

**Oregon Office of Emergency Management (OEM)  
Emergency Coordination Center (ECC)  
State Agency Liaison  
Emergency Support Function (ESF) 12**

**MISSION:** The State Agency Liaison Emergency Support Function (ESF) 12 Representative serves as the primary point of contact for the Oregon Public Utility Commission (OPUC) within the ECC to ensure efficient and effective response occurs within this ESF function.

**REPORTS TO:** Coordination Section Chief

**CONTACT INFO:** (503) 510-8769 and (503) 580-7667  
ECC: 503-373-7761 or 503-373-7792

---

**DUTIES:**

- Primary Liaison between OEM and Energy Utilities (Electric and Natural Gas) in support of energy restoration efforts (Oregon Department of Energy also has a role in ESF 12).
- 
- Once the ECC has been activated, the OPUC's ESF 12 role is responsible for:
    - Coordinating energy restoration efforts with Electric and Natural Gas Utilities.
    - Tracking energy restoration efforts.
    - Providing status updates in OpsCenter on assigned missions.
  - Evaluate the ECC staffing needs to ensure 24 hour staffing is available for ESF 12 and OPUC, if required.
  - Provide ESF 12 specific information for the required operational briefings.
  - Provide ESF 12 specific information for the State ECC Situation Reports.
  - Assist in addressing significant disruptions in energy supplies for any reason, whether caused by physical disruption of energy transmission and distribution systems; unexpected operational failure of such systems; acts of terrorism or sabotage; or unusual economic, international, or political events.
  - Assist in identifying supporting resources needed to stabilize and restore energy systems.

**Oregon Office of Emergency Management (OEM)  
Emergency Coordination Center (ECC)  
State Agency Liaison  
Emergency Support Function (ESF) 12**

- Assist energy asset owners and operators in resolving limiting factors/obstacles in restoration of energy systems.
- Assist energy asset owners and operators, and local, state, tribal, and territorial authorities with requests for emergency response actions, as required, to meet Oregon's energy demands.
- Coordinate with energy asset owners and operators to advise local, state, tribal, territorial, and Federal authorities on priorities for energy system restoration, assistance, and supply during response and recovery operations.
- Provide support to energy asset owners and operators, as requested, to assist in restoration efforts.
- Through coordination with other emergency response partners, serve as Oregon's point of contact with the energy industry for information sharing and requests for assistance from private and public sector owners and operators.
