Logging into eLicense

Licensees receive an email notice on the first day of their renewal month. Licensees may renew any time during the entire renewal month. The email notice will have a link to the Agency website.

Mail Body:

Dear Roger Test User,

Your license expires at the end of October. Oregon Real Estate Agency records show that you are currently associated with Test Business. If this is not correct, contact your current real estate company. Your supervising licensee must log into eLicense and transfer you to the current company before you renew your license. Complete your renewal, including the payment process, no later than the last day of the month to:

- Avoid paying late fees.
- Continue conducting professional real estate activity.

Before logging into eLicense, gather the following things:

- Your continuing education certificates.
- Your completed Continuing Education Record Form.
- Your payment. (The Agency only accepts VISA, MasterCard, and eChecks.)

To start your license renewal online using eLicense:

2. Click the link “Click here for eLicense” found under the picture of a red laptop computer.
3. Enter your User ID and Password. Your User ID is your license number. (Do not click “Register”)
4. From the Online Services drop-down menu, Click Renewal.
5. Click “Start” and begin the application.

To complete your license renewal in eLicense, you will need to:

- Answer all required questions.
- Enter information for each continuing education course as explained in this tutorial.
- Complete the payment process.

Please contact the Agency if you have any questions.

Mail Body:

Dear Roger Test User,

Your online renewal was successfully completed. If you renewed on time, you may now log in here https://oreo.license.irondata.com to print your license. If you were in an expired active status prior to renewal, you will be required to be transferred by a principal broker or property manager. After your license has been transferred you will return to the active status.

Sincerely,
Oregon Real Estate Agency
