AMEND: 855-019-0460

REPEAL: Temporary 855-019-0460 from BP 11-2017

RULE TITLE: Naloxone - Delivery of Care

NOTICE FILED DATE: 04/26/2018

RULE SUMMARY: These rules clarify that any person, having once lawfully obtained naloxone, may utilize it for opiate overdose reversal, pursuant to legislative intent of 2017 HB 3440.

RULE TEXT:

- (1) A pharmacist can prescribe naloxone and the necessary medical supplies for opiate overdose training.
- (2) A pharmacist can prescribe naloxone and the necessary medical supplies to an individual or entity seeking naloxone.
- (3) The pharmacist shall determine that the individual (or the individual on behalf of an entity) seeking naloxone demonstrates understanding of educational materials related to opioid overdose prevention, recognition, response, and the administration of naloxone.
- (4) The pharmacist may prescribe naloxone in any FDA approved dosage form and the necessary medical supplies needed to administer naloxone.
- (5) The pharmacist shall dispense the naloxone product in a properly labeled container.
- (6) Naloxone may not be prescribed without offering to provide oral counseling to the authorized recipient, which may include dose, effectiveness, adverse effects, storage conditions, and safety.
- (7) The pharmacist must document the encounter and the prescription, and maintain records for three years.
- (8) Any person, having once lawfully obtained naloxone may possess, distribute or administer it for the purpose of reversing opiate overdose.
