it inconsistent with federal law. Amendments include revised protocol versions of Continuation of Therapy to include emergency refills of insulin, Contraception, PEP, PrEP, and Travel Medications as recommended by the PHPFAC.
