Shasta Kearns Moore 0:03

Oh yeah, I haven't had a second to go back through the.

Umm.

The things I'll just open it up and we can.

We can share my screen.

And basically, we're just here to.

Oops, I'm sharing screen or sharing window.

I wanna share a window.

Window.

Hello.

OK.

OK.

So this is draft and if we vote, we would just take that off.

And we already went through it.

So I won't go through it again.

Except for all of the.

Credits.

So we added.

You know under.

Recommendations for the public records advocate deleting this publishing database of the agency.

And then we added doing a press release on agencies that didn't respond to the survey and then sending reminders on completing the survey that we do next time.

Then, under recommendations for state government, we have create a flex option for an expert to come in sort of like a mutual aid agreement.

When a public interest spikes in a certain agency and a high volume of requests happen.

So that could be an option for folks. You know, if there's like everybody's super interested in Portland Public Schools, lead and water and all of a sudden they have.

Million requests for very technical information.

You know, maybe there could be somebody at task who was like a strike person who comes in and helps with that or, you know, the county could come in and help some sort of process by which, you know, governments can share resources.

Oh, welcome.

Welcome in Brent.

And then we also added incorporate uh transparency by design principles into software contracting so that government databases can be aligned with public records. Request in mind, such as offering a way to easily download data or redact exempt information.

This is also partly in rules already.

And create umm under encourage or mandate centralized public records functions. Create parity on efficient and transparent records request systems such as DAC's, systems across Allstate agencies, and offer to local agencies to use so that we don't have, you know, all these idiosyncratic methods that you know different records.

Providers have to learn.

Simple by the public records.

Statutes consider fee reform and standards on what actual costs are applicable.

Implement mandatory basic communication on request responses and reasons for fee waiver denial.

If I made a mistake but I can't see what it is.

And again, adopt transparency design contracting standards.

And then use the correct acknowledgement spelling.

So yeah, I think that was it.

But we just wanted to take some extra time to really digest it before passing it on to the full committee. So our Council.

So is there any additional changes or corrections that anybody would like to make?

Seeing none, I would entertain a motion I think can chair make a motion, no.

CS **Carrie Stewart** 4:21

Yeah.

BW **Brent Walth** 4:27

I'll move that we accept this and pass it to the full Council.

Shasta Kearns Moore 4:29

OK.

Great.

ALBERT Todd * PRA 4:32

I'll 2nd.

Shasta Kearns Moore 4:35

All in favor?

Brent Walth 4:38

Hi.

Shasta Kearns Moore 4:41

Wonderful.

OK.

I think that's all our business for this subcommittee meeting.

So we're meeting again at noon, right from the full Council and.

ALBERT Todd * PRA 4:57

Not the full Council, we're just.

Shasta Kearns Moore 4:57

So.

No, no.

ALBERT Todd * PRA 4:59

We're just planning the agenda for the full Council meeting.

Shasta Kearns Moore 4:59

What's happening?

Oh, it's just an executive committee meeting. OK then.

Never mind. Now we have this to put on our agenda for Council.

ALBERT Todd * PRA 5:11
Yes. And so I was gonna ask if you wanted to ask for a public commentary.

Shasta Kearns Moore 5:12
Oh, awesome.
Sure. Is there any members of the public would like to speak?
Alright, so yes, so we'll get this in and then so our next council meeting is the 23rd.
What was it?

ALBERT Todd * PRA 5:42
29th.

Shasta Kearns Moore 5:43
20.

ALBERT Todd * PRA 5:44
I'm looking at my calendar.

Shasta Kearns Moore 5:47
And a lot of things going back and forth.

ALBERT Todd * PRA 5:48
29th.

DUKE Bryanna * DAS 5:48
Thank you, 29.

Shasta Kearns Moore 5:49
Yes, 29th at 12:30, OK.

Brent Walth 5:54
Can I just?

Shasta Kearns Moore 5:54

And then so we'll discuss, yeah.

Brent Walth 5:55

Can I just can? I'm sorry.

I'm sorry I didn't interrupt.

I'm not sure where the protocol is raising my hand.

Shasta Kearns Moore 5:59

Go ahead.

Brent Walth 6:02

Hey Cortana, this report is really terrific.

Shasta Kearns Moore 6:02

Alright, go ahead.

Brent Walth 6:06

Shasta, you did all all this is in your lift, and this has been great.

And Todd, thank you for everything you contribute on.

I'm really happy with this outcome and the people, you know, a small part of it. So thank you for it.

Shasta Kearns Moore 6:21

Appreciate that.

Yeah. Yes, it's definitely been a lot of work, but I I'm hoping that you know this kind of plain language recommendations will move the needle.

Brent Walth 6:35

Yes.

Shasta Kearns Moore 6:37

All right.

All right.

Well, I guess we'll see you guys on the 29th.

DUKE Bryanna * DAS 6:44

All right.

Shasta Kearns Moore 6:44

Thank you. Bye.

DUKE Bryanna * DAS 6:45

Thanks all.

ALBERT Todd * PRA 6:46

Thanks.
