## Message to Stakeholders

Hello –

The Public Comment Portal is an online form intended to make it easier for individual members of the general public to register comments on rate cases and other matters regulated by the PUC. This tool is not intended to replace the established method for regular stakeholders of the PUC to submit comments for regular and special public meetings. \The public comment portal also makes viewing consolidated public comments in one place possible through a downloadable Excel file.

The following guide provides step-by-step instructions to use of the new portal, although the tool is relatively intuitive. Please note that this is a living document, subject to revision as we implement more tools and refine the application. Use of the portal is not appropriate when you have extensive technical comment or when you wish to submit a formatted document. The portal is designed for shorter, targeted comments typically offered by individual consumers and members of the general public. **The public comment portal does not allow for attachments.** For any questions regarding the use of this new tool, you may contact the PUC's Consumer Services Section at <u>puc.consumer@puc.oregon.gov or</u> the Administrative Hearings Division at <u>puc.hearings@puc.oregon.gov</u>.

Best regards,

Nolan Moser
