

Data Dictionary for 'Awards Issued' Transparency Report	
Agency Number	The unique identifier assigned to the agency for whom the contract was issued
Agency Name	The name of the agency for whom the contract was issued
Award Number w/ Amendments	Displays the contract number followed by version information in parenthesis. Amendments display as whole numbers while revisions displays as decimal points.
Award Title	Title of the contract
Award Type	Indicates which contract type was used
Contractor Information	Company name of the contractor
Street Address	Street address of the contractor
City	City of the contractor
State	State of the contractor
Zip	Zip code of the contractor
Original Start Date	Date the contract first became active
Amendment Date	Date when an amendment or revision was issued to the contract
Expiration Date	Date when the contract expired or will expire
Original Award Value	Estimated contract value at the time the contract was first awarded
Amendment Value	The dollar amount that the estimated contract value increased or decreased on that particular version of the contract. If it is an original version of a contract, this column will display the Original Award Value. <i>This would be the correct column to use if you are totaling up the dollar values of contracts awarded.</i>
Total Award Value w/Amendments	Total Estimated Contract Value at the time of issuing, including all prior amendments and revisions

Data Dictionary for Expired Contracts Report	
Issued For Agency Number	The unique identifier of the agency for whom the contract was issued
Issued For Agency Name	The name of the agency for whom the contract was issued
Issued By Agency Name	The name of the agency who performed the procurement process
Award Number w/ Amendments	Displays the contract number followed by version information in parenthesis. Amendments display as whole numbers while revisions displays as decimal points.
