Karen MacLean, Administrative Director Fiona Karbowicz, Pharmacist Consultant
Mo Klein, Project Manager

Tim Frost, Board Fellow

Agenda Review and Approval

MOTION
Motion to approve the agenda was made and unanimously carried (Motion by James, second by Vipperman).

GENERAL ADMINISTRATION

President, Penny Reher turned the meeting over to Pharmacist Consultant, Fiona Karbowicz to lead the discussion. Fiona proceeded to confirm the purpose of this meeting is for the Board to discuss and approve the updated contraceptive training program related to 2017 HB 2527 that becomes operative January 1, 2018. This legislation adds the prescribing and administration of injectable hormonal contraceptives and dispensing of self-administered hormonal contraceptives.

There are two questions before the Board today:
1) Based on what you’ve seen in the outline and video, do you approve this training module to be released?
2) If so, when should it be released? Staff suggested next Monday, October 2, 2017 to allow time to coordinate messaging with the training program.

The following topics were discussed to answer the above stated questions:

- Board Member, Roberto Linares asked for clarification on how the term “Board Approved” is defined. Executive Director Marc Watt advised that Board Counsel was not present for this meeting. The discussion was tabled until the October board meeting.

- Executive Director Marc Watt informed the Board the Contraceptive Consultative Committee – hormonal contraception subject matter experts – met in July where they reviewed the outline and updates to the Oregon State University online training program. Board Members commented the meeting minutes from the Contraceptive Consultative Committee would have been helpful to have in advance of this meeting for efficiency and completeness.

- Board member Roberto Linares commented on the differences in the injection techniques used in the training video to that of the techniques demonstrated in the APhA immunization training program. Board members determined while a different technique was used, the technique used in the training video was an appropriate alternative delivery method.

**MOTION**

Motion to approve the depo-progesterone educational training module of the ACPE Comprehensive Contraceptive Educational Training program, to be released on 10/2/17 was made and carried. (Motion by DeBarmore, second by Larson. James, Vipperman, Armstrong, Chute, Reher voted yes, Linares abstained).

---

Adjourn

**MOTION**

Motion to adjourn at 4:28PM was made and unanimously carried (Motion by Larson, second by Armstrong).

Accepted by:

Marcus Watt,
Executive Director
